It is the intention of the Board to comply with the council's request, and in order to do so an advertised public hearing will be held at this office under date of November 4, 1953,

at 11 A.M., in accordance with chapter 55 of the Acts of 1951 and amendment thereto.

For the information of the councilor, the special Committee to Memorialize Veterans has no jurisdiction over the changing of street names, and his order should have been directed to the Board of Street Commissioners rather than to the Committee to Memorialize Veterans.

Very truly yours,

LAWRENCE W. COSTELLO, Secretary.

PEDESTRIAN CROSSING LINES LEADING TO SCHOOLS.

The following was received:

City of Boston,
Office of the Mayor, October 26, 1953.
To the City Council.

Gentlemen:
I transmit herewith communication from the Traffic Commissioner relative to your order of October 19, 1953, requesting the painting of white pedestrian crossing lines at all crossings on main thoroughfares leading to Boston schools with attention being given to those areas where schools have been closed and which necessitates children walking over a greater distance through streets entirely unfamiliar to them.

Respectfully,
FRANCIS X. AHEARN,
Acting Mayor.

Boston Traffic Commission,
October 23, 1953.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

With reference to the City Council order of October 19 requesting the painting of white pedestrian crossing lines at all crossings on main thoroughfares leading to Boston schools with attention being given to those areas where schools have been closed and which necessitates children walking over a greater distance through streets entirely unfamiliar to them, I wish to report that roadway painting during the balance of the year cannot be successfully accomplished. Rain, moisture, and snow conditions beginning at this time of year prevent the extension of any painting program outdoors.

It has been our practice to paint crosswalks at all schools of the city and also to paint crosswalks on all main arteries of the city where pedestrian traffic warrants.

Inasmuch as the Council order is of a general character it is not possible to determine at this time just which roadways are without the painted crosswalks requested in the order. For the above specified reasons it appears that we will be unable to conform to the specification of the order this year.

Respectfully submitted,

WM. ARTHUR REILLY, Commissioner.

IDENTIFICATION OF "SHORTELL FRACTURE UNIT."

The following was received:

City of Boston,
Office of the Mayor, October 26, 1953.
To the City Council.

Gentlemen:
I transmit herewith communication from the Superintendent of the Boston City Hospital relative to your order of June 22, 1953, requesting arranging for the carving of the name "Shortell Fracture Unit" in a suitable place on the outside walls of the building and installing of a bronze plaque, containing a brief story of the unit, in an appropriate place in the interior of the edifice.

Respectfully,
FRANCIS X. AHEARN,
Acting Mayor.

City of Boston,
Hospital Department, October 9, 1953.
Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

At a meeting of the Board of Trustees held today, the following order of the City Council was presented:

"Ordered, That the Trustees of the Boston City Hospital be requested, through his Honor the Mayor, to arrange for the carving of the name 'Shortell Fracture Unit' in a suitable place on the outside walls of the building and to install a bronze plaque, containing a brief story of the unit, in an appropriate place in the interior of the edifice."

The Trustees will attempt to procure money for this work.

Sincerely yours,

J. W. MANARY, Superintendent.

MEETING ROOM FOR WEST BOSTON POST, NO. 6053, V.F.W.

The following was received:

City of Boston,
Office of the Mayor, October 26, 1953.
To the City Council.

Gentlemen:
I transmit herewith communication from the Superintendent of Public Buildings relative to your order of October 5, 1953, requesting that arrangements be made for the use of the unused portion of the old fire station, presently by the Polish Post, by the West Boston Post, No. 6053, Veterans of Foreign Wars.

Respectfully,
FRANCIS X. AHEARN,
Acting Mayor.

City of Boston,
Public Buildings Department,
October 19, 1953.
Harold B. Flemming,
Chief Clerk, Mayor's Office.

Dear Sir:

Relative to attached copy of City Council order concerning the Casimir Pulaski Post No. 269, A.L., and the West Boston Post, No. 6053, I wish to inform you of the following:

As much as I would like to comply with the Council order requesting that the West Boston Post be allowed use of the unused portion of the old fire station on Leverett street, now occupied by the Pulaski Post, I find it is not possible. The unused portions of the building

are unsuitable for meeting purposes owing to the condition of the building.

Very truly yours,
George T. Donovan,
Superintendent of Public Buildings.

CODE OF ETHICS FOR CITY MANAGERS APPROVED.

A revised code of ethics for city managers was approved recently by vote of the members of the International City Managers' Association.

The new code strengthens the professional aspects of the manager's job. The code also emphasizes the role of a city manager as a community leader in submitting policy proposals to the city council.

Among objectives for the city manager stressed in the code are:

1. Defense of municipal policies before the public only after adoption of such policies by the city council.
2. Crediting the city council with establishment of municipal policies.
3. Avoiding public conflict with the city council on controversial issues.
4. Dealing frankly with the council as a unit rather than with its members.
5. Handling all matters of personnel on the basis of merit.

The new code also stresses the city manager's duty to improve his ability and his usefulness and to develop the competence of his associates in the use of management techniques.

MUNICIPAL STANDARDS IMPROVED.

It is to be observed that municipal employees feel more secure in their jobs because of the extension of the merit system.

The competence of the individual municipal employee has continued to improve over a period of years.

PUBLIC WORKS DEPARTMENT.

Proposal for Sewerage Works in William T. Morrissey Boulevard from 1,100 Feet South of Mt. Vernon Street, Dorchester, 280 Feet Northerly.

The Commissioner of Public Works of the City of Boston, Room 508 (City Hall Annex), City Hall Annex, invites proposals from citizens of the United States and corporations or their legal associations wherein the controlling interest to the extent of at least one-half thereof is owned by a citizen or citizens of the United States, for sewerage works in William T. Morrissey Boulevard from 1,100 Feet South of Mt. Vernon Street, Dorchester, 280 feet northerly. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508 (Contract Office), City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Sewerage Work in William T. Morrissey Boulevard, from 1,100 Feet South of Mt. Vernon Street, Dorchester, 280 Feet Northerly and left at Room 508 (Contract Office), fifth floor, City Hall Annex, before 2 P.M. of THURSDAY, NOVEMBER 19, 1953, with a certified check for FIFTY HUNDRED (\$500) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the Hearing Room of the Street Commissioners, Room 401, City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by bidder with the City Auditor previous to the time named for opening the bids. All proposals must be accompanied by a record file at Room 508, City Hall Annex. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application thereto at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The Superintendent reserves the right to reject any or all proposals or to award the contract as he deems best.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

Invitation for Proposals for Purchase of Garbage.

The City of Boston, acting through its Commissioner of Public Works (hereinafter called the Commissioner), hereby invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least one half thereof is owned by a citizen or citizens of the United States, for purchasing from the City of Boston garbage accumulating at the city's Victory Road Receiving Station in Dorchester. Proposal forms, together with the form of contract, may be had daily, between 9 A.M. and 5 P.M., at the Commissioner's office, 508 City Hall Annex, Boston.

Proposals shall be submitted in duplicate on forms obtained as aforesaid. A proposal may be submitted for a fifteen (15) month period beginning January 1, 1954, and ending March 31, 1955, and/or for a twenty-seven (27) month period beginning January 1, 1954, and ending March 31, 1956, and/or for a thirty-nine (39) month period beginning January 1, 1954, and ending March 31, 1957.

A bidder may submit his proposal on any one, two, or all three of the contract periods mentioned. Each copy of the proposal shall be properly filled out, signed, enclosed in an envelope, sealed, and marked "Proposal for Purchase of Garbage." One copy of the proposal, accompanied, irrespective of the contract period(s) bid on, by a bid deposit in the form of a certified check for \$1,000, to become the property of the City of Boston if, after acceptance, the proposal is not carried out, shall be filed with the Commissioner at his said office on City Hall Annex, Boston, on NOVEMBER 19, 1953, at which time all proposals will be publicly opened and read in the Street Commissioners' Hearing Room, 40 City Hall Annex. The original copy of the proposal without a bid deposit, shall be filed by the bidder before said day and hour at the office of the City Auditor, City Hall, Boston. No proposal shall be withdrawn after the time hereinbefore set for the opening of proposals.

The Commissioner reserves the right to reject any and all proposals. Attention of bidders is called to the requirements of General Laws (Tercenty Edition), chapter 129, section 14B, as inserted by Acts of 1953, chapter 655, section 2 (an act providing for the eradication of certain animal diseases).

The successful bidder will be required (A) to furnish a faithful performance bond executed by a surety company authorized to do business in the Commonwealth of Massachusetts, in a sum equal to one third of the whole amount of the contract for the entire term, and (B) to maintain in a company authorized to do business in the Commonwealth of Massachusetts, and keep on file with the city policies, binders, or certificates evidencing the maintenance of, Workmen's Compensation Insurance and \$25,000/\$50,000 Public Liability Insurance.

* INVITATION FOR PROPOSALS FOR PAINTING MEDICAL DIRECTOR'S HOUSE, LONG ISLAND HOSPITAL, BOSTON HARBOR, MASS.

The Commissioner of Institutions of the City of Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for painting Medical Director's House, Long Island Hospital, Boston Harbor, Mass.

Proposals will be received until 12 o'clock noon, Monday, November 18, 1953, at the office of the Awarding Authority, eleventh floor, 1109 City Hall Annex, Boston, Mass., at which time and place they will be publicly opened and read.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and enclosed in a sealed envelope plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Each copy shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by a responsible bank or trust company, payable to the City of Boston, in the sum of 10 per cent of the bid, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall be not less than the rates of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of the General Laws (Ter. Ed.), chapter 148, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

Specifications may be obtained at the office of the Awarding Authority.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do.

NEW PLANS FOR COMPLETE CONTROL OF FOOD SERVICE MANAGEMENT AT BOSTON SANATORIUM BEING INAUGURATED — CONTRACT COVERING 12-MONTH PERIOD LOOKING TO IMPROVE EFFICIENCY — CROTTY BROTHERS, INC., PERFORMING CONTRACT TO SAVE CITY BIG COSTS.

New plans for control of the complete food service management at the Boston Sanatorium have been approved by the Mayor at the request of the trustees of the Hospital Department. The communication putting the plan into effect at a cost of about \$20,000 reads as follows:

HOSPITAL DEPARTMENT.
Sanatorium Division.

Boston, October 9, 1953.

HON. JOHN B. HYNES,
Mayor of Boston.

YOUR HONOR:

On October 1, 1952, your Honor approved an unadvertised contract in the

(Continued on page 1479.)

NEW LEGISLATION NEEDED TO RELIEVE MTA SITUATION AND LEAVE NO HARMFUL EFFECT ON PATRONS OR PROPERTY VALUES.

On November 9 Mayor Hynes issued the following comment on fare proposals by the MTA:

The MTA zone fare proposal is a radical remedy for the financial problem of that Authority and an even more drastic answer to the problem than the proposal of last spring which was rejected by the DPU.

Unless this plan, or something similar, is adopted, or unless a way can be found to subsidize the MTA through gasoline tax receipts, or some other means, a deficit of over eight million dollars is in prospect for 1954 which must be met by the home owner and real estate owner in the MTA district.

Under the law the trustees are required to raise sufficient income to meet operating costs. The present proposal, if adopted, is designed to accomplish this purpose.

I am doubtful that the proposed new scale of fares will produce the revenue expected. It is an increase which many car riders cannot easily absorb. On the other hand the owner of real estate cannot be expected to shoulder year after year the constantly increasing deficits of the MTA.

It is obvious that only by new legislation can the MTA passenger or the home owner be relieved from meeting the yearly deficit of the MTA.

PUBLIC WORKS DEPARTMENT HAS COMPLETED PLANS FOR ADDITIONAL REMUNERATION FOR EMPLOYEES ENGAGED IN SNOW REMOVAL WORK FOR WINTER — MAYOR HYNES APPROVES PLANS SUBMITTED BY PUBLIC WORKS COMMISSIONER HYLAND.

Plans have been completed for providing extra pay for those city employees who will be engaged during the winter months in the caring for snow conditions. This is according to plans submitted to the Mayor by George G. Hyland, Public Works Commissioner, in a letter which reads as follows:

October 23, 1953.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

It is customary each year for the Public Works Department to establish an increase in the regular rate per hour of employees who operate, during the winter season, the heavy duty equipment of this department assigned to sanding, snow plowing, and snow removal work. This equipment consists of Walter snow fighters, four-wheel drive trucks, snow loaders, bulldozers, tractors, wreckers, bucket loaders, and front end loaders.

Commissioner of Public Works.

MAYOR APPROVES NEW FOOD CONTROL PLAN AT BOSTON SANATORIUM.

(Continued from page 1477.)

sum of \$20,000 between the City of Boston, acting by the Trustees of the Boston City Hospital, and Crotty Brothers, Inc., 137 Newbury street, Boston, Mass., cov-

ering a twelve-month period, providing for the installation in and throughout the Boston City Hospital's Sanatorium Division of certain specified major features of a complete food service management control.

All of the work included within the terms of the aforesaid contract, including the presentation of proposals for and the actual installation of a pay cafeteria

system, has been carried out in a highly efficient and most satisfactory manner and with noteworthy results.

However, as your Honor will recall, the entire project is an undertaking of considerable scope, and as was indicated at the time of the execution of the contract just completed, the amount of work included within it was necessarily limited to such portions of the whole program as could be successfully completed within the twelve-month term of that contract.

During the period, September 29, 1953, to September 29, 1954, this firm offers to continue its services at the Boston Sanatorium on behalf of the City of Boston and specifically, to perform at a total cost of \$19,000 the following work: (a) to study the matter and thereafter submit to the trustees suggestions and recommendations and offer advice, designed to more effectively coordinate the activities of the administrative staff and the various departments involved in the ordering, receiving, storing, preparation and serving of food; (b) to maintain and continue the program set-up for the training of new and existing personnel and to implement the same by such personal supervision of employees as may be necessary; (c) to conduct a study of the operating volume of the present cafeteria lines to determine the feasibility of combining two lines to obtain a saving in food and personnel costs and to submit a report thereon to the trustees with pertinent suggestions and comments; (d) to conduct a study of the various bakery operations to determine unit material cost of items produced and to submit a report to the trustees evaluating the economy of its operations and containing recommendations and suggestions in respect to the same.

It is the firm opinion of the Board of Trustees that the performance of the proposed work would effect still further improvements in the preparation and service of food; increase the efficiency of the personnel performing those assignments and be a vital element in attaining our final object, viz., "the establishment of a full and complete food service management control at the Boston City Hospital's Sanatorium Division."

In the light of what appears above, it is the unanimous recommendation of the Board of Trustees that public advertising in the *City Record* be dispensed with, and the new contract, in the sum of \$19,000, as proposed, be awarded to Crotty Brothers, Inc., since, in addition to possessing a skilled staff well experienced in this kind of work, this firm has accurate and full knowledge of the prior and present arrangements for food preparation and service at the Boston Sanatorium and so is especially well equipped to develop the proposals for its revision, supplementation, and improvement and to effect the same as may be approved by the Board of Trustees.

Very truly yours,

BOARD OF TRUSTEES OF THE
BOSTON CITY HOSPITAL,
by RICHARD J. CONDON,
President.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with commercial houses, contractors, etc., for furnishing labor, supplies, etc. Communications from heads of the departments interested were as follows:

DEPARTMENT OF SCHOOL BUILDINGS.

Boston, November 2, 1953.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

The consolidation of High School of Practical Arts with the Trade High School for Girls, requiring the installation of a new alternating electric service (A.C.) to operate the various machines so equipped that have been transferred to the Trade High School for Girls, has created a problem in this department which cannot reasonably be so specified that competitive figures for the new installation can be obtained.

The work involves rewiring defective lighting in various classrooms, withdrawing and installing new conductors, rearranging existing lighting circuits to conform to code, extending submain to accommodate the additional facilities, and providing service for equipment transferred from the High School of Practical Arts.

Rearranging the circuits and rewiring the various facilities for both alternating current (A.C.) and direct current (D.C.) creates a combined system which makes it practically impossible to determine the exact amount of work; however, a survey by this department indicates that the work could be performed at a cost which would not exceed twenty-five hundred dollars (\$2,500).

As the students are now unable to use this equipment, awaiting the installation of the services above stated, I ask your permission to award a contract, without public advertising, to William R. Wheeler, Jr., of 68 West Dedham street, Boston, Mass., so that the work can be carried on to conclusion without delay. I am certain it will be in the best interests of the City of Boston to prosecute this work in the manner described, with the understanding that there will be daily supervision of the work by an inspector of this department and a record will be kept of all operations involving labor and materials so that an approval of the account shall be in accordance with this department's standards.

Your consideration of this request is solicited.

Respectfully yours,

JAMES H. MOONEY,
Superintendent of Construction.

Boston, November 2, 1953.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

Since the occupancy of the Dorchester High School for Boys as a co-educational school, housing girls formerly attending the Dorchester High School for Girls, a great amount of electrical equipment has been transferred from the Dorchester High School for Girls and is now awaiting installation in the Dorchester High School for Boys.

Up to the time of this writing the girls have been unable to use the equipment formerly used in the Dorchester High School for Girls, and inasmuch as it is now designated to be installed in proper locations as determined by the teaching

personnel, I ask that the requirement for public advertising for competitive figures be waived and a contract for the work involved be awarded to the Stanton Electric Company, 18A T Wharf, Boston, Mass., in an amount not to exceed fifteen hundred dollars (\$1,500).

The work is considerably involved and will have to be done under the direction of an inspector of this department who will be at the site each day until the work is completed and a record will be kept of all operations involving labor and materials so that an approval of the account shall be in accordance with this department's standards.

That the work can be performed forthwith and the fixtures, machines and appurtenances be made operative with the least possible delay, I respectfully request your approval of the procedure above outlined.

Respectfully yours,

JAMES H. MOONEY,
Superintendent of Construction.

SUPPLY DEPARTMENT.

Boston, October 27, 1953.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

The Boston City Hospital has submitted a requisition for three (3) obstetrical tables, American MacEachern, Model 500, with hydraulic pedestal base.

American Sterilizer Company of Erie, Pennsylvania, the direct manufacturer of the above, has submitted an informal written quotation. Owing to the fact that American Sterilizer Company is the manufacturer, authority is requested to dispense with publicly advertising for prices and award a contract, without public advertisement, to this company.

Total amount of contract will be \$1,215, net, delivered.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

Boston, November 3, 1953.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

On September 9, 1953, your Honor authorized the award of a contract to Willys New England, Inc., the only bidder who responded to a public advertisement for one (1) 1953 civilian type jeep. The net amount of this contract was \$1,763.49, less 2 per cent discount, time of payment.

On August 31, 1953, one day before the public opening of the bids, the aforesaid firm duly changed its corporate title to Kaiser-Willys New England, Inc. The proposal was inadvertently submitted under the old corporate name, viz., Willys New England, Inc.

Therefore, I now request your authorization to dispense with further public advertisement and to award the aforementioned contract for one (1) 1953 civilian type jeep to Kaiser-Willys New England, Inc., at a total cost of \$1,763.49, less 2 per cent discount, time of payment.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

Boston, November 3, 1953.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

In accordance with the provisions of the letter approved by your Honor on January 20, 1953, authority is requested at this time to award a contract, without public advertisement, to the following company for furnishing perishable foods, etc., to the various city departments from November 9, 1953, to March 31, 1954, inclusive:

New England Provision Company, Inc.,
960 Massachusetts avenue, Boston, Mass.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

SUFFOLK COUNTY.

SHERIFF'S OFFICE.

Boston, October 8, 1953.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

There has been in use at the jail an old homemade steam sterilizer that is now beyond repair and if used to any extent is apt to explode and cause serious injuries.

For the past two years I have been trying to purchase a modern sterilizer but the demand by the armed forces for available machines was so great that manufacturers were reluctant to take an order because of the uncertainty of delivery dates.

I now have a letter from the local office of the Wilmot Castle Company, 365 Boylston street, Boston, quoting me a price of \$4619 for one Castle all-steel pressure sterilizer and disinfector, size 36 x 42 x 84, equipped with basket loading car and extension tracks, temperature recording gauge and vacuum type ammonia generator. They promise a delivery in four to five months. Such a modern sterilizer is more than necessary at the jail to process vermin-infected clothing of inmates and will assist in protecting the health and welfare of both inmates and personnel. This machine will also sterilize and disinfect mattresses and blankets and will result in a saving on the purchase of blankets, for repeated laundry washings shorten the life of blankets.

Having in mind the fact that an order must be placed as soon as possible to secure the promised delivery plus the fact that the manufacture of sterilizers is a highly specialized field, also that the Wilmot Castle Company supply their machines to most hospitals and institutions in this section, and believing the price quoted to be reasonable and competitive and that there would be no benefit for the city to publicly advertise for such a machine, I respectfully request your permission to award a contract for the purchase of this sterilizer from the Wilmot Castle Company.

There are funds available in the 1953 jail budget for this purchase.

Respectfully yours,

FREDERICK R. SULLIVAN,
Sheriff.

EXTENSION OF CONTRACTS.

DEPARTMENT OF SCHOOL BUILDINGS.

Approval has been given for an extension of time for the completion of the contract with John F. Shea Company,

Inc., for gutter and cornice renewal and related work at the W. L. P. Boardman School, from October 31, 1953, to November 30, 1953. This extension was requested because of delay in obtaining materials and inclement weather conditions.

Approval has been given for an extension of time for the completion of the contract with John J. Hourihan for roofing and related work at the John A. Andrew School, from October 31, 1953, to December 15, 1953. This extension was requested because of delay in receiving necessary materials.

CHANGE IN WORK UNDER CONTRACT.

PUBLIC WORKS DEPARTMENT.

Martin J. Kelly Company, Inc., has been directed to make the following change in the contract for construction of concrete dock, etc., on Broadway Bridge, over Fort Point Channel, dated September 22, 1952:

In order to expedite the work to cover the emergency created by the loss of the West Fourth Street Bridge, the contractor shall work such overtime hours as possible or required, and the city will reimburse the contractor for the additional cost of overtime paid to employees for hours worked other than during the normal daytime working hours, from Sunday to Saturday, inclusive. The overtime payments are defined as those payments represented by the difference between the hourly rates paid during the normal daytime hours, from Sunday through Saturday, and the hourly rates paid on the same days for work involving periods other than the normal daytime working periods. Estimated increase, \$800.

EXTRA WORK UNDER CONTRACT.

PUBLIC WORKS DEPARTMENT.

General Order No. 52.

I. HOSEMAN JOHN J. FEELEY, JR.

It is with deep regret that the Fire Commissioner announces the death, on November 1, 1953, of Hoseman John J. Feeley, Jr., of Engine Company 27. Hoseman Feeley was appointed to the department July 20, 1949.

The funeral was held from the P. E. Murray Funeral Home, 54 Roxbury street, Roxbury, at 9:15 A.M., Wednesday, November 4, 1953, followed by a Solemn Requiem High Mass at St. Peter's Church Dorchester, at 10 A.M.

The Chief of Department assigned a detail to act as funeral escort, and the members of Engine Company 27 were excused from duty in order to attend the service.

II. ASSIGNMENT OF MAN ON PROBATION.

The following assignment of a man on probation, which will become effective at 8 A.M., Thursday, November 12, 1953, is hereby announced:

John J. McGinnis, to Engine Company 11.

III. RETIREMENTS.

The following retirement, in accordance with chapter 347, Acts of 1892, as amended by chapter 237, Acts of 1939, is hereby announced, to become effective at 8 A.M., Wednesday, November 11, 1953:

District Chief Maurice J. Buckley, District 4.

The following retirements, in accordance with section 57, chapter 32 of the General Laws, as amended, are hereby announced, to become effective at 8 A.M., Wednesday, November 11, 1953:

District Chief William C. McCarthy, District 12.
Hoseman Charles F. Glidden, Engine Company 12.

Ladderman Edward E. Sweeney, Ladder Company 2.

District Chief Buckley was appointed to the department February 15, 1918. He was promoted to the grade of lieutenant, February 1, 1929; to captain, July 3, 1936; to district chief, September 17, 1947. District chief McCarthy was appointed to the department February 1, 1924, and was promoted to the grade of lieutenant, December 18, 1933; to captain, October 16, 1940; to district chief, January 3, 1945. Hoseman Glidden was appointed to the department August 24, 1928, and Ladderman Sweeney was appointed October 3, 1924.

All the foregoing members leave the department with the best wishes of their associates.

IV. FIRE ALARM BOXES INSTALLED.

The following fire alarm box, which was established in General Orders, No. 39, dated August 11, 1953, has been installed and connected into circuit No. 54:

12-2173, Crestwood Convalescent Home, 74 Howland street.

Company commanders will add Box 12-2173 to circuit card No. 54.

The following fire alarm box, which was established in General Orders, No. 39, dated August 11, 1953, has been installed and connected to circuit No. 14:

13-2313, Hillel House, 233 Bay State road.

Company commanders will add Box 13-2313 to circuit card No. 14.

V. NEW FIRE ALARM BOX ESTABLISHED.

In the near future a fire alarm box will be installed in St. Joseph's Manor, Dorchester, and will be designated as follows: 12-3429, St. Joseph's Manor, 321 Centre street.

Company commanders will add the above box to assignment card for Box 3429 and place a star alongside this box and Ladder 20 to indicate the response of Ladder 20 on first alarm.

The circuit number for this box will be given later when the box is installed.

VI. FIRE ALARM BOXES RELOCATED.

Due to the construction of Theodore A. Glynn Way, fire alarm Box 3116 has been relocated:

The designation of this box will be changed to read as follows:

3116, Massachusetts avenue and Theodore A. Glynn Way.

Company commanders will make the above change on assignment card for Box 3116.

Fire alarm Box 3325 has been relocated from Harvard and Washington streets diagonally across the street.

The designation of this box will be changed to read as follows:

Company commanders will delete Box 14-1481 from circuit card No. 4 and delete Box 12-2448 from circuit card No. 17.

IX. G.A.C. ASSIGNMENT.

Company commanders will add the following signal number to running cards of the General Alarm Corporation in this department:

Signal 452, Jordan Marsh Company, main building, 442-472 Washington street. (Sprinkler for escalator.)

Apparatus to respond: Engine 7, Ladder 17, District Chief 5. Nearest box is 13-1443.

X. COMMENDATIONS.

Ladderman Leroy J. Mahoney of Ladder Company 15 and Hoseman Alfred E. Hamel of Rescue Company 1 are hereby commended for responding to and working at fire, Box 7124, three alarms, on Monday, November 2, 1953, while off duty.

Hoseman John F. Robinson, Jr., of Engine Company 29 is hereby commended for responding to and working at fire, Box 5198, on November 3, 1953, while off duty.

By order of Fire Commissioner JOHN F. COTTER.

JOHN V. STAPLETON,
Chief of Department.

"NEW ENGLAND OPERA THEATER WEEK."

Following is a declaration issued by Mayor John B. Hynes on November 4:

DECLARATION.

Whereas, Boris Goldovsky's New England Opera Theater has, for the past seven years, provided the citizenry of Boston with one of its outstanding cultural assets, vindicating the faith of the public-spirited New Englanders who have supported its program of renovating great opera into great theater; and

Whereas, This company has outlasted all other resident opera companies in Boston's history, repeatedly attracting capacity audiences to the Boston Opera House and making this city the scene of many notable premieres of new operas and new versions of neglected masterpieces; and,

Whereas, New England Opera Theater has consistently pioneered new production techniques that have been widely copied throughout the country, and has, by its special training programs, prepared many of the foremost young American singers from all parts of the country for subsequent stardom in the other great opera houses of the world; and,

Whereas, This enterprising Boston company returns to its home city on November 15 from a triumphant national tour that has brought honor to Boston's name in more than 30 cities in 14 states as far west as Oklahoma; now, therefore,

I, John B. Hynes, Mayor of the City of Boston, do hereby declare the week commencing Monday, November 9, 1953, to be "New England Opera Theater Week in Boston," honoring New England Opera Theater's achievements thus far, and saluting the onset of its 8th Boston season which begins with a performance of Mozart's "Merry Masquerade" at the Boston Opera House on Sunday afternoon, November 15. I do hereby urge the citizenry of Boston to manifest its support of this important cultural project throughout New England Opera Theater Week in Boston by purchasing season subscriptions for New England Opera Theater's 1953-54 Boston series; by enrolling in the membership of the New England Opera Theater Guild; and by making contributions to the fund which underwrites the inevitable operating deficits of this courageous enterprise. I do further request the press and radio stations of our city, merchants, and other business organizations to cooperate to the fullest in publicizing New England Opera Theater's subscription campaign, and in promoting interest in New England Opera Theater's presentations among the general public, and among their own employees."

JOHN B. HYNES,
Mayor of Boston.

MAYOR HYNES MOVES TO SAVE LIVES AND DAMAGE TO SHIPS BY FIRE AT BOSTON WHARVES.

With a view toward eliminating further loss of lives and damage to ships and cargo by fire, that may be tied up to Boston Wharves, Mayor John B. Hynes, has instructed Fire Commissioner John F. Cotter to "dig deep" to learn if there is any way in which the Fire Department can be of assistance in preventing any such conflagration.

"The Port Authority or some other organization," said the Mayor in this message to the Fire Commissioner, "has knowledge of the cargo of ships coming to or leaving from Boston Harbor.

"It would seem rather a practical and sensible policy that when chemicals or other explosive materials are contained in the cargo, arrangements be made obligatory that a truck with necessary personnel, properly equipped with the necessary fire-fighting equipment, such as counteracting chemicals, gas, foam, etc., be on the pier, beside the ship, at the time of loading or unloading.

"Thus, with the proper equipment and the proper substances for quenching the fire, it would save the hazards and lives in the unfortunate events which have happened recently in Boston."

PROCEEDINGS OF SCHOOL COMMITTEE.

July 27, 1953.

A meeting of the School Committee of the City of Boston was held in the Administration Building, 15 Beacon Street, at 10.40 o'clock P. M., the Chairman presiding.

Present: Mr. Carr, Miss Fitzgerald, Dr. Foley, Mrs. Lyons, and Mr. Muchnick.

Mr. Muchnick: I move that we waive notice of this meeting, Mayor Chairman.

On roll call the motion passed by the following vote:

YEAS—Mr. Carr, Miss Fitzgerald, Dr. Foley, Mrs. Lyons, and Mr. Muchnick—5.

NAYS—0.

APPROVAL OF MINUTES

The reading of the minutes of the meetings of June 15, 22, and 26, 1953, was omitted, the Committee approving them as printed.

SIGNING OF TRUCE IN KOREA

The following statement of Mr. Carr was ordered spread upon the records:

Thank God that a truce has been signed in Korea. It is now our task to work out a just, honorable and lasting peace while we hold firm to our price-less principles of liberty and human dignity, understanding and united action.

A lull in the war against our God-given rights has been won at a great price. We cannot relax; we must remain strong so that our honored dead will not have died in vain.

As a veteran of three years overseas service in World War II, I know what it now means to the mothers and fathers and wives of Boston not to have to face long separation from their loved ones, but at the same time I wish to commend the young men and women of Boston for the glorious part that they played in the world-wide battle against Communism.

As in the past, our graduates demonstrated that Boston is first in war—now let us be sure that we are first in peace.

TRIBUTE TO MEMORY OF MAURICE J. TOBIN

Mr. Muchnick offered the following:

While much has been said and much has been written since the tragic news of the death of Maurice J. Tobin threw us all into shocked bereavement, mere words can never adequately describe the loss.

To Mrs. Tobin and the children goes the heartfelt sympathy of us all.

But while the loss is great, the memories are tender.

Many memorials will be erected—and properly so—to honor the deeds of this great leader.

Great as were his activities as Mayor of Boston, Governor of Massachusetts and Secretary of Labor for the United States, I feel that Maurice Tobin's greatest contribution may have been to the school children of Boston by his devoted service as a member and chairman of the Boston School Committee. Through his efforts and his devotion hundreds of thousands of boys and girls were helped to become better Americans.

In loving tribute to his memory and as a source of inspiration for generations to come, I move that the new school to be erected in the Mission Hill district be named the Maurice J. Tobin School as a mark of honor not only to him, but to the neighborhood in which he grew from boyhood to manhood.

The former President of the United States and the Archbishop of Boston both hailed Maurice Tobin as a good man. No praise is more to be desired than the words—"A good man."

Therefore, in further tribute to Maurice Tobin and as a special source of inspiration to the boys and girls of our school system, I move that the Boston School Committee establish the Maurice J. Tobin Good Man Award to be awarded annually to that high school senior who best exemplifies the qualities of the good man or good woman—so well exemplified by Maurice Tobin.

I move further that each Head Master select that school's senior who so qualifies and that all seniors so selected write an essay on a suitable subject to be selected by a committee of Head Masters, with the award to be given to that contestant who in the opinion of this committee of Head Masters has written the best essay.

Placed on file.

Chairman: I have expressed the feeling, as have the other members of the School Committee, that we are shocked at the death of a most distinguished citizen, a former Chairman of the School Committee, a former Mayor, Governor, and Secretary of Labor, Maurice J. Tobin.

Miss Fitzgerald: I, too, have a feeling of grief at his passing and a feeling of appreciation of his value as a public servant.

Mr. Muchnick offered the following:

ORDERED, That the new elementary school to be erected in the Mission Hill District be named the Maurice J. Tobin School as a mark of honor not only to him, but to the neighborhood in which he grew from boyhood to manhood.

On roll call the order passed by the following vote:

YEAS—Mr. Carr, Miss Fitzgerald, Dr. Foley, Mrs. Lyons and Mr. Muchnick—5.

NAYS—0.

Mr. Muchnick offered the following two orders:

ORDERED, That this Committee establish the Maurice J. Tobin Good Man Award to be awarded annually to the senior pupil in the Latin or Day High Schools who best exemplifies the qualities of the good man or good woman so well exemplified by Maurice Tobin; and be it further

ORDERED, That each head master select that school's senior who so qualifies and that all seniors so selected write an essay on a suitable subject to be selected by a committee of head masters, with the award to be given to that contestant who, in the opinion of this committee of head masters, has written the best essay.

On roll call the two orders passed by the following vote:

YEAS—Mr. Carr, Miss Fitzgerald, Dr. Foley, Mrs. Lyons, and Mr. Muchnick—5.

NAYS—0.

Dr. Foley: Having served with the late Maurice J. Tobin as a member, and then having succeeded him on the School Board when he became Mayor of Boston, I feel that he was without question one of the outstanding members of the Boston School Committee that I have ever had the pleasure of serving with.

I am sure that the eulogy delivered by the Archbishop of Boston at the Cathedral would be inspiring to the youth of Boston and was inspiring to all those who attended the funeral.

Dr. Foley offered the following:

ORDERED, That the eulogy delivered by His Excellency, Archbishop Richard J. Cushing, at the Cathedral of the Holy Cross on Wednesday, July 22, 1953, on the Honorable Maurice J. Tobin, former Secretary of Labor under ex-President Truman, be spread upon the records of the open meeting; and, if possible, that it be distributed, through the Superintendent, to the teachers in the Public Schools of the City of Boston.

On roll call the order passed by the following vote:

YEAS—Mr. Carr, Miss Fitzgerald, Dr. Foley, Mrs. Lyons, and Mr. Muchnick—5.

NAYS—0.

The following is the eulogy referred to:

It is not usual to pronounce eulogies at the funerals of our people. The tradition in our part of the world favors the practice of commending to Almighty God with many prayers but without futile word of any kind, the souls of the faithful departed. It seems idle to our people to comment on the merits of the dead at a time when their souls are subject to

that judgment of God before which the opinions of men, whether favorable or unfavorable, are ultimately without meaning or importance.

Moreover, the truly devout among our people understand and welcome this practice of abstaining from eulogies when finally they put aside their several tasks and pass, as they hope, into the anonymous, collective glory of the Communion of Saints.

Anyone of us would rather be numbered unknown among the saints than be proclaimed for our individual importance.

The devout Catholic Christian, I repeat, understands this—and Maurice Tobin was such a man. He would be greatly embarrassed by personal praise from this sanctuary. In life he came here seeking prayers, not compliments, and in death he would have us give him the same accord.

However, Maurice Tobin became in the course of his remarkable career a public personality, though he succeeded in keeping a wholesome and truly holy protection around his personal and family life. As a public personality he acquired the respect and the affection of a wider group than that of his own immediate friends and kinsmen, and so his death is a public loss and has called forth a community-wide expression of sympathy which requires of us at least a brief public word on this occasion.

SYMPATHY

Our first word is naturally one of sympathy to his loved ones, foremost among them his gentle, devoted wife and the children whom he loved with such tender, paternal affection. To them and to all his family, our hearts go out with heartfelt sympathy and with affectionate prayers. May God grant them every consolation of his grace to sustain them in the tragic loss that is theirs!

Our next word is one of admiration and of loving remembrance. The beloved former president of the United States, under whom Maurice Tobin served so loyally as Secretary of Labor, on hearing of Mr. Tobin's death, called him "a good man" who had served as a great public servant and with great distinction.

This judgment of him expresses the estimation of Maurice Tobin shared by the rank and file of his neighbors and fellow-citizens. It represents the fulfillment of the best hopes that his loved ones, particularly his devout parents, his wife and his life-long friends, always have had in his regard. To be hailed as "a good man" is a wonderful accomplishment when one has had to fight the battle of life in arenas so full of temptation and difficulty as were those in which Maurice Tobin won his title of "a good man!"

He was brought up among people who would have been proud, very proud to hear their son and neighbor called a great public servant and to hear two presidents of the United States and

other exalted personalities describe him as one who had served in so many public offices with such great distinction. But though these tributes would have made his people proud, those from whom Maurice Tobin came would have been quite content to know that these same people pronounced him "a good man" when finally he came to die.

We have a phrase which is sometimes used to describe men who attain great prominence in the world of affairs without the benefit of extended formal education. We call them "self-made men." The phrase has become a little trite and it is never entirely true. However, in the sense that he owed his wonderful career to his own hard work, his own determination, and to education and opportunity secured at great personal initiative and intense self-dedication, Maurice Tobin was a self-made man.

PRESIDENT'S PRAISE

He made so great a success of his life, however, and particularly his reputation as "a good man," because he did not work alone in his efforts to improve and to advance himself. He was "a good man" because he was a devout man, and he always strove to cooperate with the grace of God in the arduous business of making his way in the world.

Maurice Tobin chose as the field of his career the realm of practical politics. It is a realm in which compromise is necessary and inevitable. There were certain things, however, which Maurice Tobin never compromised and it is in these that he proved himself "the good man" whose greatness President Truman appreciated and praised.

One of the things that he never compromised was his Catholicism. During the course of his busy, eventful and successful life many things about him changed; his Faith did not. Public office gave him an increase of opportunity, a change of environment, new friends, many and different interests. All these involved inevitable changes across the years. But the day he died he was planning to go to Mass just as he did as a small boy. He had been to confession the night before just as he had the day before his First Communion, his graduation from school, his marriage or any other moment of importance all along the way of his life.

His neighbors and his fellow-citizens followed his superb career and measured the changes which came with it in the news accounts of his activities and successes. We read of him when he went to the School Committee and to the Mayor's Office. We saw pictures of him in the Governor's chair and at the councils of the mighty in the Nation's Capital. We saw him addressing great conventions and boarding trains or airplanes to bring him to the places where momentous questions are solved and the mighty problems of our

changing civilization are faced. All these news accounts and pictures were evidences of his changing fortune, influence and importance in the community—and we applauded.

But we saw other pictures through all these same years which revealed the basic things in which he had not changed—and these we applauded even more. For these are what proved him to be "a good man." They are what made him "a good man."

We saw pictures of him at prayer in the Mission Church in Roxbury near where he grew up and from the spiritual climate of which he never moved away.

We saw him at Communion with his children at the altar rails to which he was never a stranger.

We saw pictures taken at the heat of campaigns and showing him hearing Sunday Mass in between trains on the way to and from conventions, all bearing witness to the fact that he never allowed his success to give him the foolish idea that any of the business of this world was more important than the business of eternity.

We saw pictures of him bringing his children to receive the blessing of the Holy Father and we were always proud of him when he knelt with simplicity to receive the benediction of the spiritual leaders of his people even when he had achieved his own place among their political chieftains.

All these things warmed our hearts and made us understand why people found him "a good man." He went very far toward success as the world understands success, but when he got close he found him waiting to go to Mass and to Holy Communion together with the wife he married before his success began and lived to the end, and the children whom he considered the principal rewards of his life here below.

WORKERS' CHAMPION

He came from hard-working people and was destined to mingle with those whom the world esteems great—but it is a symbol of what we loved about him that when he wound up his career he was the champion of the working classes and the Secretary of Labor, the spokesman in the national life of those who work with their hands as did the people who produced him. He never outgrew his own. That is why good people found him "a good man."

It was typical of him that he never made a home in Washington, even when his career brought him there. His wife and children stayed here in the part of the country which meant reality and goodness to them, and to these he returned regularly and faithfully as to his inspiration and to the things which made and kept him "a good man."

There are those who will say that his death was untimely because he was so young and had so many opportunities before

him. We must be careful about using that word "untimely." Each of us dies in God's own good time, and we must not presume to judge God's time.

From another and more profound point of view, his death could not have been more timely. He who made so many journeys, died at home. He who worked so hard all through the week, died on a Sunday. He died almost on his way to Mass. He was ready to receive his Maker, as his loved ones received Him a few moments later, and had, following his regular pattern, made his peace with God the night before. God grant us all a death so well-timed!

Once at the beginning of his public career Maurice Tobin was praised in this very church. It was said of him that he gave great promise. Today he comes back here so that his loved ones may hear us say that he fulfilled that promise. Then he was relatively unknown. Today the nation's great are present in person or in spirit to pay him tribute. He was great then because he was good. He is mourned now for the same reason. Eternal rest grant unto him, O Lord, and let perpetual light shine upon him! God bless this "good man" and all his loved ones!

The following is an extract from the Conference notes of July 24, 1953 relating to consolidation of schools

Chairman: I don't know who is to represent whom, but whoever wishes to speak first may do so.

Will you identify yourself, Mr. Hailer?

Mr. Hailer: Frederick C. Hailer, Jr., City Councillor, Roslindale.

I have come in with a group from the Stephen M. Weld School of Roslindale, and have come in to ask, Madam Chairman, you and the honorable members of the School Committee to reconsider your action on the closing of the Stephen M. Weld School.

I have lived in Roslindale for the best part of my life. I have lived over in the Stephen M. Weld area for at least sixteen years, and I will say this—that closing of the Stephen M. Weld School will have a terrific impact upon the people of that district.

I think that the problem which will arise or the many problems which will arise from the closing of this school might be summed up in three or four phrases:

1. The school itself is now in good condition, and I notice that they are still working on it. They are painting it up, and are planning a reopening in the fall, or they were, at any rate, a week ago.

The children of the area will have to cross two main arteries if they are to be sent to the Philbrick School and the Conley School, and I think if there is any economy effected and if the life of one child is at all affected or harmed by this transfer, the economy will have gone for naught.

The Philbrick School is out of walking range of children in the primary grades, and I think that you are going to come across a problem of transportation. I have heard that the saving would be around \$10,000 or \$12,000. Certainly it would cost in the vicinity of \$10,000 or \$12,000 to transport these pupils. I do hope that the people of the area will be given consideration, especially the children, for they are the ones who are most in your minds and in my mind.

I do hope that reconsideration will be given to this problem. It certainly is a difficult problem, but it is one that involves, I think, most of all the safety of the children. Certainly I am strongly opposed to the closing of the Stephen M. Weld School.

Miss Fitzgerald: Madam Chairman, I would like to say just for the record that I also am much opposed to the closing of the Stephen M. Weld School, particularly because I have gone to that area and have talked with some of the parents to find out just exactly what the situation was.

Also I would like to fortify my opposition with a quotation from the Harvard Survey itself, upon which the proposal to close the Weld is based. It says that population estimates indicate that by 1960 (and I will have you note that date), it will be possible (!) to close both the Weld

and the Abrahams Schools, both of which are in that area."

"That is, that the possibility is recommended by the Harvard Survey people, and I sincerely hope that on a mere recommendation by the Harvard Survey group, it would be possible to close a school seven years hence according to population estimates, we do not go forward and close a school which is serviceable, usable and upon which thousands of dollars, as I understand it, have recently been spent to get the school into operation."

I just hope we do not throw out a facility which is usable in an area where it is certainly necessary—and certainly necessary by virtue of the traffic hazards which the children would encounter by being reshuffled in that district.

Mr. Muchnick: Mr. Hailer, just one question, if I may. Your city service is not limited just to one area. Am I right in inferring that your opposition to the closing of just one school means that you are in accord with the program of closing the other schools.

Mr. Hailer: Mr. Muchnick, I am here because I am familiar with this problem. I am most familiar with the problem that affects these people in this area, and I have conscientiously looked into the problem. Now, I say that this school should not be closed. If I were more familiar with other areas of the City, I would positively take a stand one way or the other, but I am most familiar with this problem and I say that this school should not be closed, in my opinion.

Mr. Carr: Mr. Hailer, were you the author of this petition or was it brought to you or where did it originate?

Mr. Hailer: The petition was brought to me. I had nothing to do with the drawing of the petition or the signatures. I certainly haven't time to circulate petitions, especially now with nomination papers out.

Mr. Muchnick: I was going to suggest, Mr. Hailer, that if you were so successful you can take my nomination papers!

Chairman: Mr. Hailer, you just mentioned that you were familiar with just one section, but of course you are responsible to all sections of the City.

Mr. Hailer: That is right.

Chairman: Do you think it is fair to close one school—because, obviously, the school is not necessary. There is ample room in better schools than this. Do you think it is fair to close one or two schools to satisfy one or two groups and not other schools in the City? I know you must be concerned with the finances of the City of Boston.

Mr. Hailer: Madam Chairman, I am very concerned with the finances of the City. As a matter of fact, I led the fight in the City Council to cut the budget \$1,100,000, and I was unsuccessful, but I certainly am interested in economy in the City, especially

with a \$70 tax rate. I also think that the taxpayers of this city should get consideration for the high tax rate with which they are confronted.

I am going to sit here and I am going to listen to the problem of the people from Dorchester, and if I think I can familiarize myself with their problem and if I think that they have a good case, certainly I would be opposed to the closing of a school if it is going to endanger children of that area as much as it is going to endanger the children of the Stephen M. Weld area. I will go along with the people of Dorchester or any other area of the City where the welfare of the children is being affected. (Applause.)

We are all interested in the taxpayers and we are interested in the children of the City; and if I had time I would try to familiarize myself with the problems of each of these individual areas. I am going to sit here and listen to the problems of the people from Dorchester.

Miss Fitzgerald: Madam Chairman, may I also say that in talking with the parents from the Stephen M. Weld School, a number of whom are taxpayers who bought property in the Stephen M. Weld area for the reason that there was a school facility located nearby, I came to the conclusion that some consideration should be given to them. A number of them said that rather than remain in the city of Boston if the Weld School is closed, as has been indicated, they would prefer to move to Brockton.

Chairman: Did you wish to add anything further, Mr. Hailer?

Mr. Hailer: No. Thank you very much for your consideration. I don't know what the procedure is before your Committee, but I know there are some parents from the Stephen M. Weld area. Thank you very much.

Chairman: I would like to say that in view of the fact that there are so many here to be heard, I would like to ask them to limit themselves to not longer than five minutes, please. Who else wishes to speak on the Stephen M. Weld?

Mrs. Salerno: I am the mother of a large family. They all went to the Stephen M. Weld School, and when I say large, I mean nine children, and each and every one of them went to that school.

Now, I am fighting for the grandchildren. That school has been in existence for a long time. They also had portables there at one time. If you people are familiar with the area of that school and the distance that those children have to come, you would say: Open that school tomorrow, in the first place.

In the second place, they have to cross two main highways, Hyde Park Avenue and Cummins Highway, which is a very, very bad spot for young children. If they close down that school, and

they are going to send half the children down to the Philbrick, that is the Mount Hope district, and half the children to the Charles Sumner which is on the other side of Roslindale Square, I have spoken to plenty of mothers today because I have only heard last night about the closing of the school and they will not send their children to school until they are seven years of age when they are able to take care of themselves. (Applause.)

I don't think it is fair. There are a lot of mothers there who want to get their children into kindergarten and into the first grade. Where they have other younger children, they want half a day off. They want a little time off as mothers. Is my time up?

Chairman: No.

Mrs. Salerno: Does anybody want to ask me anything about this? We are voters. We elect the public officials and we citizens want our rights. That is all I have to say. (Applause.)

Mr. Anderson: My name is Evans Anderson. I have lived in that district about eleven years. I have two children who have gone through the Stephen Weld School. I have another who will be going in there in another two years or so, if it is opened. It is the only school in that immediate area that is accessible to that age of child.

I would not let my little girl, who is only two now, when she gets to four or five or of kindergarten age, go such a distance to the Philbrick School or the Conley School. It would just be impossible. I would even either have to move out of the area or wait until she is seven years old and was capable of getting there.

One of the main objections that I have to closing the school is the fact not for the school itself, but for the play yard they have for the children in the summer time. There is no immediate playground anywhere near that area, for the tots to go up there in the daytime during the hot weather to get cooled off by the shower and the swings there. They also have an instructor there to teach games, and I think that that is very important to a child growing up to be taught those things.

I think it really would be a downright shame on those little youngsters to be deprived of a school in that area, and I see no economical basis for closing it if you are going to transport the children in buses to other schools, which is going to cost nearly as much as it would cost to keep the school open.

It is not just myself that I am concerned so much about now as I am the little tots who are growing up looking for recreation places in the summer time, in the hot days, to cool off and to have swings, and I know how many children are over there day in and day out. There is not

a minute's peace there with the happy children running around and the exercise they get makes it worth while to keep the school open.

(Applause.)

Mr. Campbell: My name is William Campbell, 137 Hyde Park Avenue. Madam Chairman, and members of the Committee: Being a young father with younger children and children of school age, I want to ask you to please reconsider your action to close this school.

As you know, mothers cannot take their younger children out to bring the older children across every heavily-traveled street, and it would work a lot of, shall we say, hardship on our wives. It is a young neighborhood and we have a lot of young children still of school age coming up.

This survey, I understand, was made before World War II and we have a lot of young fathers and young families throughout the entire neighborhood. In fact, the entire neighborhood in my immediate vicinity has changed in the last six years.

Chairman: Could I just correct you in one thing? That survey was made and given to us in April of this year.

Mr. Campbell: I am sorry, Madam Chairman. In fact, however, in the last seven months in the immediate vicinity of my home there have been four houses which have changed hands to young couples who have young children.

The distance my child has to travel is a good distance down Hyde Park Avenue. I live practically on the Hyde Park-Rosindale line, and in sending my child to a school down in the Mount Hope district, which is quite a walk for a six-year-old girl, I am not alone in this thing. There are plenty of other mothers and dads in the district who have the same situation. If any more young ones come along, my wife would not be able to take the little girl out in the morning, across the streets, to see her on her way.

One child's life, I believe, is nothing compared to what you will save in this transfer. I understand transportation and school expenses have only a small difference of a few thousand dollars, and—

Chairman: I might say on that that nobody has told us that it was \$10,000. I don't know where you got the figures, because members of the Committee don't know. I don't know who told anyone else. I am wondering where that figure came from.

Miss Fitzgerald: Madam Chairman, I think anyone who knows the cost of operating a particular school or any member of the Committee who is interested in a particular situation could receive that information and could dispense it to interested persons who have made requests for such information. That information is public information available to

anyone—a member of the Committee or not a member of the Committee.

Chairman: I thought that information was to be furnished to us on the 10th of August. Am I right on that, Mr. Superintendent?

Superintendent: Madam Chairman, I will be glad to furnish you information that I have available at any time.

Mr. Carr: Mr. Campbell, do you wish to compare the amount of money for transportation in conjunction with the operation of the school?

Mr. Campbell: Yes.

Mr. Carr: Just as one example, we are transporting the pupils of the William E. Channing from the O'Callaghan development to the Fairmount School. The Fairmount School burned down.

In 1951, that cost us \$11,878. In 1952 it cost us \$21,074.25. That is just for transportation. So I think you could use those as comparable figures if it became necessary to transport them.

Chairman: Is this a very much larger school? You give me the pupils in one and the pupils in the other.

Superintendent: I don't have the figures, but Miss Hearn can give them to you. We don't transport all of the pupils to the Channing. We only transport kindergarten, grade 1 and grade 2.

Chairman: I would still like the figures on that, Miss Hearn.

Superintendent: Miss Hearn, what is the enrollment?

Miss Hearn: You mean for last year?

Superintendent: How many are being transported? Can you give us that—to the Channing?

Miss Hearn: That is last year's?

Superintendent: Yes.

Miss Hearn: Just a moment.

Mr. Campbell: That is all I have to say, gentlemen. Please reconsider.

Mr. Mucknick: Madam Chairman, I would like to make one observation if it is a question of cost, which is not the primary factor involved—or not the sole primary factor. If it is cost of MTA buses we ought to remember that whether the figure is \$10,000 or \$20,000 or \$100,000, it cost the City of Boston only 35 per cent net because we pay 65 per cent of the MTA deficit anyway, and that would just have been an extra \$20,000 on the deficit of which we would have paid \$13,000 and something.

Chairman: Do you have that, Miss Hearn?

Miss Hearn: Yes—318.

Chairman: We transport 318 children?

Miss Hearn: Last year.

Chairman: How many children would be involved over there? Miss Hearn: I have the figures here.

According to Mr. O'Keefe's reckoning he is going to transport 94 children.

Chairman: He is going to transport 94 as against 318?

Miss Hearn: Yes.

Chairman: Thank you.

Mrs. Allen: My name is Florence Allen, 253 Cummins Highway.

Madam Chairman, we were most upset about the fact that all of this was done without notifying any of us about it. How we found out about it was that we saw all this stuff coming out of the school. Why wasn't something said about it prior to this time?

Another thing: Why did they put all that money into making repairs on the school last year? They are closing it this year. I cannot understand that at all.

Mr. Carr: Madam Chairman, for the information of the young lady I think there was one member of this Committee who made a motion one evening here that, prior to the closing of any schools, we should have public hearings, and hear from the parents, the teachers and the people in that district.

Some members saw fit to vote for the closing of these prior to any arrangements for public hearings or anything else. I think that is probably why you have these people here tonight. They have never been notified. That opportunity was not afforded any people in any district of Boston—a public hearing—so you were not the only group that was excluded.

Mrs. Allen: Another thing, I am a working mother. I am the sole support of a son. I have to go to work. I cannot go to work and think that he is going to go from my home halfway to Forest Hills all by himself and be in work and wondering whether he is going to get there. Am I going to stay home from work on a rainy or stormy day? I cannot do it. I don't know what the story is. I can't see forfeiting a child's life in order to make up for a deficit in the City of Boston money. It's not worth it.

You need these small children in future years. They are the citizens of the future. You get a small group in a school. They are getting a far better education than having a large group in one class. They are getting more attention. The teacher realizes what they are lacking. It only stands to reason.

I understand, too, that some of them are going to be put in the basement of a school. Well, I won't stand for that. I won't send my son to school. The trunk officer can come, but I am not going to forfeit his life.

Miss Fitzgerald: Madam Chairman, could I ask how far you are from the school now?

Mrs. Allen: From the school now?

Miss Fitzgerald: Yes.

Mrs. Allen: I am around the corner, and in that way I go to work and I feel that my son is safe. I have someone to take care of him after school. He missed

one day of school last year. If he is home ill I have to stay home; but if he had to travel that distance, I don't know. Will the City of Boston support me? That is all.

Miss Fitzgerald: Thank you very much.

Chairman: Is there anyone else? Is there someone from the Dorchester section who wishes to speak?

Miss Fitzgerald: Madam Chairman, before we proceed to another area I wonder if it is possible, in order to put these people's minds at ease, if I could make a motion at this time to ask this Committee to reconsider, including the Weld among those elementary schools in which it is proposed to effect closings. I would like to make that motion—that this Committee reconsider including the Stephen M. Weld in the list of schools.

Chairman: Miss Fitzgerald, I think that motion will have to come from someone on the prevailing side. I think that motion is out of order.

Miss Fitzgerald: Well, I would urge, Madam Chairman, if according to Roberts' rules of order it has to come from a member on the prevailing side, I would urge that a member on the prevailing side give that consideration.

Mr. Carr: Madam Chairman, this is not the first time but it was entirely on my own that I found out the schools that were voted to be closed. On the night that the order went through closing these schools, two of your members were not even aware of what particular schools were to be closed, and consequently we voted against that order. Now, in view of the fact that the Harvard School of Education estimates and indicates that by 1960 it will be possible to close both the Stephen M. Weld and the Henry Abrahams School I wonder on what basis the Weld School was injected into this order.

I don't know who recommended it. Harvard has not recommended it. I assumed that all these were recommendations of the Harvard School of Education, and frankly I am surprised to find that they are not. The Stephen M. Weld is recommended for 1960.

I think you could very well reconsider your order and exclude the Weld from that order at this particular moment, and I am very happy to second the motion of my colleague and I hope that you see fit to call a vote on it.

Chairman: Mr. Carr, I think that you are quite familiar with Roberts' rules and that you realize, too, that that motion is out of order and that it will have to come from one of the prevailing side.

Miss Fitzgerald: Madam Chairman, on previous occasions you have indicated that the School Committee follows its own procedure, I think that these people

have indicated so much interest and have presented such a good case for the retention of the school in their district that it would behoove us to reconsider or it would behoove the prevailing side to reconsider closing the Stephen M. Weld.

Chairman: I will be very glad to take it under consideration. Now somebody from the other school who wishes to speak?

Miss Fitzgerald: Madam Chairman, am I to understand that my motion has been ignored?

Chairman: Your motion is out of order, Miss Fitzgerald.

Miss Fitzgerald: That is what I wanted to get clear, Madam Chairman. Was that under the School Committee regulations or under Roberts' rules?

Chairman: Under Roberts' rules.

Mr. Carr: Which one?

Chairman: Mr. Farin, would you identify yourself, please?

Mr. Farin: Yes. I am Representative Farin of Ward 17, Dorchester.

Sometime back you perhaps recall that we sent a notice to the School Committee that we were holding a protest meeting regarding the closing of the Elbridge Smith School, and at that time School Committeeman Muchnick showed up. Others conveyed their reasons for not being able to attend at that time.

We had about 200 or more people there at the protest meeting. We also sent, as you already know, Madam Chairman, over 250-odd signatures opposing the closing of this particular school. We gave our reasons, and I believe they are not unknown to you at this time. However, for the sake of the other members who are perhaps not as familiar with this case, I would like to go on and tell you why we are opposed to the closing of this school.

The Elbridge Smith School, as I understand is on the agenda for rebuilding. I am also further informed that \$5,000,000 was floated in bonds for the purpose of rebuilding schools in Boston. The Harvard Survey has recommended the rebuilding of this particular school, but as yet we have no evidence, nor can anyone produce any evidence, to show that this school is a fire hazard or a fire trap of any sort to the pupils of the district.

I understand further that it is imperative to build schools in East Boston, the so-called Cow Pasture, Hyde Park, and the Cathedral Districts, which will cost approximately \$4,500,000, leaving you a surplus of \$500,000.

Chairman: I don't know where you get your figures. There is another—

Mr. Farin: According to the \$3,000,000 bond issue that was floated.

Chairman: There are more schools than that included in the areas where emergencies exist.

Mr. Farin: I am very happy to be corrected.

Chairman: Just for the record I wanted that statement made.

Miss Fitzgerald: If there are any misunderstandings in either of these situations, it is probably due to the fact that the prevailing members of the School Committee have not seen fit to have a public hearing on each of these situations in which all of these things can be examined and the right information offered at the right time.

Chairman: Mr. Farin, would you like to continue?

Mr. Farin: Yes, Madam Chairman, and I want to say in passing that I agree with the School Committeewoman.

This Elbridge Smith School is so located that at the time it is easily accessible to the pupils of that immediate district. Were we to do away with the Elbridge Smith School, we have only three schools where these pupils can attend—namely, the Rochambeau School, the Mary Hemeway School, and the former Lucy Stone School.

Every one of these is so located that these children will be placed in immediate jeopardy of their lives. The evidence has proven that in the past. On Washington Street we have lost three people—killed. They were grownups, incidentally, and I know of one child who was injured around Melville Avenue while crossing near the court house.

We also have had injuries in front of the school itself, the Elbridge Smith School, going to the other side of the street, and Gibson Street and Dorchester Avenue, Adams Street and Dorchester Avenue, King Street and Adams Street. These are accidents where I cannot give you the immediate names of the people involved, but I can assure you that over fifteen people were killed in the Dorchester district within the last year. That is a matter of record.

Chairman: Not children, though.

Mr. Muchnick: Mr. Farin, in getting to the Elbridge Smith School for those pupils who attended there last year, did any of them have to cross Dorchester Avenue or Adams Street or Washington Street or any of the bad crossing streets?

Mr. Farin: Not from Washington Street. They may possibly, Mr. Muchnick, have to have crossed Washington Street. That would be the only hazardous crossing that a portion of the pupils would have to endure.

Mr. Muchnick: Then that portion of the pupils is going to be saved one crossing, won't it?

Mr. Farin: No, they will still have to have another hazardous crossing. They would have to cross Gibson Street if they went to the Rochambeau School. It is equally as dangerous.

Mr. Muchnick: Gibson Street is nowhere near as bad at Centre Street.

Mr. Farin: I am sorry but I must differ with you. I grew up in that district and I know it, and my parents before me. That is very dangerous. That is where the buses make the turn going down to Neponset Avenue. It is a short cut to Quincy. They cut through to Quincy. It is a main thoroughfare. I think we should take notice of that. There is no question of that. I think it is equally as dangerous, so we are not going to alleviate that situation.

Mr. Muchnick: Can you name any street in Boston other than some of the dead-end streets that are not hazardous from a traffic point of view?

Mr. Farin: Some are more or less.

Mr. Muchnick: All of them are of some hazard?

Mr. Farin: Yes, that is to be agreed upon. Furthermore, I don't know whether it is three or four kindergarten classes that there are in that school. Dr. Haley might be able to correct me on that. I would like to be corrected if I am wrong.

Superintendent: Two double sessions, but that really means four classes.

Mr. Farin: Four classes. We have 318 pupils in that school at this time. Is that right? Yes, 318. There is a definite need for the school. The survey agrees upon that, and in my opinion I believe that were we to save a million dollars and lose one life, we would be losing a lot of money by losing that life. Money could never repay the loss of one child's life.

That is why we are heartily against this proposition of closing the school. We would like to see the school rebuilt, but in our opinion we feel—I should say "I," but I have spoken to the mothers so I can say we—that the School Committee can build while this school is in session. I am not an engineer, and I cannot give any definite ways of doing it, but if it is necessary to take some of the property by eminent domain I think we will still be getting a bargain.

Mr. Muchnick: Mr. Farin, you are a member of the House of Representatives, are you not?

Mr. Farin: Yes, I am. You know that.

Mr. Muchnick: I just want to get it on the record, Mr. Farin.

Mr. Farin: Yes, fine — and a former City Councillor.

Mr. Muchnick: I did not want that on the record one way or the other. I don't care.

Mr. Farin: All right

Mr. Muchnick: The big problem, or one of the big problems, is that you see it as the traffic hazard. Is that correct?

Mr. Farin: That is one of them.

Mr. Muchnick: Well, as a member of the House of Representatives, wouldn't it be much wiser, bearing in mind all the people whom you have mentioned who are not children and have been

hurt or killed in the Dorchester area, to authorize the City of Boston to put on more policemen there so we could have our streets and our traffic taken care of more adequately?

Miss Fitzgerald: Madam Chairman, could I inject something here? Isn't that going to add to the tax rate about which the member is concerned if we have more policemen?

Mr. Muchnick: The member is very much concerned with the tax rate but is far more concerned with the safety of any child or any grownup, whether it be from a traffic hazard or from gang beatings or anything else; and the answer to traffic hazards obviously is not a school on every street corner or in every backyard. It is in better regulation of the traffic in the City; and if that requires more policemen, then it is up to the members of the House of Representatives and the Senate to do something about it. The police in Boston are under the control of the State.

Mr. Farin: Do you want an answer to that, Mr. Muchnick?

Mr. Muchnick: That is why I asked the question.

Mr. Farin: They are insofar as their appointments are concerned, but I think the taxpayers of Boston pay the freight.

Mr. Muchnick: And the Council, you remember as well as I do, cannot cut the budget. It is completely up to the Police Commissioner, who is a State authority.

Mr. Farin: No, I differ with you in that.

Mr. Muchnick: As chairman of the appropriations committee there, Mr. Farin?

Mr. Farin: Madam Chairman, it is up to the Mayor and the City Council to appropriate sufficient funds in order to enlarge the police force. Then, upon the recommendation of the Mayor and the City Council, referring it back to Civil Service for the Civil Service people to send down names of these various men who are on the list, your police force will be enlarged. Through that method it is enlarged, not through any Legislative act.

Mr. Muchnick: I cannot agree with him, but there is no point to getting involved in a debate on a side issue.

Mr. Carr: Lest you go away with the mistaken impression that this School Committee is going to be able to immediately erect a new school in place of the Elbridge Smith while the old school is actually in session, I would like to point out that we have had a problem in Boston here of three or four schools that should be built immediately, and we were aware of the problem two years ago. It is only this year that we have been successful in getting a \$5,000,000 bond issue, and we have not been able to get the land on which to build these schools—all of them.

I would like to quote now from the Harvard Report. In connection with the Elbridge Smith School it says that in 1953 to abandon it and build a school of 21 rooms and complete it by 1955.

I do not think there is any member on this Committee who honestly and sincerely believes that we can possibly do that because here we have a school building now and we are going to tear it down while in these other places they have nothing and we have not been able to build those yet. I might point out a section that you are familiar with there on the Cow Pasture. The superstructure of the housing project is already up four or five stories and we have not yet gutted the area in which to build a new school.

So going back here where the Harvard Report says to abandon this immediately in 1953 and build a 21-room school and complete it by 1955, it is wonderful to talk about but it is not practical and I do not think any of us can see where the money is going to come from.

Mr. Farin: All right, Madam Chairman? Well, in view of the facts presented by School Committee member Carr, we ask that the children of the district of the Elbridge Smith not be disturbed until the School Committee has begun the breaking of the foundation or the commencing of the building of a new school. If it is true that they are going to build a new school, and if you intend to do it, while you are dealing with your red tape and going around trying to get this school erected I ask the School Committee in the name of humanity to leave the school alone until they at least start constructing a new building, whether it is beside it, behind it, or in front of it or wherever it may be. (Applause.)

Any questions?

Chairman: No.

Mr. Muchnick: I have none.

Chairman: Thank you, Mr. Farin.

Miss Fitzgerald: Thank you, Mr. Farin.

Mr. McMorro: Representative John P. McMorro, Ward 16, Dorchester. A brief statement, Madam Chairman, members of the Committee, and Mr. Superintendent.

I appear this evening to ask you as members of the Boston School Committee to reconsider the action you have taken closing the Elbridge Smith School. The transfer of pupils to the other schools mentioned—namely, the Mary Hemenway, the Rochambeau, and the Lucy Stone would involve crossing hazardous intersections and would impose an intolerable burden upon both parents and children, particularly with regard to the Lucy Stone School.

I urge you to heed the protests of the parents and vote to re-

consider the closing of the Elbridge Smith School.

Mr. Beades: Representative John J. Beades, 15th Suffolk District. I am also here along with my brother colleagues to protest the closing of this school. I think, Madam Chairman and members of your Committee, if you have carefully studied this Harvard Survey Report you will find that nowhere therein do they decide that there should be no school in existence out there. Rather what you have found is that the school perhaps should be replaced, and I would say, knowing very little about construction, that when they say the school should be replaced in two years they mean that that is as speedily as possible and that construction could be undertaken and completed on that particular site.

I think that with the population that is now in the school and with the population trend in that particular area there is an absolute necessity of a school in that particular site. It is an essential site for the children who are now in existence and for those to come.

I do not think the members of this Committee can prove to themselves or to any others that that population will decline to such an extent that there would be no necessity for a school in that particular section. There is definitely a traffic hazard to be encountered by the children if they are to be transferred, and these are all primary grade children.

I know that in that area St. Mark's School itself has seen 'the necessity of adding. They have added to their present facilities, but they can add no further, so the relief that you perhaps might have thought that you would have gotten from that school would have happened last year, not in years to come — not in future years.

Again I strenuously object to this. If you did it hastily, which appears to me to be the case knowing the date of the particular survey and knowing that perhaps in your own minds you meant to save the taxpayers of the City of Boston money, I plead with you at least to admit that you are not infallible. None of us are infallible. All of us make mistakes, but at least admit on this particular one on the facts that are before you that you have said people to dig into and present to you the fact that nowhere in those findings is there anything to the contrary except that the school is necessary and that also a larger school should be erected on that site as far as number of rooms is concerned.

I plead again: Reconsider your action and just admit that you did make a mistake but you are big enough to rectify the mistake when there are just causes to indicate that you have. Thank you. (Applause.)

Mrs. McDonald: Madam Chairman and members of the School Committee, I am here tonight to represent a group of mothers concerned with the closing of the Elbridge Smith School. I don't think that there is anything that I can add. The fact that we are here at a very inconvenient hour shows our belief in our ideas. This closing would be just impossible. Our children would be jeopardized — their health, their lives, their welfare, and the facts of the crossing have all been explained to you.

I am sure you people would not have voted if you had gone by there, and I know that you realize your mistake. I spoke with Mr. Muchnick on the phone, and you said that you have and you will travel back to those schools and try to see if you made an error. I want to ask you if you did travel to the school yesterday and if you walked in the rain?

Mr. Muchnick: I told you, if you remember, the night before last that I would call you by Saturday or Sunday, and I will.

Mrs. McDonald: Well, I thought that it not only concerned me but concerned the other mothers and I would give you the chance to speak to them personally.

Mr. Muchnick: I would rather talk with you.

Mrs. McDonald: I would also like to ask any of the other members, particularly the majority voters, if they travelled to any of these schools that they recommended closing; and if, when they walked there, they brought along a child of elementary school age beside them and if they went in all kinds of weather besides wonderful weather.

Did you ride or did you walk to these schools? There is quite a bit of difference. I understand that the closing as far as other mothers are concerned is impossible. They just won't be able to do it. They cannot bring their children. Mothers have suggested keeping their children out and keeping them out of kindergarten, which is really setting the children back, but that is all they can do.

I am a fortunate mother with only one child, with no elderly parents to take care of. I can walk my child or ride the M. T. A., but what about the mothers with younger children? What are they going to do? Leave them home or take them with them in all kinds of weather again?

I feel this closing is just impossible. The idea is ridiculous, and regardless of economies — saving lives is more important.

Mr. Muchnick, you have stated that the most important thing in regard to the school system was the children and their interests. I know that if you feel that the children are the main interests, you won't close the school. (Applause.)

Mrs. Jones: I am one of the mothers who will be definitely inconvenienced by the closing of the Elbridge Smith School, and I am also one of the mothers who is very interested in having the chance to appear before the Committee because I had a little time but I went into the library and I read and they said that this was an open meeting and that people could come and actually for me this is democracy in action. You can come. You can speak, and it is possible that we may be able to get you to reconsider closing our particular school.

I have been told and I have read in part of the Harvard Survey that there is definitely a need for the school in our area because it is one of the most densely populated areas in Dorchester, and I am sure you members of the Committee are familiar with this fact that there is a definite need for the school there.

The other figures that I have I only know from reading the newspaper: That there is a deficit in the City of Boston. The tax rate has gone up to \$70 and that it is impractical at this time to carry out the recommendations from the Harvard Survey and to spend — what did they say? — \$41,000,000 to rebuild all of the schools that they thought we should need and which I am sure that you all feel the children of Boston should have.

So, from a reality point of view and just being practical, it would seem that maybe we could use the school that we have because it is inconvenient for younger children to go elsewhere. My oldest child is five years of age, and it would be difficult for him to go almost a mile to school in all kinds of weather, and I know definitely that other mothers feel the same way and many of the mothers in my neighborhood have said that they just are not going to send their children to kindergarten. They are not going to be concerned with sending a child for two hours if they have to walk the child one mile or nine-tenths of a mile, to be exact, and to walk the child back nine-tenths of a mile. My child went to kindergarten at the Elbridge Smith School, and she had a perfectly wonderful time. She came home every day enthused. She missed one day when her father took her to the circus, and she was very upset about missing that one day. No matter if it rained or it poured, we walked to school. I think that all of the children of kindergarten age not only in our area but in all areas should have the chance to go to kindergarten, and then there comes the first grade, which is the real test of schooling; and, as some of the educational leaders say and some of the teachers in the Elbridge Smith say, it is the hardest year in the child's life.

If the child — and you are all educators — does not get a good

chance in the first grade and in the second grade and the third grade, what do you expect them to do when they get on in further grades?

I think these are some things that you know. You know perhaps in a vague way. You do not always have time because you are under pressure. We could see that tonight from the length of your agenda. You do not have time to focus on the immediate need of one little group in the community, and that is why we mothers came tonight to try to explain our part to you, and try to get you to reconsider closing the school and give the kids a fair break, which all of you so sincerely want.

(Applause.)

Mrs. Applegate: My name is Mrs. Malcolm Applegate. My problem is that my boy has a patch over one eye, and my husband is an ex-GI. We have had unemployment. We have been evicted. We have had five homes in five years. My child is very, very nervous, and finally he got to the Elbridge Smith School six months ago.

He had a wonderful teacher, and he did not attend all year but as much as possible. We lived only around the corner, but now if he goes to the Lucy Stone School I will have to take the bus—take him up to the school and bring him back home. He has glasses and a patch. He has to use a very bad eye. There are two more children. I cannot mention them because the father works for the School Committee. They will be wearing patches. Therefore, there are three children involved. We all have to travel the one mile; in fact, farther than even Mrs. Jones who was just here.

Now, I moved into my aunt's house. I am assured of a home for some time, but what do I do now? Do I go with the child? My income is \$25 less a week. It is going to mean that I am going to spend two dollars or more for carfare a month.

My child is going to be very disturbed. There are going to be days when he won't be able to go to school. Now, that is my problem. I am worried to death whether he goes to the Mary Hemenway, the Rochambeau, or the Lucy Stone, but I only live on Center Street. It is only right across the street.

Now what do I do? That is my problem. I know the Harvard Survey is wonderful. They are to be commended for whatever they said that should be done, but concerning the Elbridge Smith School, which is centrally located, I think they are wrong. I know because I worked at All Saints Church, and many of our children who attended All Saints Church go to the Elbridge Smith School. They may cross Dorchester Avenue, but there is a policeman right at the school there. However, should these

children be obliged to go to the Mary Hemenway School, they will be going through all inter-sections. There are no lights other than at St. Mark's Church, and that is for parochial school children, but not all will be going down there. There will be slippery sidewalks for my son.

Of course, I am really interested in my own son, but not so much my own child as all the children.

So that is my problem. I am worried, and I really think that if they put me in jail I am going to keep my child home from school. (Applause.)

Mrs. O'Hara. My name is Mrs. O'Hara. Madam Chairman and members of the Committee. I also have a son who has one eye that does not focus properly. He wears a patch, and he has for the last eight years had a murmur of the heart. This is the first year that the Children's Hospital has removed the restriction from him.

If he will have to go to school nine-tenths of a mile twice a day, I am afraid his health will be injured due to bad weather like the rain we had yesterday to have a sick child go back and forth.

So I think that if you would stop and reconsider your proposed closing of this school, you would do us all a public favor and we would be very grateful.

(The following recorded themselves in opposition to the closing.)

Joan Minton, 53 Nixon Street, Dorchester.

Eileen Monahan, 21 Wainwright Street, Dorchester.

Helen Tatvorian, 17 Wainwright Street, Dorchester.

Elsie Mooney, 267 Center Street, Dorchester.

Loretta A. Galvin, Redmond Street, Dorchester.

Eleanor Callahan, 6 Samoset Street, Dorchester.

Mrs. Ralph Benson, 67 Brent Street, Dorchester.

Lilli Goldman, 185 Center Street, Dorchester.

Florence Boles, 183 Center Street, Dorchester.

Elizabeth Salter, 7 Clementine Park, Dorchester.

Mr. Carr: Madam Chairman, I would like it if one of the majority prevailing members would move reconsideration of this particular closing and have it voted upon. I think that it is obvious from the Harvard Report here which recommends the abandoning of it in 1953 and that a 21-room school be built and completed by 1955.

If we just abandon this, you members know that we are not going to have any facilities in that particular district, and the problem is brought out by these people here and by these public officials. I think that it is only proper they should go out of here with peace of mind, and I see no difficulty in one of the prevailing members on this Com-

mittee making a motion at this time to continue the Elbridge Smith School.

I hope that you won't let these people go out in the same state of mind that they came in here. Contrary to any rules, we operate under the rules which are most convenient. We either adopt Roberts' rules or, when it is necessary, we operate under the rules of the School Committee. I believe you could very easily now reconsider your action in voting to close this school and send these people home with peace of mind and the knowledge that this school will be continued until some further date when we can see our way clear to put up much better facilities for them.

Miss Fitzgerald: Madam Chairman, I would like to second Mr. Carr's motion and ask that the people of the Stephen M. Weld School be given that same peace of mind that Mr. Carr refers to.

Mr. Muchnick: Madam Chairman, the suggestion made by Mr. Carr is just as out of order as the suggestion made by Miss Fitzgerald previously; and if I may say so, I do not believe it is fair to create any kind of an inference that those three members who happened to vote for this closing either acted hastily or acted without due regard for the lives and safety of little children or big children or grownups and acted carelessly or hardheartedly or in any way other than that which appeared to them in their honest exercise of their judgment to be for the best interests of all the school children and the parents of the City of Boston.

I would like this to take the regular procedure, and I also do not think it is fair to imply because there happened to be more people here than normally that the School Committee makes up rules as it goes along. We follow, to my knowledge, our own rules; and where they do not happen to cover a situation, we follow Roberts' rules of procedure.

Under our own rules as well as under the Roberts' rules, these motions for reconsideration by the two members who made them are completely out of order. It is my feeling that they know it, and I do not believe, frankly, that a School Committee meeting for the purpose of conducting serious business should, even by inference or by implication, be turned into a rally for political purposes.

Mr. McMorro: I object to that statement.

(Calls of "We all object.")

Mr. Carr: Madam Chairman, I can sympathize with the Representative for objecting to that statement. I think the member is out of order impugning the motives of these gentlemen who have come here in behalf of their constituents; and as far as two members on this Committee being unfair in trying to convey the idea that some members acted hastily in voting the closing of

these schools, may I point out that two members of this Committee were asked to vote on the closing of schools and we were not even given the courtesy of a copy of the order and we did not even know what schools we were being asked to vote on.

I asked at that time that it be held over, and it was not until two or three days later when we got a copy of the order that we were able to find out what schools this order pertained to. The member talks about being fair, and that certainly was not being fair. There is no such thing as adhering to any certain procedure as far as I can see, and I have been on this Committee a year and a half. I doubt very much if there is anything in the School Committee rules. There may be in Roberts' rules, but I doubt very much if he can point out any rule in our School Committee rules that says the order for reconsideration has to come from the prevailing side.

Mr. McMorrow: Does Roberts' rules cover this letter that I received from the Chairman promising a public hearing? (Applause.)

Mr. Carr: Madam Chairman, I hope that one of the majority members here will have the intestinal fortitude to come out and admit he made a mistake in this particular instance and act on this order tonight.

Miss Fitzgerald: Two instances.

Mr. Carr: Two instances, as my colleague has said.

Chairman: If there is no one else to be heard tonight, we will be very glad to take these under advisement.

Mr. Beades: Madam Chairman, may I just say one word? We have tried to conduct ourselves in an orderly fashion here. I think, as has been indicated already, each member of this Board has known that from the time this plan was originally let out as a public document we protested the proposed closing of the Elbridge Smith School. We held a public hearing at the Dorchester High School. We have submitted petitions to your honorable body, and tonight we are here not as politicians but as people who are interested in the maintaining of a school for the children in the district.

You see just a small gathering, believe me, of people. If we wanted to storm you tonight, it would have been the easiest thing in the world to do to go out and bring everyone in here. These are just a representative group of the people who are affected; and if you would like to hold another hearing and invite the people of that particular area—and it will be that particular area only and only those who are directly interested present—I think you will be astounded by the number who will show interest, whether it is at twelve o'clock at night or eight o'clock in the morning to be present, but I would not want

you just to think that the small group here are just those who are interested. Others were willing to come, but rather than upset the procedure of your School Committee and rather than not have things run in an orderly fashion, this is what we decided to do.

So, if you will keep that in mind and if you do give consideration and do correct your mistake—and I honestly believe you have made a mistake, and I hope that you are men and women big enough to admit that you are not infallible, since no one is infallible—I hope you take that procedure.

Chairman: Thank you, Representative.

Mr. Muchnick: Madam Chairman, I would like to point out that, just as there are people who protest things, there are people who approve of things; and with specific reference to the Elbridge Smith School, from an address in Wellesley Park, I have a letter addressed to me from somebody whom I do not know to this day.

"Dear Mr. Muchnick: 'This is just a word of encouragement to you and the others who have taken a definite stand for economy in the Boston School System. I attended the Elbridge Smith School and was graduated from the Dorchester High School for Boys in 1934.

'I fully approve of your action in connection with these schools. Because of his association with Dorchester schools, having been principal of Dorchester High School 1865 to 1889, I hope that sometime when a new school is built somewhere in Dorchester it will be possible to name it the Elbridge Smith.

"Please accept my sincere congratulations on the position you have taken."

I would prefer not to mention the name of the particular person.

Mr. Farin: Madam Chairman, regarding Mr. Muchnick's letter, what district does Wellesley Park take in? Does it take in the Elbridge Smith School or does it take in the Rochambeau or does it take in the Champlain School? I believe you will find it is the Champlain.

Mr. Muchnick: Madam Chairman, I read a letter which I believe is self-explanatory.

Mr. Farin: That is the Champlain School and not the Elbridge Smith School, so they are so far out of order—

May I at this time read a letter from His Honor, the Mayor?

Chairman: Yes, you can read anything.

Mr. Farin: This is addressed to Mrs. Myrtle McDonald, 7 Clemantine Park, Dorchester, Mass.

"Dear Madam: 'I have your letter relative to the proposed closing of the Elbridge Smith School. The matter of closing schools is strictly within the province of the School Committee. The Mayor has no

authority in this matter, and I am sure I do not know what schools should remain open and what schools should be closed.

"I do know, however, that our school costs in Boston are abnormally high in comparison with other cities, and I do know that we have an accommodation for 125,000 pupils with a school population of 90,000.

"Certainly school costs should be reduced, and certainly some schools should be closed. I will inquire from the Committee the situation at the Elbridge Smith School. If I believe the Committee is making a mistake in closing this school, I will so state to the Committee. In the meantime you might suggest to State Senator Keenan and Representative McMorrow that whatever influence they may have in this matter should be brought to bear on members of the School Committee."

This is addressed to the Honorable John P. McMorrow, the House of Representatives, State House.

"Dear Representative McMorrow:—

This is from the School Committee, incidentally.

"This office has received many communications protesting the closing of schools as the result of the recently issued report of the Center for Field Studies, Graduate School of Education, Harvard University, among which is one from you addressed to Superintendent Haley.

"I have been directed by the Chairman to inform you that the recommendations made by the Survey Committee are suggestions only and will require study which will take some length of time."

Suggestions only—at the cost of \$10,000!

"In the meantime, no action has been taken by the School Committee on the Report, nor is action contemplated at present. If and when any action is to be taken, we will endeavor to notify you and give you an opportunity to be heard by the School Committee.

"May I thank you on behalf of the members of the School Committee for your interest in the Boston Public Schools as expressed in your letter.

"Very truly yours,

Agnes E. Reynolds,
Secretary."

Mr. Muchnick: Madam Chairman—

Mr. Farin: Madam Chairman, I still have the floor and I do not yield. All I have to say is that I believe, Madam Chairman, that we came up here in good faith, as has been stated by my previous colleagues in the State Legislature. We conducted ourselves as gentlemen. We did not come up here to hold a political rally, and I personally resent anyone inferring or impugning my motive in that matter.

Now I expected it, but I did not know how long it would take before we would get such a sarcastic outburst. Now I ask, Madam Chairman, through you to, have Mr. Muehnick explain whether he was referring to the public officials representing the Elbridge Smith School or to other individuals in this room when he referred to the fact that this was being held as a political rally.

Chairman: I don't think that is really my province to ask any member of the Committee. I think everyone tonight has been very free in expressing himself, and I took no part in either asking them to refrain or doing anything else.

I think they were very vocal, and they talked as long and as loud as they wished. I think that is just the duty of the presiding officer to allow people to express themselves on this side of the table and on that side of the table; and I think that to ask me to do anything else is just a little bit outside of what any presiding officer would be asked to do.

Mr. Farin: I don't believe the opposition to the closing of the school cast aspersions on the School Committee. We asked you to reconsider. We asked you to consider the lives of the children, and that is all we asked. We asked you to keep the school open until you build a new school. We at no time questioned your motives.

Chairman: I think we answered you, Mr. Farin, by saying that we have a record of everything that has been said tonight, and I think that this Committee is a very hard working Committee. They have tried to do the best for the people of Boston and for the taxpayers of Boston; and if there is anything in the record here that would move us to change our decision, I do not think anybody on the Committee is too small to admit they are wrong if they feel that it is necessary to change their action.

We will be very glad to take it under advisement.

Mr. Farin: I agree with you, Madam Chairman. Therefore I ask Mr. Muehnick to explain it away. He is not too small in that case.

Miss Fitzgerald: Madam Chairman—

Chairman: Is there anyone else who wishes to speak?

A Parent: May I address the Chair in behalf of the Weld School in Roslindale?

Chairman: Yes, you may.

A Parent: I don't know how to begin. I am a little embarrassed coming up here with these working clothes on but I am just one person who bought a house near the school for convenience's sake so my children would not have to cross streets.

Now I don't have too good an education, but to make a long story short I bought my home to

be conveniently near the school. I have a little boy six and a daughter nearing two, and I pay roughly \$500 to \$600 a year in taxes. I would like my taxes cut just the same as anybody else. I work hard for a living, and I don't expect much from life except to be comfortable and enjoy life; but if my taxes are going to be cut, as far as cutting them in regard to my child's safety or his education, that is hitting below the belt, and I don't like it one bit.

Now another thing I would like to bring up is this—this matter of supplying buses to bring these children to the other schools once this other school is closed. It would cost you actually maybe more or just about the same amount of money running this bus back and forth to the other schools. It would probably cost you more. I know one figure was quoted to me as costing you roughly around \$10,000 a year. I don't think that little school exceeds around \$12,000 a year.

Another thing which is a heartbreaking thing is this. I don't know whether you people are familiar with that section, but Cummins Highway is being repaved, Hyde Park Avenue is being repaved, and you know what that means to cars. They start whooping it up. That is another menace.

If any of you have ever walked around that section, you will see how dangerous it is to cross those streets because they are very wide and everybody drives through there like maniacs, including the small side streets.

I don't see why the School Committee should not admit that they were a little hasty in making this decision. They should go into each school individually and make a thorough diagnosis.

I think just taking a group of schools and saying, "We are terminating them to save the people taxes," is a little bit too hasty as far as I am concerned. I mean I feel this way. Each school should be taken individually and its problems looked into and then have a decision made; but as for having a hasty decision made, it is silly.

This school has just been improved. It has had new entrances and there was a lot of money spent on improving this school. This school is now considered modern and up-to-date and almost fireproof. I can't see all that money being spent on the school going to waste. I cannot see what taxes are being saved.

Another thing. If the school should be closed, there is no place for the children to play except in the streets, and then they have juvenile delinquency again and they hang around corners and they get into mischief.

I was a kid like everybody else. If I did not have something to do, I would think it was fun to

hit a lamp post with a brick or something. You know what all that leads up to.

So I would like to conclude this way. With all due respect to each and every member of the School Committee, you should not continue in haste but take each school individually and make a more thorough diagnosis of the thing. Thank you. (Applause.)

Miss Fitzgerald: Madam Chairman, I think the last speaker has made a suggestion with which I am heartily in accord, and I hope that before any closings are definitely made all districts will be taken school by school and that there will be hearings given to each particular area in which a closing is proposed.

I believe I proposed that on May 6th so that there would be an opportunity for people in each area to examine into the facts and see what was practical and what was best for each individual area, and no heed was paid to that suggestion at the time.

Chairman: If there are no further people to be heard, we will go along with the meeting.

2. Three orders re-consolidations of schools, etc. (In conference July 9, 1953.—laid over for next meeting.)

Superintendent: Madam Chairman, do I understand you are leaving Item 2?

Mr. Muehnick: Madam Chairman, Item 2, as I understand it, is something that is necessary solely in a public meeting if necessary at all.

Chairman: That is one thing that I asked. I had a note and I asked Miss Reynolds about it, earlier. Whereas a vote was taken earlier, I cannot see why it is necessary again to take a vote anyway. I would like that explained to me.

Secretary: Mr. Muehnick, didn't you suggest that the Secretary make the orders for the next meeting and prepare the necessary orders?

Mr. Muehnick: If they are necessary.

Secretary: I have here: Motions were passed, and the Secretary was directed to prepare the necessary orders to be considered and individually read for the meeting on Thursday, July 9th, when schools mentioned can be closed. That is my interpretation.

Mr. Muehnick: And if that is a necessary detail, Madam Chairman, it seems to me it is solely a matter for public meeting, and I suggest we go on with the rest of the conference agenda.

Superintendent: Madam Chairman, may I speak, please?

Chairman: Yes, certainly.

Superintendent: Madam Chairman, inasmuch as the previous speaker has said that the procedure will be to take up the three orders in public meeting, may I in conference present to the School Committee copies of a letter which I received from Mr. Stratton, the Director of the

Division of Vocational Education, in connection with the closing of certain of the State-aided high schools?

I wrote to Mr. Stratton, Madam Chairman, telling him that the School Committee had voted the closing of certain schools, and I said to him:

"As a result of this vote, immediate steps are being taken to vacate the Dorchester High School for Girls and at the same time to establish in this building a combined school of the Trade High School for Girls and the High School of Practical Arts.

"Would you be willing, please, to take whatever steps are necessary at this time in connection with the examination of this building and its location in the City? Would you be willing to inform me concerning plans and procedures I should follow with your department in order that State approval may be given to the combined school as voted by the School Committee?"

"Naturally I am anxious to move rapidly in connection with the problems that confront me in order that the students of both of these schools will be properly and adequately accommodated for the opening of school in September.

"Your assistance, advice, and cooperation will be gratefully received."

In response to that letter, inasmuch as the State must approve these schools—I am speaking of the State-aided schools—if we are to receive State aid, and we do receive a large amount of State aid in connection with the Trade High School for Girls, High School of Practical Arts, the Boston Trade High School, and Brandeis Vocational High School, Mr. Stratton sent me the following letter, and I would like to read this letter for the record and present copies to the members of the Committee for their careful consideration in connection with the problems that confront us before any vote is taken in the public meeting.

If you are willing, Madam Chairman, I would like to read this letter into the record and also present copies to the members of the Committee. Are you willing?

Chairman: Yes, certainly.

Superintendent: Here are the copies of the letter. This letter, Madam Chairman, as you can see, is from M. Norcross Stratton, Director, Department of Education, Division of Vocational Education.

The Commonwealth of Massachusetts

Department of Education
Division of Vocational Education
200 Newbury Street, Boston 16
July 17, 1953

Dr. Dennis C. Haley
Superintendent of Schools
Boston, Massachusetts
Dear Dr. Haley:

Your communication was received on July 11 regarding ac-

tion of the Boston School Committee at a meeting on July 7, 1953 which included the following items concerning State-aided Vocational Schools:

1. "Trade High School for Girls be housed in the building vacated by the Dorchester High School for Girls.
2. The High School of Practical Arts be combined with the Trade High School for Girls.
3. Brandeis Vocational High School be discontinued and its male pupils be transferred to Boston Trade High School."

The Department of Education, in approving Vocational Schools for State-aid under the provisions of Chapter 74 of the General Laws, has responsibility in regard to approval factors as to organization, control, location, equipment, courses of study, qualifications of teachers, methods of instruction, conditions of admission, employment of pupils, and expenditures.

Complying with your request for steps necessary to take in order for us to consider recommendations as to approval, we arranged for a visit to the Trade High School for Girls and to the Dorchester High School for Girls. Dr. Leo Daley, Assistant Superintendent of Schools, John F. Shea, Assistant Director of the Vocational Division, Miss Caroline H. Wilson, Supervisor of Girls Trade Schools and Industrial Education, and the undersigned, visited the present Trade High School for Girls and the Dorchester High School for Girls. I am submitting to you our recommendations and reactions in which we unanimously concur regarding the proposed transfer of the Boston Trade High School for Girls and the High School of Practical Arts to the Dorchester High School for Girls:—

1. Inspection of Dorchester High School for Girls

The Dorchester High School for Girls building was inspected by the group to determine adequacy of the building as to number, size and physical condition of the rooms to house both the Trade Education Program and the Household Arts Education program. It was presumed that the same trade training opportunities will be continued as have been in operation during the past several years, namely, Catering, Dressmaking, Millinery, Power Stitching, Scientific Care of Hair and Skin, and Tailoring. Accordingly, the building was inspected keeping in mind the need for shop, related and academic classrooms, administrative offices, gymnasium, assembly hall, and cafeteria. While inspecting the building, it seemed an opportune time to consider facilities for a possible Practical Nursing Program which might advisably be organized in the near future.

2. As to Facilities

The Dorchester High School for Girls is entirely too large a building to house the combined Trade High School for Girls and the High School of Practical Arts in view of the present enrollment. With a capacity of 1800 pupils in the Dorchester High School for Girls, the anticipated combined enrollment of the two above named schools of approximately 450 pupils would occupy only about one-quarter of the building presenting very difficult administrative problems and, as we see it, an unwarranted expense for maintenance. There is a tremendous problem of converting rooms designed for academic class work to rooms for shop work involving machines, beauty parlor equipment, cooking equipment, etc., requiring adequate facilities for power, gas, plumbing, ventilation, etc.

3. As to Cost.

From our point of view, the cost of maintaining such a large building as the Dorchester High School for Girls for possibly 450 pupils would be almost prohibitive. As fifty percent of the net maintenance cost of approved State-aided Vocational Schools is borne by the State, this transfer of schools appears to be uneconomical and in view of the many disadvantages, questionable.

We could not justify a recommendation for approval until we have more definite information as to the proposed manner of using this building. The expense of moving equipment from the Trade High School for Girls and from the High School of Practical Arts and of re-locating the shop facilities involving renovations, alterations, plumbing, gas fitting, electrical wiring, lighting, etc., would be a very sizable item for the City of Boston and in some instances the State. All this will require much study and planning before such a move could be made.

4. As to Location

The Dorchester High School for Girls is not in a strategic location as far as the Trade High School program is concerned. Productive work of high quality and quantity is a requirement of all State-aided Trade Schools. The productive work of the Power stitching, Dressmaking and Hair-dressing departments, especially, would be affected if the Trade High School for Girls were to be moved from its present central location, as customers are not likely to be willing to make the extra effort to travel to the Dorchester area.

The part-time and full-time employment of pupils would also be affected if the Trade High School for Girls is moved from its present location. In rush seasons and in emergencies, the girls have had much part-time employment in gown shops and in alteration departments of stores on Newbury, Boylston and Tremont Streets. The same situation of

available part-time jobs is also true of pupils in other trade departments.

There are many hospitals in the area of the present Trade High School building, which hospital facilities could be used, should the Practical Nursing Program be organized in the near future.

The present location of the Trade High School for Girls is also an advantage because of transportation facilities and the fact that the area is well policed and safe. This building has recently been redecorated and expensive fire escapes added. We feel that the Trade High School for Girls, in its present location, could well include a program in Homemaking Education to accommodate those girls who might be interested in an all-day Homemaking Program and who have been enrolled in the High School of Practical Arts.

Although the location of the High School of Practical Arts does not have the advantages of the present Trade High School location, it is easily accessible from the Dudley Street Station. Also, the building itself in number and size of rooms and other facilities could house, satisfactorily, a combined Trade Education and Homemaking Education program of the size anticipated during the next few years. The High School of Practical Arts building would provide better facilities for the combined schools than would the Dorchester High School for Girls.

5. As to the Homemaking Education Program

In order to determine the physical facilities needed, serious consideration needs to be given to the Homemaking Education Program and decisions made as to the best type of organization for this program. It would seem that the all-day Homemaking School organization would function more satisfactorily in combination with the Trade School organization than the High School Department organization now carried on at the High School of Practical Arts.

Girls desiring a lesser amount of Home Economics instruction and more of the traditional high school program might well be interested in enrolling in their neighborhood high schools.

The type of Homemaking Education program to be offered, and the approximate number of pupils to be served, should be decided upon in order to determine adequate housing facilities.

In other Trade High Schools for Girls in Massachusetts, for example in Springfield and in Worcester, Homemaking Education programs are in operation. Girls who have started in the Homemaking program have been permitted to transfer to a Trade Department at the end of a year or two when their interests, abilities and needs have

justified such a change. This is an advantage to the girls.

In considering the adequacy of the facilities, it would also be well to know if plans include serving Adult Homemaking and Handicraft classes (Evening Practical Art) in the same school building.

6. As to Approval of other State Departments

Attention is called to the fact that the State Board of Registration in Hairdressing must also grant approval for any change in location and physical facilities of the Hairdressing program.

Likewise, if a Practical Nursing program should be organized, the State Approving Authority for Schools of Nursing must grant approval for the location and facilities, along with other approval factors.

7. Recommendations

In view of the complicated problems involved in the proposal to combine and move the Trade High School for Girls and the High School of Practical Arts and the need for a comprehensive study and detailed planning by persons familiar with the requirements for Vocational Schools, we consider it impossible to effect the proposed changes by September 1, 1953. We recommend that no action be taken on the proposed change of location of the Trade High School for Girls and the High School of Practical Arts until such time as an adequate study can be made by the Division of Vocational Education and the Boston School Authorities and a definite plan presented which would justify the proposals and enable us to consider recommendations for approval.

As to the proposed closing of the Brandeis Vocational High School and transferring its male pupils to the Boston Trade School, I cannot express an opinion as to this matter until we can study the facilities at the Boston Trade School for accommodating this group and get specific figures as to the number and type of pupils involved. It would seem to me that in order to comply with the law providing for Vocational opportunities to pupils of 14 years of age or over and who have completed the sixth grade, some provision should be made for the establishment of a General Vocational opportunity in Boston. This matter will be considered later.

Respectfully yours,

(Signed) M. Norcross Stratton
Director

Superintendent: Madam Chairman, I want you to have this letter from the Director of the Division of Vocational Education in the Department of Education as a matter of record and have it for your consideration and for the value that you wish to place upon it.

Mr. Muchnick: Madam Chairman, I am somewhat amazed that there should be any director in direct indication or implication, as I get it from my reading of this letter, that the location and size of the real estate owned by the School Department should determine educational policy.

Now with reference to this letter—and I wish I had had it sooner so that we would have had more chance to analyze it—the last paragraph of it refers to the Brandeis Vocational High School closing and the transfer of the pupils.

I would like to remind everybody here that two or three years ago, as I recall it, without prior consultation with Mr. Stratton, the Superintendent recommended—and the School Committee, acting on the recommendation—closed the Brandeis Vocational High School and transferred its pupils to the Trade School and reopened it later when it got certain facts that had not been made known to it when the original recommendations were made. However, coming to the first part of the letter itself, on page 2 it talks of different courses that are offered for Trade Education in the household arts education program, and in the last sentence of the first paragraph there is a discussion of practical nursing.

The letter does not tell us in what way a better course for practical nursing, if ever adopted, could be established at the Trade High School building rather than at the Dorchester High School building on account of its facilities.

Then in paragraph numbered 2 it talks about the difficult administrative problems of 450 pupils in an 1800-pupil building.

Well, for the past few years there have been between six and seven hundred girls—I don't believe it reached the figure of seven hundred—rattling around in the Dorchester High School, the 1800-pupil building, and no serious problems of administration have been reported to us at all.

If the building is too large, as it obviously is, it was too large for the 600 or so girls who were in there in an academic course as well; and I imagine that there is every probability that unused portions of the building will be closed down and not heated and not lighted. That is only one minor detail.

There is also mention in this paragraph of the tremendous problem of converting rooms designed for academic classwork to rooms for shop work involving machines, beauty parlor equipment, cooking equipment, and so forth.

At the outset let me state that there is at least some cooking equipment at the Dorchester High School for Girls because that is one of the courses taught there in what I believe is called the Home Economics course.

Secondly, I wonder how many machines, whether they be ordinary sewing machines or power stitching machines or beauty parlor equipment or anything of that nature, would have to be moved from the Trade High School for Girls where there were, I believe, approximately 250 pupils.

That is right, is it not, Mr. Daley?

Mr. Daley: At the end of the year.

Mr. Muchnick: At the end of the year, about 250 pupils. Now obviously those girls did not all take the power stitching course and did not all take the beauty parlor course, and they were split up into smaller groups; and for small groups of 15 or 20 or 40 or 50 taking certain types of courses, you obviously do not have many machines and you do not have big machines, and they do not constitute a problem.

At the other school, the High School of Practical Arts, I believe they ended up with about 200, Mr. Daley?

Mr. Daley: High School of Practical Arts? We ended up with about 350. We started off with 401.

Mr. Muchnick: Up at Trade School how many did they have that they ended up with? The total figure is 450 pupils for both schools.

Mr. Daley: Mr. Stratton took into account that at the Girls Trade School there are sixty non-resident pupils who most likely will not attend the newly established Girls Trade School in the Dorchester High School building. He also pointed out that these sixty pupils from outside cities pay the City of Boston \$300 each for tuition.

Mr. Muchnick: But we will have 450 pupils from the combined schools?

Mr. Daley: Mr. Stratton and Mr. Shea and Miss Wilson and I sat across the table and we agreed after much discussion that many pupils would not go that distance from Charlestown and East Boston. That is an estimated figure, Mr. Muchnick.

Mr. Muchnick: On the question of distance I am glad you brought it up, Mr. Daley. We now have in the City of Boston the so-called district high schools, and many people are misled by that. The district high school in Charlestown is the school at which we teach electricity, and boys from all over the city go to the Charlestown High School. The Brighton High School, theoretically a district high school, is a high school at which we teach the automobile trades, and boys from all over the City and from outside the city go to the Brighton High School.

The Dorchester High School is clearly as accessible as is the Charlestown High School or as is the Brighton High School. It is on a main car line from Ashmont or from Dudley Street, and this business of customers not being willing to make the extra ef-

fort to travel to the Dorchester area, I don't frankly feel is so; but even if it is so, we are not running schools for the customers who want to trade there and buy some of our items that the girls or the boys happen to make.

On the question of a part-time and full-time employment of pupils being affected, it so happens that the Dorchester High School for Girls right now has the cooperative course.

Mr. Daley: They leave at noon-time, sir.

Mr. Muchnick: On page 3, the third paragraph, there is a suggestion that the Trade High School for Girls is in an area that is well-policed and is safe. Frankly, I resent the implication that the Codman Square area or the Dorchester area of Boston is not well-policed and is not safe.

So far tonight all we have been hearing are indirect slams at a police department that does not take care of traffic and now does not have its areas well policed and does not have them safe; and a recent survey shows us that we have more police per capita in Boston than in any other city. The whole report here, it seems to me, is full of many more holes of the type that I mention, and I think we ought to proceed with the rest of the agenda.

Mr. Daley: Madam Chairman?

Mr. Carr: Madam Chairman?

Chairman: Mr. Carr?

Mr. Carr: I would like to point out that as one member of this Committee, I am not at all surprised at this report or letter as submitted by M. Norcross Stratton. It is just another example of a public official doing a conscientious job and protecting the funds of the Commonwealth.

The previous speaker did not bring out the fact that we receive a subsidy of fifty per cent for Boston Trade High School, Trade High School for Girls, and the High School of Practical Arts, and Mr. Stratton is the man who passes on that.

We also receive a subsidy from the State for Brandeis Vocational High School, and this letter shows the care and the conscientiousness of the man before he is handing away State funds.

I would like to point out that for Boston Trade High School we received a reimbursement from the Commonwealth of Massachusetts for that school for the year September 1, 1931, through August 31, 1932, of \$260,074.49. For Trade High School for Girls we received from the State \$68,236.16. For the High School of Practical Arts, \$71,853.75. Brandeis Vocational High School, \$110,423.78.

I think this letter should have been solicited before this Committee saw fit to place that subsidy in jeopardy. It definitely says here that Mr. Stratton is against these recommendations as proposed by this Committee; and if we go ahead and put Trade High School for Girls and the Dor-

chester High School for Girls now and the High School of Practical Arts, combined with Trade High School, we could very well place in jeopardy this reimbursement from the State, and I think his report here indicates clearly that we will have no hope of getting it.

I hope that your Committee will postpone these orders that you have seen fit to recommend or to vote on at a previous meeting, and I regret the fact that you did not have this information prior to your hasty action in voting on these orders.

It seems absurd that your Committee will place that amount of money in jeopardy when we are talking about the high tax rate. When you place that in jeopardy, I feel positive that if you go ahead with these recommendations you will get no aid from the State.

Mr. Muchnick: Madam Chairman, I do not want to belabor the point at all, but it was either two years ago at this time or three years ago—I am not quite certain—when, on recommendation of the Superintendent and of Mr. Daley, the assistant superintendent in charge of high school education, without any reference to the amounts of money received from the State Aid concerning Brandeis Vocational High School—which, as Mr. Carr says—is approximately \$110,000—and without in any way seeming to be concerned about it, the Superintendent recommended the immediate closing of Brandeis Vocational High School.

It was done on his recommendation and it was not, as I said before, until certain facts came to light at a subsequent meeting that action was taken to reopen it.

Superintendent: Madam Chairman?

Mr. Muchnick: If it was important then it is just as important now; and if it was not important then, it is not important now.

Mr. Carr: Madam Chairman, in all fairness to Mr. M. Norcross Stratton, Director, as pertains to Brandeis, in his concluding paragraph he says, "As to the proposed closing of the Brandeis Vocational High School and transferring its male pupils to the Boston Trade School, I cannot express an opinion as to this matter until we can study the facilities at the Boston Trade School for accommodating this group and get the specific figures as to the number and type of pupils involved."

I don't think there is any question that possibly Brandeis could be closed, but to follow these recommendations of combining the High School of Practical Arts and the Trade School, or the proposals that your Committee saw fit to vote on, it seems to me that it is obvious that these steps should not be taken, unless you want to place in jeopardy money to that amount.

Mr. Daley: Madam Chairman, may I make a statement for the record?

Chairman: There are no objections.

Mr. Daley: The Division of Vocational Education of the Commonwealth of Massachusetts stated to me that enrollment in all-boys' trades schools throughout the State is high. On the other hand, enrollment in all-girls' trade high schools is low. The trend is not typical to Boston only. It is applicable in all towns and cities in the Commonwealth, and they look for a further decrease because of the ease with which unskilled people, particularly girls, can get jobs at this time.

Chairman: Mr. Daley, may I say with reference to other districts in the Commonwealth, that, he mentions Springfield here. Springfield had their trade schools and their vocational education scattered about in the different sections of the city, and for economy reasons they combined all of their trade activities into their new trade school up there, which is one of the best trade schools in the State.

Mr. Daley: Physically and academically and in its courses it is one of the best.

Chairman: And in administration, too.

Mr. Daley: I agree with that.

Chairman: If it is good for one place to put it all under one head, it is good for some place else, too. There is some specific reason, and I will find out what it is, too.

Mr. Daley: I hope you do, Mrs. Lyons, because this report, incidentally, was approved by the Commissioner of Education before it was sent to the Superintendent of Schools.

Chairman: I will talk to the Commissioner of Education, too, on it.

Superintendent: Madam Chairman, may I speak?

Chairman: Yes, you may speak.

Superintendent: As Superintendent, I certainly do not want to have the School Committee blame me at a future time in regard to the possible loss of State aid for our Trade School for Girls especially, and for our High School of Practical Arts; and, so, immediately following the action of the School Committee, I called the Assistant Superintendents together, and that next day considered an overall plan and we have embarked upon it just as rapidly as is humanly possible.

At the present time, I have the Department of School Buildings drawing plans for the relocation of all of the equipment presently at the Trade High School for Girls in the Dorchester High School for Girls building. We have proceeded very fast.

Mr. Daley: On the following day, the second day after the passage of this order, I went to Mr. Stratton and talked with him

personally about the matter in order to protect our State aid; and Mr. Stratton requested a letter from me informing him officially of the School Committee action, and this is the letter in response to my letter to him.

Dr. Foley: Madam Chairman—
Superintendent: Could I finish, Dr. Foley?

Dr. Foley: Did Mr. Stratton say that at any time we would lose any State aid?

Superintendent: Mr. Stratton, Doctor, has said just what you have a copy of here.

Dr. Foley: I am not interested in what the copy said. Did Mr. Stratton say to you, while you were talking to him, that we would lose any State aid in any of our co-operative schools?

Superintendent: Mr. Stratton says here in his recommendations:

"We consider it impossible to effect the proposed changes by September 1st."

Dr. Foley: That is not my question at all.

My question is as to whether or not we will lose any State aid, and whether Mr. Stratton said that to you. Did he?

Superintendent: Mr. Stratton did not say that to me because I did not ask Mr. Stratton for anything but what he was willing to put in writing, and I am only—

Dr. Foley: You are talking about State aid, aren't you?

Superintendent: Exactly; and I am only putting it before this Committee because, as I said to the Committee on the occasion of the order, I could not assume any responsibility for the consequences.

Dr. Foley: Nobody expects you to do it.

Chairman: There is no reference made in any place here as to the danger of losing any State aid; and, knowing Mr. Stratton, I certainly feel that if he was confronted with information of that type and told that that was the impression that his letter conveyed, I think Mr. Stratton would be amazed.

Superintendent: Mr. Daley, do you care to react?

Mr. Daley: Yes, Madam Chairman. Mr. Stratton said that, according to Chapter 74, of the General Laws of the Commonwealth, his department must approve the location of all trade schools.

Chairman: That is true.

Mr. Daley: Not only the location but the administration of the school.

Chairman: Well, also, Mr. Daley—

Mr. Daley: And the possibility of success of the school. He said his department has not decided whether it will approve the location of these two schools in the Dorchester area.

Chairman: Because he is not sure whether they will be a success with the small number of pupils.

Mr. Daley: Because of the expense involved. I did not participate in any way in the preparation of that report.

Chairman: Well, I would like to talk to Mr. Stratton on that.

Miss Fitzgerald: Madam Chairman, could I ask Mr. Daley one question, please, concerning the trade schools?

Chairman: Yes.

Miss Fitzgerald: Isn't it true, Mr. Daley, that the productive work of the pupils is also part of the consideration for State aid?

Mr. Daley: Yes.

Miss Fitzgerald: In other words, if they cannot produce and sell a certain amount of productive goods, consumer goods, then their State aid hinges on that?

Mr. Daley: That is correct. Mr. Stratton also said you are combining two different curriculums. One has a college course in home economics, a special art. The other is a productive trade school.

Chairman: Then there is no way that they can do what other cities do and combine all of our activities when the numbers are so small in some of these schools?

Mr. Daley: If you want a suggestion some time, I will be very glad to give it. I wasn't asked in this particular instance.

Chairman: You are an administrator, Mr. Daley, and I presume that the administrators in this school system should act and help the members of the School Committee.

Mr. Daley: We certainly do. I think if you look into my record you will agree to that.

Superintendent: Madam Chairman, that statement by Mr. Muchnick pointed out very carefully what his stand was and what this Committee's stand was toward any opposition. There is no opposition on the part of any administrator as to doing this job.

Mr. Muchnick: Madam Chairman—

Superintendent: Could I finish, please?

Mr. Muchnick: Go right ahead.

Superintendent: Thank you. As I told you before, we will carry this out to the letter. I told you that I could not assume the responsibility for the consequences, and as a matter of record, I want to have this letter here before you for the record.

The problems, Madam Chairman, are great. We are working as hard as we can. The Department of School Buildings has its architects working on this whole order, and I hope that we will have them to Mr. Stratton at a time before he goes on vacation. He is going on vacation on August 6th, and unless these plans can be approved by him, then by that time I would say that it is going to be almost futile for us to go ahead.

Mr. Stratton has pointed out very definitely in one statement that he considers it impossible

to put the proposed changes into effect by September 1st.

Now you said, Madam Chairman, that he has not said that he will not grant State aid. I agree with you, but he tells you in one paragraph that under Chapter 74 of the General Laws it is his responsibility, and in another paragraph here he says that Dorchester High School for Girls was inspected, and he tells you what his opinion is now with regard to its location as a joint school.

Mr. Muechnick: Madam Chairman, I don't know whether we ought to institute remedial reading courses for some of the people who are employed by the school system as well as for some of the pupils who unfortunately have not grasped reading properly; but I think it is very clear in the statement which I made concerning consolidations, that any sabotage or unwarranted and phoney opposition to closings would be looked on with disfavor.

It seems to me that not only is it the privilege of any administrator to suggest any proper objection that he or she has but it is his duty. That is what they are being paid for, among other things, and it seems to me that that is what they should do.

Superintendent: Madam Chairman, do you want my opinion now?

Mr. Muechnick: I want your opinion on the school system at all times, Mr. Superintendent.

Superintendent: All right.

Mr. Muechnick: And usually I have difficulty getting it.

Superintendent: No, you never have difficulty getting it.

Madam Chairman, my opinion is this: That these girls from the Trade High School for Girls and the High School of Practical Arts are going to be frustrated at the opening of the school year in September. We have a tremendous problem of trying to convert all of the DC machines—machines that operate on DC current in the Trade High School for Girls—into machines that will operate on alternating current at the Dorchester High School for Girls building, because of the area.

Mr. Muechnick spoke about the size of the building. It is true that there are a number of rooms in the Dorchester High School for Girls building. Mr. Stratton does not like the idea of paying half of the expenses for heating that building. We perhaps will have to go into tremendous construction to divide some of those rooms if we are going to block off a portion of the building. There is a tremendous building problem.

Mr. Stratton and his experts said to Mr. Daley that they have no idea of the expense involved. Is that a fair statement, Mr. Daley?

Mr. Daley: That is correct. Superintendent: The Department of School Buildings is not

able to give us any estimate of the cost of doing this particular job.

Mr. Stratton has offered one alternative. He has offered two, Madam Chairman, and they are very clearly stated in this letter. He speaks here about the Dorchester High School for Girls being entirely too large. He then goes on to say that the possibility of putting the High School of Practical Arts in the Trade High School building, where he foresees not the need then of transferring all kinds of equipment out of the Trade High School for Girls into the Dorchester High School for Girls building, was considered. He offers a second thought there in putting the Trade High School for Girls into the Practical Arts Building, but the idea, as I see it, from his letter, of taking two of these and transplanting them into a building which is purely an academic building, he says is impossible to do, and he recommends that it be studied further.

Mr. Muechnick: Mr. Superintendent, would you recommend putting the two of them into the High School of Practical Arts building?

Superintendent: Madam Chairman, if it is the School Committee's feeling—now, note this—that they want to combine the schools, if it is their feeling that they really must combine the schools, I would not go along and recommend that, you understand, Madam Chairman and Mr. Muechnick, but if it is the Committee's policy to make a combination, certainly I think you ought to take Mr. Stratton's implied suggestion of putting the High School of Practical Arts into the Trade High School building, and then trying to work out some course for those girls in the Trade High School building instead of transplanting two groups into the Dorchester High School for Girls.

Mr. Muechnick: Could that be worked out for September?

Superintendent: That I do not know. We have been working now since the 8th of July along the other lines, and will continue to work along those lines, Madam Chairman and Mr. Muechnick, faithfully and conscientiously until we are asked to do otherwise.

Mr. Muechnick: You will have plans when for the Dorchester High School project?

Superintendent: I cannot answer that question, Mr. Muechnick, because that phase is presently in the hands of the Department of School Buildings. I talked with Mr. O'Flaherty today, and he says that they are all out in the field working very hard trying to prepare the location of machines, and then in addition to that they have the whole problem.

I think, Madam Chairman, that you should all realize the type of equipment that is in the Trade High School for Girls.

For instance, would you describe, Mr. McMackin, the ovens? Is Mr. McMackin here? Describe the ovens in the Trade High School for Girls that must be moved.

Mr. McMackin: There are three heavy-duty ovens plus a Blodgett unit. These would have to be installed in the Dorchester High School for Girls.

Superintendent: Because those ovens are used for productive work—isn't that true, Mr. Daley?

Mr. Daley: Yes. Superintendent: What is the nature of the productive work for these girls under the Trade School plan?

Mr. Daley: Well, they cater to small parties. They sell food.

Superintendent: And it gives the girls an opportunity to make whatever is needed for, let's say, the area of catering.

Now, then, you have at the High School of Practical Arts something quite different. The ranges are more or less like the ranges in our own homes, because you have Home Economics there, and it is home cooking.

We have to take and merge two different types into one building. Mr. Muechnick speaks about cooking at Dorchester High School for Girls. There is one cooking room. At the High School of Practical Arts at the present time there are five cooking rooms with four in use. At the present time, at the Trade High School for Girls there are two of these catering rooms.

Mr. Daley: Double platoon rooms. There are really four, they are so large.

Superintendent: So that you certainly cannot do in one cooking room at Dorchester High School for Girls what it is now taking four to do it at Practical Arts, and taking the equivalent of four with a different point of view at the Trade High School for Girls.

Mr. Muechnick: Mr. Superintendent, assuming the change were not made to the Dorchester High School for Girls, would you recommend moving the High School of Practical Arts into the Trade School or vice versa?

Superintendent: Well, Madam Chairman and Mr. Muechnick, if the Committee wants to make a move, they can set the policy; and if you say to me, "There must be a move," then I would say to you that from my best judgment and from Mr. Stratton's judgment and Mr. Daley's best judgment, the best move is to leave the Trade High School for Girls where it is and move equipment from the High School of Practical Arts into the Trade High School for Girls and try to take care of the girls who are in the college course at the High School of Practical Arts—whom I am worried about—in some of the general high schools, or try to arrange some kind of a program for them at the Trade High School for Girls that does not involve too much equipment and

that will be of the home-making type and will get those girls into college.

How many in the High School of Practical Arts, Mr. Daley, in the college course?

Mr. Daley: Eighty in the college course.

Superintendent: Eighty in the college course have to be cared for.

In answer, Madam Chairman and Mr. Muchnick, if you say that this has to go through and you ask me for advice, I say, "Rescind your vote on putting the two schools into the Dorchester High School for Girls and let's start all over again, although we are now two weeks late, and try to put the High School of Practical Arts into the Trade High School for Girls combine both of them.

Dr. Foley: Madam Chairman, I move that rescinding so that the High School of Practical Arts goes into the Trade High School for Girls and combine both of them.

Mr. Muchnick: Before there is any rescinding of that vote, I go along with the suggestion that you made, Madam Chairman, that you wanted to speak with Commissioner Desmond, and I would like to speak with Commissioner Desmond also, and we can see then whether or not suggestion A or suggestion B is the better suggestion.

Dr. Foley: I think that is the best suggestion, Madam Chairman. I would just as soon have a talk with the Commissioner.

Chairman: I think that is what should be done.

Dr. Foley: I withdraw my motion.

Mr. Carr: Madam Chairman, for the benefit of the entire Committee, would it be possible to invite Mr. Stratton and Mr. Desmond to appear at a hearing here when we are considering this?

Chairman: I think it would be better to go there and talk to them in an informal way rather than have a hearing. I cannot see any point in a hearing at all. I think it is something where you sit down, and it's too costly to keep running all of this conversation off on a tape here. I think that there are so many suggestions that could be made and talked about in an informal manner that it would be much more satisfactory and I would move that we have an informal meeting with Mr. Desmond and also with Mr. Stratton and have him there.

Mr. Carr: That is all right, but I would like to be present when these conferences occur.

Chairman: There is no question about it. If you wish to be present, you may be present. That is up to you and not up to anybody else.

Mr. Carr: Some of them want to confer with him individually. I am asking that we all confer with the Commissioner of Edu-

cation and Mr. Stratton, and have them sit down at a conference. Have the Secretary notify us of the date. Would you do that?

Secretary: Yes.

Superintendent: Madam Chairman, if the Committee plans to do that, may I sincerely recommend that they try to do it Monday morning of this coming week because we are going full steam ahead along the other lines.

Chairman: I would be very glad to arrange a meeting with the Commissioner for Monday morning if it is satisfactory to the rest of the members.

Dr. Foley: Monday at nine o'clock?

Chairman: Ten o'clock.

Dr. Foley: The earlier the better for me.

Chairman: I will speak to him.

Mr. Muchnick: Madam Chairman, under those circumstances I move that we recess until Monday night at six o'clock.

Superintendent: Madam Chairman, before you recess, would you clarify one matter for me in connection with the consolidations?

Chairman: I think we can take that up Monday morning, Mr. Superintendent. It is very late now. I think there has been enough discussion regarding consolidations. The purpose is to make a scene and we have had enough.

Superintendent: I would like something clarified on the record, Madam Chairman, in regard to the High School of Commerce.

Dr. Foley: Are we adjourned to Monday or recessed to Monday?

Chairman: Yes.

Superintendent: Will it be a meeting?

Chairman: I believe that there will be an informal meeting.

Miss Fitzgerald: Monday there will be a meeting?

Superintendent: There will be a meeting on Monday at six?

Chairman: Yes.

The following is an extract from the Conference notes of today, July 27, 1953, relating to consolidation of schools:

Chairman: The first item on the agenda relates to the three orders concerning consolidation of schools.

Do you have those, Miss Reynolds? Will you read them?

Secretary: ORDERED, That the following schools be abandoned immediately and that the administration make plans for the proper housing of the pupils of these schools as of September, 1953, and that the Superintendent report to the Committee on or before August 10th concerning the provisions made:

1. Hobart Street School
2. William Wirt Warren School
3. B. F. Tweed School
4. Emerson School
5. Paul Revere School
6. Andrews School
7. Hawes Hall School

8. George Putnam School
9. Cora L. Etheridge School
10. Savin Hill School
11. Quincy Street School
12. Lyceum Hall School
13. Elbridge Smith School
14. Hugh O'Brien School
15. Richard Olney School
16. Stephen M. Weld School
17. Henry Grew School

Miss Fitzgerald: Madam Chairman, I should like to amend that order by excluding from that order two schools, the Elbridge Smith and the Stephen M. Weld.

Chairman: On the order, and we can vote first on that and then your amendment.

Miss Fitzgerald: You would vote first on the amendment if I am not mistaken, Madam Chairman, but you could check with Roberts' rules.

Chairman: How about it, Miss Reynolds — the order or the amendment?

Secretary: First the order or the amendment, Mr. Muchnick?

Mr. Muchnick: First on the amendment.

Secretary: This is Miss Fitzgerald's motion to omit the two schools from that list.

Mr. Carr: Would you read the names of those schools again?

Secretary: The Elbridge Smith and Stephen M. Weld.

Mr. Carr: This is a vote to exclude those two schools from the list?

Secretary: To omit them from the list, yes, Mr. Carr.

Mr. Carr: Well, Madam Chairman, inasmuch as when this order was originally put through I was unaware of the schools which were encompassed within this order, and since at that time I voted present, and now that the motion has been made to rescind it, I pass at this time.

Secretary: Not voting?

Mr. Carr: Passed.

Miss Fitzgerald: I vote to omit the two schools from the order.

Secretary: Yes, then?

Miss Fitzgerald: Yes.

Dr. Foley: No.

Mr. Muchnick: No.

Chairman: No.

Chairman: Now on the original order.

Mr. Carr: Madam Chairman, you may record me as Yes.

Chairman: On the order, including all those schools?

Mr. Carr: Madam Chairman, may I suggest that we vote on them individually rather than one package? There is no question in my mind that there are some of these schools that should be closed, and I think it is the consensus of many of our school administrators that there are some that could be justifiably closed and some that cannot.

I would like to ask you to have these schools voted on individually. The closing of some of them has great merit, and on some there is a question whether we should close them or not. I would like to have the privilege of voting on those that justifiably, I feel, should be closed

and voting against those that I do not believe should be closed, as far as maintaining an educational system is concerned.

Mr. Muchnick: Madam Chairman, there is one order here that includes seventeen schools. Those seventeen are the subject of one order. Miss Fitzgerald indicated by an amendment that she did not think that two of those schools should be closed, and she made a motion to amend, and by that motion intended to have two schools excluded. That was defeated.

Now it seems to me that where you had asked Miss Reynolds to call the roll on the motion itself, and where we had already taken up a vote on the amendment or one part of the motion, we should proceed with calling the roll.

Mr. Carr: Am I to understand, Madam Chairman, that the speaker is in favor of voting on one package, concerning seventeen schools—to close the seventeen schools?

Chairman: Well, Mr. Carr, if you wish you can do exactly what Miss Fitzgerald did. You can choose the schools and amend the order and the vote will be taken on it. It will have exactly the same effect.

Mr. Carr: Madam Chairman, I know that you will be very considerate in this, and you are aware that this is a matter concerning seventeen schools. I would like some time to draw up that amendment—probably three or four minutes, Madam Chairman.

Mr. Muchnick: Madam Chairman, first, in answer to Mr. Carr's question, the answer is Yes. I am in favor and would like to consider these seventeen as a package, and that was the substance of the statement and motion that I made several weeks ago.

With reference to time—and I don't object to anybody waiting three minutes or four minutes or ten minutes or any period—I cannot quite understand the request coming from Mr. Carr when, two meetings ago, he was joining with another member of this Committee in urging an immediate vote at the time. Dr. Foley was absent on the question of these orders.

Chairman: I could see no reason why, if there are any here that you wish excluded, you cannot do exactly what Miss Fitzgerald did and amend the original order to be a matter of record if that is what you want, Mr. Carr. You can do that if you wish.

Mr. Carr: Well, Madam Chairman, may I make this motion: that in view of the complications that have arisen during the past week relative to State aid, public relations with parents, the time necessary for remodeling and equipping the schools involved in the recently voted consolidation, it is evident that the previous action of this Committee was ill-considered, hurried, arbitrary and places an unnecessary burden on the parents, pupils and school personnel.

I know that there is no simple solution to this problem and that it is a very comprehensive and complicated problem, and, therefore, it should be studied carefully and then put into operation, a few projects at a time, in a more orderly way under the expert advice and direction of Superintendent Haley and the Board of Superintendents.

We are dealing with children and not checkers. Therefore, I move that the previous sweeping action of this Committee on consolidation be rescinded and also the motion to close these schools be rescinded and these be put into a study and I would like a vote on that, Madam Chairman.

Mr. Muchnick: Madam Chairman, a point of order.

Chairman: Just a minute, Mr. Muchnick. I asked the Secretary to call the roll on an order that was presented. One person answered. I would like very much to have you complete the roll, and then anything else that Mr. Carr has to say he may say.

Mr. Carr: That is my motion, Madam Chairman. I would like it to be considered some time this evening.

Chairman: This is the order that is going through first, Mr. Carr, and that is what was considered.

Secretary: This is the motion to adopt the order as read.

Mr. Carr: This is the motion that contains seventeen schools?

Secretary: Yes, sir.

Mr. Carr: To be closed immediately?

Secretary: Yes, sir. Mr. Carr?

Mr. Carr: No.

Miss Fitzgerald: No.

Dr. Foley: Yes.

Mr. Muchnick: Yes.

Chairman: Yes.

Mr. Muchnick: Madam Chairman, I would like to make just one observation. There has been talk of hasty, ill-considered, and so forth and so forth. I think if one would take the trouble to read the Strayer Report, which was published approximately ten years ago, one would find in the Strayer Report that most of these schools—the greater percentage—were recommended for closing then, and the Harvard Survey, in the main, merely said Amen, on that particular portion of it, and if ten years is not long enough to have studied something, then maybe we ought to have more than a twelve-year school system.

Mr. Carr: Madam Chairman, a situation that existed ten years ago has certainly changed during the last ten years, and the former speaker knows it as well as I do.

Chairman: Mr. Carr, may I interrupt you just a moment? This is no hearing, and there will be no demonstration from the audience. If there is, we will have to go into executive session. I will be very glad to have everybody here stay and listen to anything that goes on in the meeting, but it is not going to be disturbed by any demonstration.

Mr. Carr: Madam Chairman, ten years ago, if you go by the Strayer Report, there would be no need for a school in the East Boston or Orient Heights sections. There would be no need for a school in the Cow Pasture. There would be no need for a school in Mission Hill, but times have changed in ten years; and if they are basing their action on the Strayer Report as regards these schools, I doubt very much if the situation is the same in those particular situations as obtained at the time the Strayer Report was made.

Madam Chairman, may I point out that I have a motion before the body that I would like to have voted on. I move that the previous sweeping action of this Committee on consolidation be rescinded.

Mr. Muchnick: Madam Chairman, a point of order. The motion is clearly out of order. It is the negative of the affirmative action that has just been taken and it clearly has no place at this time.

Chairman: I realize that we have taken a vote on it, Mr. Carr, and the majority rule that it is the proper thing to do, and your motion is out of order. Do you want to say something, Miss Fitzgerald?

Miss Fitzgerald: I just wish to say, Madam Chairman, that I think, along with Mr. Carr, that the merits of each school closing should be discussed as each school is voted upon to be closed, and I think it is quite unfair to the public, particularly, that we have not voted on the schools individually.

Chairman: I cannot see how it would make one bit of difference. If you will pick out the schools, you do not want closed, or if Mr. Carr will do so, you can put it in the form of a motion. Mr. Carr had that same privilege accorded to him. He did not choose to take it. Therefore, that was up to him; and as far as the remark that you just made, Mr. Carr, with reference to State aid, I think that had better be straightened out right now.

At a conference this morning with the Department of Education, I certainly think the air was cleared very nicely as far as the intention of the letter which came from the Division of Vocational Education was concerned, and there was nothing in that that said anything about losing State aid, and they were very much disturbed to think that it was so misinterpreted by you that they were going to withdraw any State aid from our schools.

The Department of Education does not have the power to set up any courses. They have the power and they have the privilege then—

Mr. Carr: Madam Chairman, if this is for the instruction of the members of this Committee, I realize what power they have and what they can do, and there

is no need of your taking time to tell me what their power is.

Chairman: Mr. Carr, there certainly is need; and, as Chairman of this Committee, I am going to make the statement because you have misinformed the press and you have misinformed the public. There was no statement in the letter from Mr. Stratton that said anything like that, and they were very much concerned at the misrepresentation of their letter by a member of this Committee. I think that was very clear this morning. Am I right on that, Mr. Muehnick? You were there.

Mr. Muehnick: That is the impression I got, Madam Chairman.

Mr. Carr: Madam Chairman, I did not misrepresent anything. I merely said that in view of the letter that we received from M. Norcross Stratton, we could very well place any subsidy that we received from the State in conducting our vocational schools in jeopardy, and I was at the same meeting this morning as you were, and I asked Mr. M. Norcross Stratton and Mr. Herrick if this action of this Committee would place that money in jeopardy, and they said definitely it was in jeopardy.

Chairman: Did you hear Mr. Stratton say that?

Mr. Carr: Let me further state, Madam Chairman, that it is not a question of \$500,000. It is a question of over \$852,000, and I will read right from this report, here:

"The budget for 1953 of the School Committee of the City of Boston."

We received from the United States --

Chairman: Mr. Carr, you are out of order. What we are talking about is Mr. Stratton's letter.

Mr. Carr: Madam Chairman, may I continue?

Chairman: No, because that is not pertinent to this.

Mr. Carr: You have said that I misled the press.

Chairman: You have.

Mr. Carr: You said I misled the press in saying \$500,000. I would like to correct it and say it is over \$852,000, as shown right here in this report. It is \$85,000 from the United States and \$757,845.79 from the Commonwealth of Massachusetts, and that is our own report, Madam Chairman.

Chairman: Our own report is the amount of money that you have just read? That is what we get from the State but there is nothing in Mr. Stratton's letter, and they resented it terribly that you so misrepresented the fact that they were going to withdraw it, because they have no intention of withdrawing any money from the City.

Mr. Carr: Madam Chairman, I don't know whom you are trying to mislead now, but if you wish me to substantiate the fact -- Madam Chairman, would you yield, Mr. Muehnick? She has addressed her remarks to me.

I think I should be given the privilege of continuing.

Mr. Muehnick: I would like to point out --

Chairman: You talk too much, Mr. Carr.

Mr. Muehnick: Before the previous speaker answers your remarks or does not answer them or does whatever he wishes to do, I want to say that the entire discussion concerning State aid was concerned solely with high schools. Currently we have just concluded a vote on 17 elementary schools, and the closing of those 17 elementary schools will in no way financially affect our relations with the Commonwealth of Massachusetts.

As long as the matter has been brought up, Mr. Stratton's letter, regardless of whether Mr. Carr wants to interpret it one way or the other or other people want to interpret it the way Mr. Stratton and Commissioner Desmond seem to feel it should be interpreted, was based in part on information concerning a capacity of 1800 pupils in the Dorchester High School for Girls.

That information was furnished to him by an Assistant Superintendent of the School Department, and that Assistant Superintendent this morning stated that he had merely -- I am trying to be as accurate as I can remember it -- guessed at that figure of pupil capacity in the Dorchester High School for Girls and stated that an accurate figure would be closer to 1130 or 1140 pupil capacity.

Mr. Daley: Madam Chairman -- Miss Fitzgerald: Madam Chairman --

Mr. Muehnick: Now, in part, this letter of Mr. Stratton's was based on this information or hazarded information or estimated information in at least that one statement.

And then there were the further generalities in Mr. Stratton's original letter about prohibitive costs and unwarranted expense, and nobody this morning knew what expense or the cost would be in one school as against another, and nobody knew what in dollars and cents one move would take as against the other move.

I for one had the matter cleared up for me to my satisfaction very much this morning.

Superintendent: Madam Chairman --

Mr. Carr: Madam Chairman, may I just clear up something? I have been accused of misleading the press or someone. I would like to reiterate that on the basis of that letter the other evening I said that it would put \$500,000, over half a million dollars, in jeopardy. Now I find that it would be over \$852,000, and I asked Mr. Herrick directly and Mr. Stratton if that money could very well be in jeopardy because of the actions of this Committee, and they said it certainly could; and to substantiate that reply,

Madam Chairman, I will ask Dr. Haley if he did not hear them say so.

Is that right, Doctor?

Superintendent: Madam Chairman, that is true. I heard both Mr. Herrick and Mr. Stratton --

Chairman: You are misleading the public, Mr. Carr.

Superintendent: Madam Chairman, I would like to substantiate what Mr. Carr said -- that I heard Mr. Herrick and Mr. Stratton say that it would place the State aid in jeopardy.

Chairman: All right, then. Did you hear Mr. Stratton or Mr. Herrick give us a good reason why they have been keeping Brandeis Vocational open with 234 pupils as of December 31st at a cost of \$212,000 to be divided between the State and the City with a pupil-teacher ratio of 9.4?

Superintendent: Madam Chairman, I will be glad to answer it if you are directing it to me.

Chairman: No, I don't care for an answer because I don't think you are telling the truth about it.

Mr. Carr: In all fairness to Mr. Stratton, you should allow an answer to that, and they had a perfectly good answer as to why they kept Brandeis open.

Superintendent: They certainly did.

Chairman: You are out of order.

Secretary: ORDERED. That the Theodore Roosevelt Junior High School be converted forthwith to an elementary school and that its pupils be transferred to neighboring junior high schools. Mr. Carr?

Mr. Carr: No.

Miss Fitzgerald: No.

Dr. Foley: Yes.

Mr. Muehnick: Yes.

Chairman: Yes.

Chairman: The third order.

Miss Fitzgerald: Madam Chairman, now that we are on the order of high schools, if that is what we are progressing to -- is that true?

Chairman: Yes.

Miss Fitzgerald: I should just like to say that there was one thing very clear from the conference that we had at 200 Newbury Street this morning, and that was that it might have been a very good procedure for this Committee to have consulted and sought the cooperation of the State Department of Education in making these amalgamations and closings because, as Mr. Carr has said, that money that the State has aided us with in our high school programs was placed in jeopardy by such a precipitous amalgamation order.

Chairman: Not at all.

Mr. Muehnick: Madam Chairman, as I got some of the figures the other night and this morning, one of the figures was the \$105,000 worth of State aid that you mention for Brandeis Vocational High School.

Chairman: It is a crime.

Mr. Muehnick: That brings us up to a minimum of \$210,000 or

\$215,000 of expenditure between the City and the State for teaching some 220 or 230 pupils, or roughly at the rate of at least a thousand dollars per pupil.

Now, you can go to Exeter or Andover or Harvard or Yale or Boston College or Holy Cross or anywhere else for less than a thousand dollars per year; and it seems to me that if we are going to lose that \$105,000 in State aid by transferring the Brandeis pupils elsewhere, that would be the most profitable loss that both the Commonwealth and the City could take.

However, the facts are that if we lose Brandeis and transfer its pupils to the Trade School or any other school, we won't lose one dime of State aid in the Trade High School or anywhere else where we are now getting it if we continue in the schools that remain the same courses that we now have that are already State-aided and State-approved.

The same is true if we discontinue the High School of Practical Arts and if their pupils are housed elsewhere.

There was one sound suggestion—at least it was as I see it—that came out of this morning's conference. It was felt by Commissioner Desmond, Mr. Stratton, Miss Wilson, and others that it might not be possible to convert the Dorchester High School in time to house both the High School of Practical Arts and the Trade High School for Girls; and it was felt by them and by others without knowing the actual costs, that it might cost a lot of money to do it, and it was also felt that the total anticipated enrollment of 450 girls was an optimistic and high figure and might run down to 400 or possibly below, and therefore it was suggested that the High School of Practical Arts, if discontinued—and I believe it should be discontinued—have provision made, at least on a temporary basis, in the Trade High School for Girls for such period as may be necessary while the entire Trade High School courses and so forth are studied and re-evaluated to see how many girls are going to go to that type of a school and whether or not it would be feasible to house it in the Dorchester High School for Girls or anywhere else.

And I believe, Madam Chairman, that that statement summarizes at least that portion of what this morning's conference was about somewhat succinctly, and I believe, accurately.

Chairman: That was it exactly, and I think that was almost the entire discussion this morning in brief.

Mr. Muchnick: And therefore, Madam Chairman, with reference to this order I move that paragraph No. 2, for the time being until further study of the whole problem can be made, be eliminated.

Chairman: And that would mean that we would include the

Trade High School for Girls, and the High School of Practical Arts to be combined and housed in the Trade High School for Girls for the present and until the proper procedure can be studied.

Mr. Muchnick: And I would like to add further to No. 3 that the High School of Practical Arts building be discontinued as a school building for the time being.

Chairman: For the time being, until we determine how best it can be used or utilized.

Mr. Muchnick: Correct.

Miss Fitzgerald: Madam Chairman, would the member repeat that motion, please, in full? Madam Chairman, may I ask what is going to happen to the population of the High School of Practical Arts?

Chairman: The High School of Practical Arts and Trade High School will be combined, and the pupils will be housed in the Trade High School for Girls. Those girls in the High School of Practical Arts who do not wish to go to the Trade High School for Girls can then elect, if they wish, to go to the schools of their choice—that is, in their own districts—and take practical arts in their own districts.

Miss Fitzgerald: Madam Chairman, could I ask Mr. Daley whether the girls who are taking a home economics course at the High School of Practical Arts can do so in any of the district high schools if they should elect to go to a district high school?

Mr. Daley: It will take some time, Miss Fitzgerald, to readjust the program. If you don't mind, Miss Fitzgerald, I would like a clarification of the word "combined." Mr. Muchnick—under one curriculum? As I said this morning, is that to be the arrangement or are we to maintain the two curriculums for the time being until those who are in the second and third and fourth years have a chance to complete the diploma requirements under their elections when they entered high school?

Mr. Muchnick: Madam Chairman, it seems to me that that is primarily and fundamentally and almost solely an administrative problem.

Chairman: I think so, too.

Mr. Muchnick: But if my opinion is asked on it, then I can answer it best by saying, I do not see any reason why it should be treated in any different category than the Brandeis Vocational High School which is a school, if I understood Mr. Daley correctly this morning, where the boys in the Brandeis Vocational High School who are currently entering seniors and entering juniors are going to be sent to other high schools and will, if they complete diploma requirements in the other high schools, get diplomas of the high school of their choice in which they complete the requirement.

It seems to me the same thing is true in the High School of Practical Arts. There are eighty girls,

approximately, there who want college work. We furnish college work in many of the girls' high schools and district high schools. There are some who want home economics. It was stated very clearly that the home economics equipment could be transferred without much difficulty and in not too much time and without too much expense to the unused area at the Trade High School.

The Trade High School now has in it about 200 to 250 girls, and back in 1933, if I remember Mr. Daley's figures correctly, they had 750 girls.

You can put the home economics department, which is one of the big drawing cards of the High School of Practical Arts, in the space that was formerly occupied by 500 girls without any great trouble.

Chairman: Miss Wilson this morning made the remark or sort of advised us that the combined numbers for Practical Arts and Trade High School would be 450, and I think she said that was a very optimistic number inasmuch as she felt that many of the girls in Practical Arts would choose to go to their local high schools and then take their home economics course in their local high school.

There was no question about its practicability this morning. All of a sudden it has developed to be a terrible problem now that you are back in this chamber, but it was no problem at this morning.

Miss Fitzgerald: Madam Chairman, could I correct one misstatement?

Chairman: No, I am not finished. I still say that Trade High has a capacity of 600 and we are still going to have a figure at tops—which she said was a very optimistic number—of 450, and we will probably have nearer 350. We still are only having 50 per cent utilization of that school to combine classes. How can the City afford to keep all of these schools open for the small number of classes? I can't understand how the State can accept that. I don't think they are justified now in paying the amount of money that they pay for the space that is taken up for the small number of pupils that we have in these schools.

Miss Fitzgerald: Madam Chairman, if I recall correctly, what Miss Wilson did say was that she did not know anything about the home economics program that was offered in the other high schools in Boston. She was familiar with what was offered at High School of Practical Arts and she was familiar with what was offered at Trade High School. She said there would be administrative difficulties in combining the type of home economics program that is carried on at the High School of Practical Arts with what is carried on at the Trade High School because the Trade High program is more geared to pro-

ductive work—to catering and that type of a program.

There is also a difficulty, I believe, in transferring because of the direct current which exists at Trade High School.

Chairman: All they can do is put on a transformer. This is much to do about nothing at all.

Miss Fitzgerald: Madam Chairman, I think it is more than nothing when you are involving different schools with different aims and you are trying to combine the two and get the best out of the two, and I think that Miss Wilson said as a final word of caution that she thought the whole matter in combining it should be studied from September through January before any combination was proposed. I think that is actually what her recommendation or what her suggestion was.

Mr. Carr: Madam Chairman?

Mr. Muchnick: Madam Chairman?

Chairman: Mr. Muchnick.

Mr. Carr: Is he going to talk all night, Madam Chairman?

Mr. Muchnick: Not all night. I anticipate leaving here soon.

Mr. Carr, if you don't mind. If I recall Commissioner Desmond's remarks correctly, he stressed on two or three occasions that making the policy, whether it be of school combinations or anything else, was not the province of the State Department of Education nor was it the province of personnel in our department. It was the right, duty, and responsibility of School Committees, and that once school committees had established policy—and I believe he was correct in what he said—it was the problem of administrative officials to carry it out.

Now, we in Boston have many administrative officials at the top level. All of them are very well compensated salary-wise; and if it is a difficult problem—although I for one do not think it is difficult—that is what we are paying people to handle: Administrative problems, whether they are easy or difficult.

Mr. Carr: Madam Chairman, I was at the same meeting, and it is strange to me the different impressions that the different members get from the same meeting. Now I distinctly remember Dr. Stratton and Mr. Herrick explaining to this Committee their reasons for keeping Brandeis open. They pointed out at the time that it was merely a trial to see if they could make the school grow, and it was an experiment. They think now that possibly it should be closed.

They did not try to justify the expenditure for keeping it open because of the benefits derived. They pointed out distinctly that it was an experiment in that particular school, and that was their reason for spending this money.

Chairman: It did not satisfy me, Mr. Carr. That is a very expensive experiment.

Mr. Carr: Be quiet for a minute, will you, while I finish? I

would like to point out, Madam Chairman, that I have a motion before this Board that the previous sweeping action of this Committee on consolidations be rescinded. Now, my motion was already there.

Chairman: That motion is out of order.

Mr. Carr: I think the same motion that Mr. Muchnick has made would also have a point of order to lie against it.

However, Madam Chairman, I don't know how ridiculous this Committee is going to get. When we go down to the State Department and when we get down there we ask them how much it is going to cost to carry out our own problems, the same members voted for this consolidation program ask the members down there: How much will it cost us to accomplish this consolidation?

I should think that these would be considered in an orderly manner, and before you voted on a measure to consolidate you would at least have the common sense approach, and I quote Commissioner Desmond: It should be done with a common sense approach and find out how much the cost is going to be for the City of Boston before you vote on these measures.

Mr. Muchnick: Madam Chairman, it was I who asked Mr. Stratton how much in his opinion these conversions would cost, and the reason I asked him was a very simple one; and if I may borrow from Mr. Carr and from Commissioner Desmond, a very common sense one because it was Mr. Stratton who said in his letter with reference to the Dorchester High School for Girls, for example, that it would present, as we see it, an unwarranted expense for maintenance.

And then he talked of the tremendous problem of converting rooms and so forth, and then he went on: "From our point of view, the cost of maintaining such a building for 450 pupils would be almost prohibitive."

Then he talked about it being uneconomical and questionable. Well, when a man throws that kind of words around: "unwarranted," "prohibitive," "uneconomical" and "questionable," and various other descriptions in here, all I asked him was the common sense question: "What dollars and cents did he have in mind that would be prohibitive and unwarranted and so forth," and he said he did not know but he still thought it might be unwarranted or prohibitive.

Chairman: Yes.

Mr. Muchnick: Well, frankly, if that is the way educators or administrators come to conclusions without finding out what the facts are to me. If it were not so serious, it would be very funny—be able to add up to a total without knowing what any of the component parts are.

It unfortunately is not funny but is very serious because these

people are handling the lives of thousands and thousands of children, and I for one found that a very sad experience.

Mr. Carr: Madam Chairman?

Chairman: I would like to add as an amendment to Mr. Muchnick's motion that the Trade High School for Girls and the High School of Practical Arts be combined and housed in the Trade High School for Girls for the present time until the situation can be studied. Therefore we will save the expense of running two schools for about probably 300 pupils in the combination.

On that, would you call the roll, please—on Mr. Muchnick's motion?

Mr. Muchnick: Madam Chairman, on the motion as amended by both of us, I take it that is in its entirety.

Chairman: We have to get the motion straightened out before we vote.

Secretary: May I read it as I believe it is amended now, please?

Chairman: Yes.

(Read by Secretary.)

Chairman: I think you have it.

Mr. Muchnick: I think I would like to make one suggestion. Miss Reynolds read the motion now as amended: That the High School of Practical Arts be housed in the Trade High School for Girls. May I suggest that the wording have added to it: "Be housed in and combined with the Trade High School for Girls;" and then there can be no question of the intent.

Chairman: All right. I would also like to add, Miss Reynolds, an amendment: That the High School of Commerce, when it is vacated by the present graduating class there, will then be designated as the Girls Latin School.

Superintendent: Madam Chairman, may I ask for clarification, please, so that we will know what the wishes of the Committee are? In connection with Order No. 1, that the Dorchester High School for Girls be housed in the same school as the Dorchester High School for Boys.

There are two interpretations to that—that we have two distinct schools housed under the same roof and another interpretation can be that the Dorchester High School for Girls be merged as a co-educational school with the Dorchester High School for Boys.

Would the School Committee inform me as to which it is: Co-education or the other?

Mr. Muchnick: Madam Chairman, in making the original suggestion it was my thought and my expectation that that would be interpreted in what I considered the only way of interpreting it—that they be combined into one school.

If there is any question about it, then I would move that paragraph No. 1 of that order, after the word "be," in the first line have in it: "combined with and"

—have those three words in between the two words "be" and "housed."

Miss Fitzgerald: Madam Chairman, I think it might be procedurally much better if all of these various motions could be typed up by Miss Reynolds and distributed in quintuplicate to the members of the Committee and one for the Superintendent, perhaps, just so that we could see clearly before us what we are voting on. I think that to be making these motions up out of thin air is a little too casual for my liking.

Mr. Carr: I agree with my colleague, Madam Chairman.

Mr. Muchnick: Madam Chairman, there is absolutely nothing casual in those portions of the motion which it has been my privilege to make, and I am sure there is nothing casual in those portions of the motion which you have made.

It seems to me that the matter is very clear, and I think if Miss Reynolds read it again in its final form it would be completely clarified and would indicate to everybody that what we hope to do if this order is passed is to combine the two Dorchester high schools in the Dorchester High School for Boys building as one school; combine the High School of Practical Arts with the Trade High School for Girls in the Trade High School building as one school. The High School of Practical Arts building and the Dorchester High School for Girls building would both be discontinued until such time as further use or other provision was made for those two buildings. The Brandeis Vocational High School would be discontinued and its pupils transferred out to the Boston Trade High School or any other schools, as Mr. Daley indicated this morning; that the High School of Commerce would cease being a High School of Commerce — the school itself rather than the building — after the graduation of the present entering juniors; and that the Boston Clerical School would add to its curriculum such courses that are now taught at Commerce that could not properly be taught or handled in district high schools.

Mr. Carr: Madam Chairman?

Superintendent: Madam Chairman?

Secretary: Madam Chairman?

Dr. Foley: May I ask a recess for Miss Reynolds to get them typed up?

Secretary: Madam Chairman, what about Girls Latin School? That is not in here any place, is it? It does not belong here.

Superintendent: Before you recess may I ask for clarification again so that we won't have to recess again to have them re-typed? In regard to No. 5, Mr. Muchnick, and the two members who voted with him on No. 5, have made no provision for the present entering 9th grade class. In other words, we have a group of boys entering the High School

of Commerce who have already made their elections for September 1953, and who will enter Grade IX.

The second point: We have some 9th grade boys as of June 1953 who became at the end of June Grade X pupils. They are not entering boys. They are boys who have been there for one year.

Now is it the intention of the School Committee to eliminate Grade IX entering—those coming from parochial schools and those coming from our own 8th grade schools? That is No. 1. The other is to ask to transfer to other schools those who were last year in Grade IX and become Grade X—those two things.

The entering Grade X class is clear from this order, but those other two factors are questionable.

Now a third thing: Does the present 11th grade mean those who are becoming 11th grade pupils in September, 1953, so that the High School of Commerce would pass out of existence in June 1955?

Mr. Muchnick: Madam Chairman, I don't know how any of our own 8th grade boys get into the High School of Commerce in Grade IX. I thought that they would all be going to their own Grade IX and their junior high schools, but that is not particularly important here; and I had assumed that at the High School of Commerce it just had Grades X, XI, and XII.

In order to clarify any misunderstanding, after the word "entering" in No. 5, I would like to add the words "Grade IX and Grade X."

It was and is my intention that the entering juniors and entering seniors finish so that as of June, 1955, as the Superintendent stated, the school ceases to be. There should be no Grade IX and no Grade X in that school as of this coming September.

Dr. Foley: Recess, Madam Chairman?

Superintendent: Madam Chairman, in No. 4 is it the wish of the School Committee to have the girls from the Brandeis Vocational High School transferred to a particular school or leave it to the individual girls to select the school according to their background and choice?

Mr. Muchnick: Madam Chairman, it seems to me that the Superintendent ought to be able to answer that question very quickly himself. We are going to have a few girls who are currently pupils in the female branch of the Brandeis Vocational High School. In the first place, we don't have any legal or moral right to say to them, "You have to go to X school"; and even if we did have that right, it seems to me that it would be a question of administrative procedure to discuss with that small number of girls and their families and anybody else interested what schools would be best for their purpose

and to recommend that they go there. If they don't take the advice, then they don't take it.

Mr. Carr: Madam Chairman, in order for clarification in Order No. 1, there has been some reference to the casual manner, and I can assure you that I have not been casual about this proposed consolidation, and I wonder if the other members are as conscious as I am of the problem that this is going to present.

In order that they may be pinpointed for you, I would like to have the Superintendent reiterate some of the problems that are going to pop up between now and September 1st because of this consolidation program as regards Dorchester High School for Girls being housed in the same school as the Dorchester High School for Boys.

Mr. Superintendent, if you would just enumerate some of those problems that you spoke to me about the other day, I wonder, in view of what Mr. Stratton and the rest of them said down there, that they doubted very much that even if these contracts could be let whether the work could be completed by September 1st, I am inclined to believe them and the Superintendent, I believe, feels the same way.

Do you have some of the things that might pop up there, Mr. Haley?

Superintendent: Well,—

Mr. Carr: Go right ahead, Mr. Superintendent.

Chairman: Mr. Carr—

Miss Fitzgerald: Madam Chairman, I should like to hear the Superintendent.

Chairman: You have talked to him, Miss Fitzgerald and Mr. Carr.

Miss Fitzgerald: Both Mr. Carr and I have talked to the Superintendent. It seems to me that it behooves the Chairman and the other members of the Committee to speak to the Superintendent about the various moves that they propose. We are supposed to get his advice and counsel, Madam Chairman.

Chairman: Well, we don't get it, Miss Fitzgerald.

Superintendent: Madam Chairman, you always get it when you ask for it, but you certainly can not get it when you never come to my office and ask for it.

(Recess.)

Chairman: The conference is resumed. Miss Reynolds, do you want to read the order?

Secretary: ORDERED, That, effective forthwith.

1. Dorchester High School for Girls be combined with and housed in the Dorchester High School for Boys; and that the Dorchester High School for Girls building be discontinued as a school building for the time being.

2. High School of Practical Arts be combined with and housed in the Trade High School for Girls; and that the High School of Practical Arts building be discontinued as a school building for the time being.

3. Brandeis Vocational High School be discontinued and its male pupils transferred to Boston Trade High School; and

4.—Plans be made to eliminate the High School of Commerce upon the graduation of the present Grade XI in that school and that those entering Grades IX and X be transferred to schools of their choosing; and

5. Boston Clerical School add to its curriculum such courses now taught at the High School of Commerce that are not capable of being handled in the District High Schools.

Mr. Carr: Madam Chairman, just before we recessed to have this order typed up I asked the Superintendent to tell this Committee some of the problems which, if this order is passed, will arise, hoping that you would consider such problems.

At that time you did not see fit to listen to the Superintendent, so I find that my job is to present one of the problems, and it concerns this No. 1 Item, Dorchester High School for Girls to be combined and housed in the Dorchester High School for Boys.

I have gone into this with the Superintendent and with our school engineers, and I would like to point out to your Committee what is going to happen just in one instance.

In the Dorchester High School for Boys now, that is where we will have 630 entering in September if this order carries, the law requires under the public health rules in our Building Department that you have toilet facilities there. They require twenty-four compartments for every 500 girls.

Now, we have 630 entering there on September 1st. We will need thirty compartments. There now exists fifteen.

As for the boys, on the boys' end, at present there are ten compartments. The law requires fourteen compartments for every 500 boys. You will have entering there in September 550 boys, approximately. Therefore, you will require fifteen compartments.

Now, Madam Chairman, the schoolhouse engineers and our own Superintendent say that it is impossible to put any more compartments or toilet facilities in that school, and I would like to point out to the members of your Committee that if I were a resident of Dorchester High School I would not have my daughter attending a school where her health was going to be put in jeopardy; and furthermore the Public Health Department of Boston has struggled for years and made progress, and now we are going to take a step backward to where we were fifty years ago.

If this order carries I do not want to be held responsible for the health of the children in Dorchester, and I hope that my vote will indicate that to the people. That is only one of the problems. I am sure if you would give the Superintendent some of the time of this Committee which he should

ordinarily have, he could point out any number of other problems that would be against the advisability not only of this order—

Chairman: We are not deaf, Mr. Carr.

Mr. Carr: Madam Chairman, that is my normal voice. I am not a Whispering Smith, and I am not afraid of being heard or to take a stand on things, and that is only one of the problems that concerns No. 1 Item on this order.

I am not going to be held responsible for their health, and I hope this School Committee will not.

Chairman: I would like to correct an impression that you have created. There again is a misrepresentation. At the Dorchester High School for Boys there is a total enrollment of 583 pupils as of December 31st. At the Dorchester High School for Girls there is a total enrollment of only 663.

Mr. Carr: Madam Chairman, let me say that my figure as of September 1st will be 630 girls entering the Dorchester High School for Boys. The law requires you to have twenty-four compartments for 500 girls. For 630 you will need at least thirty. You have at present fifteen, and you cannot possibly put any more in there. If you had the room to put them in, you could not put them in there by September 1st; and as far as the boys are concerned, you will have approximately 550 boys. These figures coincide with yours, Madam Chairman.

Chairman: Just a minute, Mr. Carr. Your mathematics aren't very good. For 500 you need twenty, and for 600, according to you, you need thirty, so you meant for an extra 500 you only need twenty.

Mr. Carr: Four compartments I would not say, are vital to the program, Madam Chairman.

Chairman: You are way off as usual. If you have anything to say, Mr. Superintendent, instead of saying it to two members of the Committee—

Superintendent: Madam Chairman, I would be glad to say this. I think it's 500 girls who require twenty-four compartments.

Mr. Carr: That is right, and we have 630 entering. That would be approximately thirty, and there presently exists fifteen and no room for any more. That is in the case of the girls.

Mr. Muchnick: Madam Chairman, if I understood Mr. Carr correctly there were how many required for 500 boys, Mr. Carr?

Mr. Carr: For boys?

Mr. Muchnick: For 500 boys?

Mr. Carr: Fourteen for boys—by law.

Mr. Muchnick: Fourteen for 500 boys.

Mr. Carr: Yes.

Mr. Muchnick: Back many years ago—I don't know what the figures were—if I remember correctly there were in excess

of 1500 boys at Dorchester High, were there not, Mr. Daley?

Mr. Daley: There were.

Mr. Muchnick: I think the figures that were quoted here two meetings ago were—that there were close to 2,000 boys at the Dorchester High School for Boys.

If we had 2,000 boys at the Dorchester High School for Boys and if we were operating legally—and I assume we were—then we had at that time—how much is 5 times 14? There were 70 compartments, and if we need fifteen compartments now for 550 boys, that leaves us with fifty-five compartments or at least connections for fifty-five compartments for the 630 girls. We need only thirty such compartments, and all it is is a question of getting the fixtures, attaching them to the plumbing which should still be there if it housed 2,000 people within the last few years, and there does not seem to be any particular point to making the fuss.

Superintendent: Madam Chairman?

Mr. Muchnick: Assuming, however, Madam Chairman—

Miss Fitzgerald: I don't think that the discussion can be concluded at this point.

Mr. Muchnick: Madam Chairman, assuming, however, that it were necessary to install the plumbing for an extra number of compartments, it is the kind of a plumbing project that any reliable plumbing contractor can undertake and do in a very short time if we are willing to co-operate with that kind of plumbing contractor.

We can, by an initial capital outlay, save the hundreds of thousands involved in running an unnecessary building at the Dorchester High School for Girls—one which the State Department says we should not run because it is too big for the small number of pupils.

Everybody who exercises the common sense of which Mr. Carr and Mr. Desmond spoke say that you should not have people in an area where you can put two or three times as many in a building; and if we make the initial capital outlay—which may not be necessary under proper engineering—then it seems to me we are going to do a good deed for the City.

Mr. Carr: Madam Chairman, on the motion, it does not seem to me—

Chairman: Will you call the roll, please?

Mr. Carr: Madam Chairman, on the motion.

Miss Fitzgerald: Madam Chairman, there are two members who should be given the privilege of talking.

Chairman: You two have tried to block everything here. There is a roll being called, and it is going to be taken now.

Miss Fitzgerald: Madam Chairman, I should think we would have full discussion about any-

thing that includes such tremendous changes for the schools.

Secret: ry: Madam Chairman, we should first rescind the vote which we took July 7th.

Chairman: All right.

Mr. Carr: Madam Chairman, if we are voting on this motion you have no right to call this motion, and I am going to ask that you let me point out that it does not seem to me that it is the proper procedure.

I have made inquiries into this particular problem, and of course we can put facilities in there but it is going to be necessary to chop half the gymnasium off. The gymnasium if that particular school hardly accommodates the people who are there now, and any normal modern-day high school should have shower facilities and gymnastic facilities for girls and boys.

This definitely has not, and I reiterate that. I am not going to be held responsible for the health of the children of Dorchester or those who attend Dorchester High. You people can vote as you like.

Mr. Muchnick: Madam Chairman, if a gymnasium in the Dorchester High School for Boys, which is comparatively one of the new schools in the City of Boston, could take care of 2,000 boys fifteen years ago, then obviously, unless we are concentrating primarily on physical education and gymnastics, it can take care of 550 boys and 630 girls.

Mr. Carr: Am I to gather that the gentleman wants the toilet facilities put in the gymnasium, Madam Chairman, to accommodate them?

Mr. Muchnick: Madam Chairman, I think that if there were an examination of the facilities at the Dorchester High School, it would show clearly that there are enough plumbing facilities merely by changing some of the fixtures, which is not a major job, to take care of 630 girls or 750 girls and 750 boys.

This building is not an old building. It was built rather recently with knowledge then of modern plumbing and healthful plumbing requirements, and I am sure the then School Committee did not authorize a building with insufficient sanitary facilities.

Superintendent: Madam Chairman?

Chairman: Would you call the roll, please?

Miss Fitzgerald: Madam Chairman?

Mr. Carr: Madam Chairman, I would like to hear from the Superintendent.

Chairman: Well, I think we have gone all through this.

Mr. Carr: He is going to talk on the motion. Now get out your book.

Chairman: I will call the roll when the Chair says the roll will be called. You call the roll.

Mr. Carr: You will not call the roll as long as this motion is before the house.

Chairman: To rescind the motion.

Secretary: ORDERED, That the motion presented at the meeting of July 7, 1953, relating to the consolidation of high schools is hereby amended to read as follows. Is that all right?

Mr. Muchnick: Rescinded, and in place is substituted the following."

Miss Fitzgerald: Madam Chairman, might I ask, why is this motion to be rescinded? It is because since the vote was taken several members have awakened to the fact that there were some things wrong with the original motion. That is one reason why we demand full discussion of this order item by item before we vote on it.

Chairman: We would not have to if we did not have to go to some other outside agency for some help on this.

Mr. Daley: Madam Chairman—

Miss Fitzgerald: Madam Chairman, I think that is a slander on the school administration. You have the co-operation of the school administration if you show any disposition to accept it or to ask it.

Superintendent: Madam Chairman?

Mr. Muchnick: Madam Chairman?

Superintendent: Madam Chairman?

Mr. Muchnick: Madam Chairman?

Chairman: Mr. Muchnick.

Mr. Muchnick: As I understood it, Miss Reynolds had read a motion ordering the rescission of the vote taken at the meeting of July 7th concerning the consolidation of certain high schools and the substitution in place of that motion of the order which she read a little while ago.

So that there will be no question about it, I move the previous question.

Superintendent: Madam Chairman?

Chairman: Mr. Muchnick moved the previous question.

Superintendent: Madam Chairman, may I speak, please? Madam Chairman, may I call to your attention the rules and regulations and ask to speak, and I will show you rules and regulations that give me that privilege?

Mr. Muchnick: Madam Chairman, I have moved the previous question. If the Superintendent wishes again to speak, I would just as soon withdraw the motion.

Chairman: Mr. Superintendent. Superintendent: Thank you, Madam Chairman and Mr. Muchnick.

Madam Chairman, just to be sure that the record is right I would like to point out that the Dorchester High School for Boys was built for an all boys' school and was equipped with toilets for boys.

When the numbers decreased, one of the toilet rooms was trans-

formed into a shower room, I believe. Is that not true, Mr. Galeota?

Mr. Galeota: That is true, Doctor.

Superintendent: Now may I ask Mr. Galeota another question, Madam Chairman?

Chairman: Yes.

Superintendent: Mr. Galeota, do the plans show that plumbing fixtures have been taken from the Dorchester High School for Boys that can be replaced and put in a certain number of compartments that are necessary by statute?

Mr. Galeota: I don't quite understand your question, Dr. Haley.

Superintendent: If I am not mistaken Mr. Muchnick said that he felt that there were sufficient fixtures there that could be easily attached so that we would have the proper number, is that true, Mr. Muchnick?

Mr. Muchnick: I did not say the fixtures were there, I said I think the plumbing is there.

Superintendent: The plumbing is there. Is that true, Mr. Galeota?

Mr. Galeota: Well, there are no abandoned toilet facilities in the school. There are no abandoned toilet facilities to which new fixtures could be attached.

When the school was originally built in 1925 there were six toilet rooms for boys, each toilet room containing five compartments, or a total of thirty. Since that time back a few years ago one of those toilet rooms which did not contain the five compartments and other attachments in the boys' toilet rooms had been discontinued and disconnected and consequently made into a shower room, leaving a total of twenty-five compartments.

Superintendent: Madam Chairman, may I ask him another question?

Chairman: Could I ask him something? Mr. Galeota, do you believe that a school as modern as the Dorchester High School for Boys can easily house about 1100 pupils, boys and girls, and that it is sufficiently large to have some changes made in the plumbing to house 1100 pupils with a combined boys and girls population?

Mr. Galeota: Well, Madam Chairman, my opinion as it exists at the present time is No, but with alterations, that is a major job. The toilet rooms out there are small toilet rooms, and facilities would have to be provided to make them adequate.

Chairman: I think, though, that it would certainly be profitable for us to make those alterations now where the cost would be one cost and make the savings over the years instead of running two schools with around 500 in each school from now on. I think there are sixty rooms, if I am not mistaken, in Dorchester High School for Boys, right?

Mr. Galeota: Well, Mr. McMackin made that study, Madam Chairman; I did not make the study.

Chairman: Aren't there about fifty rooms in the school?

Mr. Galeota: I would say about fifty-two or fifty-five in that vicinity.

Chairman: Don't you think it would be much better for us and would be a saving to equip the boys' high and girls' high even if it is going—

Mr. Galeota: I don't think I ought to answer that, Madam Chairman.

Mr. Carr: Madam Chairman, that is an unfair question.

Mr. Galeota: Mr. Mooney may have already submitted a figure on the cost of the plumbing facilities to be put in properly. At the present time I don't think I can answer.

Superintendent: Madam Chairman, may I ask Mr. Galeota another question? Mr. Galeota, was this true—that in order to put in, let's say, additional compartments, one of the three rooms will be used as a girls' room and that once we attempted to do that the vents are so connected that it will cut off the use of the other two toilet rooms?

Mr. Galeota: That is true, Dr. Haley. It would have to be a separate toilet unit from what exists at the present time. You would have to have one classroom or some other section of the building.

Mr. Muchnick: Mr. Galeota, when you talk of six toilet rooms which have now become five and you talk of five compartments in each room, it being a boys' school how much of the toilet room space do the five compartments take?

Mr. Galeota: I would judge, sir, that the size of the present toilet rooms is about ten feet in width and approximately fourteen feet in length—10 by 14.

Mr. Muchnick: And how much of that space is taken by the five compartments?

Mr. Galeota: I would judge about half of it, sir.

Mr. Muchnick: And if you remove in three of those rooms the type of facilities that you would normally have in a boys' school, you could get five more compartments in each toilet room, couldn't you?

Mr. Galeota: Mr. Muchnick, not unless you made extensive changes in the drains because, as it is so situated, they are situated back up against the wall and the drains have to be brought forth.

Mr. Muchnick: I understand, and it is a plumbing job; but in the same toilet room you could increase the number of compartments?

Mr. Galeota: I don't know whether the rooms are big enough, Mr. Muchnick. I would prefer to look it up.

Mr. Muchnick: Hasn't anybody been looking things up since July 7th?

Superintendent: Madam Chairman, in answer to that—

Mr. Muchnick: We have been running three weeks.

Superintendent: Madam Chairman, the answer to that is Yes, and it is because Mr. McMackin has been studying this and working with the Department of School Buildings that we have arrived at these conclusions. Since you asked that, Madam Chairman and Mr. Muchnick, may I, if you care to, present the plans here for the location of all of the machines and equipment of the Trade High School for Girls in the Dorchester High School for Girls building?

The Department of School Buildings has been most co-operative, and here we have the plans which I was going to send to Mr. Stratton tomorrow morning through Mr. Galeota in connection with the revision of the Dorchester High School for Girls building to equip it for the High School of Practical Arts and the Trade High School for Girls.

However, if the Committee is rescinding the order, I will thank the Department of School Buildings for the work which they have done—and done very willingly and, I believe, very efficiently—and we will retain the plans for our files.

Mr. Muchnick: From the discussion I had with Mr. Galeota just the last few minutes, it seems to me that with a little engineering ingenuity there would be absolutely no major difficulties in getting at least fifteen more compartments available, and we would have this major problem that is talked about solved, and I would like to proceed with the vote.

Mr. Carr: Madam Chairman?

Chairman: We will proceed with the vote.

Mr. Carr: Madam Chairman?

Secretary: This is:

ORDERED, That the motion passed at the meeting of July 7, 1953, relating to the consolidation of certain high schools is hereby rescinded and the following order is offered in substitution thereof.

Secretary (continuing): Which is the five-point order recently read by me.

Dr. Foley: You had better read it again.

(The Secretary then read again the order relating to consolidation of certain high schools).

Mr. Carr: Mr. Galeota, one question. You have seen the problem as it exists at Dorchester High. Have you been out there in the boys' high school?

Mr. Galeota: Yes, sir, I was there about a week ago.

Mr. Carr: If this order does go through and you have this plumbing problem, in order to bring it into conformity with the Health Department regulations and the Building Department regulations, supposing we did have the money and the facilities or the labor to

put through this thing, could you do it by September 1st, do you know?

Mr. Galeota: That I doubt. Mr. McMackin discussed that with Mr. Mooney before he went to the hospital, and he said it could not be done.

Mr. Carr: It could not be done? Mr. Galeota: Yes.

Mr. Carr: Therefore these pupils are going in to Dorchester High, and it probably will be necessary that we ask the Health Department and the Building Department to waive their regulations? That's the only way we can put them in there, isn't it?

Mr. Galeota: That would be necessary. You would have to do that.

Mr. Carr: Well, there was another question. Thank you, Mr. Galeota. There was another question by one member: Why was it necessary to rescind this order?

I would like to point out in answer to that member that it is evident that this order to rescind the previous action of this Committee is because the original action was ill-considered, hurried, arbitrary, and places an unnecessary burden on the parents, pupils, and school personnel.

That is my opinion of why it is necessary to rescind this order, and that is why I voted present before when I was asked to vote on an order of which I was given no copy and knew nothing about its contents. So now I refrain from voting on this order.

Mr. Muchnick: Madam Chairman—

Mr. Carr: Madam Chairman, you are in the process of calling the roll; and until such time as the member's name is called on the roll, he should refrain from speaking. I had the floor because I was first on the roll, Madam Chairman. I ask you to continue the roll.

Mr. Muchnick: Madam Chairman, I would like to point out two very simple but important facts. If a toilet room can be converted into a shower room, then obviously a toilet room can be converted into a different kind of a toilet room without too much fuss or feathers.

If, further, it would take, as it would with advertising and everything else, a period of a month or more to get this done, and if they had started on this with some degree of enthusiasm on July 7th or 8th, we would not now be solely in the discussion stage.

However, letting all that go by the board, there are many situations in the City of Boston which, on approval of the Mayor on request of the Department head—and it happens on numerous occasions in the City, including the School Department, by the suggestion in the letter to the Mayor that for one reason or other advertising of a particular contract is not for the best interests of the City, the Mayor can give that contract within a

day or two or three rather than waiting the two or three or four weeks of advertising.

This can be done. The school can be opened. It can be opened as a combined school for boys and girls, and we can proceed to run a better combined high school than two small separate high schools, and at the same time we can save the City thousands and thousands of dollars, and I say: Let's get on with it and let's do it.

Chairman: Will you call the roll?

Miss Fitzgerald: Madam Chairman, before I vote on this matter I should like to clarify a few things that have been said.

First of all, enough questions have been raised regarding each one of these five items that we are asked to vote upon in a package deal, Madam Chairman, to make me feel that like Mr. Carr, I wish to refrain from voting on this matter.

It has been brought to my attention that on Item No. 1, the High School of Practical Arts, which is proposed for being closed and not reopened in September, is in the process of having installed a \$20,000 heating unit—right in the process of being installed. This is a building that we are proposing to close up on September 1st. And Mr. Carr has brought forth a very serious health question with regard to the changes being proposed in Dorchester High School for Boys.

It seems to me that I could not possibly vote on any such package deal which would overlook the health of the children who are in attendance in the Dorchester area.

Chairman: May I say regarding that heating unit for the High School of Practical Arts that that school is going to be abandoned for the type of education that it is now being used for, but there is a recommendation that in that district we have a junior high school eventually, and probably that is what it will be used for, so I can assure you that that money is not wasted.

Secretary: Miss Fitzgerald?

Miss Fitzgerald: I refrain from voting.

Secretary: Not voting.

Miss Fitzgerald: I think it is undemocratic to be asked to vote on a package motion.

Dr. Foley: I vote Yes.

Mr. Muchnick: Yes.

Chairman: Yes.

Mr. Muchnick: Madam Chairman, I move that the remarks in the conference—the last conference and the one prior thereto—relating to school consolidations be printed in the public record and made part of the public record; and I move further that all remarks of the conference this evening relating to consolidations be printed in and made part of the public record.

Chairman: We will take a vote on that.

Mr. Carr: Before we vote on this I would like to inquire of the Secretary or stenotypist the approximate cost of that. Could you give us an approximate cost, Miss Reynolds?

Secretary: No, I haven't any, but I am supposed to be going on my vacation Friday night, and I don't know how I am ever going to get it done.

Mr. Muchnick: Madam Chairman, there was no suggestion that it should be done between now and Friday night, for one thing; and with all due deference to Miss Reynolds, she has one assistant specially designated Assistant Secretary to the School Committee and the use of 150 or more people who are in the secretarial category, and I hope you have a good time on your vacation!

Secretary: I won't go on my vacation if I have to do this. When will it be printed—after Labor Day?

Chairman: That is all right.

Secretary: Mr. Carr—the printing of it in the open meeting?

Mr. Carr: I see no objections, Madam Secretary.

Secretary: Is that Yes?

Mr. Carr: I will vote Present. I still have no idea of the cost of the thing, so I don't feel that I should vote. I believe it involves quite a bit of work.

Chairman: May I remind you, Mr. Carr, that you asked to have a very, very lengthy document regarding the consolidations printed. I think it was one of the first ones, and it was at your suggestion; so, if you are so solicitous of the cost now, you were not then.

Mr. Carr: Madam Chairman, you are so well acquainted with it, would you tell me which document it was?

Chairman: It was the entire record that was printed, and it was very lengthy and costly.

Mr. Carr: Was it on consolidations?

Chairman: Yes.

Mr. Carr: Which one?

Chairman: I think it was the first one.

Mr. Carr: I don't recall it, Madam Chairman. I know one time I was accused of spreading a lengthy document on the public record, but it was only because it was requested by the members of the Legislative Committee on Education that they receive copies of it, and they were assured that they would receive them; and it was only because of the fact that I made the motion to send it to them that they received it. I don't think they would have had it yet if I did not. That is the only one that I recall as you might term more or less expensive.

Mr. Muchnick: Are you implying that our secretarial staff is so slow that they would not have gotten it done yet for the members of the Committee?

Mr. Carr: I don't think any one would have moved it other than myself. No one saw fit.

Miss Fitzgerald: Yes.

Dr. Foley: Yes.

Mr. Muchnick: Yes.

Chairman: Yes.

Mr. Muchnick: Mr. Superintendent, with reference to the Stephen M. Weld population, is there any reason—

Mr. Carr: Mr. Muchnick, would you excuse me a minute? Would you have a computation of the expense of printing this made before Miss Reynolds goes ahead? I understand it is going to run into a prohibitive amount of money, Mr. Muchnick, whether you realize it or not.

Mr. Muchnick: Quoting Mr. Stratton on the "prohibitive"?

Mr. Carr: No. I think if you were given the figure you would be satisfied with its being spread on the record. I understand it is going to be very expensive.

Mr. Muchnick: Mr. Carr, it was you who said less than half an hour ago—and I think properly so—that you are perfectly willing to take a stand on anything and you would like to have what you say heard by people and read by people.

I, too, would like to give my stands on this issue or any other issue known by people and read by people, not just by the handful who happen to be in this room, some listening and some doing whatever suits them at the moment.

It is important to the City of Boston, it seems to me, that they know what goes on, and there are thousands of people who read the printed record if it is in the public minutes. So, consistent with your desire that the public be completely informed—at least that much of the public that reads the record—I made the motion that we let the City of Boston know officially, not just through newspaper accounts, because obviously the newspapers cannot print everything that goes on up here, even if they want to, but in attempting to go along with your thought, with which I am in complete accord—that we should let our fellow citizens know how we feel and what we say about things—it seems to me that it is important that we get that information out in its official form to the thousands of people who read both the Daily Record School Edition and the City of Boston Record officially.

Mr. Carr: Well, Madam Chairman, I wonder if there are thousands who read that school edition. I haven't run into too many who knew that the thing existed. I want to point out that the minutes are printed in the City Record, and I have good reason to believe that if this record on consolidations is printed in the public record it will approach \$10,000 and I wonder if the information that they are going to receive is enough to justify the expense and I wonder if they would be willing to have us spend that amount of the taxpayers' money to give them

the proceedings of this School Committee. That is my only caution.

I understand that it will approach \$10,000. If you want to spend \$10,000—

Mr. Muchnick: I don't know where you get your information; but, believe me, you will get substantial change from \$10,000 and from \$5,000 and from any figure of that amount.

Mr. Carr: I think I get my information from someone who has more knowledge of the cost of printing these things and transcribing them than to take your word for it, and I don't think you have even inquired.

Mr. Muchnick: I cannot understand how you could have made inquiry.

Mr. Carr: It will approach \$10,000; and if you want to spend that to put it in the record in the newspaper that comes out one day—

Mr. Muchnick: Mr. Carr, it is inconceivable that you could have made inquiry about this from anybody who is qualified to give printing costs on a quantity of printing that we don't even know the size of in the few minutes since the motion was made.

Mr. Carr: I did not make inquiry. I made it previous to tonight, but I do know the quantity of testimony that you asked to be printed; and if you have that printed, I am inclined to believe it will approach \$10,000.

Chairman: Mr. Carr, you did not seem to be at all concerned before, and it was very great.

Mr. Carr: That is why I am speaking about this.

Chairman: When you asked to have it printed before you had no concern.

Mr. Carr: Madam Chairman, I never asked to have anything printed like that.

Chairman: Oh, yes, you did, Mr. Carr; because you are very loud and very vocal, don't think that we don't remember some of the things that go on; and just because you say that it is not so—

Mr. Carr: It is not as long as this.

Chairman: Yes, it does compare with the length of this.

Mr. Muchnick: I would like to find out: How much it is per page of printing? Do you know, Mr. Carr?

Secretary: \$30 a column. It is \$150 a page. I think there are five columns to a page.

Mr. Muchnick: Have you any idea how many columns or how many pages this would run?

Mr. Carr: I have sat here, and I could imagine.

Mr. Muchnick: How many columns or pages?

Mr. Carr: Mr. Muchnick, we spread on the record one other meeting that we held here as regards the Schoolhouse Commission, and there was nothing gained from all the controversies that went on here. Then, because the members of the Committee in the Legislature re-

quested that copies be furnished them, it was necessary that we have that printed and a copy sent to each one; and for your information and the rest of the members that was to the tune of \$2100.

That might be enlightening to you, and I think possibly that is the one that you seem to think I spread on the record.

Mr. Muchnick: Madam Chairman, just to prove the value of having these hearings and printing these things, what Mr. Carr refers to as costing \$2100 with nothing saved, save the City money. I want to point out just one small item. As a result of that just in the plastering alone we now get invitation bids, and the company that had all the plastering and was averaging the usual \$950 and \$960 order without the regular outside advertising, or advertised bids, was getting competition and we had many of our jobs done at \$400 and \$450 while that same company was still putting in bids of \$900 and \$950.

Mr. Carr: Madam Chairman, you could have gotten that same work done and had the invitation bids without spending \$2100 for a lot of testimony which I doubt one member read.

Mr. Muchnick: Then why did you ask for it?

Mr. Carr: Because they requested it, and they were assured by the Chairman they would receive it.

Chairman: The next item of business—

Mr. Muchnick: Madam Chairman, I had asked for the floor and I wanted to ask the Superintendent a question with reference to the pupils at the Stephen M. Weld School. Last Friday I heard talk that they were going to go to this school and to that school and so forth. Is there any reason why the pupils in the Stephen M. Weld cannot be housed in a wing of the Washington Irving?

Superintendent: In answer to your question, Mr. Muchnick, I would say that they can be. However, we have complied with your wishes in following the pattern of the Harvard Survey which, I believe, says the Conley and the Philbrick.

Mr. Muchnick: Well, do you think they belong in the Conley and Philbrick rather than the Washington Irving or vice versa, regardless of what the Harvard Survey's feelings about their relocation are?

Superintendent: Well, there are advantages and disadvantages both ways, Mr. Muchnick.

Mr. Muchnick: I understand that, Mr. Superintendent, but which would you recommend now that the school has been closed? Do you want them housed in the Philbrick and the other school, or do you want them housed in the Washington Irving?

Superintendent: Well, Madam Chairman and Mr. Muchnick, I talked with the principals of the schools, and I read your complete statement to the principals first, and emphasized, as was pointed out in your statement, that the blueprint was very clearly set up in the Harvard Survey. Then I left it with the principals of the schools.

Mr. O'Keefe, I believe, is recommending—and I will give you a copy of this report later—the distribution of the pupils to the Conley School and to the Philbrick and recommending transportation of ninety-four pupils, if my memory serves me correctly, to the John D. Philbrick School.

Miss Fitzgerald: Madam Chairman?

Mr. Muchnick: Mr. Superintendent, that is Mr. O'Keefe's suggestion, and you talk about my speaking of a blueprint. We have the Harvard Survey Report. Do you recommend that we send these children to the Conley and the Philbrick or do you recommend that we send them to the Washington Irving—and I am asking for your opinion, not Mr. O'Keefe's or Miss Hearn's or anybody else's.

Superintendent: Well, Madam Chairman and Mr. Muchnick, Mr. O'Keefe is an excellent principal, he has studied his own area very carefully, and I would be guided in my recommendation to the School Committee by Mr. O'Keefe's recommendation to me.

Mr. Muchnick: Then do you recommend, Mr. Superintendent, as your recommendation that we send these children to the Philbrick and to the other elementary school rather than to the Washington Irving?

Superintendent: In the light of the study that I would say Mr. O'Keefe has made in his particular area, I would follow his recommendation and recommend it to you.

Miss Fitzgerald: Madam Chairman?

Mr. Muchnick: I have just one more question.

Miss Fitzgerald: Go right ahead, but I would like to ask mine when you finish.

Mr. Muchnick: Would the fact that many, if not most, of the parents of children in the Stephen M. Weld School request that the pupils be housed in the Washington Irving rather than in the Philbrick or Conley, would that change your recommendation, Mr. Superintendent?

Superintendent: I would want to know all the facts first before I would make a counter recommendation.

Mr. Muchnick: Well, don't you know all the facts now?

Superintendent: I know of no parents who have asked me to have any pupils go to the Washington Irving School.

Mr. Muchnick: Well, assuming that the parents, in large numbers or in majority, were to ask

you or were to ask the School Committee to have the children housed in the Washington Irving rather than the Philbrick or the Conley, would you then make the counter recommendation to house them in the Washington Irving rather than the other two buildings?

Superintendent: I would be very glad, Madam Chairman and Mr. Muchnick, if the parents made their petition to the School Committee and the School Committee decided to have it be the Washington Irving, to carry out the wishes of the School Committee.

Miss Fitzgerald: Madam Chairman, it seems to me that this is one more indication of the reason why we should have taken up separately each one of these closings because the member is now proposing, after you have already voted on closing the Stephen M. Weld, to make a change. He is now finding out where we should send the children. I think the time to find out where we could possibly send the children in any school closing is before we close the school.

Mr. Muchnick: Madam Chairman, going back again to Mr. Carr's use of the words "common sense" and Commissioner Desmond's use of the words "common sense," to me the common sense place for the recommendation to have been would have been for the Washington Irving School, which is comparatively one of our newest schools and which has plenty of space and which, like several other junior high schools, could have had a wing set aside for these youngsters.

One of the great problems was supposed to have been the traffic hazards, and for many of the children and maybe most of the children in the Weld School the answer from a traffic hazard point of view, and others, would have been the Washington Irving by the exercise of Mr. Carr's slide rule of common sense.

Miss Fitzgerald: Madam Chairman, when Mr. Muchnick made the proposal to close these seventeen schools he was basing his proposal on the Harvard recommendations.

Mr. Muchnick: In part, Miss Fitzgerald.

Miss Fitzgerald: In the report itself it recommends the Philbrick, and Sumner, and the Conley. Now you are trying to save the situation, Mr. Muchnick, and trying to pull your hot chestnuts out of the fire.

Mr. Muchnick: No, Madam Chairman. I know of no chestnuts of mine that are on fire. I know of no hot situation in which I am involved. I did not, incidentally, base my recommendations solely on the Harvard Survey, and my statement with reference to the motion that I made said: "Based in large part" or words to that effect, "on the Harvard Survey."

If I may finish, I used the Strayer Report in part; and, if I

may, I also used some of my own common sense, and I assumed that highly paid administrators would also use some common sense; and if it is simpler and better and easier and safer to put little children in a wing of the Washington Irving, which is a new building, then I for one do not think it is common sense to send them to the Philbrick or the Conley.

Chairman: And pay for transportation.

Mr. Muchnick: And pay for transportation at the same time.

Superintendent: Madam Chairman, this Committee moved these changes, and I think you will all agree—those of you who voted for them—in the interests of, as you said, efficiency—would you agree to that?

Dr. Foley: Madam Chairman, go ahead. Stop this nonsense, will you? Let's get down to business.

Superintendent: In the interests of efficiency and economy—

Dr. Foley: Bellyaching.

Superintendent: Now, Mr. O'Keefe has placed twenty-one Grade I pupils in the Philbrick building, making a first grade of forty. If you want the twenty-one pupils to go now to the Washington Irving with a teacher for twenty-one and a Grade I class in the Philbrick with nineteen, then, if you express that wish, I shall carry it out, but these are the reasons why Mr. O'Keefe has allocated a certain number of pupils into the Philbrick and the Sumner and the Conley in keeping with the blueprint of the Harvard Survey.

Mr. Carr: Madam Chairman, in reference to my common sense slide rule, I think the common sense in this particular instance would have been to leave the children in the school where they are. However, inasmuch as you people saw fit to close it, I question the advisability of sending these children across Cummins Highway to the Washington Irving. We all know that district, and it is one of the heavily traveled streets in that district. These children are not junior high school children. They are elementary school children. I would like to point out that that is my opinion on it, Madam Chairman.

Mr. Muchnick: Madam Chairman, I move that unless some good reason is shown us by the next meeting, plans be made to house the Stephen M. Weld children in the Washington Irving School.

Chairman: On Mr. Muchnick's motion would you call the roll, Miss Reynolds?

Mr. Carr: What is the motion?

Chairman: To house the children from the Stephen M. Weld School in the Washington Irving School.

Dr. Foley: Madam Chairman, if it is the wish of the parents that the children should go to the Washington Irving, I think that would be perfectly all right.

However, it is purely administrative, and they can decide just what school the youngsters should go to whether it is the Conley, whether it is Philbrick, or whether it is the Washington Irving; and I think provision should be made suitable to the parent who wants the child to go to any one of the three schools. That is the easiest way to handle it, and there should not be any difficulty.

Mr. Carr: You feel it should be left in the hands of the Superintendent?

Dr. Foley: Let the Superintendent decide which school they should go to.

Mr. Carr: I agree with it, Doctor. I don't think there is any necessity for a vote.

Chairman: The motion is on provision to have those children placed in the Washington Irving.

Dr. Foley: I understand they have a wing there.

Chairman: I have talked with some of the parents from the Weld School who would be perfectly happy to have their children in the Washington Irving School.

Dr. Foley: That would be perfectly all right. I think that is the desirable place for them.

Chairman: I still think it is necessary to vote on Mr. Muchnick's motion, but give any persons who wish to have their children go to the other schools the privilege of sending them there but have provision that these children can go to the Washington Irving if their parents so desire.

So, would you call the roll on that, Miss Reynolds?

Secretary: This is Mr. Muchnick's motion that the Stephen M. Weld pupils be housed in the Washington Irving School.

Chairman: If their parents so desire.

Mr. Carr: Yes, if it is necessary. Miss Fitzgerald: I vote Yes, but I also want included in the record that the ideal situation would have been, as I moved earlier, to keep the Weld open.

Dr. Foley: Yes.

Mr. Muchnick: Yes.

Chairman: Yes.

Superintendent: Madam Chairman, for clarification for me: Is it the wish of this School Committee that I set up in the Washington Irving building a kindergarten class, a Grade I class, a Grade II, a Grade III, and a Grade IV, and then allow the parents in September to send their children to either the Grade I, Grade II, Grade III, or Grade IV, in the Irving, or send them to the Philbrick, the Charles Sumner, or the Conley?

In other words, Madam Chairman, it means this. I simply want to know your wishes and carry them out. Do you wish to have me establish five teachers with five classes in the Washington Irving building? If it is your wish, Madam Chairman, and the wish of a majority of the Com-

mittee, then I think you ought to settle it tonight.

Mr. Muchnick: Madam Chairman, it seems to me that a matter that is purely and simply one of administration as to whether you are going to have a first grade teacher in school A or school B is something that can be settled by the Superintendent, the Assistant Superintendent, the Director of Kindergartens, and the principal of the school, and you do not have to wait until September 10th.

When the Henry Vane School was closed last summer, the principal of that school contacted the parents of the school during the summer and talked to them and told them what the story was and where the children were going to go. Then there was no problem.

Now there seems to be serious problem. I wonder if there was no problem then because the closing of the Henry Vane School was recommended by the Superintendent and the closing of the Weld School was not recommended by the Superintendent.

Now let's get the same kind of spirit of action and co-operation in this as we had in the Henry Vane last year and there will be no need for questions of clarification or anything of that nature.

Superintendent: Madam Chairman, this is plainly—and I am very happy to see it—another case of reversal by three members, at least one member of the School Committee.

Chairman: Mr. Superintendent, that is not reversal. That is working out the very best solution.

Superintendent: No, I beg your pardon. No, Madam Chairman. Mr. Muchnick's statement was: Follow the pattern of the Survey and leave it to the administrators, and I have left it to Mr. O'Keefe.

Now let me ask you one question: Are three members of the School Committee, regardless of what we have already done and regardless of your previous action to follow the pattern of the Harvard Survey, which is what has been followed, and those were your only words, Madam Chairman and Mr. Muchnick, willing to tell me whether there are any objections on the part of any member of the School Committee to my now establishing five classes in the Washington Irving building?

I would like to settle it once and for all for all these good parents.

Mr. Carr: The previous speaker has had the floor for ten minutes, Madam Chairman.

Chairman: I would like to have the floor for one minute. Mr. Superintendent, is there sufficient room in that school for that many classes?

Superintendent: There is sufficient room in the Washington Irving, and we can set up five classes in the Washington Irving building.

Chairman: Well, then, I move that you do that if you think that is the number of children that should be moved over there. Then I move that you establish those classes as you just mentioned.

Superintendent: Madam Chairman, is there any objection on the part of any member to my here now deciding on five specific classes and clear the atmosphere for me, for Mr. O'Keefe, and for the parents?

Chairman: There is no objection.

Mr. Muchnick: Madam Chairman—

Superintendent: Excuse me.

Mr. Muchnick: In following the pattern or suggesting or moving that the pattern or the blueprint suggested by the Harvard Survey be followed by the administration, there was nothing in that suggestion of mine, nor is there anything in the report of the Harvard Survey, that says, common sense should not also be used or says that the Harvard Report is the only correct solution.

If, in a given neighborhood, it seems more common sense or more in keeping with common sense to transfer children from one building to another rather than to the three suggested by Harvard or anybody else, there is nothing under the law that says the administration should not do it.

Now rather than give a blanket Yes, as far as I am concerned, to establishing a kindergarten and a first grade, I would like to recommend that consistent with the facts and consistent with the Washington Irving space and the proximity of pupils and everything else, if the administration feels it ought to be kindergarten through Grade IV, let them do it.

If it is going to result in only three fourth grade pupils at the Washington Irving, obviously they should not do it, but let some common sense be injected into the mechanics of solving this problem.

Chairman: Would you call the roll on my motion that those classes be established in the Washington Irving, please?

Mr. Muchnick: If there is need for them.

Dr. Foley: Sufficient numbers. Chairman: If there are sufficient numbers.

Secretary: Mrs. Lyons' motion that kindergarten and Grades I through IV be established in the Washington Irving building if there is sufficient need for it.

Superintendent: Madam Chairman, you have to be either flesh or fish. We either have to establish those classes or not, and it is not a question of: "If there is need for them."

Chairman: Maybe we can answer it now, Mr. Superintendent. How many children in the fourth grade?

Superintendent: There are twenty-one pupils in Grade IV if they all see fit to go to the same class in the Washington Irving School. There are twenty-seven

first graders. There are twenty-five second graders. There are thirty third graders if they all go to the Washington Irving building.

I think this Committee ought to settle it tonight in the minds of those parents so that they can know. Yes or No, that there will be a fourth grade established and there will be a third grade and there will be a second and a first grade.

Chairman: I think from the figures that there is an ample number of pupils for each class to warrant opening all these four grades there, and I would still go along with my original motion that they be established.

Secretary: That a kindergarten and Grades I to IV be established in the Washington Irving building if there is need for it.

Superintendent: No—excuse me. I don't think that it should be: "If there is need for it." I think that this Committee should face the issue.

Mr. Muchnick: Madam Chairman, the Committee obviously is facing the issue, and I do not believe the Superintendent should duck the issue.

Superintendent: I am not ducking. I never duck.

Mr. Muchnick: If there is need, we do it. If there isn't need, then we don't do it.

If the twenty-one pupils currently listed for Grade IV should, by September 10th or 12th, whenever registration day would be, become eight or ten pupils, then the Superintendent and nobody would want to keep a classroom for eight pupils, and no parent would expect a classroom kept open for eight pupils, whether it were at the Washington Irving, the Weld, the Philbrick, or anywhere else, and I would suggest, Madam Chairman, that we vote on your motion as you stated—that the classes be there if there is need for it.

Chairman: If there is a sufficient number of children and if there are the numbers as read off by the Superintendent, I would certainly go along with the original motion that these classes be established.

(Rollcall: Five, Yes.)

Mr. Corcoran: Mrs. Lyons, may I speak about that having to do with the Washington Irving? It is a matter of knowing how many rooms we are going to put furniture into. These children cannot use the furniture that is in the Washington Irving. We cannot put it in on the day we open, either.

Mr. Muchnick: Madam Chairman it is very simple.

Chairman: Won't they be able to work on it from now until September and get the furniture over from some of the schools that are being closed?

Mr. Muchnick: Madam Chairman, it seems to me that it would be a very simple thing for Mr. O'Keefe to do in this school what was done last year by the principal.

pal in the Henry Vane School and what was done in all other schools when similar conditions arose; and to make unnecessary mountains out of molehills, is not good administration, as I see it.

Mr. Carr: Madam Chairman, this is just one other case of a member impugning the motives of someone appearing before this Committee. Mr. Corcoran, I am sure, is sincere about this, and it's all right for that member to sit there and say that it is simple; it's simple. He has his head in his law books so long that everything is simple.

Now, Madam Chairman, there is an Assistant Superintendent who posed a problem for this Committee to decide who has spent a lifetime in the educational field, and this member sees fit to impugn his motives and try to raise objections.

I resent the actions of such a member, Madam Chairman. I think these men are sincere and I think they should be given the courtesy that any sincere educator should be given when they appear before this Committee.

Mr. Muchnick: Madam Chairman, I have to straighten this one thing out and then I will drop the subject. I did not impugn the motives of John Corcoran.

Mr. Carr: You certainly did, Mr. Muchnick.

Mr. Muchnick: I merely pointed out that if he followed the procedure that was followed last year, then it would not be a serious problem; and, as the member has stated, when I have a serious or a minor legal problem I bury my head in the law books and come up with the answer, and that is all I am asking Mr. Corcoran to do or Mr. Haley to do with an educational or administrative problem.

Mr. Carr: Well, Madam Chairman, he should add that he did say: "Let's not be raising objections."

Chairman: There are other things that have to be acted on tonight.

The Committee adjourned.

Attest:

AGNES E. REYNOLDS

Secretary.

STREET CONSTRUCTION IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for a public improvement consisting of the laying out and construction of an extension of Bowditch road, West Roxbury district, as a highway, approximately 250 feet westerly, bounded and described as follows:

An extension of the highway named Bowditch road is hereby laid out, for a distance of approximately 250 feet westerly, and ordered constructed.

Said highway and the land, exclusive of trees, shrubs or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Easterly by Bowditch road (highway) 43.33 feet; southerly by the southerly line of said Bowditch road as hereby laid out, by three measurements, 1635 feet on a curve of 1118.36 feet radius, 49.09 feet on a curve of 125.59 feet radius and 145.68 feet; westerly by the westerly line of said Bowditch road as hereby laid out, 110.95 feet on a curve of 30 feet radius; and northerly by the northerly line of said Bowditch road as hereby laid out, by three measurements, 57.05 feet on a curve of 102.50 feet radius, 75.65 feet and 64.73 feet on a curve of 165.59 feet radius.

Trees, shrubs or structures standing upon or affixed to the aforesaid land shall be removed therefrom within thirty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting parcels of land situated on both sides of Bowditch road, as extended under this order, from Bowditch road (highway) for a distance of approximately 250 feet westerly, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said parcels in the amount hereinafter respectively set against it; said parcels and the supposed owners thereof being shown on the plan heretofore referred to and on file in the office of said department.

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement consisting of the laying out and construction of Arvale road (formerly Harvard road), Dorchester district, as a highway, from Harvard avenue for a distance of 180 feet northeasterly, under the order of the Board of November 2, 1953, and awards no damages therefor.

WIDENING OF WASHINGTON STREET, WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for a public improvement consisting of the widening of Washington street, West Roxbury district, as a highway, at the southwesterly corner of Morton street, bounded and described as follows:

The highway named Washington street is hereby widened at the southwesterly corner of Morton street (without construction).

For the making of the aforesaid improvement an easement for street purposes is hereby taken in the following described land, exclusive of trees, shrubs or structures standing upon or affixed thereto:

A parcel of land, supposed to belong to Boston and Providence Railroad Corporation, bounded:

Westerly by the westerly line of Washington street as hereby widened, 41.55 feet on a curve of 28 feet radius; northerly by the southerly line of Morton street as it existed prior to this order, 31.75 feet; and southerly by the northerly line of Washington street as it existed prior to this order, 46.77 feet, containing 406 square feet, more or less.

Voted, That this Board determines that the undermentioned sustains damages in its estate by the making of the public improvement, consisting of the

widening (without construction) of Washington street, West Roxbury district, as a highway, at the southwestly corner of Morton street, under the order of the Board of October 26, 1953, in the amount hereinafter mentioned, and awards said amount therefor.

Boston & Providence Railroad Corporation, 406 square feet, \$1.

CONSTRUCTION OF POPLAR STREET, WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for a public improvement consisting of the widening and construction of Poplar street, West Roxbury district, as a highway, on the westerly side, between Whitford street and Hilburn street, bounded and described as follows:

The highway named Poplar street is hereby widened on the westerly side, opposite the intersection of Canterbury street and Grew avenue (without construction).

For the making of the aforesaid improvement an easement for street purposes is hereby taken in the following described land, exclusive of trees, shrubs or structures standing upon or affixed thereto:

A parcel of land, supposed to belong to Mary Jamiol, bounded:

Westerly by the westerly line of Poplar street as widened under this order, 98.04 feet on a curve of 142.31 feet radius; easterly by the westerly line of Poplar street as it existed prior to this order, by two measurements, 43.65 feet and 60.62 feet on a curve of 50 feet radius; and southerly by land hereinafter described as taken from owners unknown, 16.45 feet on a curve of 50 feet radius; containing 514 square feet, more or less.

A parcel of land, owners unknown, bounded:

Northerly by land hereinafter described as taken from Jamiol, 16.45 feet on a curve of 50 feet radius; easterly by the westerly line of Poplar street as it existed prior to this order, 43.65 feet, and westerly by the westerly line of Poplar street as widened under this order, 27.67 feet on a curve of 142.31 feet radius, containing 39 square feet, more or less.

Said Poplar street as hereby widened is bounded:

Easterly by the westerly line of Poplar street as it existed prior to this order, by three measurements, 43.65 feet, 60.62 feet on a curve of 50 feet radius and 43.65 feet; and westerly by the westerly line of Poplar street as hereby widened, 125.71 feet on a curve of 142.31 feet radius, containing 553 square feet, more or less.

Voted. That this Board determines that the undermentioned persons sustain damages in their estates by the making of the public improvement, consisting of the widening (without construction) of Poplar street, West Roxbury district, as a highway, on the westerly side, opposite the intersection of Canterbury street and Grew avenue, under the order of the Board of October 27, 1953, in the amount hereinafter mentioned, and awards said amount therefor.

Mary Jamiol, 514 square feet, \$1.

Owners unknown, 39 square feet, \$1.

AMENDED DAMAGES.

The Mayor has approved the following votes of the Board of Street Commissioners:

Voted. That the order of the Street Commissioners and Mayor of April 18, 1952, as amended, determining damages caused by the making of the public improvement consisting of the laying out of Colorado street, Dorchester, be, and the same hereby is, amended, by adding to said order the amount \$150 as an award to Abraham R. and Libbie K. Meckelburg; that the amount \$150 be, and the same hereby is, awarded to Abraham R. and Libbie K. Meckelburg for the damages so sustained.

Voted. That the order of the Street Commissioners and Mayor of September 18, 1952, as amended, determining damages caused by the making of the public improvement consisting of the laying out of Laurie avenue, West Roxbury, be, and the same hereby is, amended, by adding to said order the amount \$65 as an award to William J. and Pauline E. Robertson; that the amount \$65 be, and the same hereby is, awarded to William J. and Pauline E. Robertson for the damages so sustained.

Voted. That the order of the Street Commissioners and Mayor of January 30, 1952, determining damages caused by the making of the public improvement, consisting of the laying out of Manchester street, Dorchester, be, and the same hereby is, amended, by striking from said order the amount \$1 awarded to Ainsley Brinton in said order and inserting in place thereof the amount \$150; that the amount \$150 be, and the same hereby is, awarded to Mary B. Torr for the damages so sustained.

Voted. That the order of the Street Commissioners and Mayor of October 31, 1952, as amended, determining damages caused by the making of the public improvement consisting of the laying out of Keane road, West Roxbury, be, and the same hereby is, amended, by adding to said order the amount \$100 as an award to Leo E. and Mary E. Hoban; that the amount \$100 be, and the same hereby is, awarded to Leo E. and Mary E. Hoban for the damages so sustained.

DAMAGES SUSTAINED.

The Mayor has approved the following votes of the Board of Street Commissioners:

Voted. That the order of the Street Commissioners and Mayor of September 27, 1952, determining that no person sustains damages by the making of the public improvement, consisting of the laying out of Pleasant street, West Roxbury, be, and the same hereby is, amended, by striking out in the first and second lines of said order the words: "that no person sustains in his estate," and by striking out in the last line of said order the word: "no." That said order be further amended by adding thereto Arthur A. and Josephine T. Shabo, \$145. That the amount \$145 be, and the same hereby is, awarded to Arthur A. and Josephine T. Shabo for

the damages sustained by the making of the said improvement.

Voted. That the order of the Street Commissioners and Mayor of September 23, 1952, determining that no person sustains damages by the making of the public improvement, consisting of the laying out of Ferncroft road, West Roxbury, be, and the same hereby is, amended, by striking out in the first and second lines of said order the words: "that no person sustains in his estate," and by striking out in the last line of said order the word: "no." That said order be further amended by adding thereto James I. and Dorothy M. Black, \$235. That the amount \$235 be, and the same hereby is, awarded to James I. and Dorothy M. Black for the damages sustained by the making of the said improvement.

Voted. That the order of the Street Commissioners and Mayor of November 26, 1952, determining that no person sustains damages by the making of the public improvement consisting of the laying out of Hackensack Circle, West Roxbury, be, and the same hereby is, amended, by striking out in the first and second lines of said order the words: "that no person sustains in his estate," and by striking out in the last line of said order the word: "no." That said order be further amended by adding thereto Sophia Friedman, \$150. That the amount \$150 be, and the same hereby is, awarded to Sophia Friedman for the damages sustained by the making of the said improvement.

CLAIMS ALLOWED.

Upon recommendation of the Corporation Counsel, the Mayor has approved the following claims:

John T. Moran, 519 Dudley street, Roxbury, to be reimbursed in the sum of \$136.62, as a result of an accident which occurred on July 19, 1952, when a motor truck belonging to the Fire Department, which he was operating, collided with an automobile owned by William S. Columbo.

Arthur J. RECENT FEDERAL ACTIONS AFFECTING CITIES.

The Housing Act of 1949, approved on July 15, authorized a uniform 10 per cent payment to cities in lieu of taxes on housing projects, but the independent offices appropriation bill passed on August 15 contains a provision that for the fiscal year ending June 30, 1950, only payments provided for in the original contract between the housing authority and the city are authorized for federal reimbursement.

Federal aid for hospital construction has been approved for nearly 800 projects; more than 600 are general hospitals and the great majority are in towns of under 10,000 population.

PROPOSALS FOR REMOVAL OF BRICK WALL SECTIONS AT DRIVEWAY TO MORGUE YARD FROM MASSACHUSETTS AVENUE TO YARD AREA AT SIDEWALK NEAR ROXBURY CANAL AND FURNISHING AND INSTALLING WROUGHT IRON FENCE IN SAME AREA, BOSTON CITY HOSPITAL.

The Trustees of the Boston City Hospital invite sealed proposals for removal of brick wall sections at driveway to Morgue yard from Massachusetts Avenue to yard area at sidewalk near Roxbury Canal and furnishing and installing wrought iron fence in same area, Boston City Hospital, in accordance with the specifications. A bond of a surety company in the sum of the entire contract price will be required for the faithful performance of the contract. Only proposals obtained at the office of the Superintendent of the Boston City Hospital, 518 Harrison Avenue, Boston, signed by the bidder and left before two o'clock P.M. on Wednesday, November 25, 1953, at the office of the Superintendent, together with a certified check for \$100, payable to the city, will then and there be publicly opened and read. The one with the check is to be left as above, the other to be filed with the City Auditor, Hall, Boston, before two o'clock P.M. on the date given above for receiving proposals. The rate per hour to be paid to those who are to be employed under this contract must not be less than the rate of wages determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is attached to the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract, and sufficient proof of such compliance with the foregoing stipulation will be required before the award of said contract.

Proposals are to be addressed "Proposal for Removal of Brick Wall Sections at Driveway to Morgue Yard from Massachusetts Avenue to Yard Area at Sidewalk near Roxbury Canal and Furnishing and Installing Wrought Iron Fence in Same Area, Boston City Hospital."

The Trustees reserve the right to reject any and all proposals.

CITY OF BOSTON.

DEPARTMENT OF SCHOOL BUILDINGS.

TO ELECTRICAL CONTRACTORS.

INVITATION FOR PROPOSALS FOR ELECTRICAL WORK AT GROVER CLEVELAND SCHOOL, CHARLES STREET, DORCHESTER, MASS., AND JAMES P. TIMMITY SCHOOL, ELIOT SQUARE, ROXBURY, MASS.

The Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for electrical work at Grover Cleveland School, Charles Street, Dorchester, Mass., and James P. Timmity School, Eliot Square, Roxbury, Mass.

Proposals will be received until 12 o'clock noon, Monday, November 23, 1953, at the office of the Awarding Authority, fourth floor, 26 Norman Street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$100 shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bids will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

Specifications may be obtained at the office of the Awarding Authority on or after November 16, 1953.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informality and to reject any and all bids if it be in the public interest so to do.

JAMES H. MOONEY,
(Nov. 14) Superintendent of Construction.

Ordered, His Honor the Mayor having approved the same, that they be retired from active service in the Police Department, effective Friday, November 6, 1953, at 7.45 o'clock A.M.:

Detective Andrew J. Mullen, Division 3, 33 years of service.

Patrolman James A. Lodge, Bureau of Operations, 30 years of service.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

PUBLIC HEALTH NURSES.

Public health nurses were first employed by the Boston Health Department in 1910. The reason for their employment and the scope of their work has changed over the years but their objective of education in health practices remains essentially the same. In September, 1924, the Health Department took over the child hygiene work, both clinics and home visitation, from the Community Health Association, which is now the Visiting Nurse Association. As a result of the additional work entailed, 20 nurses were added to the staff. In January, 1952, the program was put on a generalized basis and all nurses then in the Health Department were placed under a nurse director. Each nurse was given a district and did all the required work in her area.

HOSPITAL, BOSTON HARBOR, MASS.

The Commissioner of Institutions of the City of Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for alterations to Administration Building, Long Island Hospital, Boston Harbor, Mass.

Proposals will be received until 12 o'clock noon, Wednesday, November 25, 1953, at the office of the Commissioner of Institutions, 1109 City Hall Annex, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority, 1109 City Hall Annex, Boston, Mass. Each copy of the proposal shall be properly filled out, signed, and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the amount of 10 per cent of the base proposed shall be submitted with each bid filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs, laborers, etc., in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts, a copy of which schedule is attached to the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under the contract.

Plans and specifications may be obtained at the office of the Awarding Authority, 1109 City Hall Annex, Boston, Mass. A deposit of \$5 will be required for each set of plans and specifications, and this deposit will be returned to the bidders upon receipt of the plans and specifications in good condition by the Awarding Authority.

Subbidders bidding on the work of subcontractors shall use the proposal form obtainable from the Awarding Authority upon request.

Subbids will be taken on the following portions of the work:

- A. Electrical.
- B. Tile and Marble.
- C. Plumbing and Heating.

All subbidders' proposals must be in the possession of the Awarding Authority and delivered or mailed to the general bidders no later than 12 noon, Friday, November 16, 1953.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, shall be submitted by subbidders listed under Item 2 of the general contractor's bid form, in not less than 10 per cent of the subbidders' bid amount, and shall be submitted with each subbid.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract will be required of the successful general contractor.

Information relating to the performance bonds of subcontractors is set forth in the notice to subbidders.

The City of Boston reserves the right to reject any or all bids of the general bidders and to waive any informalities in bidding, if it is in the public interest to do so. The City of Boston also reserves the right to reject all bids of the subbidders on any item or items in the full amount of the public bidding, if such rejection or waiver be in conformity with section 44C of chapter 149 of the General Laws.

LEADING BUSINESS AND PROFESSIONAL MEN OF CITY WILL PRESENT MUSICAL PROGRAM ON CITY HALL PLAZA TO AID MAYOR HYNES IN OPENING CHRISTMAS FESTIVAL SEASON BY LIGHTING FIRST YULE CANDLE IN ADVENT WREATH—SINGING GROUPS FROM VARIOUS FAITHS TO SHARE IN EXERCISES.

A 500-voice choir, including more than 100 of Boston's leading business and professional men, will take part in a colorful nonsectarian musical program at City Hall Plaza, Friday, November 27, at 4:30 P.M., when Mayor John B. Hynes will mark the opening of the 1953 City of Boston Christmas Festival by lighting the first candle in the city's Advent Wreath.

Assisted by singing groups from several schools and churches of various religious faiths, the Greek Orthodox Theological Institute Choir, a Salvation Army brass choir, and outstanding soloists, the businessmen, under the direction of Pops Director Arthur Fiedler, will usher in the fourth of the now nationally famous city-wide Christmas Festivals.

BOSTON HAS COMPLETED PLANS FOR TAKING CARE OF ANY AND ALL UNUSUAL SNOWSTORM CONDITIONS ARISING DURING WINTER AT HAND—EQUIPMENT AND LABOR DEEMED NECESSARY PROVIDED BY PUBLIC WORKS COMMISSIONER WITH APPROVAL OF MAYOR HYNES.

Boston has completed plans for caring for and meeting any unusual situation that may follow snowstorms during the winter. The Mayor has approved the request of the Public Works Commissioner to have the equipment and necessary labor provided by contractors to keep in front of storms. The letter seeking approval reads as follows:

PUBLIC WORKS DEPARTMENT.

Boston, November 4, 1953.

To the Mayor of Boston.

Because of the unusual conditions which often arise following snowstorms and the prolonged periods during which the equip-

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean;
May thy future be bright, thy skies beam with light all serene,
Ensured by the sons' and thy daughters' unselfish devotion."

From Boston Centennial Poem by
NATHAN HASKELL DOLE.

MAYOR, LEADING BUSINESS AND PROFESSIONAL MEN TO OPEN CHRISTMAS FESTIVAL.

(Continued from page 1533.)

Headed by well-known Boston wool merchant Harry J. Blake, the Businessmen's Chorus is composed of the heads of the leading Boston retail stores, merchants, doctors, lawyers, and clergymen of several denominations. Military and political leaders will also join in the group. John Kiley, noted organist, will assist the singing.

Following the afternoon ceremony, the colorful displays on Boston Common and the Public Garden, the principal streets, squares, and public buildings of downtown Boston will be illuminated.

A unique series of Christmas concerts, representing singing groups from all the leading schools, colleges, and churches of Greater Boston, will begin that evening at the Christmas Music Hall, opposite the State House.

Already a number of noted musical groups, including the Boston University Glee Clubs, the People's Baptist Church Choir, the choirs of Gloucester Memorial Presbyterian Church, Perry Normal School, the Wyndham School, the Massachusetts Memorial Hospitals, Hyde Park Y.M.C.A., and the Associated German Choirs of Massachusetts, are scheduled to take part.

The concerts will be held daily from twelve to two and in the evening from seven to nine until Christmas. More than a million people were attracted during last year's Festival period to the religious and children's tableaux in the Public Garden-Boston Common area.

MAYOR AND PUBLIC WORKS COMMISSIONER COMPLETE PLANS FOR SNOW REMOVAL.

(Continued from page 1533.)

ment and necessary labor provided by contractors must be kept at work, the cost in some instances will be more than \$1,000, necessitating, under the provisions of the City Charter, written contracts with the firms which have been engaged.

I consider it to the city's advantage to have the department in a position to call upon contractors to furnish labor and equipment, when and where required, when emergency occasions arise, and I respectfully request the authority of your Honor to dispense with advertising and to award contracts to the following-named firms and individuals to furnish labor and equipment when considered necessary for the years 1953 and 1954 to supplement the regular forces of the Public Works Department engaged in snow removal activities.

Coleman Bros. Corporation, 40 Central street.

William G. Baleh, 14 Humphreys place, Dorchester.

P. V. Barone Corporation, 70 Glencoe street, Brighton.

J. D'Amico, Inc., 49 Ellison avenue, Dorchester.

Joseph J. Struzziery, 115 Kittredge street, West Roxbury.

From a canvass conducted by the department, it has been ascertained that the firms named can furnish the equipment necessary to do the required snow removal work. Furthermore, advertising for bids would not, in my opinion, be practicable on account of the uncertainty of the amount of work to be done and also because the contract involves the rental of equipment and the hiring of labor only, and the rates paid are in accordance with the prevailing rates established in this area for this type of work.

In the event this work becomes necessary, payment will be made in accordance with the schedule of rates established by this department, as will be specifically set forth in the contract.

Respectfully yours,

GEORGE G. HYLAND,
Commissioner of Public Works.

"TRUCK TRANSPORTATION WEEK" DECLARATION.

The following declaration has been issued from the office of the Mayor:

Whereas, The first motor truck, nothing more than a motorized dray or delivery wagon, chugged along an American roadway in 1903; and

Whereas, This was the forerunner of millions on millions of motor trucks that were to serve agriculture, industry and commerce in this and other states in the years that were to follow; and

Whereas, The truck transportation industry has grown to such gigantic proportions over the past half century that it has become a vital adjunct to the peaceful progress and security of the state and nation; and

Whereas, Truck transportation has advanced the forward course of our national and state development, building up new communities and uniting existing communities closer together; and

Whereas, As a result of truck transportation, our lives have been made more prosperous, more comfortable and more healthful; and

Whereas, This vast industry now offers gainful employment to millions of our citizens, one out of every ten, spirited competition and cooperation to all other forms of transportation and, in general, contributes greatly to our traditional system of free enterprise; now, therefore,

I, John B. Hynes, Mayor of the City of Boston, do hereby proclaim the week of November 16 to November 22, 1953, as "Truck Transportation Week," for the citizens of Boston, and I call upon our people to consider the great accomplishments and the bright future of the trucking industry and to salute the men and women who are associated with it on the 50th anniversary of motor freight transportation.

M. S. KELLIHER COMPANY.

September 30, 1953.

JOHN M. GRAY COMPANY, Architects, 169 High Street, Boston, Mass.

SUBJECT: Municipal Building, 1481-1491 Tremont Street, Roxbury, Mass.

GENTLEMEN:

We submit for your approval our estimates for the following extra work at the above project, which is an addition to our contract:

1. Aluminum and Iron Work—Front Entrance Door:

Aluminum steel and labor, \$95.20; general contractor's work, \$25—\$120.20; plus 10 per cent profit, \$12.02—\$132.22.

2. Pipe Rails—Elevator Shaft:

Pipe, \$60; labor, \$25—\$85; plus 10 per cent profit, \$8.50—\$93.50.

3. Electric Work:

Electric, \$294.71; plus 10 per cent profit, \$29.47—\$324.18.

4. Extra Lintel—Room S-4:

Steel, \$122.60; labor, \$15—\$137.60; plus 10 per cent profit, \$13.76—\$151.36.

Total, \$701.26.

Yours very truly,

M. S. KELLIHER COMPANY,

JOHN J. KELLIHER, Treasurer.

JOHN M. GRAY COMPANY.

October 20, 1953.

MR. GEORGE P. DONOVAN, Superintendent, Public Buildings Department.

SUBJECT: Municipal Building, 1481-1491 Tremont Street, Roxbury, Mass.

DEAR MR. DONOVAN:

We are enclosing six copies of Change Order No. 9 on the above mentioned project, covering the following additional work:

Item 1.—Aluminum and Iron Work at the Front Entrance. Plaster and wood was originally called for in this location, but we felt it would be an improvement to install the aluminum trim in place of the wood. The contractor has submitted a price for doing this work in the sum of \$132.22.

Item 2.—Pipe Rails in Elevator Shaft. The plans were approved by the Building Department and by the Elevator Division, and the work proceeded in accordance with same. However, about a week before the work was ready for completion the local inspector insisted that additional pipe rails be placed in the upper part of the elevator well. While we think this is superfluous, they

have the authority to insist on this, and the rails were installed at a cost of \$93.50.

Item 3.—Electrical Work. There were two connections to the thermostat system shown on the heating layout. These thermostats were located on the exterior on the front and rear of the Welfare Department section. Our electrical engineer did not include the electrical work in connection with these thermostats, and it was therefore necessary for the contractor to cover this as an extra. It was also necessary to install a larger service for the electric range, which is located in the third floor lunchroom; in addition a larger service was required for the dumb-waiter in the Welfare Department section. The contractor has given a price of \$324.18 for doing this work.

Item 4.—Extra Lintel. In the elevator shaft we found that a steel lintel would be required for the elevator machinery. This was not shown on the original plans and the contractor submitted a price of \$151.36 for this work.

There is an allowance remaining in the contract for special hardware in the sum of \$1,500. The above four items of additional work total \$701.26, and this amount deducted from the \$1,500 allowance would leave a balance of \$798.74 to be deducted from the contract sum.

We would, therefore, recommend your approval of this change order at a deduction of \$798.74.

Copy of M. S. Kelliher Company's proposal dated September 30, 1953, is attached hereto.

Yours very truly,

JOHN M. GRAY COMPANY.

PUBLIC WORKS DEPARTMENT.

Martin J. Kelly Company, Inc., has been directed to make the following change in the contract for construction of concrete deck, etc., on Broadway Bridge, over Fort Point Channel, dated September 22, 1952:

* Concrete fill to be furnished for the steel sidewalk grating on the drawspan shall be a 1:2:2 mix instead of a 1:1½:3 mix, but shall otherwise conform to the existing specifications and shall be furnished and placed at no change in the contract price covering this work. This change shall not apply to the sidewalk which has been completed.

EXTENSION OF CONTRACTS.

PUBLIC WORKS DEPARTMENT.

Approval has been given for the extension of the time of completion of the contract with N. Bevilacqua & Son, dated May 4, 1953, for the rebuilding of sewerage works in Washington street at Oak square, Brighton, and Breck avenue, Brighton, and Southampton street, Roxbury, from September 11, 1953, to December 11, 1953, a period of 91 days. This extension was requested for the reason that due to the Broadway Bridge fire the traffic conditions on Southampton street delayed the repaving work.

Approval has been given for the extension of the time of completion of the contract with N. Bevilacqua & Son, dated June 26, 1953, for the building of sewerage works in Oakmere street, Billings street, and Hemlock road, West Roxbury, from October 10, 1953, to November 7, 1953, a period of 28 days. This extension was requested for the

reason that unforeseen obstacles delayed the starting and the rate of progress of the work.

Approval has been given for the extension of the time of completion of the contract with Charles Callahan Company, 69 Zeigler street, Roxbury, approved by the Mayor March 24, 1953, for rebuilding the upstream sidewalk of the Milton Bridge, over the Neponset River, to November 15, 1953. This extension was requested for the reason that the contractor has been delayed because of the necessity of waiting upon the Telephone Company to obtain the necessary steel and erect the same in place to support their conduits.

AMENDED DAMAGES.

The Mayor has approved the following vote of the Board of Street Commissioners:

Voted, That the order of the Street Commissioners and Mayor of November 26, 1952, as amended, determining damages caused by the making of the public improvement consisting of the laying out of Hackensack Circle, West Roxbury, be, and the same hereby is, amended, by adding to said order the amount \$160, as an award to Henry K. and Dorothy Kassis; that the amount \$160 be, and the same hereby is, awarded to Henry K. and Dorothy Kassis for the damages so sustained.

DAMAGES SUSTAINED.

The Mayor has approved the following vote of the Board of Street Commissioners:

Voted, That this Board determines that the undermentioned persons sustain damages in their estates, by the making of the public improvement consisting of the laying out and construction of Abby road (formerly Waverly place), Brighton district, as a highway, from Waverly street 275 feet westerly, under the order of the Board of November 4, 1953, in the amounts hereinafter respectively set against them, and awards said amounts therefor:

Domenico and Annina Costa, 14 square feet, \$1.

William and Alba C. Abbondanzio, 638 square feet, \$1.

Gaetano F. Abbondanzio, 776 square feet, \$1.

The Market Paper Box Company, 760 square feet, \$1.

DAMAGES AWARDED.

The Mayor has approved the following vote of the Board of Street Commissioners:

Voted, That the order of the Street Commissioners and Mayor of January 31, 1952, determining damages caused by the making of the public improvement consisting of the laying out of Westmount avenue, West Roxbury, be, and the same hereby is, amended, by striking from said order the amount \$1, awarded to Frank H. Gately, Lillian Gately, and Alice K. Meehan in said order, and inserting in place thereof the amount \$300; that the amount \$300 be, and the same hereby is, awarded to Frank H. Gately, Lillian Gately, and Alice K. Meehan for the damages so sustained.

DORCHESTER STREET CONSTRUCTION.

The Mayor has approved the order of the Board of Street Commissioners for a public improvement consisting of the laying out and construction of Savannah avenue, Dorchester district, as a highway, from Almont street to Monterey avenue, bounded and described as follows:

A highway named Savannah avenue is hereby laid out, from Almont street to Monterey avenue, and ordered constructed.

Said highway and the land, exclusive of trees, shrubs, or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Northeasterly by Almont street, 115.53 feet on a curve of 1,243.93 feet radius; southerly by the southerly line of Savannah avenue as hereby laid out, 39.68 feet on a curve of 20 feet radius; southeasterly by the southeasterly line of Savannah avenue as hereby laid out, 300.55 feet; easterly by the easterly line of Savannah avenue as hereby laid out, 44.36 feet on a curve of 20 feet radius; southerly by Monterey avenue, 132.73 feet; and northwesterly by the northwesterly line of Savannah avenue as hereby laid out, by three measurements, 55.40 feet on a curve of 60 feet radius, 374.67 feet, and 53.22 feet on a curve of 50 feet radius.

Trees, shrubs, or structures standing upon or affixed to the aforesaid land shall be removed therefrom within thirty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting parcels of land situated on both sides of Savannah avenue, from Almont street to Savannah avenue, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said parcels in the amount, hereinafter respectively set against it; said parcels and the supposed owners thereof being shown on the plan hereinbefore referred to and on file in the office of this department.

FIRE DEPARTMENT ORDERS.

ANNUAL MEMORIAL MASS.

General Order No. 53.

The Annual Solemn Requiem High Mass will be celebrated for all deceased members of the Boston Fire and Protective Departments at 9 A.M., Monday, November 23, 1953, at the Cathedral of the Holy Cross, Washington street, Boston.

The Most Reverend Archbishop Richard J. Cushing will preside at the Mass and preach the sermon. Monsignor Henry J. O'Connell, Boston Fire Department chaplain, will be the celebrant.

All off-duty members of the Fire Fighting Force, members of the Headquarters Division, Fire Alarm Division, Fire Prevention Division, Maintenance Division, Electrical Inspection Division, Civil Defense Division, and members of the Boston Protective Department are requested to attend the Memorial Mass. Members will march, in their respective units, from Engine 3's quarters to the cathedral.

Deputy Chief James J. Kane, liaison officer to the chaplain, will greet out of town officers attending the Mass.

Many members of the fire service are enrolled on the list of heroic dead. Some have died in defense of country, others as a result of injuries incurred in the line of duty. Others have passed on after illness or the natural course of years. All of these we remember in this religious service as we ourselves may wish to be remembered some day in years to come. The extent of the tribute and remembrance of our Fire Department dead in this instance rests squarely upon the department itself. By the response of members will be measured the depth of our respect for our departed fellow firemen. All persons, or groups, and all organizations should combine in this activity to make the attendance at this service as large as possible.

Families, relatives and friends of members, and former members are likewise cordially invited to attend this Annual Memorial Mass.

By order of Fire Commissioner JOHN F. COTTER.

JOHN V. STAPLETON,
Chief of Department.

General Order No. 54.

I. RETIREMENT.

The following retirement, in accordance with section 57, chapter 32 of the

General Laws as amended, is hereby announced to become effective at 8 A.M., Wednesday, November 18, 1953:

Capt. John H. McCarthy, Ladder Company 10.

Captain McCarthy was appointed to the Fire Department September 14, 1925. He was promoted to the grade of lieutenant July 9, 1937, and to captain August 19, 1942. He leaves the department with the best wishes of his associates.

II. FIRE ALARM BOX RELOCATED.

Due to the construction of the Sullivan Square Overpass, Fire Alarm Box 4184 has been relocated from the corner of Main and Gardner streets to the corner of Main and Beacham streets.

Company commanders will change the designation on assignment card for Box 4184 to read as follows:

4184, Main and Beacham streets.

III. FIRE ALARM BOX DISCONTINUED.

Due to the closing down of the Quincy Street School, the following fire alarm box has been discontinued and removed from service:

12-3182, Quincy Street School, Quincy and Stanley streets.

Company commanders will delete Box 12-3182 from assignment card for Box 3182 and delete Box 12-3182 from circuit card No. 24.

IV. 1954 UNITED RED FEATHER CAMPAIGN.

His Honor, Mayor John B. Hynes, through the City Employees Group Chairman, has made an appeal to all city employees to participate in the 1954 Red Feather Campaign of the United Community Services of Metropolitan Boston in order that funds can be raised to aid the many worthy member agencies, such as hospitals, health services, social agencies, and other organizations conducted for the common welfare.

The United Services Organization (U. S. O.) is included in the agencies assisted by the Red Feather Campaign. As all employees know, the U. S. O. is organized to provide entertainment and other needed services for men in the military and naval forces, especially those who are serving in foreign places, such as Korea, Germany, etc.

A quota of \$5,000 has been assigned to the Fire Department, and, in order to obtain this amount, the following schedule of donations is suggested to members of the department:

Privates, \$2; lieutenants, \$3; captains, \$4; district chiefs, \$5.50; deputy chiefs, \$6.

Civilian employees in the department receiving salaries equal to the rates above are asked to give according to the schedule. It is understood that this is a voluntary effort but the attainment of our goal of \$5,000 will reflect credit upon the members of our department.

Pledge cards are being distributed to the department today. Company commanders and heads of branch divisions are requested to personally interview each member of their command, including employees on injured leave, and ask them to make a contribution. All pledge cards are to be made out and returned to Headquarters on or before November 27, 1953. However, completed cards with initial donations should be sent to Headquarters as soon as possible before the foregoing date. Company

commanders are requested not to hold a number of completed cards while awaiting the receipt of one or two others. Company commanders shall fill in the stub of the pledge card as required and return the stub to the member donating money or pledging a contribution.

Also issued with this order is a Manila Report and Currency Envelope, together with sheets of carbon paper. Company commanders are requested to fill out the front of these report envelopes in triplicate and pull the two (2) white copies out over the flap of the envelope before the envelope is sealed. Carbon sheets should be used so that all three (3) copies can be made simultaneously. List the names of members, the total amount subscribed by each member and the amount paid at the time of the pledge. Cash donations and pledge cards should be placed in the report envelope, the envelope sealed as directed above, and forwarded to Headquarters as soon as possible. It is desired that company commanders return to Headquarters as many pledges as possible on or before 11 A.M., Friday, November 20, 1953.

Company commanders are requested not to detach any of the white lists from the envelopes. It is important that the two (2) white listing sheets be pulled out over the flap of the Manila envelope before envelope is sealed.

Envelopes containing pledge cards and currency will be received at Headquarters by Mrs. Ursula E. Nurse on or before November 27, 1953. Delivery of envelopes can be made on any weekday, except Saturday, and must be made between the hours of 9 and 11 A.M.

No deductions will be made on department payrolls in connection with this campaign as pledge cards appear to indicate.

By order of Fire Commissioner JOHN F. COTTER.

JOHN V. STAPLETON,
Chief of Department.

EXTRA WORK UNDER CONTRACT.

PUBLIC WORKS DEPARTMENT.

John McCourt Company has been directed to perform the following extra work under the contract dated July 13, 1953, for bituminous concrete pavement in Annunciation road, Ruggles street, and Whittier street, and for artificial stone sidewalks in Cabot street and Tremont street:

In Whittier street, remove defective bulkhead at corner of Tremont street; remove granite curbing and furnish and erect wood bulkhead at street line below sidewalk grade, for the lump sum of \$215.

Estimated cost of extra work, \$215.

Martin J. Kelly Company, Inc., has been directed to perform the following extra work under the contract dated September 22, 1952, for construction of concrete deck, etc., on Broadway Bridge, over Fort Point Channel:

Furnish and place approximately 1,110 square feet of concrete fill on the new steel deck of the drawspan, where directed, over and above the quantities called for under the contract; the additional concrete fill to be placed in accordance with the specifications, and as directed, at a cost of \$1 per square foot in place complete.

Estimated cost of extra work, \$1,110.

PROCEEDINGS OF SCHOOL COMMITTEE.

Aug. 11, 1953.

A meeting of the School Committee of the City of Boston was held in the Administration Building, 15 Beacon Street, at 1:00 o'clock a. m., the Chairman presiding.

Present: Mr. Carr, Miss Fitzgerald, Dr. Foley, Mrs. Lyons, and Mr. Muchnick.

SECRETARY PRO TEMPORE

In the absence of the Secretary, the Committee proceeded to the election of a Secretary pro tempore.

A roll call was ordered and the members as their names were called stated that they voted as follows:

For ELIZABETH T. DORGAN—Mr. Carr, Miss Fitzgerald, Dr. Foley, Mrs. Lyons, and Mr. Muchnick.

The Chairman declared Elizabeth T. Dorgan elected Secretary pro tempore.

The Chairman stated that the meeting called for Aug. 10, 1953, would not be held in view of the lateness of the hour.

Attest:

PRINTING OF CONFERENCE NOTES ON SALARY SCHEDULE

Dr. Foley: I move that a copy of all the conference notes on last Friday be given to each member of the Planning Board which set up the Salary Survey Committee Report, so that they can bring back to that organization any deliberations that took place on Friday with regard to the salary schedule of the Planning Board.

Chairman: If there are no objections?

Secretary: How many is that?

Dr. Foley: Twelve members of the Committee, on that. That means twelve copies.

Secretary: That is very expensive—

Dr. Foley: All I ask is that each member who saw fit to stay here to an unreasonable hour last Friday be allowed to bring back the deliberations to the respective organizations so that there won't be any conflict, and they won't be asked to look over any other record.

Mr. Carr: And there are about twelve?

Dr. Foley: Eleven copies.

Mr. Carr: I wonder if it has been brought out—it will be very expensive?

Secretary: It is a terrific amount of copy.

Mr. Carr: I wonder if it is worth anything? A lot of talk went on I don't think anyone will be interested in having it, and if it is going to be so much money, work and expense involved, I don't see any point to it.

I wonder if they would want a copy of it, Madam Chairman? Have they expressed a desire to receive a copy?

Dr. Foley: Why don't we poll the members of the group and ask if they would like a copy of the deliberations that took place up until about 12 o'clock to bring back to their organizations? You can read it and find out just what they are interested in.

If they don't want it, why that is O. K. with me.

Chairman: Mr. Ruddy is the chairman.

Mr. Carr: Do you see any use in having this, Mr. Ruddy?

Mr. Ruddy: Madam Chairman and Mr. Carr, particularly I do, because I would like it for the record of the Planning Board, and the Salary Survey Committee, to be passed down to the next committee. I think it would be very valuable. For my own purposes, that is what I would do with my copy.

Mr. Carr: That is one copy.

Mr. Kerr: Perhaps the stenographer can tell us approximately how many copies he can make on one typing, and also how far he has already commenced on this typing.

(Discussion off the record.)

Mr. Muchnick: I think Dr. Foley hit on the answer just a few minutes ago. If after it is

typed up by the stenographer in the normal course one copy is made for mimeograph purposes, either by the public stenographer or by one of our own in this building, from the copies which they normally make—that is, the public stenographer makes—we can run twelve or fifteen or fifty mimeographs of it, and that should be an inexpensive way of reproducing it.

Secretary: I believe it is going to be three or four hundred pages of typing, and Mr. Gibbons won't get it done for quite some time.

Mr. Carr: May I suggest that you poll these members, see how many want copies, that we have one copy made, and if they want to come in and make a copy for their own use, let them. I don't think we ought to go to any unwarranted expense to furnish to anybody what in my opinion is nothing but a general discussion of that salary survey.

Dr. Foley: I think that is a good idea.

Chairman: Could I offer one suggestion?

This record that is on file with the Committee is open to the members of this Committee at any time they want to use it.

Mr. Carr: That is it, make it available to them if they want a copy of it, let them copy it.

Secretary: As a matter of fact, we require two copies.

Chairman: Well, if you make perhaps three extras, that would be five.

Dr. Foley: I would go along with that.

Chairman: That satisfies you, Dr. Foley?

Dr. Foley: Yes.

Secretary: May this discussion be out of the meeting?

Dr. Foley: I don't see any necessity for taking it out of the public meeting, let it be in.

Secretary: We will make five complete copies.

Chairman: Available at all times to the Committee.

We will recess and go into conference.

Mr. Muchnick: Madam Chairman?

Chairman: Mr. Muchnick.

Mr. Muchnick: I wonder if that shouldn't be the subject of a motion? I move that we recess the public meeting for a half hour, or longer if necessary, for the purpose of going into conference with reference to the salary schedule or any other matters that come up before the conference.

On roll call, Mr. Muchnick's motion passed by the following vote:

YEAS—Mr. Carr, Miss Fitzgerald, Dr. Foley, Mrs. Lyons, and Mr. Muchnick—5.

NAYS—0.

RECESS

The Committee recessed at 3:30 o'clock P.M. for the purpose of going into Conference.

The meeting resumed at 11:55 o'clock P.M.

SALARY ADJUSTMENT ORDERS

William H. Kerr, Esquire, Chief Legal Assistant in the City Law Department, who, at an informal gathering of the School Committee, had been requested to draft certain salary adjustment orders and certain salary schedule orders, and at the conference of the Committee held during the recess of this meeting had laid before the Committee, in mimeographed form, the salary adjustment orders and in printed form, the salary schedule orders, which he had drafted pursuant to the request, was, by invitation of the Committee, in attendance at the meeting.

Mr. Muchnick: I move that we now dispense with rereading the orders, which were read in conference, and that such orders as were read in conference from the printed and mimeographed sheets be now considered and acted on by the Committee in the form as they are now as revised at the time of their original reading.

On roll call, Mr. Muchnick's motion passed by the following vote:

YEAS—Mr. Carr, Miss Fitzgerald, Dr. Foley, Mrs. Lyons, and Mr. Muchnick—5.

NAYS—0.

By due phraseology, Mr. Kerr then asked the Committee to consider the following order:

A. ORDERED, That in addition to any increment accruing by reason of his or her anniversary date and provided for by the salary schedule orders to be adopted by this Committee this day, every person serving in a rank hereinafter named in this order receive, effective September 1, 1953, a one hundred and twenty dollar (\$120) increase in his annual salary, provided, that in no event shall any such person receive more than the maximum salary prescribed for his rank by said salary schedule orders:

Mr. Muchnick: That, Madam Chairman, is one of the revisions to which the motion I just made refers and there will be other such during the course of the meeting to which I will not make special reference again. I just pointed this one out as an example of the type of provision for which the motion calls.

Mr. Carr: Does this complete the other order and make up the second affirmative step towards the single salary or is it the second step?

Chairman: No, it is the second step.

Mr. Kerr: The first was \$120, Madam Chairman—Mr. Carr, the second is \$180.

On motion of Mr. Muchnick, the order was adopted by the following roll call vote:

YEAS—Mr. Carr, Miss Fitzgerald, Dr. Foley, Mrs. Lyons, and Mr. Muchnick—5.

NAYS—0.

By due phraseology, Mr. Kerr then asked the Committee to consider the following order:

C. ORDERED, That in addition to any increment accruing by reason of his or her anniversary date and provided for by the salary schedule orders to be adopted by this Committee this day, every person serving in a rank hereinafter named in a order receive, effective September 1, 1953, a seventy-two dollar (\$72) increase in his annual salary, provided, that in no event shall any such person receive more than the maximum salary prescribed for his rank by said salary schedule orders:

Department of School Hygiene
School Physicians

On motion of Dr. Foley, the order was adopted by the following roll call vote:

YEAS—Mr. Carr, Miss Fitzgerald, Dr. Foley, Mrs. Lyons, and Mr. Muchnick—5.

NAYS—0.

Mr. Kerr then stated that the next order he was asking the Committee to consider was a new order in the sense that it had been drafted since the conference held during the recess of this meeting and so had not in form been previously considered by the Committee, Mr. Kerr then read the following order:

D. ORDERED, That in addition to any increment accruing by reason of his or her anniversary

date and provided for by the salary schedule orders to be adopted by this Committee this day, and in addition to any other salary increase provided for by any other order adopted by this Committee this day, each of the following Heads of Department receive, effective September 1, 1953, three and one-half increments in the amount prescribed for his or her rank in said salary schedule orders, and, in addition thereto, for the months of September, October, November and December, 1953, but for said months only, a temporary salary increase of \$84 per month:

Albert J. Van Steenberg,
Boston Latin School.

Margaret S. Miller, Girls' Latin School.

Mr. Muchnick: Mr. Kerr, would you, so long as this didn't come up in the conference, explain the complete significance of that order and the relationship not only to those two members but to the rest of the group of heads of department.

Mr. Kerr: These two individuals were appointed during the school year 1951-1952 which was the school year in which a great many salaries were held up by the City Auditor in so far as they concerned an alleged increase of \$504. Inasmuch as the payroll submitted by the School Department to the Auditor did not include the alleged \$504 increment for the two individuals named in this order, they were not included in the orders prepared a year ago and adopted by this Committee.

The Committee, as I understand it, however, believed that all persons who on October 30, 1952, were serving in the positions of heads of departments were, by the orders adopted on said August 30, 1952, given the \$504 increase. That was not so in these two cases because of the fact that there was no initial payroll from this department to the Auditor for these two cases.

Therefore, this order is being passed to correct the situation from now forward and grant them three and one-half increments which is equivalent to \$504 and also to give them a comparable temporary salary increase of \$84 per month which was given the other heads of departments last year for the last four months of this year to recompense them for the loss of the \$504 during the first eight months of this year.

Miss Fitzgerald: Madam Chairman?

Mr. Muchnick: Madam Chairman?

Chairman: Mr. Muchnick.

Mr. Muchnick: I just want to know if the wording of that order eliminates the particular inequality as of September 1, 1953?

Mr. Kerr: No, Madam Chairman and Mr. Muchnick, I would say more strictly it eliminates the inequality as of January 1, 1953.

Mr. Muchnick: But it does eliminate the particular inequality, now?

Mr. Kerr: Yes.

Miss Fitzgerald: I just wanted to ask Mr. Kerr if that order would now eliminate Van Steenberg and Miller from order "E"?

Mr. Kerr: That is correct.

Chairman: Yes, it will.

Mr. Muchnick: And this in no way adversely affects the single salary schedule, obviously?

Mr. Kerr: I would think not. The recommendations of this order are not as generous as the report of the Planning Board because that included amounts—

On motion of Dr. Foley, the order was adopted by the following roll call vote:

YEAS—Mr. Carr, Miss Fitzgerald, Dr. Foley, Mrs. Lyons, and Mr. Muchnick—5.

NAYS—0.

Mr. Kerr then read the following order:

E. ORDERED, That in addition to any increment accruing by reason of his or her anniversary date and provided for by the salary schedule orders to be adopted by this Committee this day, and in addition to any other salary increase provided for by any other order adopted by this Committee this day, each of the following named persons receive, effective September 1, 1953, two additional increments in the amount prescribed for his rank in said salary schedule orders, provided, that in no event shall any such person receive more than the maximum salary prescribed for his rank by said salary schedule orders:

Alice R. Geary, vice principal, Agassiz.

Joseph P. Ferrara, submaster, Dearborn.

Mary J. Sullivan, vice principal, Dillaway.

John E. Denehy, cooperative instructor, Roxbury Memorial High School (Boys).

Francis W. McPhee, shop foreman, Department of Industrial Arts.

Virginia M. Arnold, assistant, high schools, Department of Physical Education.

On motion of Dr. Foley, the order was adopted by the following roll call vote:

YEAS—Mr. Carr, Miss Fitzgerald, Dr. Foley, Mrs. Lyons, and Mr. Muchnick—3.

NAYS—0.

In connection with her vote, Miss Fitzgerald made the following statement:

Madam Chairman, I am very happy to vote Yes on those included, but I wish to make known for the record that I am very much opposed to having those names left out which were deleted during the conference. I think every one should be included.

Mr. Kerr then read the following order:

F. ORDERED, That every person holding on September 1, 1953, the rank of Division Head, Boston Trade High School, receive, effective said September 1, 1953, the maximum salary prescribed for his rank in Order No. 3 of the Salary Schedule to be adopted by this Committee this day.

On motion of Mr. Muchnick, the order was adopted by the following roll call vote:

YEAS—Mr. Carr, Miss Fitzgerald, Dr. Foley, Mrs. Lyons, and Mr. Muchnick—5.

NAYS—0.

Mr. Kerr then read the following order:

G. ORDERED, That the person holding on September 1, 1953, the rank of Assistant in Charge, Classes for Conservation of Eyesight, receive, effective said September 1, 1953, the maximum salary prescribed for said rank in Order No. 3 of the Salary Schedule to be adopted by this Committee this day.

On motion of Dr. Foley, the order was adopted by the following roll call vote:

YEAS—Mr. Carr, Miss Fitzgerald, Dr. Foley, Mrs. Lyons, and Mr. Muchnick—5.

NAYS—0.

Mr. Kerr then read the following order:

H. ORDERED, That Robert V. McCabe, junior master (physical education) receive, effective September 1, 1953, a salary at the rate of forty-nine hundred twenty dollars (\$4920), with an increment of \$144 every time the anniversary date of September 1 thereafter occurs until the maximum salary prescribed for his rank in Order No. 3 of the salary schedule to be adopted by this Committee this day is reached.

On motion of Miss Fitzgerald, the order was adopted by the following roll call vote:

YEAS—Mr. Carr, Miss Fitzgerald, Dr. Foley, Mrs. Lyons, and Mr. Muchnick—5.

NAYS—0.

SALARY SCHEDULE, 1953-54

The following fifteen orders establishing a salary schedule, with increments, for teachers, members of the supervising staff and others, for the year ending Aug. 31, 1954, were offered:

By due phraseology, Mr. Kerr then asked the Committee to consider the following order:

1. ORDERED, That effective as of September 1, 1953, the salaries of teachers, members of the supervising staff and others are hereby established for the school year September 1, 1953 to August 31, 1954, inclusive, in accordance with the following schedule and subject to the following adjustments or limitations.

On motion of Mr. Muchnick, the order was adopted by the following roll call vote:

YEAS—Mr. Carr, Miss Fitzgerald, Dr. Foley, Mrs. Lyons, and Mr. Muchnick—5.

NAYS—0.

By due phraseology, Mr. Kerr then asked the Committee to consider the following order:

2. ORDERED, That during the period commencing September 1, 1953, and ending August 31, 1954, teachers, members of the supervising staff and others who on August 31, 1953, shall not have reached the maximum of their salary schedules, shall be advanced in accordance with the provisions of the regulations on their respective anniversaries by the amount of the annual increment provided for in the following schedules until the maxima of their respective ranks are reached; provided, that the final increment shall be such as shall place the person upon the maximum salary of his rank.

On motion of Mr. Muchnick, the order was adopted by the following roll call vote:

YEAS—Mr. Carr, Miss Fitzgerald, Dr. Foley, Mrs. Lyons, and Mr. Muchnick—5.

NAYS—0.

By due phraseology, Mr. Kerr then asked the Committee to consider the following order:

3. ORDERED, That in adopting this salary schedule the School Committee reserves the right, in the event that the General Court of Massachusetts does not grant the School Committee in 1954 power to appropriate, or the Mayor and City Council of Boston do not appropriate, a sum sufficient in the opinion of the School Committee to pay in full the salaries specified in this salary schedule, to revise this salary schedule at any time between January 1, 1954, and August 31, 1954, both inclusive, by making such reductions therein as would amount in effect to no more than the amount by which this salary schedule exceeds the salary schedule of September 1, 1950.

Miss Fitzgerald: I wish to make a statement with regard to the change concerning the abolition of the position of "Director of Adult Education."

It seems to me that a department which spends in excess of \$300,000 certainly should have the services of a full-time director; and even though there are four assistant superintendents who are severally carrying out the duties of director, I don't believe you can get maximum efficiency—with due respect to their talents—for that department, without a director.

Superintendent: I concur, Madam Chairman, in what Miss Fitzgerald has said.

Miss Fitzgerald: I think it is an unnecessary burden on the Assistant Superintendents, who already have full-time jobs without the addition of these duties which comprise evening work in some cases. I don't know whether Miss Hearn wishes to make a statement.

Miss Hearn: Whatever is the pleasure of the Chairman.

Miss Fitzgerald: I would like to see Miss Hearn given opportunity to speak.

Chairman: Didn't you speak? Miss Hearn: I said, "Whatever is the pleasure of the Chairman."

Chairman: I am sorry. I was looking at something else. Go ahead.

Miss Hearn: I would like to say that I feel, as I am certain all of you do, that the assistant superintendents working on a functional basis have a full-time assignment at present over and above those duties which are listed.

You are going to have, in my particular instance, an elementary system brought up to the standards which I know you and the Superintendent desire. It is going to embrace, however, more than the administrative phase—visiting schools in the morning and holding office hours for parents and school personnel in the afternoon. The essence of the whole functioning of the elementary system,—the executive phase—should require, even of a person who has had the varied and extensive experience that I personally have had, continuous study and research. Prior to last year's assignment of evening schools, I had made several such studies. I felt it was part of my position to know about kindergartens, certain testing scores in their relation to the progress of the elementary schools, and new trends and techniques. All of that had to be done outside of the regular day's work.

In addition to that, the entire elementary personnel has been and is at present engaged in a very intensive curriculum revision for the elementary schools. Again, it is my province, as the leader in the field, to be present at many meetings of certain committees to share my experience and the results of my research. It isn't sensible to ask any group of intelligent people to take recommendations from me, on my say-so, even though they are based upon many years of experience. I must corroborate every statement I make to these groups with the most modern, most up-to-date references. That has necessitated extensive study during the past year. All that has had to be done outside of school time, but I feel that it is an important part of the position for which I am being paid.

Now, to take over, in addition, the evening school assignment means, frankly, that this work can't be done with the same intensity. There is not sufficient time to formulate and evaluate policies with the unhurried and meticulous care which is necessary to produce a real first-class piece of work in either the elementary or the evening school field.

The elementary evening school personnel is a little over 100. Of that, more than sixty-five are vocational instructors, many from industry. About twenty-nine of the remainder are elementary teachers, who, however, do not teach the elementary curriculum per se in evening classes.

But the essential fact is, that with a department that is spending over \$300,000, there should be a policy established to see what services can be coordinated. It isn't fair to yourselves; it isn't fair to the Boston schools to ask people to take two big positions for each of which there should be one overall director.

The point in question is what educational value do you members want from my position? I would add my voice to Miss Fitzgerald's, that for the better spending of your money, for the better advancement of your evening schools—adult education, which is an important phase in the present-day educational field—plus, that which is nearest to my heart, for the better functioning of the elementary schools, you appoint a full-time administrator for the evening schools.

I beg your reconsideration, for my part, of the action abolishing the position of Director of Adult Education.

Miss Fitzgerald: I would like to move reconsideration of the abolition of Director of—

Mr. Muchnick: Madam Chairman?

Chairman: Mr. Muchnick.

Mr. Muchnick: There has been a motion made by Mr. Carr that this order which has just been read by Mr. Kerr prior to Miss Fitzgerald's statement and Miss Hearn's statement and Mr. Haley's statement, Order No. 3,

as it is, be passed; and I would like to call a roll on that at this time.

On motion of Mr. Carr, the order was adopted by the following roll call vote:

YEAS—Mr. Carr, Miss Fitzgerald, Dr. Foley, Mrs. Lyons, and Mr. Muchnick—5.

NAYS—0.

By due phraseology, Mr. Kerr then asked the Committee to consider the following order:

TEMPORARY EMPLOYEES

4. ORDERED, That the compensation of temporary teachers and members of the supervising staff is hereby fixed for the period commencing September 1, 1953, at the rate of \$13.00 for each day of actual service, except as specified below:

On motion of Mr. Muchnick, the order was adopted by the following roll call vote:

YEAS—Mr. Carr, Miss Fitzgerald, Dr. Foley, Mrs. Lyons, and Mr. Muchnick—5.

NAYS—0.

By due phraseology, Mr. Kerr then asked the Committee to consider the following order:

5. ORDERED, That for the year ending August 31, 1954, any teacher or member of the supervising staff who may be designated by the Superintendent in accordance with the regulations to act in the position of a principal of a school or district, or of a director, associate director, assistant director in charge of a department, or supervising nurse, for a continuous period exceeding two weeks, shall be paid at the rate of two dollars (\$2) per day of service in addition to the regular salary of his rank. A teacher or member of the supervising staff who may be similarly designated to act in the position of assistant director, assistant in charge, head of department, coordinator; guidance counselor or division head; submaster; vice principal; vice principal, special classes; shop foreman; or assistant supervising nurse shall be paid at the rate of one dollar (\$1) per day for each day of service, in addition to the regular salary of his rank.

On motion of Mr. Muchnick, the order was adopted by the following roll call vote:

YEAS—Mr. Carr, Miss Fitzgerald, Dr. Foley, Mrs. Lyons, and Mr. Muchnick—5.

NAYS—0.

By due phraseology, Mr. Kerr then asked the Committee to consider the following order:

6. ORDERED, That for the year ending August 31, 1954, any master, junior master or assistant, Latin and day high schools, who may be designated by the Superintendent in accordance with the regulations as acting head of the department in charge of a single subject where there are in the proposed department not less than two thousand pupil teachers, taught by at last four teachers, whole or part-time, shall be paid at the rate of one dollar (\$1) per day for each day of service, in addition to the regular salary of his rank.

On motion of Mr. Muchnick, the order was adopted by the following roll call vote:

YEAS—Mr. Carr, Miss Fitzgerald, Dr. Foley, Mrs. Lyons, and Mr. Muchnick—5.

NAYS—0.

By due phraseology, Mr. Kerr then asked the Committee to consider the following order:

7. ORDERED, That for the year ending August 31, 1954, any teacher who may be designated by the Superintendent as teacher in charge of a building where there is no permanent submaster, vice principal, head of department or coordinator shall be paid at the rate of one dollar (\$1) per day for each day of service in addition to the regular salary of his rank.

NAYS—0.

By due phraseology, Mr. Kerr then asked the Committee to consider the following order:

13. ORDERED, That Leo C. Renaud, Co-operative Instructor with Bachelor's degree, East Boston High School, continue to receive so long, but only so long, as he remains assigned to Veterans' Services, an additional salary at the rate of \$1776 per year as provided in Order No. 71 of the Salary Schedule adopted by this Committee on August 30, 1952.

On motion of Dr. Foley, the order was adopted by the following roll call vote:

YEAS—Mr. Carr, Miss Fitzgerald, Dr. Foley, Mrs. Lyons, and Mr. Muchnick—5.

NAYS—0.

By due phraseology, Mr. Kerr then asked the Committee to consider the following order:

14. ORDERED, That James P. McDevitt, designated as acting Supervisor of Attendance, Department of Attendance, receive, effective September 1, 1953, a salary of \$5052, with an increment of \$108 on each and

every January 1 thereafter until a maximum salary of \$5683 is reached.

On motion of Mr. Muchnick, the order was adopted by the following roll call vote:

YEAS—Mr. Carr, Miss Fitzgerald, Dr. Foley, Mrs. Lyons, and Mr. Muchnick—5.

NAYS—0.

By due phraseology, Mr. Kerr then asked the Committee to consider the following order:

15. As a conclusion to this salary schedule, which takes the second step in establishing a single salary schedule for the entire instructional personnel, it is hereby further

ORDERED, That it be, and hereby is, determined that it is the present sense of this Committee that subject to such modifications as may be required for practical administration:—

(a.) In the case of head masters and principals, the minimum annual salary should be ultimately fixed at \$7032 and the maximum annual salary at \$8000,—the objective to be reached by the granting, in addition to regular anniversary increments, of annual salary adjustments of \$120 for head masters and of \$180 for principals and with the maximum of \$8000 to be established when principals presently on maximum shall reach the salary of \$7776 and then both head masters and principals to advance to \$8000 by a \$224 adjustment;

(b.) In the case of heads of departments, head instructors, sub-masters and vice principals, the minimum annual salary should be ultimately fixed at \$4872 and the maximum annual salary at \$6500,—the objective to be reached by the granting, in addition to regular anniversary increments, of annual salary adjustments of \$120 for heads of department and head instructors and of \$180 for submasters and vice principals and with the maximum of \$6500 to be established when submasters and vice principals presently on maximum shall reach the salary of \$6336, at which time heads of department, head instructors, submasters and vice principals shall advance to \$6500 by a \$164 adjustment;

(c.) In the case of elementary, junior high school and high school teachers, the minimum annual salary should be ultimately fixed at \$3504 and the maximum annual salary at \$5500 for those possessing a Bachelor's degree or equivalent and at \$5900 for those possessing a Master's degree,—the objective to be reached by the granting, in addition to regular anniversary increments, of annual salary adjustments of \$120 for high school teachers and of \$180 for elementary and junior high school teachers; and

(d.) The maximum annual salary of Technicians and Junior High School Science Maintenance Assistants in Visual and Radio Education should be ultimately fixed at \$4464.

On motion of Mr. Muchnick, the order was adopted by the following roll call vote:

YEAS—Mr. Carr, Miss Fitzgerald, Dr. Foley, Mrs. Lyons, and Mr. Muchnick—5.

NAYS—0.

Mr. Carr offered the following:

ORDERED, That all non-academic help be granted an increase in salary of three dollars (\$3) per week.

In connection with the foregoing, Mr. Carr made the following statement:

I would like to point out at this time that we have given the annual increments connected with the single salary of \$120 to some teachers and \$180 to others. This \$3 a week would be between that and would be about \$150 a year.

Now, Madam Chairman, these people have not received any increments in two years. I now move that we adopt the order and I hope your Committee will act favorably on it.

The order failed of passage by the following roll call vote:

YEAS—Mr. Carr and Miss Fitzgerald—2.

NAYS—Dr. Foley, Mrs. Lyons, and Mr. Muchnick—3.

Mr. Muchnick: I would like to have placed on the record an order commending and thanking Mr. Kerr, for one, for his part in doing over this week-end especially—and a pretty hot week-end it was—an excellent job of collating all the material that had been furnished to him as late as after midnight Friday night, and in addition to that and at least co-equal in the commendation and gratitude of this School Committee, I would like to have an order in the public record, and I would be very happy to have this order and the one referring to Mr. Kerr, properly phrased and included as part of the salary schedule—as it goes all over the country—commending Mr. Ruddy and the members of the Salary Survey Committee who have done such an excellent job with a very, very tough problem.

I also would like to extend my personal thanks, and I think the members of the Committee will join me in this, to those groups and individuals who took with such good grace the fact that they didn't get all that they might have wanted to get for themselves as individuals or for their groups, but have let their personal and group desires and preferences be submerged to the greater and more important principle and policy of single salary.

I think everybody concerned deserves a real vote of thanks from the entire school population—teachers, pupils, administrators, and everybody else. I would like to have somebody phrase that.

Mr. Carr: I would like to join with my colleague in thanking

Mr. Kerr and to state that this Committee set aside money for a survey of the non-academic personnel which has not been undertaken. I am very sorry that this Committee did not see fit to entertain my motion for an increase in salary for the non-academic personnel of the School Department.

I think if this Committee had done that it would have completed a very successful and profitable year in the school administration, both from the academic viewpoint and the morale of the employees of the School Department.

Superintendent: If there are no other comments by the School Committee, in connection with the salary schedule, would you be willing to entertain for nomination—

Mr. Muchnick: Madam Chairman?

Chairman: Mr. Muchnick.
Mr. Muchnick: We haven't finished. I don't know of anybody who is better qualified to reduce to the proper phraseology the suggestions made for orders than is Mr. Kerr, and if he would like to have somebody phrase the one about him, I would be very happy to undertake that; but so far as the others are concerned, Mr. Kerr, will you please prepare them so they can be included in this Salary Schedule?

Mr. Kerr: Let me say this to you, Madam Chairman and Mr. Muchnick, I do not think that an order of that character can properly be placed in a legal document of this nature.

Mr. Muchnick: Madam Chairman?

Chairman: Mr. Muchnick.
Mr. Muchnick: If they couldn't be included in that, at least, they can be included in the record of the public meeting.

Dr. Foley: Madam Chairman?
Chairman: Dr. Foley.

Dr. Foley: May I say that in all my experience on the School Committee, I have never listened to such an interesting individual as Mr. Kerr; and I think at this time we should give him a rising vote of thanks.

Mr. Kerr: And let me suggest, Madam Chairman and Dr. Foley, that that also applies to your entire Planning Board and Salary Survey Committee, because if they hadn't done their basic foundation work, we would have had nothing to work with last Friday night.

ACKNOWLEDGMENT OF SERVICE GIVEN IN PREPARATION OF SALARY SCHEDULE

The following was offered:
ORDERED, That the School Committee gratefully acknowledges the valuable service rendered by William H. Kerr, Esquire, of the City Law Department for his excellent collation of all the material on the salary schedule

for teachers and others for 1953-54, and appreciates the time and effort which he gave to this problem which so vitally affects the personnel of the teaching and supervising staff of the Boston Public Schools.

On roll call, the order passed by the following vote:

YEAS—Mr. Carr, Miss Fitzgerald, Dr. Foley, Mrs. Lyons, and Mr. Muchnick—5.

NAYS—0.

The following was offered:

ORDERED, That this Committee extends to Mr. Charles O. Ruddy, Chairman of the Salary Survey Committee, and to the members of the Salary Survey Committee and its Planning Board, its sincere thanks for the time and effort which they gave to this study of salary problems during the past school year and summer vacation and for the excellent results attained on this very difficult problem relating to the salary schedule; and also extends to the teaching groups and to individuals its appreciation of the good grace with which they accepted the recommendations and allowed their personal and group desires to be submerged to the greater and more important principle and policy of Single Salary.

On roll call, the order passed by the following vote:

YEAS—Mr. Carr, Miss Fitzgerald, Dr. Foley, Mrs. Lyons, and Mr. Muchnick—5.

APPOINTMENTS

Chairman: Before we adjourn, there is a payroll matter here which must be taken care of, and some transfers of teachers which have to be approved.

Superintendent: That is true. It won't take long, Madam Chairman.

Madam Chairman, as you know, the Brandeis Vocational High School passes out of existence—and I would assume, perhaps, at this time; I am not sure. Mr. Muchnick: It did an hour ago.

Superintendent: Then I would like to nominate the head master of that school to another position; so for payroll purposes we will be able to affix him to the proper payroll for September. That is the problem, and some others, just as important.

Mr. Carr: Go ahead, Mr. Superintendent.

Superintendent: The ruling is to entertain a nomination?

Mr. Carr: Yes.

Superintendent: Is the ruling to entertain a nomination, Madam Chairman?

Chairman: How many have you?

Superintendent: Madam Chairman, I can be very brief with all I have here. I would think they are all following general regulations; we ought to be through in three or four minutes; but that will depend upon the Committee.

Miss Fitzgerald: I see no objection.

Mr. Muchnick: Madam Chairman?

Chairman: Mr. Muchnick.

Mr. Muchnick: Is it possible, Madam Chairman, in the interest of fatigue, or acquiring less fatigue,—

Chairman: Do you want to hear what the Superintendent says and take what you want? It is necessary for payroll purposes in order that these people be paid.

The Superintendent under the following nomination:

(Head Master)

Roxbury Memorial High School (Boys)—Paul B. Cruden, Head Master (from Head Master, Brandeis Vocational High School), Sept. 1, 1953.

(Assignment of Head Master).

Superintendent (continuing): Now, on the case of Miss Marion E. Fitzgerald, the Head Master of the High School of Practical Arts—theoretically, I suppose her school passes out of existence, too.

I respectfully report that, subject to the approval of the School Committee and with the written consent of the person concerned, which I have, I have assigned Marion E. Fitzgerald, Head Master, High School, without change of rank or salary to the Supervision of Instruction: of Modern Foreign Languages, Senior and Junior High Schools, to take effect Sept. 1, 1953, and to continue until otherwise ordered.

(Subsequently, this assignment was laid over).

Chairman: There is no other high school for her to go to?

Superintendent: There is no vacancy as head master.

Chairman: Will there be one before too long, Mr. Superintendent?

Superintendent: Madam Chairman, I hope so. According to the law of averages there should be.

Chairman: Then she will step into the first vacancy.

Superintendent: That is true, and during that interval, Madam Chairman, Miss Fitzgerald would carry out a fine piece of work in connection with the problem of Foreign Languages.

Mr. Muchnick: Madam Chairman?

Chairman: Mr. Muchnick.

Mr. Muchnick: On that nomination, Madam Chairman, there is at least one high school that currently is being serviced by an acting head master.

Superintendent: Madam Chairman and Mr. Muchnick, that is quite a different situation. The High School of Commerce is in the process of transition, as you know, through School Committee action, and I think in fairness to the High School of Commerce and fairness to the—

Miss Fitzgerald: Madam Chairman?

Superintendent (continuing): It should be carried out by the per-

son who has been acting head master during this interval.

I know it is the wish of the Committee, at least I feel it is, that everything should be done during these final days of the existence of the High School of Commerce to see that those boys are well taken care of, and I certainly feel that can be done by someone who has been doing it rather than by bringing someone in from the outside.

There is a great need, Madam Chairman, for work in connection with the Foreign Languages. I could go on and elaborate on that. I and you realize that we are living in an entirely different world than we did five years ago and ten years ago. It is a one world where languages are really more important now than ever. When you stop to realize that we are perhaps within thirty-six hours from any part of this world and world trade and all other things, we surely should promote Foreign Languages.

Miss Fitzgerald: Madam Chairman?

Chairman: Miss Fitzgerald. Miss Fitzgerald: Could I ask the Superintendent: Would Miss Fitzgerald be looking into any of the new methods of teaching Foreign Languages such as have been developed by the Army?

Superintendent: Madam Chairman and Miss Fitzgerald, she would and I can picture many things in connection with the problem of studying the Russian language that Miss Fitzgerald could be looking into. I talked with an F.B.I. man from Washington the other day, and he said that Washington is giving a great deal of thought to the problem of the Russian language with the thought that Communism will be overthrown in Russia, and that there will be very profitable and desirable trade between the United States and Russia perhaps within a short time.

Our young men and young women should be equipped along those lines; and that is only one phase of the work that Miss Fitzgerald might do. There are many others that are very important. Languages have slipped. I would like to bring them back and think Miss Fitzgerald can be of tremendous help. We have a committee working now on the whole problem, and she, giving her full time to it, would be able to develop methods that would put our Foreign Languages back, I believe, in a strong position.

Mr. Muchnick: Madam Chairman?

Chairman: Mr. Muchnick. Mr. Muchnick: I move that this matter be held to the next meeting.

Superintendent: Madam Chairman?

Chairman: Mr. Superintendent. Superintendent: In the meantime, Madam Chairman, where do you wish to put Miss Fitzgerald on the payroll?

Mr. Muchnick: Madam Chairman?

Chairman: Mr. Muchnick.

Mr. Muchnick: If the question is addressed to me, Madam Chairman—

Superintendent: I addressed the question to the Chairlady and the Committee.

Mr. Muchnick: As far as I am concerned, Madam Chairman, it seems to me that if we have a head master, that head master should take the place of any acting head master; and it also seems to me that this co-ordination of Foreign Languages, which may be a very good thing, is something that we never heard of—

Mr. Carr: You never heard of. Mr. Muchnick (continuing): We never heard of here officially so far as I can remember.

Superintendent: We had a director—

Mr. Muchnick: And Miss Fitzgerald, if we hadn't closed the High School of Practical Arts, wouldn't be doing this Foreign Language work now. I don't know whether the subject of Foreign Languages would have come up as of now or who would be replacing Miss Fitzgerald in charge of that job. Now, if there is going to be a headmastership open in the normal course of events as indicated by the Superintendent for Miss Fitzgerald six months or a year or two years from now, just as soon as she got teeth into this problem and started checking into Army methods of learning Foreign Languages and the value of teaching the Russian language for potential trade with Russia, she will then be just ripe to go into some high school and take over again as a head master and have to start all over again with with somebody else.

Superintendent: Madam Chairman—

Mr. Muchnick: Please. It seems to me this ought to wait and be studied a little bit before we rush into it and if there is no place to attach Miss Fitzgerald for payroll purposes, we can attach her to the Department of Practice and Training without change of rank or salary just the same as attaching her to this other department without change of rank or salary.

This is one of the items where speed is not of the essence.

Superintendent: Madam Chairman, I don't know when a head mastership will arise—

Mr. Muchnick: What we are doing, Madam Chairman, in effect, is creating a new position and possibly a new department without any real study.

Superintendent: Madam Chairman, we are not creating a new position or new department. You have on your hands now a head master of a school—you have two. Fortunately, Mr. Crudden is No. 1 on the head masters' list. He was appointed from another list to the head mastership of Brandeis Vocational High School, and at present he is No. 1 on the regular head masters' list, and is eligible to go to Roxbury Memorial for Boys for which I have nominated him.

Miss Fitzgerald is a head master, too, with no vacancy as a head master for her to fill.

Chairman: Why doesn't she go to Commerce? We have men in all girls' schools; why can't we have women in all boys' schools?

Superintendent: I think, Madam Chairman, that it is wiser especially in view of the fact that the High School of Commerce is in the transitional stage, to allow it to be continued that way with the acting head master who has carried out all the work during the last month set down by this Committee in connection with the ninth grade pupils and eighth grade pupils.

Mr. Muchnick: Madam Chairman?

Chairman: Mr. Muchnick.

Mr. Muchnick: I can see no point in having an acting head master fill a position when a full head master is available.

Superintendent: She would have to be an acting head master of the school anyway.

Mr. Muchnick: I would like to have this matter held over until the next meeting.

The assignment of Miss Marion E. Fitzgerald was laid over.

(Appointments from the Eligible List)

Superintendent: Madam Chairman, are you ready to receive the other nominations, transfers—

Chairman: Let's hear them and you can discuss them.

Superintendent: Madam Chairman, there are a number of men who have had more than three years' experience in our service. They have been employed for three years and there are approximately forty nominations I would like to make in the various schools—senior high schools, junior high schools, elementary schools, home economics, music, physical education, and school hygiene.

I would like to start the school system efficiently and it can be done by these nominations.

In the meantime, it will enable me to nominate sixteen of these men who are three-year men, who will not be able to be placed unless they are appointed and among those sixteen are many disabled veterans and veterans.

The following nominations by the Superintendent, certified by him as being in accordance with the rules and regulations, to take effect on the dates stated, were presented:

Boston Latin School—Joseph F. Desmond, junior master, fourth year, Sept. 1, 1953. Charles K. Avery, junior master, fourth year, Sept. 1, 1953.

Boston Trade High School—Robert Belt, senior instructor, third year, Sept. 1, 1953.

Roxbury Memorial High School (Boys)—David M. McIver, shop instructor, cooperative branches, fifth year, Sept. 1, 1953; George M. Zimon, junior master (from

teacher, junior high, Donald McKay Junior High School), Sept. 1, 1953.

Clarence R. Edwards Junior High School—Eugene DiGirolamo, teacher, junior high, third year, Sept. 1, 1953.

James P. Timilty Junior High School—Mary E. Ferrari, teacher, junior high, third year, Oct. 1, 1953.

Joseph H. Barnes Junior High School—William T. Glennon, teacher, junior high, third year, Sept. 1, 1953.

Patrick F. Gavin Junior High School—Michael Crowley, teacher, junior high, Sept. 1, 1953; Rollins Griffith, teacher, junior high, third year, Sept. 1, 1953; Francis S. Murphy, teacher, junior high, fourth year, Sept. 1, 1953.

Patrick T. Campbell Junior High School—Sabino W. Caputo, teacher, junior high, third year, Sept. 1, 1953; Robert F. Murphy, teacher, junior high, fourth year, Sept. 1, 1953.

William Barton Rogers Junior High School—Eleanor O'Brien Daley, teacher, junior high, sixth year (resigned Robert Gould Shaw District, Aug. 31, 1936), Sept. 1, 1953.

William Blackstone Junior High School—Mary F. Buckley, teacher, junior high, fourth year, Sept. 1, 1953.

William Howard Taft Junior High School—Eleanor F. McNamara, teacher, junior high, Sept. 1, 1953.

Bennett District—Gloria J. Rosenstein, teacher, elementary, third year, Sept. 1, 1953.

Dillaway District—Anne K. Townsend, teacher, elementary, third year, Sept. 1, 1953.

Dudley District—Ann T. M. Donovan, Josephine A. Thynne, teachers, elementary, third year, Sept. 1, 1953.

Edmund P. Tileston District—Frances Zetes, teacher, elementary, third year, Sept. 1, 1953.

Elihu Greenwood District—Gladys R. DeCosta, Enid J. Terrelong, teachers, elementary, third year, Sept. 1, 1953.

Ellis Mendell District—Eleanor M. McCarty, teacher, elementary, fourth year, Sept. 1, 1953.

Emily A. Fifield District—Elizabeth A. Shea, teacher, elementary, third year, Sept. 1, 1953; Jean M. Carroll, teacher, elementary, second year, Sept. 1, 1953.

James J. Chittick District—Ann T. Doherty, teacher, elementary, second year, Sept. 1, 1953.

Longfellow District—Richard F. Canavan, teacher, elementary, Sept. 1, 1953; Gertrude M. Cohen, teacher, elementary, third year, Sept. 1, 1953.

Mary Hemenway District—John J. Bradley, teacher, elementary, second year, Sept. 1, 1953.

Rice-Franklin District—Claire F. Rogers, teacher, elementary, fourth year, Sept. 1, 1953.

Department of Home Economics—Constance M. McGoldrick,

teacher of sewing, elementary, fourth year, Sept. 1, 1953.

Department of Music—James E. Houlihan, assistant director of music, Sept. 1, 1953.

Department of Physical Education—Lionel H. Buckley, Marilyn A. Fitzgerald, Edward J. Grant, teachers, junior high (physical education), Sept. 1, 1953; Charles J. McCoy, teacher, junior high (physical education), Oct. 1, 1953.

Department of Vocational Guidance—Alice F. Casey, vocational assistant (from senior assistant, Trade High School for Girls), Sept. 1, 1953.

Department of School Hygiene—Adeline C. Cannamola, school nurse, second year, Sept. 1, 1953; Katherine A. Powers, school nurse, sixth year, Sept. 24, 1953; Trinette Shaughnessy, school nurse, second year, Sept. 1, 1953.

Mr. Muchnick: Madam Chairman?

Chairman: Mr. Muchnick. Mr. Muchnick: I don't recall ever having seen this list before, and I assume that this is the first time it has been presented. Is that right, Mr. Superintendent?

Superintendent: Madam Chairman and Mr. Muchnick, that is true for the reason that a whole program of absorbing the teachers in our school system transferring them is interwoven in many cases with these appointments.

Now, you have received, Madam Chairman, previously, I think last week, the list of assignments and transfers. Some of these appointments are tied up with this whole program. The reason I am presenting them to you tonight is that I am not sure whether you are planning to have another meeting between now and the opening of school; and if you are, they still have to lie over unless they are passed under suspension of the rules.

These are all people who are eligible and who are replacements and any confirmation of their appointments which I have now placed in nomination will help to start our schools off efficiently.

Now, the transfers and assignments—copies of those have already been given to the School Committee.

Mr. Muchnick: Madam Chairman?

Chairman: Mr. Muchnick. Mr. Muchnick: I assume and hope that there will be another meeting of the School Committee before school opens; and it seems to me that these items can be acted on just as well at that time. I don't think that 1:37 A. M. is a particularly good time to take up the discussion of this important item or any other important item after a pretty exacting School Committee meeting which, for some of us, took place after a pretty exacting, almost full days' work in other fields.

Bearing in mind that some of us do have to get up within three

or four hours in order to go to work again, I would like very much, Madam Chairman, that we suspend the rules and vote for or against the appointment of Mr. Crudden to Roxbury Memorial High School (Boys), and that after that we adjourn the meeting and go home.

Superintendent: Madam Chairman?

Chairman: Mr. Superintendent. Superintendent: I know that we have had a long day, but after all, Madam Chairman and Mr. Muchnick, this school system is at stake and I think you ought to be willing to stay here, if necessary, another half hour or so, and really work this out with us.

Miss Fitzgerald: Madam Chairman?

Chairman: Miss Fitzgerald. Miss Fitzgerald: Mr. Superintendent, if you were certain that the School Committee would meet before school opened, would you have any feeling—

Superintendent: Madam Chairman and Miss Fitzgerald, no, if the School Committee will assure me that they will meet this week, or for that matter, the early part of next week, then certainly they can lie over; but I don't want the schools to open on Sept. 14th and have them not properly manned.

Mr. Muchnick: Madam Chairman?

Chairman: Mr. Muchnick. Mr. Muchnick: I think that I for one can take the word of the Chairman when she says we will have a meeting—

Chairman: There will be a meeting on September 8th.

The appointments were laid over.

The following is the nomination submitted by the Superintendent:

Roxbury Memorial High School (Boys)—Paul B. Crudden, head master (from head master, Brandeis Vocational High School), Sept. 1, 1953.

On roll call the rules were suspended and the appointment approved by the following vote:

YEAS—Mr. Carr, Miss Fitzgerald, Dr. Foley, Mrs. Lyons, and Mr. Muchnick—5.

NAYS—0.

Chairman: The meeting is adjourned to meet again on Tuesday, Sept. 8, 1953.

Attest:

AGNES E. REYNOLDS,
Secretary

Sept. 9, 1953.

A meeting of the School Committee of the City of Boston was held in the Administration Building, 15 Beacon Street, at 12:25 o'clock A. M., the Chairman presiding.

Present: Mr. Carr, Miss Fitzgerald, Dr. Foley, Mrs. Lyons and Mr. Muchnick.

WITHDRAWAL OF APPOINTMENT

A communication was received from the Superintendent, under date of Sept. 9, 1953, reporting that he has withdrawn the appointment of Eleanor O'Brien Daley as teacher, junior high, sixth year, in the William Barton Rogers Junior High School, submitted at the meeting of Aug. 31, 1953, and laid over, because she recently has passed away.

Placed on file.

APPROVAL OF APPOINTMENTS

The Chairman stated that the question was on approving the appointments of teachers, as reported by the Superintendent and laid over at the previous meeting.

The Superintendent explained that, in accordance with the suggestion of Mr. Kerr of the Law Department, there has been added to the list of nominations in each case a statement giving the annual salary and anniversary date of these appointees.

The following is the list of nominations submitted by the Superintendent and laid over at the meeting of Aug. 31, 1953, with the exception of Eleanor O'Brien Daley, and with the additional information on salary and anniversary:

Mr. Muchnick: Madam Chairman?

Chairman: Mr. Muchnick. Mr. Muchnick: With reference to the list that was presented and confirmed in conference—and, as I stated in conference, I am not going to vote to accept the list—there are three names on there in the Physical Education group where the first person on the list is appointed at a certain salary; the second person on the list is appointed at a salary which I believe is two increments lower, and then the third name on the list is at the same salary as the first person on the list; so that No. 3 is appointed at a higher salary than No. 2 and equal to the salary of the No. 1 person.

That doesn't seem to me to be fair, frankly, especially as the No. 3 person is the one who is in there by virtue of the clerical error.

Superintendent: Madam Chairman?

Chairman: Mr. Superintendent. Superintendent: Madam Chairman, I beg to differ.

Mr. Muchnick: It seems to me that the No. 2 person, having come ahead of the No. 3 person on the examination should have at least a salary equal to somebody who is in by way of a clerical error.

Superintendent: Madam Chairman, may I correct what Mr. Muchnick said? Mr. Buckley is not in at that salary, in this case here, through a clerical error. If he is in through a clerical error, namely, on tenure because he wasn't notified, then he will be in on the minimum of a permanent substitute—

What is that, Mr. Bond?

Mr. Bond: \$3312.

Superintendent: \$3312. So that his salary of \$3744 is not as the result of a clerical error.

Mr. Muchnick: His appointment is, though.

Superintendent: No, it is not. I nominated him, and this Committee confirmed it. He would be in as a result of a clerical error. If this Committee hadn't approved his nomination, and if they had not approved his nomination, he would be in under a clerical error as a permanent substitute at \$3312. So his salary is \$3744 under your regulations because of three previous years—

Is it three, Mr. Bond?

Mr. Bond: Three, yes.

Superintendent: Three previous years as a temporary, so he is put on the fourth step of the salary schedule. Now, the first man has been put on the fourth step of the salary schedule because he has had three previous years.

The second man is coming in from outside. He comes in under a different regulation, and he comes in in accordance with the salary he is receiving outside.

Now, Madam Chairman, I am always anxious to see men get money; but I do not think you should tinker with No. 2 for this reason: No. 1 and No. 3 were here as temporary teachers at \$12 a day for 180 days, which was—let's say, \$2100 or \$2200, while No. 2 was outside getting a salary of \$3,000 or more.

Now, No. 2 is coming in under the regulations and No. 1 and No. 3 are receiving credit for three years' temporary work under your regulations. I don't think you ought to make any changes.

Mr. Muchnick: Madam Chairman?

Chairman: Mr. Muchnick.

Mr. Muchnick: We have said that according to our examination the No. 2 is a more qualified person than No. 3, having topped No. 3 in the examination. To me, it is inconsistent that you hire both of them and say to the person with the better grades, "We can't pay you as much as we are paying somebody who didn't do as well in the examination as you did, because you worked elsewhere and the No. 3 man worked for us."

Superintendent: Madam Chairman?

Chairman: Mr. Superintendent.

Superintendent: We don't determine our entering salary according to the position on the eligible list. We have a regulation which we follow. The initial salary of an appointee is determined by the regulations. In doing what we have done here, as expressed in those figures, we are following the regulations.

Mr. Carr: I move we suspend the regulations and give the second man the same salary as the first, and third man.

Secretary: You are going to get into the same difficulty that you had with the three increments.

Mr. Carr: It seems awfully ab-

surd that the second man is appointed at a lower salary than the third man—as pointed out by my friend, Mr. Muchnick.

Dr. Foley: Madam Chairman, it is a laudable thing to do.

Mr. Carr: I move that we suspend the regulations and pay the second man the same salary as the third.

Chairman: That will give each one of them the same starting salary.

Dr. Foley: Mr. Bond, what do you think about that?

Mr. Bond: I think the reason that the School Committee has given temporary teachers credit for each year is to attract them to our temporary service, not to encourage them to go outside to teach.

Mr. McCoy could have served as a temporary teacher as well as the other gentlemen. He got more money at B. C. High as a coach.

It is possible—Mr. McCoy was away at camp all summer—that he may be able to present additional evidence which might lead to an increased increment.

Why not let him prove that coaching football and baseball and track—

Mr. Carr: Madam Chairman, my only concern was to keep us from looking sort of ridiculous.

Dr. Foley: I think we would look ridiculous.

Mr. Carr: I move suspension of the regulations to give him the same salary as the third.

Secretary: The three teachers of physical education are to get the same salary, namely, third year, \$3,744 per year.

Dr. Foley: I would rather wait until Mr. Bond gets this further information.

Mr. Carr: Well, I will withdraw my motion.

Mr. Muchnick: Can you then readjust it once it is established?

Mr. Bond: Yes.

On roll call, the appointments, with the exception of Michael Crowley, were approved by the following vote:

YEAS—Mr. Carr, Miss Fitzgerald, and Dr. Foley—3

NAYS—Mr. Muchnick—1

PRESENT—Mrs. Lyons—1

On motion of Mr. Carr, the appointment of Michael Crowley, nominated by the Superintendent as teacher, junior high, first year, in the Patrick F. Gavin Junior High School, to take effect Sept. 1, 1953, was amended to read—(third year—\$3600—anniversary date Sept. 1)

On roll call and under a suspension of the rules, Mr. Carr's motion was passed and the appointment of Michael Crowley on third year salary, was approved by the following vote:

YEAS—Mr. Carr, Miss Fitzgerald, and Dr. Foley—3

PROCEEDINGS OF CITY COUNCIL.

Monday, November 9, 1953.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 P.M., President AHEARN in the chair. Absent, Councillor Thurston.

The Reverend Mark Leone of the Christopher Columbus Youth Centre was escorted to the rostrum.

INVOCATION BY REV. MARK LEONE.

Grant us, Thy servants, we beseech Thee, O Lord God, Your continual aid and grace upon all our undertakings.

Woe be unto me, O Lord, that without Thee, of ourselves, we should lose courage and be vanquished; but we know also that Thou canst do all things, and art willing to assist and guide us. Penetrated with a sense of our own weakness, yet full of confidence in Thy mercy, we place ourselves in Thy hands, repose all our hopes in Thee, trust in Thy bounty, and desire only the accomplishment of Thy will.

Grant us, O Lord, a strict sense of justice and righteousness that others may profit by what we do.

For: "Only the actions of the just shall sweeten and perfume the prayer of the sinner."

Through Christ Our Lord. Amen.

The meeting was opened with the salute to the Flag.

VETO OF ORDER FOR LEASE OF FIREHOUSE.

The following was received: *

City of Boston,
To the City Council,
Gentlemen:

I return herewith, disapproved, and without my signature, the order adopted by your Honorable Body authorizing the leasing of the firehouse on East street, Boston. The East Street firehouse has not yet been abandoned, and when it is other departments of the city will be given first opportunity to make use of the structure. In the event of no department claiming the possibility of building, or in the event it cannot be sold for commercial purposes, I will then entertain a proposal that if he leased for the purpose set forth in the order of your Honorable Body.

Respectfully,

J. B. HYNES, Mayor.

The message and order were placed on file.

USE OF CITY SAILBOATS BY NON-RESIDENTS.

The following was received: *

City of Boston,
To the City Council,
Gentlemen:

I transmit herewith communication from the Park Commissioners relative to your order of October 26, 1953, requesting that the Park Commissioner forward to the City Council such information as he may have concerning the use of city-owned sailboats in the Charles River by non-residents of Boston.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,

Park Department, October 30, 1953.
Harold B. Flemming,
Chief Clerk, Mayor's Office.

Dear Sir:

This will acknowledge memo from your office with attached enclosure, City Council order by Councillor Foley, requesting that the Park Commissioner forward to the City Council such information as he may have concerning the use of city-owned sailboats in the Charles River by non-residents of Boston.

These boats are used only by residents of the City of Boston up to 18 years of age. We construct, maintain and operate boats under this program which is one of the most popular that we have within the department.

To our knowledge there has not been or is there now any nonresident of Boston taking part in this program.

Very truly yours,

FRANK R. KELLEY, Chairman.

RENAMING OF NORTH BENNET STREET PLAYGROUND IN HONOR OF LOUIS POLICARI.

The following was received: *

City of Boston,
Office of the Mayor, November 9, 1953.
To the City Council,
Gentlemen:

I transmit herewith communication from the Park Commissioner relative to your order of October 26, 1953, requesting that the remaining of the North Bennet Street Playground in honor of the memory of Capt. Louis Policari, hero of World War II, who lost his life on October 20, 1944, at Leyte, while serving in the armed forces of our country.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,

Park Department, October 29, 1953.
Harold B. Flemming,
Chief Clerk, Mayor's Office.

Dear Sir:

This will acknowledge memo from your office with attached enclosure, City Council order by Councillor Hurley, requesting the renaming of the North Bennet Street Playground in honor of the memory of Capt. Louis Policari, hero of World War II, who lost his life on October 20, 1944, at Leyte, while serving in the armed forces of our country.

It is customary for the Park Commissioners in naming playgrounds in various districts to place thereon the name of the particular district or area where the playground is located.

It is true that many of our playgrounds do carry the names of veterans, but the majority of them were named many years ago.

Since World War II with the number of requests for the naming of playgrounds being placed by various interested persons in the district, we find we have as many as seven or eight names suggested for one playground.

However, the Board of Park Commissioners will consider this request for the renaming of the North Bennet Street Playground in memory of Captain Policari at its next meeting.

Very truly yours,

FRANK R. KELLEY, Chairman.

HELICOPTER AMBULANCE SERVICE.

The following was received: *

City of Boston,
Office of the Mayor, November 9, 1953.
To the City Council,
Gentlemen:

I transmit herewith communication from the Director of Civil Defense relative to your order of October 26, 1953, requesting the possibility of providing, in cooperation with the other cities and towns of the Boston Metropolitan District, a helicopter ambulance service for use in connection with peacetime disasters in transporting medical personnel and victims to hospitals.

Respectfully,

J. B. HYNES, Mayor.

Boston Civil Defense,

November 4, 1953.

Mr. Harold B. Flemming,
Chief Clerk, Mayor's Office.

Dear Mr. Flemming:

I received your communication of October 29, 1953, regarding an order from the City Council containing that the Director of Civil

Defense investigate the possibility of providing, in cooperation with the other cities and towns of the Boston Metropolitan District, a helicopter ambulance service for use in connection with peace-time disasters in transporting medical personnel and victims to hospitals.

Following the receipt of your communication I got in touch with naval authorities and learned that there are but two helicopters in the First Naval District. It is my belief that until additional helicopters are provided on and above those normally required for rescue at sea, the ambulance service contemplated by the members of the City Council would be out of the question. However, I shall explore the possibility further and communicate with you if I find that it would be possible to set up a program of this kind.

I think it will please you to know that Boston City Defense has an extensive ambulance reserve on which the city can rely for service. The most recent example was the prompt response of 17 ambulances from Greater Boston to the scene of the "Black Label" disaster on the afternoon of November 2, 1933. In addition, 48 of the more than 1,500 stretchers stored in 15 separate locations in Boston were sent to the disaster in a Public Works' vehicle.

Respectfully submitted,

JOSEPH L. MALONE,
Director of Civil Defense.

SPECIAL PROVISION FOR USE OF LIBRARY PREMISES BY TEEN-AGERS.

The following was received:

City of Boston,
Office of the Mayor, November 9, 1933.
To the City Council.
Gentlemen:

I transmit herewith communication from the Secretary of the Public Library of the City of Boston relative to your order of October 5, 1933, requesting that consideration be given to making special provision for the use of teen-agers, set apart and separate from the rest of the library premises, in the series of new large branch libraries recently contemplated in South Boston and elsewhere.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,
Library Department, October 19, 1933.
Mr. Harold B. Fleming,
Chief Clerk, Mayor's Office.

This will acknowledge receipt of your transmittal under date of October 7 of the order of the City Council passed on October 5 concerning special provision of library facilities for the use of teen-agers.

The order of the City Council will be brought to the attention of the trustees at their next meeting.

Sincerely yours,

ELIZABETH B. BROCKNIEER, Secretary.

FENCE AT GEORGE WRIGHT GOLF COURSE.

The following was received:

City of Boston,
Office of the Mayor, November 9, 1933.
To the City Council.
Gentlemen:

I transmit herewith communication from the Park Commissioner relative to your order of October 19, 1933, requesting that the height of the fence at the George Wright Golf Course be extended.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,
Park Department, October 23, 1933.
Harold B. Fleming,
Chief Clerk, Mayor's Office.

Dear Sir: This is in reply to a memo from your office with attached enclosure, City Council order requesting that the height of the fence at the George Wright Golf Course be extended.

The golf course, which covers a very large area, is entirely fenced and it will be necessary for the George Wright Golf Course to have just what section of the fence he desires extended.

As the extension of the fence is quite expensive, it will be necessary to know just what section we are to have the matter considered.

Very truly yours,

FRANK R. KELLEY, Chairman.

PARKING BY DISABLED PERSONS AND HANDICAPPED VETERANS.

The following was received:

City of Boston,
Office of the Mayor, November 9, 1933.
To the City Council.
Gentlemen:

I transmit herewith communication from the Traffic Commissioner relative to your order of

October 26, 1933, requesting the prompt conferring on the matter of issuing special permits, or otherwise granting immunity from penalty for parking violations, to disabled veterans who have "V" registration plates and to nonveterans who hold a "Seal" for handicapped persons issued by the Registry of Motor Vehicles, in order that these handicapped persons be permitted to park their cars in restricted areas without penalty, and to expedite action on this matter so that these privileges may be granted before the inauguration of the new "no parking rules" in downtown Boston.

Respectfully,

J. B. HYNES, Mayor.

Boston Traffic Commissioner.

November 2, 1933.
Hon. John B. Hynes,
Mayor of Boston.

Dear Sir: With reference to City Council order of October 26 requesting the holders of V registration plates be exempted from the "no parking regulations," between the hours of 8 a.m. and 9:30 a.m., to become effective November 9, I wish to report that this matter was discussed at a meeting of the Traffic Commission on Thursday, October 29. Various applications for exemptions have been received from governmental agencies, but to date no exemptions have been granted.

However, in the case of holders of V plates, whose cars are identified as operated by amputees or paraplegics, it is the feeling of the Commission that special consideration should be given.

Accordingly, it was voted that the only exemption to be granted under the new regulations will be to the holders of V plates.

Sincerely yours,

WM. ARTHUR REILLY, Commissioner.

AMENDMENT TO COUNTY CLASSIFICATION AND COMPENSATION PLAN.

The following was received:

City of Boston,
Office of the Mayor, November 9, 1933.
To the City Council.
Gentlemen:

The attached proposal by the Budget Commissioner to amend the Compensation and Classification Plans for the Officers and Employees of Suffolk County, by revising the compensation grade for the classification of Commitment and Transfer Officer, is hereby approved and transmitted for consideration and adoption by your Honorable Body.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,
Budget Department, November 9, 1933.
To the Mayor and City Council.

I have made a further study and investigation of the responsibilities of the two Commitment and Transfer Officers in the Penal Institutions Department and am of the opinion that the compensation grade originally assigned to this classification should be revised.

These employees have charge, custody, and care of prisoners transferred to and from the House of Correction and the various courts and institutions of the state. They are required to be on duty each court day, which includes Saturdays, for which they receive no overtime pay. The duties and responsibilities of their position are comparable to those performed by the Senior Transportation Officers in the state service who receive a minimum annual salary of \$3,960 and a maximum annual salary of \$4,860 after twelve years of service. I am advised by the State Personnel Office that all male appointments to this position are classified as Senior Transportation Officer.

In view of the fact that these employees are required to be on duty Saturdays and the further fact that similar classifications in the state service are paid a higher compensation, I recommend favorable consideration of the accompanying order changing the compensation grade for the classification of Commitment and Transfer Officer from 18 to 19.

Very truly yours,

JOHN A. SULLIVAN,
Budget Commissioner.

Ordered, That Schedule B of the Classification and Compensation Plans for the Officers and Employees of Suffolk County, adopted by order passed by the City Council on November 24, 1932, and approved by the Mayor on November 25, 1932, be, and the same hereby is, amended, by striking out after the words "Compensation Grade" under the caption "Commitment and Transfer Officer" the figure "18," and inserting in place thereof the figure "19."

APPROPRIATION FROM PARKMAN FUND INCOME.

The following was received:

City of Boston,
Office of the Mayor, November 9, 1933.
To the City Council.
Gentlemen:

I am in receipt of the attached communication from the Board of Park Commissioners requesting the appropriation of \$40,000 from income of the George F. Parkman Fund, to be expended under the direction of the Board of Park Commissioners for the Maintenance and Improvement of the Common and Parks in Existence on January 12, 1887.

The 1933 budget estimates for the personal services requirements of the Park Department included an estimate of the total yearly income from the George F. Parkman Fund. The budget allowances made provision for the appropriation of this income as it accrued for the purpose of defraying the cost of work actually performed on the Common and Parks in Existence on January 12, 1887. I submit herewith an order appropriating the sum of \$40,000, the accrued income now available from the Parkman Fund, and respectfully recommend its immediate passage by your Honorable Body.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,
Park Department, November 2, 1933.
Hon. John B. Hynes,
Mayor of Boston.

Dear Sir:

By vote of the Board of Park Commissioners, you are respectfully asked to request the City Council to transfer from the income of the George F. Parkman Fund the sum of \$40,000 which is now available, to be expended under the direction of the Board of Park Commissioners, as follows:

Common and Parks in Existence on January 12, 1887, Maintenance and Improvement of \$40,000

When making up the budget estimates for the year 1933, a sum equal to the total yearly income of the George F. Parkman Fund was deducted from Item 100, Permanent Employees, with the understanding that this deduction was to be replaced by the total yearly income of said Parkman Fund for 1933, to be transferred as it accrued, from time to time during the year, to the regular maintenance appropriation of the Park Department.

Respectfully yours,

FRANK R. KELLEY, Chairman.

Ordered, That the sum of forty thousand dollars (\$40,000) be, and hereby is, appropriated from the income of the George F. Parkman Fund, to be expended under the direction of the Park Commissioners, for the Maintenance and Improvement of the Common and Parks in Existence on January 12, 1887, as follows:

Common and Parks in Existence on January 12, 1887, Maintenance and Improvement of \$10,000

TRANSFER OF APPROPRIATION TO LAW DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, November 9, 1933.
To the City Council.
Gentlemen:

I am in receipt of the enclosed request from the Corporation Counsel for an additional appropriation of \$45,000. This sum is necessary in order to meet and defray the expenditures for engineering services in connection with the trial of the appeals for reduction in taxation by the John Hancock Mutual Life Insurance Company before the Appellate Tax Board.

In compliance with the request of the Corporation Counsel, there is forwarded herewith an order transferring the sum of \$45,000 from the Reserve Fund to the budget of the Law Department.

Favorable consideration and adoption of this order by your Honorable Body is recommended.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,
Law Department, October 5, 1933.
Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

Your approval of the following transfer in appropriations is requested for the purpose stated below:

From Available Sources, \$45,000, to Law Department Appropriation, Item 230, Professional and Technical Services, \$45,000.

This amount is requested to provide for expert engineering services in connection with the preparation for and evidence during the trial of three appeals for reduction in taxation by the John

Hancock Mutual Life Insurance Company now pending before the Appellate Tax Board. There are no funds available in the current Law Department appropriation to meet this expenditure.

Yours very truly,

WILLIAM L. BAXTER,
Corporation Counsel.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Reserve Fund, \$45,000, to the appropriation for Law Department, 2, Connecticut Street, \$45,000.

LIVE PARKING IN FIRE HYDRANT ZONES.

The following was received:

City of Boston,
Office of the Mayor, November 9, 1953.
To the City Council.

Gentlemen:
I transmit herewith communications from the Fire and Traffic Commissioners relative to your order of October 5, 1953, requesting that consideration be given to the advisability of permitting live parking in the fire hydrant zones.

Respectfully,

J. B. HYNES, Mayor.

Boston Traffic Commissioner.

November 2, 1953.

Hon. John B. Hynes,
Mayor of Boston.

Dear Sir:

With reference to City Council order passed on October 5 requesting a conference between the Traffic Commissioner and the Fire Commissioner on the subject of live parking at fire hydrants, I wish to report that Commissioner Cottle and I have conferred and the reply of Commissioner Cottle, dated October 27, provides a report which represents our views in this matter.

Sincerely yours,

WM. ARTHUR REILLY,
Commissioner.

City of Boston,
Fire Department, October 27, 1953.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mayor Hynes:

Careful consideration has been given to the City Council order passed on October 5, 1953, requesting a conference between the Traffic Commissioner and the Fire Commissioner on the subject of live parking in front of fire hydrant zones.

The chief of department and other senior officers have been consulted concerning this suggestion, and it is their unanimous opinion that if this permission were granted it could conceivably interfere with and retard the ability of the members of this department in the speedy and efficient performance of their emergency duties.

There is listed below several compelling reasons which have been submitted tending to influence this office in denying approval for any form of parking in the hydrant zones:

1. In the event of fire, the safety of occupants of buildings would be endangered if a delay were experienced in connecting hose lines to hydrants.
2. The property loss from fire would also be materially increased if a delay occurred in getting water on the fire.
3. The insurance rates in the area might be materially increased because of the danger of large fire losses.

4. Regulating live parking at hydrants would appear to be a physical impossibility inasmuch as established signs regulating parking in the city are disregarded daily by many operators of vehicles.

5. A vehicle could possibly become disabled while parked in a hydrant zone or the operator of a vehicle might become excited upon arrival of apparatus and stall the motor.

6. Other vehicles might be parked to the front and rear of the vehicle in the hydrant zone making it difficult, even impossible, to move the vehicle away from the hydrant.

7. The owners of buildings, especially in the downtown area, have invested thousands of dollars in standpipe systems which the Fire Department must supply with water from the nearest hydrant in event of fire, especially on the upper floors of tall buildings. Delay in supplying water to these standpipes could cause loss of life and serious structural damage. The hesitating of such protection could be the cause of numerous complaints by property owners.

8. If hydrants in proximity to a fire were blocked by vehicles, it would be necessary to run long lines of hose causing a delay in fighting a fire and might result in ineffective hose streams.

Respectfully submitted,

JOHN B. COTTELL,
Fire Commissioner.

REPORT OF FINANCE COMMISSION RE OFF-STREET PARKING FACILITIES ON ST. JAMES AVENUE.

The following was received:

City of Boston,
Finance Commission, October 30, 1953.
To the Honorable the Mayor and City Council.

Among the provisions of chapter 47A, Acts of 1946, which is titled "An Act to Authorize Public Off-Street Parking Facilities in the City of Boston" is the power granted to the Real Estate Commissioners of the city to acquire properties by eminent domain proceedings. In order that payments for takings of properties might be subject to public scrutiny, it is further provided in that act:

"No purchase and no award, settlement or agreement for judgment in eminent domain proceedings hereunder shall be made by the city or in its behalf, unless the terms of the proposed purchase and the award, settlement or agreement, together with all pertinent facts, shall first have been submitted to the Boston Finance Commission not less than ten days before such purchase, award, settlement or agreement."

In accordance with the direction thus given, the Finance Commission was notified on October 29 by Corporation Counsel William L. Baxter that he has arrived at a decision in the matter of damages sustained by the owners of the parcels located on St. James avenue, at the corner of Clarendon street, and extending through to Providence street. This happens to be the last of the settlements for the St. James Avenue takings. It is significant for the fact that in this case a substantial part of the proposed purchase is not for the land taken, but for alleged damages because the taking prevents a particular use which had been planned for the hotel Brunswick property and the St. James Avenue land; said use being the erection of a new hotel on the Brunswick Hotel site to be connected by an archedway over Providence street with the Legislature granted such permission, where a garage to serve the hotel would be erected.

The letter of the Corporation Counsel which is referred to above is part of this communication. It contains all the facts required by statute to be submitted to the Finance Commission.

Respectfully submitted,

EDWARD F. MULLEN, Chairman,
LEO J. DUNN,
FREDERICK DEANE,
EDWARD U. LEE,
ROGER J. ARIZADO, M.D.,
The Finance Commission.

ROBERT E. CUNIFF,
Secretary.

Boston Finance Commission,
24 School Street, Boston, Mass.
Dear Sirs:

I hereby notify the Commission pursuant to St. 1947, c. 474, and its amendments, that this department is about to settle the suit of 506 Boylston Street, Inc. v. City of Boston, Suffolk Superior Court, No. 43854, in which said suit the petitioner claimed damages for the taking of land, and buildings located at 97, 99, 101, 103, 105-107 and 109, St. James Avenue, Boston, 201-203 Clarendon Street, in the City of Boston.

The taking of the above premises was made for off-street parking purposes on December 29, 1950, by the Board of Public Works, Commissioners pursuant to the authority granted by the statute hereinbefore cited. The facts concerning the property are as follows:

The property consisted of 14,243 square feet of land made up of six separate adjoining lots having a total frontage on St. James Avenue of approximately 142 feet 6 inches. The lot was rectangular in shape and extended back 100 feet where it was bounded on the rear by Providence Street, a distance of 142 feet 6 inches. The lot also fronts on Clarendon Street with a total frontage thereon of 100 feet forming a lot bounded on three sides by public ways in the City of Boston.

The property takes was part of the block which extended from Berkeley Street to Clarendon Street, and was bounded by St. James Avenue on the front side and Providence Street in the rear. The whole block was taken for off-street parking on the date hereinbefore stated. On two of the lots which form part of this parcel were two buildings, consisting of a brick building, Nos. 105-107 109 St. James Avenue and 201 Clarendon Street, which was a combined store and apartment house. The other building was a one-story building located at 203 Clarendon Street used for stores. The property is located in the B-30 zone, and was assessed in 1950 for \$117,500.

The petitioner also owns the adjoining property at Providence Street on which the Berkeley Hotel is located, and both the Brunswick Hotel property and the parcel in question were purchased at the same time for \$675,000 in 1950, which was when the properties were assessed for, which was \$732,500.

Appraisals were made at the request of the Board of Public Works by the Commission by Mr. Green and Elson M. Blunt, Jr. The figures at which they appraised the property were as follows: Mr. Green valued the property at \$1,000,000, and Mr. Blunt's figure was \$167,000.

In 1953, an appraisal was made by William F. Ballard at the request of the petitioner, and a copy of the same was furnished to the department by this appraisal. Mr. Ballard arrives at a figure of \$322,200 as the total damage to the petitioner as a result of the taking of its property. The department stood by this office that the petitioner has appraisals from W. K. Bean and Louis Donovan, both of which are in excess of \$450,000. In the meantime it must be stated that a copy of all the appraisals for both the petitioner and respondent were made available to Mr. Ballard.

In the negotiations which have taken place, it was necessary to take into consideration all the settlement and trial figures of all the other parcels included within the taking. At this time, the last petition pending as the result of this taking. Reports thereof have been submitted to you in the past.

Inasmuch as any land damage case involves mostly questions of fact as to the value of land taken, it is exceedingly difficult many times to arrive at what figure a given case should be settled for. Consideration is given to prior experience in settlement of verdict figures if any are available of other parcels included in the taking. Appraisals of experts both for the taking authority and for a petitioner are also considered inasmuch as juried man figures render verdicts which are arrived at by the simple method of adding appraisal figures of the experts of both sides and then dividing the sum thereby reaching a figure half way. If this method were followed in this case, this office would arrive at a figure in excess of \$300,000. To this would be added two years' interest at 4 per cent interest at 4 per cent per year, or a total in excess of \$300,000, which would bring the total up in the vicinity of \$350,000.

Sales of comparable property where available are taken into consideration. This was done in this case. One in particular was the sale in December, 1948, of 24,100 square feet of vacant land located at 321 Stuart Street, which runs through to St. James Avenue and is in close proximity to the parcels in question. This lot was 142 feet from street to street, and a frontage on both streets of 89 feet. The price paid by the Liberty Mutual Company for this lot was \$362,500, or approximately \$15 per square foot.

Another factor to which consideration was given was the fact which was not present in any of the other parcels which was part of this whole parking. The petitioner alleges and lays particular stress on a claim of severance damage to its property. It contends that its remaining parcel upon which the Brunswick Hotel stands was damaged or its value diminished as the result of the taking. Its contention is that several contemplated parcels which were taken with the highest and best use of the property have been eliminated by the city's taking of this property. This contention is not supported by the fact that the parcel taken and the adjoining Brunswick parcel were separated by Providence Street. There is

some authority which tends to sustain this contention and it has been stated in the case of Trustees of Boston University v. Commonwealth, 286 Mass. 37, at p. 64, as follows:

"...the principle, that land divided by public ways may nevertheless be treated as a unit in ascertaining damages for a severance where part is taken, was well recognized in the law of Massachusetts."

In the appraisals made for the city, Mr. Green discounted but discounts any severance value, and Mr. Blunt does not take it into consideration. The appraisal by William H. Ballard sets out this severance value as a main factor in his arrival at the figure which he sets at \$322,200. The damage caused by the taking. In his appraisal he approaches the problem of determining the fair market value of the property taken by the city in damage in three or four different ways. One of the methods used by him is a determination of the fair market value of both parcels as of the date of the taking. This value is placed at \$1,033,000, made up as follows: \$243,000 for the land taken and \$790,000 for the Brunswick parcel. He then allocates a severance damage of 10 per cent to the part not taken which amounts to \$79,200. Adding the figures of the value of the land taken and damage to the Brunswick parcel, he arrives at \$869,200 as the damage caused to the petitioner as the result of the taking.

There is no doubt that evidence of the highest and best use of property can be testified to, and that evidence of conjecture or adjoining use might be introduced in a trial of this case. Because of this, it is a question of fact as to what damage, if any, the petitioner has suffered to its remaining property as a result of the taking.

After a consideration of the above services, it was found that the most closely comparable property in the case in question was the parcel of land owned by the Brunswick Hotel. This parcel consisted of 26,480 square feet of land bounded on three sides by St. James Avenue, Berkeley Street, and Providence Street. This lot was part of the same taking. It was vacant land which was being used as a parking space, and like the property in question fronted on three public ways. The only building on it was a small parking garage. Mr. Green appraised this property at \$410,000, which figures to approximately \$16.50 per square foot. This figure was settled by the office of the Commissioner.

If this office applied this figure of \$16.50 per square foot (although Mr. Green's appraisal per square foot of the property in question is somewhat less than this at a total of \$233,000 for 14,243 square feet. Add to this figure the assessed value of the building on the petitioner's property which was \$122,000 and the total figure of \$355,000 (which is somewhat less than Mr. Ballard's figure for the same item for severance damage of \$322,200) then come to \$325,000, which is higher than the Ballard appraisal figure, although Ballard's figure does not take into consideration the interest item.

During the negotiations, the asking figure of the petitioner was \$450,000, which it reduced to \$355,000, which was arrived at by using Mr. Ballard's appraisal and adding interest thereto. Finally the petitioner has agreed to accept the figure of \$322,200, which is the approximate appraisal made by William H. Ballard without interest added thereto.

In view of the foregoing considerations herein stated, this office has agreed to settle this case for the said amount of \$322,000.

Very truly yours,

WILLIAM A. BAXTER,

City Planning Commission.

REPORT OF FINANCE COMMISSION RE LEASE OF LAND ON PARK DRIVE TO SEARS ROEBUCK COMPANY.

The following was received:

City of Boston, November 9, 1953.
To the Honorable the Mayor and City Council:
There is currently pending in the City Council an ordinance to lease certain parcels of land on Park Drive for two years with an option to buy for \$100,000. A proper understanding of past and future plans for the use of this land is essential that the proper position to take on this proposal is to approve a temporary lease of it, but to reject the purchase of it.

In 1942, after suitable engineering study, for the purpose of constructing traffic ovals in this location, the City of Boston, through the City Engineer, the city spent approximately \$120,000 to install underground culverts and to fill and grade the land at this location.

The thinking of the City at that time leaned toward the construction of traffic ovals as the solution of the traffic problem at this location, current thinking favors the construction of a grade separation for this purpose.

The Finance Commission believes that such a sound and logical solution of the traffic problem, both by the State Public Works Department and

the City Planning Board, will pass through this process. Although the original master highway plan, of which the Central artery is a part, provided another route for this so-called "belt route," a tentative revision of the plan by the above authorities favors the property in question as the path of the route when it is constructed by the state. The general plan of the City Planning Board also indicates a route for the belt route.

Since, therefore, there is a good possibility that the use of this land as described above will eventually be the City's, the Commission believes that the City should not enter into a proposed sale of the land and might not be approved. However, since the probability of this public use is not certain, it is desirable to offer for the lease of such property, without the option to purchase, and not to exceed such period might well be authorized.

Furthermore, the Finance Commission recommends that the lease contain these two precautionary provisions:

1. That it may be canceled by the city by giving three or six months' notice to the lessee;
2. That in the event of any taking by eminent domain proceedings, the agency making the taking shall not be liable for damages to the lessee.

Respectfully submitted,

EDWARD F. MUELEN, Chairman,

LEO J. DUNN,

CHARLES R. FRAXE,

EDWARD U. LEED,

ROGER J. ARIZZO, M.D.,

The Finance Commission.

Secretary.

REPORT OF COMMITTEE ON CLAIMS.

1. Coun. JOYCE, for the Committee on Claims, submitted the following:

Report on petition of Edmund Currie (referred October 19) to be reimbursed as a result of execution issued against him on account of his acts as an employee of the Sanitary Division, Public Works Department—recommending passage of the accompanying order:

Ordered, That the sum of two hundred dollars (\$200) be allowed and paid to Edmund Currie in reimbursement for amount of execution issued against him on account of his acts as an employee of the Sanitary Division, Public Works Department, said sum to be charged to the appropriation for Executions of Court, Damage Claims and Reimbursements.

2. Report on petition of James W. McDonald (referred October 19) to be reimbursed as a result of an execution issued against him on account of his acts as an employee of the Fire Department—recommending passage of the accompanying order:

Ordered, That the sum of fifty-one dollars and fifty cents (\$51.15) be allowed and paid to James W. McDonald in reimbursement for amount of execution issued against him on account of his acts as a member of the Fire Department, said sum to be charged to the appropriation for Executions of Court, Damage Claims and Reimbursements.

3. Report on petition of Neil A. Cronin (referred October 5) to be reimbursed as a result of execution issued against him on account of his acts as an employee of the Automotive Division, Public Works Department—recommending passage of the accompanying order:

Ordered, That the sum of three hundred sixty-four dollars (\$364) be allowed and paid to Neil A. Cronin in reimbursement for amount of execution issued against him on account of his acts as an employee of the Automotive Division, Public Works Department, said sum to be charged to the appropriation for Executions of Court, Damage Claims and Reimbursements.

4. Report on petition of Robert N. Burrill (referred October 26) for indemnification for hospital, surgical, medical and nursing expenses incurred as a result of an injury sustained by him while in the performance of his duty as a member of the Boston Fire Department on March 9, 1935—recommending passage of the accompanying order:

Ordered, That under the provisions of section 100 of chapter 41 of the General Laws, upon petition of Robert N. Burrill, a hoseman in the Fire Department, for indemnification for hospital surgical, medical and nursing expenses incurred by him as a result of an injury received through no fault of his own, while in the performance of his duty on March 9, 1935, there be allowed and paid to him as recommended by the Fire Commissioner and approved by the Corporation Council, to the following amount stated:

Kathleen M. Spellman, M.D., \$20, said amount to be charged to the appropriation for Executions of Court, Damage Claims and Reimbursements.

The reports were accepted and the orders were severally passed.

TRANSFER OF MUNICIPAL BUILDING ON CHESTNUT HILL AVENUE TO PARK DEPARTMENT.

Coun. WARD offered the following:

Ordered, That his Honor the Mayor direct that the Building Department be transferred to the Park Department, the municipal building on Chestnut Hill Avenue, Brighton, for the purpose of establishing a place for sports, such as basketball and other inside sport curricula, to combat juvenile delinquency.

Passed under suspension of the rules.

PAYMENT OF HOLIDAY AND/OR OVERTIME PAY FOR POLICE DEPARTMENT EMPLOYEES.

Coun. WARD offered the following:

Ordered, That his Honor the Mayor request that the Police Commissioner establish a system whereby the Police Department employees will receive their holiday and / or any overtime pay within a two week period of said date.

Passed under suspension of the rules.

OPPOSITION TO PROPOSED ZONE SCHEDULE OF FARES ON MTA.

Coun. FOLEY and HAILER offered the following:

Whereas, The trustees of the MTA are about to seek the establishment of a system of zone fares within the MTA system; and,

Whereas, The system which the said trustees propose to establish is based not upon distance traveled but upon present arrangement of service; and,

Whereas, The taxpayers of Boston are presently bearing a disproportionately high percentage of the yearly deficit; and,

Whereas, The proposed zone system would only increase this unjust burden; and,

Whereas, The operation of the proposed zone fare would place a ridiculous burden on the overall citizens of Boston; be it therefore,

Resolved, That the Boston City Council, in meeting assembled, expresses its opinion that the proposed increase in the MTA fares as proposed by the Board of Trustees of the MTA would impose a great hardship on working men and women; be it therefore further,

Resolved, That in the opinion of the Boston City Council, the new fare schedule would be accompanied by a staggering drop in patronage; and be it further,

Resolved, That the Boston City Council is opposed to the zone schedule of fares by the trustees of the MTA which they have filed with the Department of Public Utilities.

Coun. FOLEY moved suspension of the rules and adoption of the resolution. Objection being made the Chair referred the resolution to the Committee on Public Services and Recreation.

ELECTION OF ASSISTANT CITY MESSENGER.

Coun. HAILER offered the following:

Ordered, That the City Council now proceed to the election of the assistant city messenger, to fill the existing vacancy.

Referred to the Committee on Rules.

ELECTION OF SECOND ASSISTANT CITY MESSENGER.

Coun. HAILER offered the following:

Ordered, That the City Council now proceed to the election of the second assistant city messenger, to fill the existing vacancy.

Referred to the Committee on Rules.

REORGANIZATION OF SECRETARIAL STAFF OF CITY COUNCIL.

Coun. PIEMONTE offered the following:

Ordered, That the Committee on Rules report to the City Council the reorganization of the secretarial staff of the City Council and report their recommendations to this Honorable Body.

Referred to the Committee on Rules.

JUVENILE SERVICE BUREAU.

Coun. PIEMONTE offered the following:

Ordered, That his Honor the Mayor request the Police Commissioner to establish a juvenile service bureau to function largely as a juvenile delinquency prevention board.

Passed under suspension of the rules.

REPORT OF COMMITTEE ON LICENSES.

Coun. JOYCE, for the Committee on Licenses, submitted the following:

Report on petition (referred September 14) of New England Transportation Company for license to operate motor vehicles over Columbus Avenue, Berkeley Street, St. James Avenue, Stuart Street, to and through the Greyhound Bus Terminal—recommending that license be granted.

The report was accepted, and the license was granted under usual conditions.

THE NEXT MEETING.

On motion of Councillor Hailer the Council voted that when it adjourns it be to meet on Monday, November 23, 1935, at 2 P.M.

HIGHWAY CONSTRUCTION FINANCED BY STATE FUNDS.

Coun. PIEMONTE offered the following:

Ordered, That the Corporation Council be requested, through his Honor the Mayor, to draw up legislation to be submitted to the incoming Legislature whereby the planning, designing, direction and supervision of all roads and highway construction in any city or town, even though financed by state funds, be the sole responsibility of the city or town with the commonwealth retaining only supplementary supervision of construction.

Passed under suspension of the rules.

Adjourned at 4.20 P.M., on motion of Councillor Hailer, to meet on Monday, November 23, 1935, at 2 P.M.

Note: All debate of City Council eliminated from proceedings in accordance with Chapter 447, Act of 1947.

TRAFFIC COMMISSION RULINGS.

Voted, That as urgently required by considerations of public safety and convenience, effective November 16, 1953, to April 1, 1954, inclusive, the Traffic Rules and Regulations of the City of Boston are amended by adding the following:

EMERGENCY SNOW REMOVAL REGULATIONS.
Declaration of Emergency During Heavy Snowstorms and Establishing Parking Regulations.

(a) There is hereby declared an emergency to exist in the City of Boston by reason of a heavy snowstorm wherever snow falls during any period of twenty-

four (24) hours or less to a depth of three (3) inches or more in that such storm constitutes a serious public hazard impairing transportation, the movement of food and fuel supplies, medical care, fire, health, and police protection, and other vital facilities of the city.

(b) Whenever such an emergency exists and the Commissioner of Public Works shall have caused announcement thereof to be made by not less than two (2) radio stations whose normal operating range covers the City of Boston, the following parking prohibitions become effective immediately:

No driver shall stop, stand or park any vehicle in important traffic arteries, or

parts thereof, nor in any street upon which there is operated a trackless trolley, public transportation bus, or streetcar line, provided that this regulation shall not apply to passenger vehicles stopped temporarily during the actual receiving or discharging of passengers nor to commercial vehicles stopped for not more than one (1) hour continuously while actually loading or unloading materials.

Included among important traffic arteries, trackless trolley, bus and streetcar lines are the following:

Beacon street, Boston Proper.
Boylston street, Boston Proper and Roxbury.

Proposals for Sewerage Works in Hemlock Road, West Roxbury, from Billings Street 80 Feet Southwesterly, and Centre Street, West Roxbury, near May Street.

The Commissioner of Public Works of the City of Boston, Room 508 (Contract Office), City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least one half thereof is owned by a citizen or citizens of the United States, for sewerage works in Hemlock road, West Roxbury, from Billings Street 80 feet southwesterly, and Centre street, West Roxbury, near May street. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508 (Contract Office), City Hall Annex. Each proposal should be enclosed in a separate envelope, sealed, marked "Proposal for Sewerage Works in Hemlock Road, West Roxbury, from Billings Street 80 Feet Southwesterly, and Centre Street, West Roxbury, near May Street," and left at Room 508 (Contract Office), fifth floor, City Hall Annex, before 2 P.M. of THURSDAY, DECEMBER 3, 1953, with a certified check for ONE HUNDRED (100) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will be publicly opened and read in the Hearing Room of the Street Commissioners, Room 401, City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 508, City Hall Annex. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application thereat at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law as called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

NEW SCHEDULE OF TOLLS AND CHARGES FOR SUMMER TUNNEL APPROVED BY MAYOR HYNES TO GO INTO EFFECT AS SOON AS APPROVED BY STATE.

PUBLIC WORKS DEPARTMENT.

BOSTON, November 16, 1953.

The Mayor has approved the request of the Public Works Department for a new schedule of Tolls and Charges for the Summer Tunnel as requested in the following letter:

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

The schedule of tolls and charges for the use of the Summer Tunnel, approved by the Department of Public Utilities on December 29, 1952, will expire on December 31, 1953.

(Continued on page 1587.)

MAYOR HYNES GIVES THANKSGIVING ADVICE TO BOSTON CITIZENS.

On November 25 Mayor Hynes issued the following plea to Boston citizens for observance of Thanksgiving:

Let us, in the same spirit of the early settlers of our country, give thanks on this day to the generous Giver of all good things. All of us, no matter how meagre our possessions, how dubious our health, how heavy the load we carry, have something for which to be thankful.

Under God we live in a great free nation. In one way or another we share in the blessings He has showered upon our land. In our churches and in our temples we can openly and fearlessly sing His praises.

God has been good to us. Surely He will be pleased if, on this Thanksgiving Day, we take a few moments to tell Him how thankful we are.

ATLANTIC AVENUE ROUTE FOR CENTRAL ARTERY TO BE GIVEN COMPLETE STUDY BEFORE FINAL DECISION IS REACHED—MAYOR JOHN B. HYNES, GOVERNOR HERTER, AND COMMISSIONERS CONFER ON PLANS AND AGREE TO A COMPLETE STUDY RELATIVE TO FUNCTIONAL EFFICIENCY, COST, AND AVOIDANCE OF PROPERTY DESTRUCTION IN BUSINESS AND RESIDENTIAL AREAS—CITY GIVEN TIME TO MAKE THOROUGH STUDY BEFORE FINAL DECISION—STUDY TO BE COMPLETED BY FEBRUARY 1.

At a conference held on November 20 between Governor Herter, State Public Works Commissioner Volpe, Mayor Hynes, and Boston Public Works Commissioner Hyland it was agreed that the State Department of Public Works will furnish the City Public Works Department with certain basic data which will be extremely helpful in the study to be made of the potentialities of the proposed Atlantic Avenue route of the Central Artery.

"Both the Governor and Commissioner Volpe were completely co-operative and helpful," the Mayor announced in issuing his statement. "The furnishing of this data by the state will expedite the study by the engineering firm engaged by the city and will make it possible for this study to be completed by February 1, 1954.

"City officials feel that the proposed Atlantic Avenue route for the Central Artery should be given a complete study with relation to its functional efficiencies, its cost, and its avoidance of the destruction of settled business or residential areas. We have not prejudged this matter, and we do not have a preconceived opinion that the suggested Atlantic Avenue route would be superior to the route tentatively selected by the State Department of Public Works.

Considerations Weighed.

"We recognize that the artery route through Chinatown and the leather and garment districts may be superior from a traffic standpoint, but we hope our study will show that the difference would be slight and that such other factors as the saving of business and taxable property would warrant the construction of the artery in the South Station-Atlantic Avenue area.

"Therefore, the city will shortly enter into an agreement with an engineering firm for such a study. Obviously, we would not be undertaking such a study if we did not believe there is a strong possibility that we will be able to show that the adoption of the Atlantic Avenue route would be best for Boston.

"We believe that the proposed Atlantic Avenue route has definite possibilities not yet fully explored and that the long-range importance of the final decision as to the selection of the artery route warrants a complete and thorough study of such a route.

"If municipal officials are not thoroughly convinced, when the study is completed, that the Atlantic Avenue route would be better for Boston, we will not request any further delay.

COMPLETE STUDY OF ATLANTIC AVENUE ROUTE FOR CENTRAL ARTERY TO BE MADE.

(Continued from page 1585.)

Prevent Destruction of Property.

"I am, of course, most desirous of holding the destruction of taxable property and the displacement of business establishments as low as can be done and still construct a Central Artery that will give satisfactory traffic service. That is my objective, and has been my objective from the start.

"I am appreciative of the cooperation and consideration given the city by Governor Herter and Commissioner Volpe. They are in complete accord with us that the final choice of the Central Artery route is of the utmost importance to the future of Boston. We agree with them that the final decision in this matter should not be postponed beyond next February 1."

MAYOR ADDRESSES NEW NEIGHBORHOOD REHABILITATION COMMITTEES.

(Continued from page 1585.)

eral living conditions. District committees organized were: West Roxbury, Jamaica Plain, Roslindale, Hyde Park, Back Bay-Beacon Hill, and Brighton.

Among those who joined with the Mayor in briefing the newly formed committees on the techniques of promoting district rehabilitation and conservation were: Dr. John H. Cauley, Health Commissioner; Harry J. Keefe, Building Commissioner; Frank R. Kelley, Park Commissioner; Herman Carp, Real Estate Commissioner; Charles F. Ernest,

community housing representative; and Paul Hines, coordinator of the citywide movement.

Although the movement was launched only last May, the Mayor told the gathering already amazing results have taken place in some of the older districts—particularly in the pilot area in South Boston and in the South End. He said that it will take at least five years before substantial results will be shown, but judging by the cooperation of the home owners, clergy, and businessmen, physical Boston enjoys a bright and prosperous outlook.

Following is a list of the members of the newly formed district committees:

FIRE DEPARTMENT ORDERS.

General Order No. 66.

I. LADDERMAN STANLEY J. GAWLINSKI.

It is with deep regret that the Fire Commissioner announces the death on November 14, 1953, of Ladderman Stanley J. Gawlinski of Ladder Company 18. Ladderman Gawlinski was appointed to the Fire Department May 20, 1942.

The funeral was held from the Mulry Funeral Home, Dorchester avenue and King street, Dorchester, at 8 A.M., November 18, 1953, followed by a High Mass of Requiem in St. Mark's Church, Dorchester avenue, Dorchester, at 9 A.M.

The Chief of Department assigned a detail to act as funeral escort, and the members of Ladder Company 18 were excused from duty in order to attend the services.

II. CHIEF INSPECTOR CHARLES S. MURPHY.

It is with deep regret that the Fire Commissioner announces the death on November 16, 1953, of Chief Inspector

Charles S. Murphy of the Electrical Inspection Division. Chief Inspector Murphy was appointed to the Electrical Inspection Division of the Fire Department on August 15, 1924.

The funeral was held from the John C. Mulry Funeral Home, 223 Neponset avenue, Dorchester, Thursday, November 19, 1953, at 9 A.M., followed by a Solemn High Mass of Requiem in St. Matthew's Church, Stanton street, Dorchester, at 10 A.M.

Members of the Electrical Inspection Division were excused from duty in order to attend the funeral services.

III. RETIREMENT.

The following retirement, in accordance with section 7 of chapter 658 of the Acts of 1945, as amended, is hereby announced, to become effective at 8 A.M., Tuesday, December 1, 1953.

Lieut. Bernard S. Downey, Engine Company 33.

Lieutenant Downey was appointed to the Fire Department February 8, 1929, and was promoted to the grade of lieutenant January 12, 1944. He leaves the department with the best wishes of his associates.

IV. G. A. C. ASSIGNMENT.

Company commanders shall add the following signal number to running cards of the General Alarm Corporation in this department:

Signal 453, A. Stowell & Co., Inc., 24 Winter street. (Automatic fire alarm.) Apparatus to respond: Engine 26, Ladder 17, District Chief 5. Nearest box is 1441.

V. CHANGE IN G. A. C. ASSIGNMENT.

At the present time G. A. C. Signal 441 is assigned to the Columbia Packing Company, 155 Southampton street.

Company commanders are requested to change this assignment number on page 18 of the General Alarm Corporation assignment book to 46, page 2.

VI. FIRE ALARM BOX INSTALLED.

The following fire alarm box which was established in General Order No. 50, dated October 4, 1949, has been installed and connected into Circuit 59.

13-3834, Westinghouse Electric Corporation, Sturtevant Division, 25 Damon street.

Company commanders will add Box 13-3834 to Circuit Card 59.

VII. FIRE ALARM BOX ESTABLISHED.

In the near future the following fire alarm box will be installed:

12-2484, Nazareth Home for Children, 420 Pond street.

Company commanders will add Box 12-2484 to assignment card for Box 2484.

Company commanders will place a star alongside of this box and Ladder 16 to indicate the response of Ladder 16 on first alarm.

The circuit for this box will be announced when the box has been installed.

VIII. RENEWAL OF DUMP PERMITS FOR 1954.

Permits issued by the Health Commissioner for dumping of ashes and house refuse on vacant land expire on December 31, 1953.

District chiefs are requested to forward to Headquarters on or before December 4, 1953, report of any objections

they may have to the renewal of any dumping permits in their respective districts.

IX. COMMENDATIONS.

Hoseman Everett P. Fuller of Engine Company 24 is hereby commended for responding to and working at fire, Box 3411, three alarms, on November 19, 1953, while off duty.

Hoseman George T. Searles of Engine Company 41 and Ladderman Paul R. Harvey of Ladder Company 14 are hereby commended for responding to and working at fire, Box 5261, on November 21, 1953, while off duty.

By order of Fire Commissioner JOHN F. COTTER.

JOHN V. STAPLETON,
Chief of Department.

General Order No. 56.

I. HEARING ON CHARGE.

As the result of a hearing granted Ladderman John F. Greene of Ladder Company 24 by the Fire Commissioner in Fire Headquarters at 1035 A.M., Tuesday, November 24, 1953, he is hereby suspended from duty in the Boston Fire Department, without pay, for seven days, beginning at 8 A.M., November 24, 1953.

Ladderman Greene pleaded guilty and has been found guilty of the following charge preferred against him by Lieut. Joseph F. White of Ladder Company 24:

Charge: Violation of Rule 420, section F.

Specification: In that Ladderman John F. Greene of Ladder Company 24 failed to report for duty at 9 A.M., Tuesday, November 17, 1953, being absent without official leave. Ladderman Greene was detailed from Ladder Company 24 to Department Drill School. I was informed by Deputy Chief Crehan of Ladderman Greene's absence and after investigating at his home failed to locate Ladderman Greene. At the time of filing these charges Ladderman Greene is unable to be located.

By order of Fire Commissioner JOHN F. COTTER.

JOHN V. STAPLETON,
Chief of Department.

Eric A. Rosdahl, 44 Bailey street, Dorchester, from buyer (fuel) at \$80 a week to buyer (fuel) at \$33.50 a week.

The Mayor has approved the following leaves of absence:

ELECTION DEPARTMENT.

Philip Kosky, 20 Kerwin street, Dorchester, assistant registrar of voters, \$80 a week.

HOSPITAL DEPARTMENT.

Joseph A. Legros, 60 Blue Hill avenue, Roxbury, hospital kitchen worker, \$50.50 a week.

SUPPLY DEPARTMENT.

Josephine R. Memmolo, 524 Bennington street, East Boston, clerk and typist, \$50.50 a week.

The Mayor has approved the following transfers:

PUBLIC WORKS DEPARTMENT.

Arthur R. Connor, 155 Garfield avenue, Hyde Park, from Metropolitan District Commission, Sewerage Works, as laborer at \$3,000 a year to Public Works Department, Sanitary Division, as laborer at \$53 a week.

John P. Molloy, 38 Franconia street, Dorchester, from Port of Boston Authority as senior general construction inspector at \$4700 a year to Public Works Department, Highway Service, as highway construction inspector at \$76.50 a week.

BOSTON TRAFFIC COMMISSION.

Permission has been given to amend Item 100 of the budget by making the following changes:

Abolish (a) one clerk; (b) one clerk and stenographer; (c) one clerk and typist; (d) two traffic sign maintenance men; (e) one watchman; (f) two parking meter maintenance men; (g) one parking meter collector; (h) one building maintenance supervisor and create two spray painters, one traffic sign maintenance man, one heavy motor equipment operator, one parking meter clock repairman, one meter storekeeper, one maintenance mechanic, one traffic signal inspector.

(a) It is proposed to temporarily promote Harry Murphy, clerk, to senior clerk, pending promotional examination, vice Francis Solari, who is being promoted to traffic signal inspector (see k).

(b) It is proposed to promote Barbara Scapolonetti, clerk and stenographer, temporarily, pending promotional examination, to senior clerk and stenographer, vice George Hurley, resigned.

(c) Norman Shine, clerk and typist, is at present acting as a parking meter collector, and permission is respectfully requested to promote him to this position temporarily, pending examination, vice John Murphy, transferred to Public Works Department.

(d) To the best of my knowledge this department is the only one in the City of Boston that has a spray booth where men do nothing else but work as spray painters. It is my opinion that, probably through an oversight, these two men were not given their proper titles when the Jacobs reclassification was under consideration. Inasmuch as these men do nothing else but spray paint I believe that they should be placed in their proper category.

(e) The occupant of this position as watchman, Earl King, has been employed in this department for nine years as a traffic sign maintenance man. Because of a temporary illness he was assigned duties as a watchman and was so classified in the Jacobs Report. He is now able to fulfill his duties as a traffic sign maintenance man and I believe he should be placed back to this position. There will be no need at the present time to fill this position as watchman.

(f) Dudley Walsh, parking meter maintenance man, has been transferred from that division to the Traffic Division where his duties mainly consist of operating the compressor and driving a heavy vehicle. It is believed that this new title is proper — heavy motor equipment operator.

The second position of parking meter maintenance man has become vacant due to the resignation of George Lunney. Emory Davis was formerly employed in this department as a parking meter clock repairman and permission is respectfully requested to reinstate Mr. Davis to this position. The majority of our meters are about five years old and it is essential that we secure the services of an additional employee to help on the repair of clocks.

(g) Edward Ferguson, parking meter collector, has been transferred from that division to the Traffic Sign Division to take over the duties of senior storekeeper, Grade 17. He will have charge of all of the material that we have in stock and be responsible for the requisitioning of supplies for that division.

(h) Patrick P. Sheehan is at the present time employed as building maintenance supervisor on a temporary transfer. It is my opinion that there is no necessity for a man requiring the qualifications of

this title and I believe that the proper title should be maintenance mechanic. Permission is respectfully requested to further transfer Patrick F. Sheehan to maintenance mechanic, Grade 15.

(i) Francis J. Solari, senior clerk, has been performing the duties of a traffic signal inspector for the past several years. He was not graded in this category in the Jacobs Report and he appealed to Civil Service Commission. We have now been informed by that body that the proper allocation of Mr. Solari's position should be traffic signal inspector and we have been directed by them to file a requisition allowing Mr. Solari's transfer.

Permission is further granted to fill vacancy of clerk and messenger, military substitute, vice William Duffy, now in military service.

STEP-RATE INCREASES.

The Mayor has approved step-rate increases for employees of the following departments:

PARK DEPARTMENT.

Mary E. Duran, matron, from \$50.50 to \$53 a week.

Dennis N. O'Leary, principal clerk, from \$76.50 to \$80 a week.

David E. Gately, recreation instructor, from \$58 to \$60.50 a week.

Cemetery Division.

Michael Twomey, grave digger, from \$55.50 to \$58 a week.

PUBLIC BUILDINGS DEPARTMENT.

Rose V. Cronin, custodial worker (janitress), from \$50.50 to \$53 a week.

Gladys M. Drammis, custodial worker (janitress), from \$50.50 to \$53 a week.

PUBLIC WORKS DEPARTMENT.

Beulah Wood, clerk and typist, from \$43 to \$45.50 a week.

Daniel I. Cronin, deputy welfare agent, from \$146.25 to \$151 a week.

Helen Linehan, head clerk, from \$80 to \$83.50 a week.

Eve Kneznec, head social work supervisor, from \$94 to \$98.75 a week.

Kathryn McGrath, social worker, from \$76.50 to \$80 a week.

Josephine Natter, social worker, from \$76.50 to \$80 a week.

SUFFOLK COUNTY.

MUNICIPAL COURT, CITY OF BOSTON.

Louise H. Kapilian, senior clerk, from \$63 to \$65.50 a week.

OVERTIME ALLOWED.

The Mayor has approved the following requests:

ELECTION DEPARTMENT.

For the week ending November 16, at \$3 an hour:

Henry J. Babilis, assistant registrar of voters, 10 hours.

William L. Barry, senior assistant registrar of voters, 7½ hours.

Enrico Camerlengo, assistant registrar of voters, 8½ hours.

* Contract awarded.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with firms, contractors, and commercial houses for supplies, labor, etc. Communications from heads of the departments interested were as follows:

DEPARTMENT OF SCHOOL BUILDINGS.

Boston, November 13, 1953.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

On August 11, 1953, your Honor approved a contract with the Daniel Russell Boiler Works, Inc., for repairing and retubing boilers in various schools. This award was approved after public advertising.

The work involved in the original contract, together with the extra work, was requested by the boiler insurance company as a result of its annual inspection, and the hydrostatic tests made while the work was being performed.

During the life of the contract, additional retubing and repairing was found to be necessary in eighteen school buildings which were on the original contract. This work was found necessary to make the boilers tight and ready for safe operation, and had to be performed in order to secure certificates of operation required by the Massachusetts Department of Public Safety.

Due to the inaccessible location of the interior boiler tubes and fittings, it is not possible to examine each individual tube at the time the boiler inspection is made by the insurance company inspectors, and a complete examination can only be made after the tubes are removed. When this is done, however, it often proves necessary to replace a greater number of tubes and, in many cases, to retube the entire boiler or to make other necessary boiler repairs.

In my opinion, the interests of the city are best served by having this work performed by the contractor already engaged under the original contract, and nothing would be gained by further advertising.

I therefore respectfully request your Honor's approval to waive the requirement for public bidding and amend said contract from the amount of \$11,853 to \$16,365.50.

Respectfully yours,

JAMES H. MOONEY,

Superintendent of Construction.

Boston, November 18, 1953.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

On October 5, 1953, your Honor approved a contract with M. Solimando for alterations at the Thomas H. Hart

and Prince Schools. This award was approved after public advertising.

During the life of the project it was found necessary to do additional work in order to satisfactorily complete the project; the cost of this additional work is \$825. In view of the fact that this is a fair figure for the extra work and as this contractor is ready, willing, and able to perform the work at this price, I feel that the interests of the city are best served by having this work performed by the contractor already engaged under the original contract.

Therefore, I respectfully request your Honor's approval to dispense with advertising for this extra work and amend the contract with M. Solimando from \$1,974 to \$2,899.

Respectfully yours,

JAMES H. MOONEY,

Superintendent of Construction.

HOSPITAL DEPARTMENT.

Boston, October 9, 1953.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

We respectfully request your permission to dispense with publicly advertising for bids, and to award a contract to Remington Rand, Inc., 857 Commonwealth avenue, Boston, Mass., for furnishing all labor and materials necessary for the expansion, correcting of errors, combining and banding duplicates, verifying sequence, and inserting the necessary guides in Soundex File, Sections D through M, Out-Patient Department, Boston City Hospital, at a cost not to exceed the sum of \$3,162.92.

There is a distinct advantage in having Remington Rand, Inc., perform this work as they developed and sold this system to the city; and this firm performed services on other sections of this file last year. The Remington Rand Company performs its work with particular efficiency and, furthermore, can carry out these services in the least possible time and without unnecessary disruption of office routine, for, as indicated, it is the original designer of the Soundex File System.

The Trustees are of the opinion, therefore, that nothing would be gained by publicly advertising for bids for the aforementioned special services.

Respectfully yours,

BOARD OF TRUSTEES, BOSTON CITY

HOSPITAL,

by RICHARD J. CONDON,

President.

PRINTING DEPARTMENT.

Boston, November 16, 1953.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

Your Honor's permission is respectfully requested to permit the Printing Department to award a contract without advertising to the International Business Machines Corporation, 573 Boylston street, Boston, Mass.

This request is made in order that we may furnish the Welfare Department with the following items: 900,000 account checks, \$2,808; 1,100,000 tabulating cards, \$1,365.—Total, \$4,176.

These materials are to be used on the International Business Machines at the Welfare Department, and as this company makes checks and cards especially

designed for use on these machines, in my opinion, no advantage could be gained by advertising for bids.

Respectfully yours,

JOHN J. TWOMEY,

Superintendent.

PUBLIC WORKS DEPARTMENT.

Boston, November 16, 1953.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

Under date of August 4, 1953, the authority of your Honor was obtained to dispense with advertising and to award a contract in the amount of \$10,600 to the Worthington-Gamon Meter Division of the Worthington Corporation, to repair 1,000 so-called "Watch Dog" water meters at \$10.60 each. It was advisable to award this contract to the above-referenced manufacturer, as the "Watch Dog" meter is a product of the Worthington Corporation, and it would be most impractical to attempt to obtain publicly advertised proposals for repairing the meters. The price of \$10.60, in our opinion, was reasonable and represented a substantial saving to the city over and above the amount that new meters would cost. The above-referenced manufacturer has satisfactorily completed the work provided in the above-referenced contract and has submitted another proposal, agreeing to repair an additional 1,000 meters at the same unit price of \$10.60 each.

As no advantage would accrue to the city by publicly advertising for proposals, and as the price submitted is reasonable, I respectfully request that you authorize me to dispense with advertising and to award a contract in the amount of \$10,600 to the Worthington-Gamon Meter Division of the Worthington Corporation, for the repairing of 1,000 "Watch Dog" meters at \$10.60 each. It is understood that the City of Boston will pay the transportation charges for delivery of meters to the plant of the Worthington Corporation, and that said corporation, in turn, will prepay the freight of the rebuilt meters to Boston.

Respectfully yours,

GEORGE G. HYLAND,

Commissioner of Public Works.

SUPPLY DEPARTMENT.

Boston, November 1, 1953.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

Reference is made to my letter to you dated April 23, 1953, requesting your permission to award contracts on a trial basis of three months each to two contractors for furnishing X-ray solutions to the various city departments. Subsequently, A. A. X-Ray Solutions, Inc., furnished solutions to all using departments of the city from March 1 to July 31, 1953, and Edwin R. Harper, doing business as Harper X-Ray Company, furnished solutions from August 1 to October 31, 1953.

This test period resulted in the using departments using substantially less solutions over a six-month period than had hitherto been used and also reflected that the total gallonage used from each contractor was approximately the same. The indication, therefore, is that there is little or no difference in the quality or results obtained from the solutions furnished by the two contractors.

Inasmuch as the per gallon cost from A. A. X-Ray Solutions, Inc., is less than the per gallon cost of Harper X-Ray Company, it appears in the best interests of the city to award, without advertising, a contract to the A. A. X-Ray Solutions, Inc., for furnishing X-ray solutions from November 1, 1933, through March 31, 1934, inclusive at the same prices as their previous contract.

Approximate total amount of contract will be \$4,000, less 2 per cent discount, time of payment.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

Boston, November 4, 1933.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

The Boston City Hospital has submitted requisitions to this office for Fenwal Laboratory equipment. This equipment is distributed in this area by Macalaster Bicknell Parenteral Corporation, 243 Broadway, Cambridge, Mass.

Inasmuch as the Macalaster Bicknell Parenteral Corporation is the direct distributor in this area, no advantage would be gained by publicly advertising for bids. It is therefore requested to dispense with public advertisement and award a contract, without public advertisement, to Macalaster Bicknell Parenteral Corporation at an approximate total amount of \$2,498.41, net.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

Boston, November 5, 1933.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

On September 29, 1933, your Honor authorized the awarding of a contract to Hersey Manufacturing Company for furnishing meter parts in the approximate amount of \$14,886.06, net.

Subsequent to this date, but prior to the execution of the contract, the prices on several items were revised, resulting in a lower estimate of meter parts to be purchased, namely, \$10,500.34.

As the Hersey Manufacturing Company is the manufacturer of the meter parts desired, it is requested that authority be granted me to dispense with publicly advertising for prices and award a contract, without public advertisement, to Hersey Manufacturing Company at the approximate amount of \$10,500.34, net.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

Boston, November 9, 1933.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

The Traffic Commission has submitted a requisition to this office for replacement parts for Eagle Signal Controllers.

R. W. LeBaron, Inc., the distributor for Eagle Signal Equipment in this area, has submitted an informal written quotation. Owing to the fact that this company is the distributor, it is my opinion that no advantage would be gained by publicly advertising for prices. Authority is therefore requested to dispense with

publicly advertising for bids and award a contract, without public advertisement, to R. W. LeBaron, Inc.

Approximate total amount of contract will be \$2,719.45, net.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

Boston, November 19, 1933.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

On October 14, 1933, bids on proposals for furnishing laboratory supplies to the Boston City Hospital were to be publicly opened and read in this office. No bids were received.

Subsequently, Macalaster Bicknell Parenteral Corporation, the manufacturer of the sterilizers requested, submitted prices on the equipment. Authority is therefore requested to dispense with publicly advertising for prices and award a contract, without public advertisement, to Macalaster Bicknell Parenteral Corporation. Inasmuch as this company is the manufacturer, it is my opinion that no advantage would be gained by publicly advertising for bids.

Approximate total amount of contract will be \$4,383.50, less 10 per cent discount, \$3,939.35, making a net total of \$3,954.15.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

Boston, November 23, 1933.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

The Boston City Hospital has submitted a requisition to this office for one (1) new Bell & Howell microfilm recorder and one (1) new Bell & Howell microfilm reader.

Burroughs Corporation, the only distributor in this area for the above equipment, has submitted an informal written quotation. Owing to the fact that this company is the sole distributor, authority is requested to dispense with publicly advertising for prices and award a contract, without public advertisement, to Burroughs Corporation. It is my opinion that, in this way, the best interests of the city will be served.

Approximate total amount of contract will be \$3,730, net, thirty days.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

ASSESSED VALUATIONS CONTINUE TO RISE.

A survey of 43 assessing jurisdictions over 100,000 population, recently completed by the National Association of Assessing Officers, discloses that the

latest totals of assessed valuations average 4.3 per cent higher than those for last year. Last year's survey of 46 jurisdictions showed an increase for the preceding period of 6.35 per cent. Duval County (Jacksonville), Florida, reported a 19.7 per cent increase, the highest of any jurisdiction. Other jurisdictions reporting high percentage increases in valuations were Dade County (Miami), Florida, 13.3 per cent; Providence, Rhode Island, 10.5 per cent; King County (Seattle), 10.4 per cent; Grand Rapids, Michigan, 9.3 per cent; Richmond, Virginia, 8.8 per cent; Los Angeles County, 8.5 per cent; Minneapolis and San Antonio, 6.9 per cent; and Erie, Pennsylvania, 6.7 per cent.

PUBLIC HEALTH NURSES.

Public health nurses were first employed by the Boston Health Department in 1910. The reason for their employment and the scope of their work has changed over the years but their objective of education in health practices remains essentially the same. In September, 1924, the Health Department took over the child hygiene

work, both clinics and home visitation, from the Community Health Association, which is now the Visiting Nurse Association. As a result of the additional work entailed, 20 nurses were added to the staff. In January, 1932, the program was put on a generalized basis and all nurses then in the Health Department were placed under a nurse director. Each nurse was given a district and did all the required work in her area.

RECENT FEDERAL ACTIONS AFFECTING CITIES.

The Housing Act of 1949, approved on July 15, authorized a uniform 10 per cent payment to cities in lieu of taxes on housing projects, but the independent offices appropriation bill passed on August 15 contains a provision that for the fiscal year ending June 30, 1950, only payments provided for in the original contract between the housing authority and the city are authorized for federal reimbursement.

Federal aid for hospital construction has been approved for nearly 800 projects; more than 600 are general hospitals and the great majority are in towns of under 10,000 population.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

Proposals for Furnishing, Erecting, and Insulating Steel-Framed, Metal-Covered Building on City Paving Yard, from Ward 20, at Moreland Street, West Roxbury.

The Commissioner of Public Works of the City of Boston, Room 508 (Contract Office), City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for furnishing, erecting, and insulating steel-framed, metal-covered building on the site of the City of Boston Paving Yard, from Ward 20, at Moreland Street, West Roxbury. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508 (Contract Office), City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Furnishing, Erecting, and Insulating Steel-Framed, Metal-Covered Building on City Paving Yard, Ward 20, at Moreland Street, West Roxbury," and left at Room 508 (Contract Office), fifth floor, City Hall Annex, before 2 P.M. of THURSDAY, DECEMBER 10, 1953, with a certified check for FIVE HUNDRED (500) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the Hearing Room of the Street Commissioners, Room 401, City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate without check to be deposited by bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 508 (Contract Office). There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any of the specifications is estimated to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate per hour of the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the payment of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

CITY SELECTS CLARKESON ENGINEERING COMPANY, INC., TO STUDY AND DEVISE PLAN FOR CENTRAL ARTERY ROUTE TO SAVE PROPERTY OF CLOTHING INDUSTRY AND CHINATOWN SECTION—STATE GIVES MAYOR AND CITY MORE TIME TO DRAFT AND SUBMIT PLAN TO SAVE SECTIONS FROM DESTRUCTION WITH ATTENDANT LOSS IN TAX REVENUE.

On Friday, November 27, Mayor Hynes received, with request for approval, the following letter from George G. Hyland, Commissioner of Public Works:

DEAR MR. MAYOR:

On Tuesday, November 3, Commissioner Volpe of the State Department of Public Works announced that a route had been selected for the location of the Central Artery, so called, between Fort Hill square and Broadway. The plan submitted by Mr. Volpe will follow the general alignment of the so-called

SEEK TO CONTINUE PRESENT SUMNER TUNNEL RATES FOR INDEFINITE PERIOD—APPEAL BEING MADE TO PUBLIC UTILITIES BOARD BY COMMISSIONER GEORGE G. HYLAND WITH MAYOR'S APPROVAL.

The Mayor has approved the following request of Public Works Department Commissioner George G. Hyland for extension of present Sumner Tunnel rates for longer period than single year:

BOSTON, November 27, 1953.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

On December 31, 1953, the schedule of tolls and charges now in effect for the use of the Sumner Tunnel will expire. These rates which, incidentally, have been in effect since April 1, 1943, are as follows:

SINGLE-TRIP TUNNEL TOLL RATES.

Class:

1. Truck not in excess of 2 tons capacity.....\$0.20
- Tractor without trailer.....20
2. Passenger car.....20

PLAN FOR REORGANIZATION AND CONSOLIDATION OF CITY DEPARTMENTS PRESENTED TO CITY COUNCIL FOR CONSIDERATION BY MAYOR JOHN B. HYNES—EFFICIENCY AND ECONOMY OF OPERATION EXPECTED TO BE ACHIEVED—SUBMITS ORDINANCE AFTER MONTHS OF STUDY—WILL REDUCE 34 DEPARTMENTS TO 17—HOPES FOR ADOPTION BEFORE FIRST OF NEW YEAR.

On Monday afternoon, November 30, Mayor John B. Hynes submitted the following proposal to the City Council for reorganization of the city government:

City of Boston,

Office of the Mayor, November 30, 1953.

To the City Council.

GENTLEMEN:

For some time now, it has been generally recognized that the government of our City needs basic structural and managerial improvements. Our present form of organization has developed piecemeal over the years when our City was smaller and the services and responsibilities of government far less extensive. Boston does not stand alone in this respect. Several other large cities in the United States—notably Philadelphia, New Orleans, Los Angeles, San Francisco, and Newark—have recently re-examined the structure and operations of their government.

Cognizant of this need for the reorganization of our City government, the General Court passed Chapter 473 of the Acts of 1953, which is presently before your Honorable Body for acceptance and which, when accepted, will clarify and reaffirm our home-rule power to reorganize. In order that you may have all aspects of the matter before you, I submit herewith an Ordinance Reorganizing Certain Boards and Departments of the City.

This ordinance is the result of long months of study; and I believe you will find it satisfactory in every respect. Its main objective is to reduce the number of departments by grouping together those functions and activities which are similar in character and requirements. Under it the thirty-four departments and boards now under the direct control of the Mayor will be reduced to seventeen departments. These seventeen will comprise seven (Auditing, City Planning, Election, Law, Library, Retirement, and Traffic) which will remain as presently constituted, three (Parks and Recreation, Public Works, and Veterans' Services) which will have some changes, four (Assessing, Hospital, Treasury, and Welfare) which will be substantially reorganized, and three (Administrative Services, Health and Safety, and Real Property) which will be the product of consolidations.

The summary appended hereto shows in considerable detail the divers changes the ordinance will effect. These changes will eliminate much of the duplication of effort which exists under the present setup, and will afford the Chief Executive an efficient organization with which to administer the affairs of the City. As matters now stand, a Mayor can hardly deal effectively with thirty-four dissociated units.

A reorganization of the structure of government such as that entailed in the ordinance submitted herewith can best be put into operation at the commencement of a fiscal year, for then no disruption in the budget and other annual proceedings can ensue. I therefore earnestly recommend

PLAN FOR REORGANIZATION AND CONSOLIDATION OF CITY DEPARTMENTS PRESENTED TO CITY COUNCIL.

(Continued from page 1617.)

that your Honorable Body forthwith adopt the order now pending before you for the acceptance of chapter 473 of the Acts of 1953 and then proceed to consider and enact the ordinance submitted herewith so that it may take effect on January 1, 1954, as a lasting monument to the first City Council under the Plan A Charter.

Respectfully,
JOHN B. HYNES,
Mayor.

SUMMARY OF REORGANIZATION ORDINANCE

ADMINISTRATIVE SERVICES.

New. In charge of an Administrative Services Board, consisting of a Director of Administrative Services, a Supervisor of Personnel, a Purchasing Agent and the City Auditor and City Treasurer, ex officio. The members of the board will, in addition to exercising their respective powers and duties, oversee the work of all departments, boards and officers so that the administration thereof shall be economical and efficient, and to that end, shall make investigations, studies and recommendations with respect to the organization, activities, policies and procedures of all departments, boards and officers.

HEALTH AND SAFETY.

New. In charge of a Board of Health and Safety consisting of a Director of Health and Safety, a Building Commissioner, a Health Commissioner and the Chairman of the Boston Traffic Commission and the Director of Hospitals, ex officio. The members of the board will, in addition to exercising their respective powers and duties, coordinate the work of the several divisions of the department to the end that there may be efficient and concerted action by the department as a whole. The board shall also have the powers and duties of the Board of Street Commissioners in relation to gas stations, etc., open-air parking spaces, garages, the zoning law and street traffic (other than vehicular street traffic and parades, processions, and other organized formations of persons or vehicles).

REAL PROPERTY.

New. In charge of a Real Property Board consisting of a Commissioner of Real Property, an Assistant Commissioner of Real Property, two other persons appointed by the Mayor, and the Chairman of the City Planning Board, ex officio. The board shall have the powers and duties of the Board of Real Estate Commissioners. The board shall also have the powers and duties of the Board of Street Commissioners in relation to the abatement of taxes. The Assistant Commissioner of Real Property shall have the powers and duties of the Superintendent of Public Buildings.

APPEAL BOARD.

Independent status retained but for administrative purposes made unit in Building Division of Health and Safety Department.

ART COMMISSION.

Independent status retained but for administrative purposes made unit in the Administrative Services Department.

ASSESSING.

The reorganized department will consist of an officer known as the Assessor of Taxes and a Board of Review having three members. The Board of Review will have the powers and duties of Assessors with respect to applications for abatement (other than applications founded wholly upon a claim of exemption). The Assessor of Taxes will have the other powers and duties of Assessors.

NEW PLAN FOR CENTRAL ARTERY TO BE DRAWN.

(Continued from page 1617.)

Modified B Plan, which was favored by the state last March and which extends through the leather district and the Chinatown area.

Due to the serious loss in property valuations that will result from the construction of the Artery through the latter-referenced areas, it is my opinion that we should not approve any such location until the possibility of selecting an alternate route, outside of those areas, has been exhaustively and conclusively studied. I feel that an alternate route on Atlantic avenue or in the vicinity of the South Station can be developed, which will result in far less property takings than the route selected by the state and will closely approach the traffic efficiency of the latter selected route.

Mr. Volpe informed me that he would give the city until February 1 to produce a plan of a proposed alternate route that, in our opinion, would be more beneficial to the city than the one selected by the state. He further informed me that if the selected alternate route meets with the approval of the State Department of Public Works, it will be selected shortly after it is presented. However, he has also informed me that in the meantime he will order the engineers to proceed with the design of the route through the leather district, in order to save time and to prevent further delays. Unquestionably, his decision is based on his opinion that no

satisfactory alternate route can be developed by the city, although—as stated—he has agreed to accept our route if, in the opinion of the Department of Public Works, it will prove superior to the leather district route, taking into consideration all factors.

I feel, therefore, that we should proceed immediately with the study and engage the services of the Clarkson Engineering Company, Inc., of 285 Columbus avenue, to conduct same. The latter-referenced company is thoroughly familiar with the subject matter, as it has recently completed a related study for the Boston Planning Board. I believe that this firm is eminently qualified to conduct the exhaustive and thorough study required to determine whether a suitable alternate route can be developed in the South Station area. I have made arrangements with Mr. Clarkson of the latter-referenced consulting engineering firm, to undertake this study on a cost-plus basis not to exceed \$45,000.

In my opinion, no advantage would accrue to the city by publicly advertising for proposals for the study, as a contract of this type is, in a sense, based on faith and confidence and should not be subject to competitive bidding. Aside from this point, it is an impossibility, in my opinion, to prepare a set of specifications that would spell out, in detail, the exact nature and extent of the work that the consultant would be required to do to prepare the study and report needed by the city. In addition, while cost is a factor, the integrity and ability of the firm selected are of more importance than the amount of the fee. In view of the circumstances, it is my unqualified opinion that the city should not attempt to advertise for proposals for this particular study.

I respectfully request, therefore, your approval to proceed with advertising and to award a contract to the Clarkson Engineering Company, Inc., of 285 Columbus avenue for conducting a study, preparing a report and determining the location of a so-called alternate route for the Central Artery, so called, between Fort Hill square and Broadway, with the understanding that the fee will be determined on a cost-plus basis, at an established maximum of \$45,000, substantially in accordance with the applicable standards approved by the American Society of Civil Engineers, governing the fee for professional engineering services.

The consultant, pending a determination of the maximum fee to be paid under this contract, has been doing preliminary work in connection with this study since last Friday, November 20, at which time we held our first general meeting on the subject matter. Therefore, I respectfully request your approval to include in the above-referenced contract a provision granting a payment to the consultant for the work done on this study since November 20.

It is my intention to pay for the cost of this contract out of the proper budgetary item of the budget of the Paving Service of this department, as there are sufficient surpluses in other items available for transfer to the appropriate item for the payment of professional services.

Respectfully yours,

GEORGE G. HYLAND,
Commissioner of Public Works.

SUMNER TUNNEL RATES TO REMAIN SAME.

(Continued from page 1617.)

Class.		
3.	Motorcycle	\$0.20
4.	Truck over 2 tons and up to 5 tons capacity	.25
	Tractor with trailer over 2 tons and up to 5 tons capacity	.25
5.	Passenger car with trailer	.20
6.	Truck over 5 tons and up to 10 tons capacity	.35
	Tractor with trailer over 5 tons and up to 10 tons capacity	.35
7.	Tractor with trailer not in excess of 2 tons capacity	.20
8.	Truck over 10 tons capacity	1.00
	Tractor with trailer over 10 tons capacity	1.00
9.	Bus with or without passengers	.35

It has been the custom heretofore to submit annually to the Department of Public Utilities a schedule of tolls and charges. Since there has been no change in rates in the past ten years, and there is every likelihood that the present volume of traffic will not decrease, I feel that the city would be justified in asking that department for its approval for a period longer than one year. The governing law, chapter 297 of the Acts of 1929, provides, in section 9, that the Public Works Department shall operate the tunnel and shall, from time to time, establish a schedule of tolls and charges, subject to the approval of the Department of Public Utilities, which will pay all operating and other costs mentioned in the act.

With that in mind, I ask your Honor's authorization to petition the Department of Public Utilities for its approval to continue in effect for an unlimited period from January 1, 1954, the current schedule of tolls and charges.

If, in the future, the revenue should decline to such an extent that the tunnel could not be operated on a self-supporting basis, a new petition, with a revision of rates, could be submitted to the Department of Public Utilities for approval as required by law.

I shall ask the Corporation Council to prepare the necessary petition, if your Honor is agreeable to this request.

Respectfully yours,

GEORGE G. HYLAND,
Commissioner of Public Works.

POLICE DEPARTMENT ORDERS.

General Order No. 1,833.

A trial bond, consisting of Captains William D. Donovan, John H. Cloran and George F. Snell, having heard by reference a complaint made by Harold J. Walkins, captain, commanding Division 19, against Sergt. Arnold L. Mongioli, Division 19, charging him with violation of the rules and regulations of the Police Department, has reported a finding of guilty, recommending suspension for a period of thirty days.

This recommendation is accepted, and it is ordered that the said Sergt. Arnold L. Mongioli be suspended for thirty days, effective Tuesday, December 1, 1953, at 7:45 o'clock a.m.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

INCREASED PAY FOR PUBLIC WORKS DEPARTMENT WORKERS ON SNOW REMOVAL DUTY.

The Mayor has approved the request of the Public Works Commissioner as made in the following letter:

Boston, October 20, 1953.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

It is customary each year for the Public Works Department to establish an increase in the regular rate per hour for employees who repair snowplowing equipment after the regular working day ceases at 5 P.M. This heavy duty equipment consists of Walter snow fighters, 4-wheel-drive trucks, snow loaders, bulldozers, etc.

Approval is requested to the compensation of \$1.85 per hour, and on the basis of time and a half (\$2.77 per hour) for each hour worked after 5 P.M. until 8 A.M. the following morning, at which time their regular base pay would be in effect. I further recommend that the first eight hours worked on any Saturday be compensated on a straight-time basis, namely, \$1.85 per hour, and after the first eight hours worked on any shift the time and a half schedule shall be effective, and time and a half for Sundays.

I respectfully request that the following-named employees of the Automotive Division be approved in conformance with the above-stated conditions, only when performing the duties between November 15, 1953, and March 31, 1954, inclusive:

William C. Bayer, Jr., George Botolinski, Albert F. Campers, James D. Chaisson, James A. Collins, Joseph R. Coronella, Harry Davis, motor equipment repairman; Lewis K. Davis, motor equipment maintenance man; Anthony Dolan, welder; Coleman Earner, motor equipment repairman (temporary); William Flanagan, motor equipment maintenance man; John L. Georgetti, motor equipment repairman; Bertram R. Gerard, motor equipment repairman (temporary); John F. Gorski, motor equipment maintenance man; Thomas J. Keating, Gerard W. Lang, Richard C. LeBrun, John R. Longo, Angelo J. Marsaglia, Donald Long, John B. Moran, Joseph Novak, William P. Pacitto, motor equipment repairman; Pietro Petti, motor equipment maintenance man; Harold D. Pierce, Anthony Rizotti, James G. Sands, Sarofeen P. Sarofeen, Guy Silvio, Alfred P. Thomas, Michael Solan, Anthony Zinna, Thomas Reidy, motor equipment repairman.

Approval is also requested to the payment at the rate of \$1.85 per hour to the following-named employees of the Automotive Division, when engaged in the operation of heavy duty equipment of the department during the winter season. These men are assigned to wreckers and trailer equipment of the division.

John F. Gallagher, heavy trailer wrecker truck operator; John Kelly, Harry P. Sheehan, heavy motor equipment operators and laborers.

Respectfully yours,

GEORGE G. HYLAND,
Commissioner of Public Works.

WINTER RATE OF PAY FOR PARK DEPARTMENT SNOW WORKERS.

The Mayor has approved the following request of the Chairman of the Park Department:

Boston, November 17, 1953.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

Your approval is requested to establish an increase in the regular rate per hour of employees in this department who operate, during the winter season, the heavy duty equipment assigned to sanding, snowplowing, and snow removal work. This equipment consists of Walter snow fighters, 4-wheel drive trucks, bulldozer, 12-ton sanders, and 12-ton crane.

I respectfully request your approval in this matter, and recommend that the following-named employees be compensated at the rate of \$1.85 per hour only

when performing the above-stated duties for the period between November 18, 1953, and March 31, 1954, inclusive:

Daniel C. Callahan, Edward A. Cass, William L. Cotter, heavy motor equipment operators; James J. DeLuca, John F. Dillon, motor equipment operators; William J. Dowd, William Dunne, Michael W. Farrell, Richard F. Fitzgerald, Rocco R. Fosco, heavy motor equipment operators; John V. Gillis, Jr., tree climber; Leroy F. Gorham, heavy duty motor equipment operator; Coleman J. Shruhan, information consultant; Joseph J. Staiti, Thomas J. Wall, heavy motor equipment operator; David C. Walsh, motor equipment operator; Paul A. White, laborer.

Respectfully yours,

FRANK R. KELLEY,
Chairman.

RECONSTRUCTION OF BROADWAY BRIDGE COMPLETED; BRIDGE OPEN FOR TRAFFIC.

The reconstruction of the Broadway Bridge has been completed, and the bridge was opened to all traffic effective 7 A.M., on Thursday, December 3.

This bridge connects Albany street, South End, with Dorchester avenue, South Boston, and was closed to traffic on Monday, March 2, 1953, in order to provide for major repair work. Due to the fire on the Dover Street Bridge, the Broadway Bridge was opened to one-way traffic on Friday, October 23, the day following the fire, and has operated as a one-way structure since that date. Effective Thursday, however, it was opened as a two-way bridge for all traffic.

PARK DEPARTMENT.

The Mayor has approved the request contained in the following letter:

Boston, October 23, 1953.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR SIR:

Your approval is requested to amend our 1953 budget by adding two permanent recreation instructors (male) to Personnel Item 100.

We are preparing to open the recreation center and gymnasium in the new Mission Hill Municipal Building, and we will have to staff these facilities with new personnel. We have not been filling vacancies in this department, and as a result we are operating with the barest minimum of help, and in order to operate this recreation center it will be necessary to employ additional personnel.

Respectfully yours,

FRANK R. KELLEY,
Chairman.

*Contract awarded.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with commercial houses, contractors, etc., for furnishing labor and supplies. Communications from heads of the departments interested were as follows:

DEPARTMENT OF SCHOOL BUILDINGS.

Boston, November 20, 1953.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

In cooperation with the City of Boston Fire Department, and at their request, we are making an effort to modernize a substantial portion of the public school fire alarm system as auxiliary with the City of Boston Fire Alarm Service, and to do so I find it necessary to purchase 50 Gamewell master boxes which would be delivered to this department storehouse and installed by the Fire Department.

As the type box Catalog Number 9000, equipped with auxiliary coil and mechanism, is the only manufacturer's box acceptable to the Boston Fire Department and it is impossible to obtain competitive bids, I request your permission to award a contract to the Gamewell Company of Newton Upper Falls, Mass., without public advertising, in the amount of \$11,850.

Respectfully yours,

JAMES H. MOONEY,
Superintendent of Construction.

HOSPITAL DEPARTMENT.

Boston, November 20, 1953.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

We respectfully request your permission to dispense with public advertising, and to award a contract to Thomas F. McDonough, 25 Huntington avenue, Boston, Mass., for full architectural services in connection with the altera-

tions and additions to Pediatric Building (Unit for Premature Infants), Boston City Hospital.

The estimated cost of the work is \$125,000, and the architect is to be paid a fee equal to 10 per cent of the total cost of construction, subject to the provisions of the contract for said services.

Because of the professional nature of the services required the trustees are of the opinion that there would be nothing gained by publicly advertising for bids.

Respectfully yours,

BOARD OF TRUSTEES, BOSTON CITY
HOSPITAL,
by RICHARD J. CONDON,
President.

PRINTING DEPARTMENT.

Boston, November 20, 1953.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

Your Honor's permission is respectfully requested to permit the Printing Department to award a contract without advertising to the Moore Business Forms, Inc., 285 Columbus avenue, Boston, Mass., for furnishing various payroll forms to cover the 1954 requirements for the Auditing Department.

These continuous forms are to be lithographed and are designed for use with Moore automatic pin feed devices installed at the Payroll Office of the Auditing Department.

75,000 sets, 3-part "Preliminary" payroll forms at \$52.97 per M, \$3,972.75; 75,000 sets, 2-part "Final" payroll forms at \$34.17 per M, \$2,562.75; total, \$6,535.50.

For the past six years payroll forms have been secured from the above-mentioned firm. During the first three years of this period invitation proposals were submitted to various continuous fanfold form companies, and in each instance the Moore concern was the lowest bidder. Because of this fact, during the last three years awards have been made to this concern without public advertising.

These forms in question are run on tabulating machines; hence it is essential that the ruling and spacing conform exactly to the machine setup. The forms which have been annually supplied by the Moore concern have complied with this requirement. In the event of an award to another company it would be uncertain until the forms would be delivered and run on the machines whether the spacing and alignment were satisfactory.

In addition, for the past several years pin feed devices manufactured by the Moore concern and leased to the city have been used running these payroll forms. In the event of a change to another company, we would no longer have the use of these devices which have functioned satisfactorily.

I am advised that in the event the contract in question is awarded to the Moore Business Forms, Inc., there will be no increase over last year's prices. In view of these circumstances, I feel it is for the best interests of the city to dispense with advertising and make the award to a company which has furnished a satisfactory product for six years at a reasonable and fair price.

Respectfully yours,

JOHN J. TWOMEY,
Superintendent.

SUPPLY DEPARTMENT.

BOSTON, November 23, 1953.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

In accordance with the provisions of the letter approved by your Honor on January 20, 1953, authority is requested at this time to award a contract, without public advertisement, to the following-named company for furnishing perishable foods, etc., to the various city departments, from November 23, 1953, to March 31, 1954:

Morris Blinder & Co., Inc., 32 North street, Boston.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

BOSTON, November 23, 1953.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

In accordance with the provisions of the letter approved by your Honor on January 20, 1953, authority is requested at this time to award a contract, without public advertisement, to the following company for furnishing perishable foods, etc., to the various city departments from December 1, 1953, to March 31, 1954, inclusive.

Rhodes Brothers Company, 170 Massachusetts avenue, Boston, Mass.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

BOSTON, November 25, 1953.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

This office is in receipt of a requisition from the Traffic Commission for 175 second-hand Hurricane Mark Time Parking Meter Heads complete.

Commissioner Reilly of the Traffic Commission has submitted a letter to me, copy of which is attached, stating the cost of new meter heads as compared to the cost of the second-hand meter heads which have been inspected and found to be in excellent condition.

Inasmuch as it is my opinion that the best interests of the city will be served by complying with the request of the Traffic Commissioner, authority is requested to dispense with publicly advertising for prices and award a contract, without public advertisement, to Signal Light Company for 175 second-hand Hurricane Mark Time Parking Meter Heads at \$13.75 each.

Approximate total amount of contract will be \$2,406.25, net.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

SUFFOLK COUNTY.

HOUSE OF CORRECTION.

BOSTON, November 24, 1953.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

I have received a letter from the City Auditor stating that he has withheld orders for sheeting, tueling, and poultry ration while awaiting an opinion from the Corporation Counsel relative to the methods of issuing orders by the Industries of the Suffolk County House of Correction.

This is the same procedure that has been followed over a period of years, orders, mostly confirming, being made out by the Industries Clerk at Deer Island, signed by the master, and also by the Commissioner of Correction, provided sufficient funds are available. Invoices are paid in practically the same manner.

As poultry must be fed, and, as with our methods of poultry raising demands utmost care and cleanliness, and the best grade of food in new bags to prevent a recurrence of an almost fatal disease of several years ago, we feel that as the present methods have been so successful they should be continued along the same lines.

However, while awaiting this decision, and upon advice from the Corporation Counsel, I respectfully request that you give your permission to dispense with advertising for the purchase of poultry ration.

Respectfully,

EDWARD L. FRIEL,
Penal Institutions Commissioner.

EXTENSION OF CONTRACTS.

DEPARTMENT OF SCHOOL BUILDINGS.

Approval has been given for an extension of time for the completion of the contract with Joseph P. O'Hearn for additions and alterations to heating and ventilating system at the Samuel Adams School, from November 15, 1953, to December 31, 1953. This extension was requested because of delay in completion of electrical work.

PARK DEPARTMENT.

Baker & Co., Inc., have been ordered to make the following changes in the contract for reconstruction and resurfacing of roadways in the Arborway, Jamaica and Franklin Park, signed September 15, 1953:

Furnish and install traffic signal underground conduit in the intersection of Arborway, Centre street and Prince street according to the following specifications:

The work to be done consists of furnishing and installing approximately 420 linear feet of underground conduit between junction box locations and traffic signal post locations, and also from various junction box locations for magnetic detectors, in the intersection of Arborway, Centre street and Prince street, West Roxbury, as shown on Boston Traffic Commission Plan No. Sd-154, dated September 1, 1953.

The contractor shall furnish and install either bituminized fibre traffic signal conduit or cement-asbestos fibre traffic signal conduit; the inside diameter of each section of conduit to be 3 inches with a minimum thickness of 0.32 inches. In the connections between junction box locations and traffic signal post locations and in the connections between traffic signal post locations the underground conduit shall be installed so that the top of the conduit is at a depth of not less than 30 inches below the finished grade of the pavement. However, the ducts from junction box locations for the accommodation of magnetic detectors shall be installed so that the top of conduit is at a depth of 16 inches below the finished grade of the pavement. Suitable conduit joints shall be made which will be satisfactory to the Boston Traffic Commission.

Where each conduit terminates at a traffic signal post location the contractor shall furnish and install a quarter bend. The quarter bends shall be of a type suitable to the Boston Traffic Commission and with the inside radius of the bend not less than 20 inches nor more than 30 inches.

All underground conduit shall be encased by a 3-inch wall of concrete in accordance with the requirements of the Boston Fire Department, Wire Division. The contractor shall pull a swab or wood mandrel which shall pass easily through each conduit. He shall also furnish and leave in each conduit a No. 10 B & S galvanized drawing-wire, in one continuous length.

All trench areas in the roadways shall be covered with 1-2½-5 mix concrete, 6 inches deep, and of such width that will be 12 inches wider than the trench constructed, so as to have the concrete over the trench rest on undisturbed shoulders 6 inches wide. The grade of the top of the concrete shall meet about the existing surface grade which is to be the subgrade of the proposed surfacing.

The asphalt surfacing will be furnished and paid for under other items of the contract.

For completing all the work described above the amount of \$1,777.50 will be added to the contract price.

Original contract price, \$67,302.50; addition as per this order, \$1,777.50; contract as standing, \$69,080.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 P.M. Present: AHEARN in the chair. Absent: Councillors Haier and Ward.

The Reverend Leonard Coppentrath of St. Aidan's Catholic Church, Brookline, was escorted to the rostrum.

INVOCATION BY REV. LEONARD COPPENTRATH.

In the name of the Father, and of the Son, and of the Holy Ghost, Amen.

Almighty and Eternal God, from whose power all authority derives, we beseech today Thy blessing upon those who here are gathered to carry out their great responsibility, that they may act in accordance with Thy divine will. Let the light of Thy unchanging wisdom direct their proceedings so that they may tend to the increase of industry, sobriety, and useful knowledge. Grant them those gifts which come alone from Thee, the prudence of counsel and fortitude. Give to them finally a sense of liberty under the law and of the law under Thy dominion.

Who live and reignest without end. Amen.

The meeting was opened with the salute to the Flag.

Upon receiving unanimous consent to make a statement Councillor White expressed his thanks and those of Councillor Ward to Father Coppentrath for his attendance at this meeting, and stated that he was extremely pleased to meet Father Coppentrath, a fellow worker and the father of Father Coppentrath was also present here today.

APPOINTMENTS BY THE MAYOR.

Subject to confirmation by the Council, the Mayor submitted the following appointments:

Constables with authority to serve civil process upon filing of bond, for the term ending April 30, 1954: Oscar G. Ridon, 236 Lamartine street, Jamaica Plain; Maurice Guberman, 20 Wales street, Dorchester.

Referred to the Committee on Confirmations.

VETO OF ORDER RE TAKING OF CERTAIN LAND FOR PROPOSED ARTERIAL HIGHWAY.

The following was received:

City of Boston,
Office of the Mayor, November 16, 1953.
To the City Council.

Gentlemen:

I return herewith disapproved the order passed by your Honorable Body on October 19, 1953, but not presented to me until November 4, 1953, authorizing and directing the Corporation Counsel to seek an injunction restraining the Commonwealth from taking land or buildings in the garment, leather, or Chinatown districts for the proposed Arterial Highway.

My objection thereto is that, since officials of the Commonwealth have given officials of the city a period of more than two months within which to recommend a more satisfactory route for the proposed highway, the taking to which the order relates cannot now be said to be so imminent as to warrant the issuance of the injunction mentioned.

Respectfully,

J. B. HYNES, Mayor.

The message and order were placed on file.

WITHDRAWING ORDER FOR LEASE OF PARK LAND TO SEARS ROEBUCK & CO.

The following was received:

City of Boston,
Office of the Mayor, November 16, 1953.
To the City Council.

Gentlemen:

On May 11, 1953, I submitted to your Honorable Body an order relative to the leasing of park land at Brookline avenue and Park Drive to Sears Roebuck & Co. According to the terms of the proposed agreement, the lease was to have run for a term of two years from June 1, 1953. Since six months of the proposed term have already expired, I hereby withdraw the order pending before your Honorable Body with the intention of submitting an order with new terms in the near future.

Respectfully,

J. B. HYNES, Mayor.

MEETING ROOM FOR DORCHESTER CHAPTER NO. 13, D. A. V.

The following was received:

City of Boston,
Office of the Mayor, November 16, 1953.
To the City Council.

Gentlemen:

I transmit herewith communication from the Corporation Counsel relative to your order of October 26, 1953, requesting him to confer relative to the proper legal procedure to make possible the occupancy of the abandoned school building on Quincy Street, Dorchester, by the Dorchester Chapter No. 13, Disabled American Veterans, to be used as a meeting place for veterans of this Chapter and as a youth center for the young boys and girls of that area.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,
Law Department, November 9, 1953.
Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

By an order passed by the City Council on October 26, 1953, I was requested to confer with the School Committee "to make possible the occupancy of the abandoned school building on Quincy street, Dorchester, by the Dorchester Chapter No. 13, Disabled American Veterans, to be used as a meeting place for the young boys and girls of that area."

While the school in question has been closed, the School Committee has not as yet determined that it is available for sale or lease or devotion to any other use; and so the time is not ripe for me to step into the matter. If the City Council wishes to pursue the matter, it should adopt an order requesting the School Committee to determine whether the site of the School in question is needed any longer for school purposes.

Respectfully,

WILLIAM L. BAXTER,
Corporation Counsel.

EXTENSION OF SIDEWALK ON RADCLIFFE ROAD.

The following was received:

City of Boston,
Office of the Mayor, November 16, 1953.
To the City Council.

Gentlemen:

I transmit herewith communication from the Commissioner of Public Works relative to your order of October 19, 1953, requesting the extending of sidewalk on the Radcliffe Road side of the James J. Chittick School property in Mattapan, with a black top surface, to Greenfield road, in order to alleviate the necessity of school children walking in the middle of the street while going to and from school.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,
Public Works Department,
November 9, 1953.

Mr. Harold B. Flemming,
Chief Clerk, Mayor's Office.

Dear Sir:

This is in reference to the following order that was passed in the City Council under date of October 19:

"Ordered, That his Honor the Mayor be requested to direct the Commissioner of Public Works to extend the sidewalk on the Radcliffe Road side of the James J. Chittick School property in Mattapan, with a black top surface, to Greenfield road, in order to alleviate the necessity of school children walking in the middle of the street while going to and from school.

Arrangements have been made to comply with the provisions of the above-referenced order. The city forces from the local district yard will install the bituminous sidewalk as requested."

Very truly yours,

GEORGE G. HYLAND,
Commissioner of Public Works.

WEEKLY REPORTS ON PARKING IN DOWNTOWN AREAS.

The following was received:

City of Boston,
Office of the Mayor, November 16, 1953.
To the City Council.

Gentlemen:

I transmit herewith communications from the Chairman of the Traffic Commission, Chairman of the Board of Street Commissioners, and the Police Commissioner relative to your order of October 19, 1953, requesting that a weekly report be made from the time

the 8 to 9.30 A.M. no parking in downtown areas becomes effective and that said findings be reported to this Honorable Body with a view to determining the advisability of adopting ordinances or regulations placing ceilings on fees charged by intown automobile parking spaces.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,
Board of Street Commissioners,
November 8, 1953.

Mr. Harold B. Flemming,
Chief Clerk, Mayor's Office.

Dear Sir:

I acknowledge for the Board of Street Commissioners receipt of your communication of November 9, 1953, enclosing copy of order introduced by Councillor Plémeote requesting that this Board make weekly reports from 8 to 9.30 A.M. each morning with reference to no parking in downtown areas.

This request should be forwarded to either the Police Department or the Traffic Department, as these departments have the facilities and men with which to determine the facts and figures as requested.

Regarding the placing of ceilings on fees charged by intown automobile parking spaces, I beg to advise that on at least two occasions within the past two years legislation was suggested for the regulation of fees charged by open-air parking space operators, and it was the verbal opinion of the Corporation Counsel that such an amendment to section 55 of chapter 148 would be unconstitutional. I believe that a bill was introduced some five years ago, and this is not a matter of committee. Whether or not an ordinance would ever be introduced is a question that will have to be answered by the present Corporation Counsel. Assuming the order is carried out, it is at times anxious to cooperate in matters of this nature, I remain

Very truly yours,
LAWRENCE W. COSTELLO, Secretary.

City of Boston,
Police Department, November 12, 1953.
Mr. Harold B. Flemming,
Chief Clerk, Mayor's Office.

Dear Sir:

Returned herewith is Council order dated October 19, 1953, reading as follows:

"That his Honor the Mayor request the Board of Street Commissioners to make weekly reports from 8 to 9.30 A.M. no parking in downtown areas becomes effective and that said finding be reported to this Honorable Body with a view to determining the advisability of adopting ordinances or regulations placing ceilings on fees charged by intown automobile parking spaces."

As the Police Department has no officers available for survey work of this nature, it is suggested that the Traffic Commission be contacted for this purpose.

Very truly yours,

T. F. SULLIVAN,
Police Commissioner.

Boston Traffic Commission,
November 12, 1953.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

With reference to the Council order of October 19 requesting the Board of Street Commissioners to make weekly reports from the time the 8 to 9.30 A.M. no parking in downtown areas becomes effective, which was referred to this office on the grounds that the Police Department is not set up to make such report, I wish to submit the following information.

We have observers engaged in watching the parking activities in the downtown area during the early morning hours. However, we have no authority which enables us to find out from parking spaces whether their business has increased or decreased.

We can report that, by observations from the sidewalk, so far as the park, from 8 to 9.30 A.M. daily has made no appreciable difference to the parking lots. Of course, we do not know what has happened inside garages.

Our observations at the present time pertain to the problems related to curbside parking. On that subject we can report as follows.

The advance publicity given by newspapers was effective in educating the general public concerning the change in parking regulations, and there seemed to be a general comprehension of the rules on the part of the public. The police enforcement was excellent in every respect, and the number of violations between the hours of 8 and 9.30 A.M. have been exceedingly few.

The number of complaints, likewise, have been exceedingly few. Violations that have been made to the regulations have been for holders of "V" plates. Requests from handicapped persons and from others

engaged in delivering special deliver mail or performing special services at buildings have not been granted up to the present time.

It appears that a large number of persons are waiting until 9.30 before parking in the streets or at parking meters, and curb spaces seem to fill up promptly at 9.30. Many of these may be the same persons who formerly parked at an earlier hour, inasmuch as a majority of them at parking meters seem to deposit two nickels for a two-hour period.

The matter of continuous parking at meters, of course, is one which the Police Department supervises, and they can best report as to whether or not there is any lessening in the number of long-term parkers at parking meters.

The effect on parking lots, as stated above, cannot be accurately determined by our department beyond the expression which has been stated above, but from the outside it appears that there has been no substantial increase in the number of cars parked in the parking lots during the early morning hours.

If the Council will indicate exactly what information is desired quickly, the Traffic Commission will be glad to assist in any way possible.

The above order, addressed to the Street Commission, having been forwarded to us, is hereby dealt with in an effort to be cooperative, and, of course, if there are additional facts which are desired by the Council from the Board of Street Commissioners or the Police Department, I feel sure that such information will be readily forthcoming in accordance with the resources of man power available in those departments.

Respectfully yours,
WM. ARTHUR REXLEY, Commissioner.

OPPOSITION TO INCREASED PARKING METER FEES.

The following was received:

City of Boston,
Office of the Mayor, November 16, 1953.
To the City Council.

Gentlemen:
I transmit herewith communication from the Traffic Commissioner relative to your order of October 19, 1953, requesting that the City Council herein assembled places itself on record as opposing any increase in parking meter fees until a study is made to find out how many Boston automobiles use these meters.

TRANSFER OF MUNICIPAL BUILDING ON CHESTNUT HILL AVENUE TO PARK DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, November 23, 1953.
To the City Council.

Gentlemen:
I transmit herewith communication from the Acting Superintendent of Public Buildings relative to your order of November 9, 1953, requesting that the Public Buildings Department transfer to the Park Department the municipal building on Chestnut Hill avenue, Brighton, for the purpose of providing a place for sports such as basketball and other inside sport curricula to combat juvenile delinquency.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Public Buildings Department,
November 16, 1953.
Mr. Harold B. Flemming,
Chief Clerk, Mayor's Office.

Dear Sir:
Referring to order of Council Ward passed by the City Council November 9, 1953, I would like to be recorded as against the approval of such an order, because I don't be-

lieve that the best interests of the City of Boston or of the district would be best served by such a transfer for the following reasons.

Number one reason is that the building is not properly adapted for basketball, and, secondly, any function that the Park Department thinks the building is adapted to can be, and has been, held, including boxing shows, and other character events.

In addition, there is another situation in every community that should be filled, namely, a suitable meeting place for church groups, civic-minded groups, and various other community groups, and the Brighton Municipal Building in this section fills that problem admirably.

During the year 1952 this building was rented 102 times. In addition, there were ten days in September, five in October, and four in November that were reserved for rallies. During the year 1953 this building was rented or scheduled to be rented 102 times up to the present. Also this year in September there were eleven days reserved for rallies and four days in October.

Following are the names of some of the organizations that use this building:

Little League, Catholic Order of Foresters, Loyal Order of Moose, Y.M.C.A. Girl Scouts, Catholic Daughters of America, St. Brendan's Society, Brighton Civic Club, St. Gabriel's Holy Name Society, Alston Post, F.W., Jewish War Veterans, Brighton Post, Red Cross, Ancient Order of Hibernians, Park Department, St. Columbkille's Church, Columbus Post, Knights of the Ku Klux Klan, Red Cross, Eastern Star, American Legion No. 363, Brighton Community Center, American Veterans No. 135, Brighton Knights of Columbus, Presentation High School.

There are many other civic organizations that have used this building during the years 1952 and 1953 and many other private organizations and individuals which can be seen on our books in the department by anybody that is interested in doing so.

It is my opinion that the custody of this building should remain in the Public Buildings Department, where the best in all sport activities that the building is equipped to carry on with can be provided by the Park Department at no additional cost, and the church, civic, and community groups can at the same time be provided with suitable space for meetings, for meetings, dances, and other entertainment as desired. I think that these activities together will do whatever possible outside influences can do to combat juvenile delinquency.

Respectfully yours,
THOMAS P. KENNEDY,
Acting Superintendent of Public Buildings.

APPOINTMENT TO BOARD OF RECREATION OF REPRESENTATIVE OF LITTLE LEAGUES.

The following was received:

City of Boston,
Office of the Mayor, November 23, 1953.
To the City Council.

Gentlemen:
I transmit herewith communication from the Chairman of the Board of Recreation relative to your order of October 19, 1953, requesting the appointment of a representative of the newly created advisory committee for the Little Leagues of Boston to the Board of Recreation.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Board of Recreation, November 20, 1953.
Hon. John B. Hynes,
Mayor of Boston.

Dear Mayor Hynes:
Reference is made to City Council order dated October 19, 1953, requesting the views of this Board regarding the appointment of a representative of the newly created advisory committee for the Little Leagues of Boston to the Board of Recreation.

I am sure your Honor is aware of the fact that this Board was established by chapter 451, Act of 1943. Section 1 of said chapter is quoted in part:

"The Board shall consist of seven members. The chairman of the Board of Park Commissioners of said city shall be ex officio a member of the Board. Two members shall be appointed by the School Committee of said city, and each member so appointed shall serve for a term expiring on December 31 of each even-numbered year. Four suitable persons shall be appointed by the Mayor of said city in accordance with chapter 456 of the Acts of 1909, as amended."

After careful thought and study, the Board recommends to your Honor be advised against appointing a representative of the

newly created advisory committee for Little Leagues of Boston to the Board of Recreation for the following reasons:

1. That the Little Leagues represent activity occurring in only three months out of the year.

2. That the Little Leagues represent only one phase of recreation.

3. That if such an appointment were made, it could possibly bring many requests from other recreational organizations, many of which carry on a more widespread recreation program.

4. That the duties of the Superintendent of Recreation are outlined under the situation of Little Leagues as well as all other civic agencies and neighborhood groups.

Yours respectfully,
LOUIS G. MAGUIO, Chairman.

AMENDMENT TO BUILDING CODE.

The following was received:

City of Boston,
Office of the Mayor, November 23, 1953.
To the City Council.

Gentlemen:
I submit to your Honorable Body herewith, and recommend that you pass, the accompanying ordinance amending sections 111, 1105, and 1417 of the Boston Building Code. Permitted herewith also is a self-explanatory communication received by me this day from the Building Commission recommending the adoption of the accompanying ordinance and explaining its objectives.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Building Department, November 23, 1953.
To His Honor the Mayor of the City of Boston and to the Honorable City Council of the City of Boston.

Gentlemen:
In accordance with the provisions of chapter 479 of the Acts of 1938, as amended by chapter 217 of the Acts of 1939, as Building Commissioner of the City of Boston I recommend the adoption of the accompanying ordinance amending sections 111, 1105, and 1417 of the Boston Building Code.

The amendment of section 111 will not only make less exacting the requirements of the building permits but will also limit the number of times a building permit may be extended so as to prevent "pocket" permits.

The amendment of section 1417 will permit an inconsistency between that section and section 1804.

The amendment of section 1417 will permit a method of construction in frame buildings which is consistent with modern practices.

Very truly yours,
HARVEY J. KEEFE,
Building Commissioner.

City of Boston.
In the Year Nineteen Hundred and Fifty-three.
An Ordinance Amending Divers Provisions of the Boston Building Code.

Be it ordained by the City Council of Boston, as follows:

SECTION 1. Section 111 of chapter 479 of the Acts of 1938, as amended by sections 29, 30, and 31 of chapter 217 of the Ordinances of 1943, is hereby further amended by striking out the last sentence of paragraph (c) and inserting in place thereof the following two sentences: Any permit issued shall become invalid unless the work authorized by it shall have been commenced within six months after its issuance; provided, that for cause one or more extensions of time, for periods not exceeding three months each, may be allowed in writing by the commissioner, except that in no event shall the time for commencing work be extended beyond eighteen months after the issuance of the permit. Any permit issued may be revoked by the commissioner at any time after notice and hearing if there is a false statement or misrepresentation of a material fact in the application for the permit or in the plans or computations filed therewith, or if the work authorized by the permit violates any provision of this code or other Ordinances of the City of Boston, or if there is provision of law or the permit otherwise issued in error, or if in the course of the work there is any violation of any provision of this code or other provision of law or if after commencement of the work there is unreasonable delay in completing the work, or if there is other good cause for revocation of the permit.

SECT. 2. Section 1105 of said chapter 479, as amended by section 133 of chapter 3 of the Ordinances of 1943, is hereby amended by striking out the last sentence and inserting in place thereof the following sentence: A single-family house may have one stayaway if it is less than three stories in height.

SECT. 3. The second paragraph of subdivision (c) of section 1417 of said chapter 479, as appearing in section 171 of chapter 4 of the Ordinances of 1943, is hereby amended by striking out the first two sentences and inserting in place thereof the following two sentences: Posts shall be well braced the full story height, and walls shall be framed to them at a studed brace attached to the post just below the girt and running in the wall at an angle not more than thirty degrees from the vertical, attached at the other end to the girt or sill. These braces shall be horizontally braced at the corner post at least once in each story, and the studs which they intersect shall be well fastened above and below the brace.

SALE OF FIREBOAT "MATTHEW J. BOYLE."

The following was received:

City of Boston,
Office of the Mayor, November 17, 1953.
To the City Council.
Gentlemen:

I submit herewith an order for the sale of the fireboat "Matthew J. Boyle," Engine 44. This fireboat has been decommissioned for a period of approximately three years. During this period of time, a 24-hour watch has been maintained to safeguard Engine House 44 and the fireboat. Eight men are assigned to this duty.

To put this fireboat into service would require an appropriation of at least \$25,000. It is the consensus of opinion of fire officials that this amount of money should not be spent on a boat which has limited maneuverability and which is extremely expensive to operate. A new fireboat to replace Engine 44, similar to the two Diesel-powered fireboats now in service, would cost approximately \$4,500 per year to operate and would not require an engine house for the accommodation of the firefighters on board the fireboat. As a matter of fact, the present premises at 531 Commercial street, which are of substantial value, can be sold for commercial or industrial purposes.

I submit herewith communication from the Fire Commissioner which sets forth in some detail the conditions under which it is proposed to sell the "Matthew J. Boyle" and purchase, at a later date, a new Diesel-operating boat, in conformity with the conclusions drawn in this communication and therefore recommending that the fireboat "Matthew J. Boyle" be sold at public auction at an upset price of \$15,000, and the reserve owned in the City of Boston monitor guns and the water tower now affixed to the fireboat.

I recommend passage of the accompanying Order by your Honorable Body.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Fire Department, November 16, 1953.
Hon. John B. Hynes,
Mayor of Boston.

Dear Sir: I respectfully request your Honor's permission and approval of the City Council to sell, at public auction, the decommissioned steam fireboat "Matthew J. Boyle," Engine 44.

The vessel has been out of commission for approximately three years because of its excessive maintenance and operating costs, amounting to about \$20,000 annually, as against approximately \$4,500 per year for maintenance and operation of each of our two Diesel fireboats.

During the time that this vessel has been out of commission, it has not answered one alarm of fire. Nevertheless, there have been and still are one officer and seven firefighters assigned to maintain a 24-hour watch to safeguard the valuable property in Engine House 44 and the equipment on Fireboat Engine 44. This present cost of approximately \$50,000 per year for salaries, heat, light, and other expenses for which the City of Boston receives no return in service or protection of any kind. Information has been furnished showing that it would cost upwards of \$25,000 to put Fireboat Engine 44 in operating condition and would require a great deal of time; but the vital consideration is that, if this work were done, it would still cost about \$30,000 per year to maintain and operate this boat.

The men best informed about the needs of the Marine Division of this department were invited to this office for a general and complete discussion concerning their views and recommendations, and those participating in a three-hour meeting included Chief of Department John V. Stapleton, Deputy Chiefs John C. Clougherty, John F. Howard, and John A. Terenzi. Also present were Capt. William J. Kelly (master pilot on fireboats for twenty

years), Lieut.-Supervisor of Fireboats Arthur J. Landry, and William D. Slattery, executive secretary.

It was clearly pointed out that to convert Fireboat Engine 44 to Diesel power would entail an expenditure of about \$400,000, and we would still be using the present old fire pumps. A new and more efficient fireboat could be constructed at a resort cost, and we have tentative plans concerning such a boat. The above-named officials of this department were in unanimous agreement that the following recommendation should be adopted for transmission to your Honor:

1. The Fire Department requires three fireboats for full duty at all times because of the many hazards on the waterfront. The recent series of explosions, fires, and other disasters on the Greater Boston waterfront accentuate this recommendation.

2. A new boat will have approximately the same pumping capacity of Fireboat Engine 44, if it were reconstructed.

3. A new boat would have a shallow draft of 6 feet as against the 10-foot 6-inch draft of Fireboat Engine 44, making practically all waterfront areas accessible to the new fireboat.

4. A new boat would be equipped with twin-screw propulsion, permitting 100 per cent maneuverability, as against the restricted single screw maneuverability and extreme difficulty in handling of Fireboat Engine 44. A new boat would require smaller engines, thus reducing operating and repair costs.

5. A new boat would require 1,100 horsepower, as against 3,200 horsepower required by reconstructed Fireboat Engine 44.

6. A new boat would have a maximum speed of 13 knots, as against an 11-knot maximum speed of a reconstructed Engine 44.

7. Townboats, and boats of the Navy, Coast Guard, Customs Service, and Police Department, which assist at large water-front fires, do not have an aggregate pumping capacity equal to the pumping capacity of one fireboat.

8. There are now eight men assigned to Fireboat Engine 44. As previously stated, it has answered an alarm for about three years. A 24-hour watch must be maintained at Engine House 44 to safeguard valuable property in the house and equipment on the fireboat. Cost of the personnel to perform this duty is approximately \$50,000 per year, including expenses for maintenance of the first class crew.

9. Engine House 44, located at 531 Commercial street, is now being used to house the eight men of the department assigned to Fireboat Engine 44. With the construction of a new boat, the crew could live aboard, and the fire station could be disposed of.

10. A new boat would include all of the newest and most modern fire-fighting equipment and prove to be a very valuable addition to our present marine force in the protection of life and property on the waterfront.

We have received three bids for the fireboat from New York City concerns, who are considering converting the fireboat into a towboat, as follows:

bid 1, \$7,500 (as is); bid 2, \$11,000 (as is); bid 3, \$15,000 (with permission to salvage).

Bidder 3 offered the highest cash figure and, in addition, would allow us to remove four monitor guns, valued at \$12,000 and the water tower, valued at about \$7,000, all of which could be used in the construction of a new fireboat. This would net a saving in cash and salvage of approximately \$45,000.

In order to eliminate waste and develop the efficiency of the department, it would be appropriate if your Honor would give this matter consideration at your earliest convenience.

Respectfully submitted,
JOHN P. COTTER,
Fire Commissioner.

Ordered, That the Fire Commissioner of the City of Boston be, and hereby is, authorized to sell the fireboat "Matthew J. Boyle," Engine 44, at an upset price of \$15,000, the City of Boston to reserve ownership in four monitor guns and one water tower now affixed to the fireboat.

COMMENDATION OF WILLIAM TETO.

Coun. FOLEY, for Councillor Hailer, offered the following:

Whereas, The greatest menace to the internal security and the continued existence of the

United States is the existence of a Communist conspiracy in our country designed to destroy from within; and

Whereas, A portion of that conspiracy at work in Greater Boston was recently unmasked and brought to the public by the skillful and patriotic efforts and the heroic self-sacrifice of William Teto; be it

Resolved, That the City Council of Boston herein assembled does commend and praise the service that Mr. William Teto has rendered to the people and government of our great United States.

The resolution was adopted under suspension of the rules.

INCREASED STAFF AND BUDGET FOR CITY PLANNING DEPARTMENT.

Coun. FOLEY offered the following:

Whereas, The City of Boston is presently faced with many serious planning problems; and

Whereas, An adequate professional staff of trained city planners has been found invaluable in the development of modern American cities; and

Whereas, The staff of the Boston Planning Department is inadequate; be it therefore

Resolved, That the City Planning Department should be exempted from the proposed policy of 5 per cent reduction in the budget for the year 1954; and be it further

Resolved, That the staff and budget of the Planning Department should be increased substantially.

The resolution was adopted under suspension of the rules.

UNDERGROUND PARKING FACILITY, COPLEY SQUARE.

HOUSING FACILITIES FOR ELDERLY PERSONS.

Coun. JOYCE and FOLEY offered the following:

Whereas, Cities and towns of Massachusetts have been asked to expend up to five million dollars for the construction of housing facilities for elderly persons under provisions of an act passed by the 1953 session of the Massachusetts Legislature; and

Whereas, Passage of this act was designed to alleviate the shortage of housing facilities among the senior citizens and the Commonwealth of whom there are more than 50,000 receiving old age assistance; and

Whereas, A great percentage of this number are residing in Boston and are in dire need of adequate housing accommodations; and

Whereas, The State Housing Board of the Commonwealth is now inquiring as to how to determine the number of units to be allocated to each city and town and has issued a questionnaire to the various housing authorities and has invited a request from the various municipalities for allocation of such units; now therefore be it

Resolved, That the Mayor and all appropriate department heads cooperate with the Boston Housing Authority in the completion of said questionnaire and that the Mayor direct the Boston Housing Authority to house a minimum of one thousand units to alleviate the housing shortage among elderly persons residing in Boston.

The resolution was adopted under suspension of the rules.

AMENDMENT TO REGULATIONS

Mr. Muehnick: On the question of evening schools, Madam Chairman, I neglected to bring this up in conference, but we recently changed the regulations for the employment of principals and teachers in evening schools from three years to five years; and I understand that there has been request that that same provision be made for secretaries. Some secretaries are temporarily working in their fourth year.

It seems to me that the reasoning which applies to having teachers work the fourth and fifth year in evening schools would also apply to having secretaries work in the fourth and fifth year. I therefore move that the three-year limitation be removed from the secretaries as well and that their limitation be extended to a period of five years.

Chairman: That regulation does not apply to teachers. That was made just for principals. If you do this you are going to run into the problems of removing the limitation on others.

Superintendent: It is presently five years for teachers.

Chairman: It is five years for teachers?

Mr. Muehnick: Yes.

Chairman: That would not have anything to do with tenure at all, would it?

Superintendent: No.

Mr. Muehnick offered the following:

ORDERED, That the regulations are hereby amended as follows:

Section 276, paragraph 2. Strike out the paragraph which describes the limitation of service of clerical assistants in evening schools, and substitute in place thereof the following:

No person shall be appointed as clerical assistant in the evening schools for more than five years in a period of six consecutive years.

On roll call the rules were suspended and the order passed by the following vote:

RATING FOR HEAD MASTER AND PRINCIPAL

Mr. Muehnick: Madam Chairman, before we adjourn it is my understanding that there will be ratings advertised very shortly, or they may already have been advertised—I am not sure—for the position of head master and principal.

Is that correct, Mr. Superintendent?

Superintendent: That is true. I think the circular has already gone out.

Mr. Bond: For head master only.

Mr. Muehnick: Well, Madam Chairman, in view of the fact that within a year or two under normal circumstances the salary of head master and principal should have been equalized, then it seems to me that the qualifications for the positions should be the same.

If I remember correctly, that was part of the plan adopted in the unanimously adopted statement of the School Committee of March 31, 1932. I believe it was.

Therefore, Madam Chairman, I move that the circular be amended to apply to both positions and that the qualifications be made the stricter of the two sets of qualifications so that we will be assured of getting the best men and women in both administrative positions now that both administrations will be paying the same salary by the time the lists become effective.

Superintendent: Madam Chairman, you are going to run into some complications. There is presently an elementary principals' list that has one year more after this school year.

Is that true, Mr. Bond?

Mr. Bond: That is true.

Superintendent: I think that those men who are heading up the elementary principals' list—and women as well—have some rights.

Mr. Muehnick: Well, Madam Chairman, it seems to me that those people should take the examination along with the people who take the head masters' examination. It is now a position with a greater salary. The differential in money, and therefore in rank and responsibility, between head master and principal will have been wiped out.

The submasters and the vice principals are now in an upper bracket comparatively from before; and, as long as these people are getting the equality of salary, they should very happily assume the equality of preparation, training and qualification.

It seems to me that we ought to have the new list upon its establishment for the one position—whether it be called headmaster or principal—eliminate,

upon its acceptance, all existing lists for both head master and principal positions that will exist at that time.

Mr. Carr: Madam Chairman, I think this is too important a thing to bring in for casual discussion at ten minutes of twelve. I don't think anybody feels like staying any more than I do. I would like to see it held and brought in some other time.

Dr. Foley: Have you sent your communications already?

Superintendent: The circulars have gone out. The rating is going on at the present time. Once the circular goes out, the rating is actually in process.

Miss Fitzgerald: Madam Chairman, therefore the people who are asking to be rated, or however they request it—however it is done—believe that they are going to be rated under the qualifications established in that circular?

Superintendent: That is true, Madam Chairman.

Mr. Muehnick: But the rating is currently for head master, Mr. Superintendent.

Superintendent: That is true. Mr. Muehnick: And the qualifications for the head master's position are currently stricter than the qualifications for principal, aren't they?

Superintendent: I would say, Madam Chairman, that they are different.

Chairman: The qualifications are almost the same. I would agree with the Superintendent that the qualifications—

Mr. Muehnick: He says different.

Chairman: The qualifications are the same, but the text is different.

Mr. Muehnick: It seems to me, Madam Chairman, that, having established them to be on the same level, we should ask for the same qualifications and everything else the same and have people compete for a position. In that way, we will get, I feel, a far better group of administrators on every level.

Now I agree with Mr. Carr that this is not something that ought to be talked about at ten minutes of twelve, but I also feel that it is something that ought to be taken up at our next meeting and that people ought to feel—even those who are rating now—that there may be a different rating for the position very soon.

Dr. Foley: I move that this be laid on the table.

Mr. Carr: Madam Chairman, do you contemplate having a meeting again before November 3d, or subsequent to it?

Chairman: I think subsequent to it.

Mr. Carr: In that event I wish you all the best of luck.

Dr. Foley: Thank you.

The Committee adjourned.

This examination is held to establish eight eligible lists, one for each of the following special fields: Ascheim-Zondek, Bacteriology, Biochemistry, Blood Bank, Clinical Pathology, Histology-Neuropathology, Immunology and Parenteral Fluids. Only one application is necessary, but applicants should designate the special field or fields for which they are applying.

Last date for filing applications, Monday, December 21, 1953.

Salary: The minimum salary is \$58 a week; the maximum salary is \$70.50 a week.

Vacancies: From time to time, including vacancies at Boston Sanatorium.

Duties: Under general supervision, to assume responsibility for and to perform those laboratory tests customarily done in hospital laboratories, particularly those tests or procedures having to do with Ascheim-Zondek and related techniques, Bacteriology, Biochemistry, Blood Bank, Clinical Pathology, Histology-Neuropathology, Immunology and Parenteral Fluids; in some cases to have supervision of assistants; and to perform related work as required.

Examples of Duties: Ascheim-Zondek—Rabbit, rat and frog tests for pregnancy with microscopic examination of animals used and cutting and staining of tissues from the animals; hormone determination tests. Bacteriology—Bacteriological examinations of specimens, including smears and stains for identification of organisms, special studies on antibiotics; agglutinations; preparation of media; microbiological analysis of amino-acid and vitamin content of blood and urine. Biochemistry—Determination of the usual organic and inorganic components of the blood and urine; training of laboratory assistants and volunteers; under supervision, development of new methods of analysis; review and adaptation of current biochemical procedures; abstracting of articles on methods in English and foreign journals; knowledge of modern laboratory instrumentation and management. Blood Bank—Supervision and performance of blood grouping, blood cross-matchings, Rh determinations, rapid Hintons, etc.; care of professional donor list and direct responsibility for distribution and storage of plasma. Clinical Pathology—Microscopic and macroscopic examinations of the blood, requiring knowledge of all usual methods of staining of blood and bone marrow smears; special studies of abnormal blood, including osmotic and mechanical fragilities; other hemolysis tests and Coombs' test; tests of blood coagulation, prothrombin time, prothrombin consumption, platelet count, bleeding time and serum anticoagulant. Histology-Neuropathology—Myelin sheath staining by the Weigert-Spielmeier and Sudan techniques, axis cylinder staining by the Cajal and Bielschowsky methods, cell staining by the nissl method, and celloidin imbedding and cutting of large celloidin brain sections, in addition to the standard pathological methods of fixing, imbedding, and staining tissues. Immunology—Skin testing in the clinic by scratch, intradermal and patch methods; preparation of allergenic extracts (pollen, mold, dust, emanations and foods) for testing and treatment; mantoux, histo-

plasma, coccidiomycia, and Schick tests; gerobiological studies, such as pollen counts and determination of types of molds present in the atmosphere; mycological studies pertaining to inhalant allergy; assisting the physician in the conduct of the clinic and in treatments, including giving of rabies and typhoid vaccine, and tetanus vaccinations; assisting the bacteriologist in sterility tests of all extracts and vaccines prepared in the laboratory, and in the preparation of bacterial vaccines; hematology tests, including sedimentation rates; spirometric studies, such as vital capacity and other respiratory function studies; urinalyses; making appointments and keeping records on immunizations for the Nursing School of the Boston City Hospital. Parenteral Fluids—Preparation and sterilization of fluids for parenteral use; of Fenwal system containers, tubing and needles for intravenous administration of usual fluids and of blood; of lumbar puncture sets, syringes, gauze, etc.; and of apparatus for the collection of blood from donors.

Entrance Requirements: Applicants must have at least one year of full-time paid experience as a technician or assistant in a recognized hospital or clinical laboratory. Substitution: A college degree with a major in chemistry, bacteriology, or biological sciences may be substituted for the required experience.

Subjects and Weights for Each of the Special Fields: Training and experience, 2; practical questions, 3; total, 5.

Passing Requirements: Applicants must obtain at least 70 per cent in each subject in order to become eligible.

Physical fitness to be determined by physical examination.

RECENT FEDERAL ACTIONS AFFECTING CITIES.

The Housing Act of 1949, approved on July 15, authorized a uniform 10 per cent payment to cities in lieu of taxes on housing projects, but the independent offices appropriation bill passed on August 15 contains a provision that for the fiscal year ending June 30, 1950, only payments provided for in the original contract between the housing authority and the city are authorized for federal reimbursement.

Federal aid for hospital construction has been approved for nearly 800 projects; more than 600 are general hospitals and the great majority are in towns of under 10,000 population.

CITY EMPLOYEES BACK RE-ORGANIZATION PLAN.

(Continued from page 1649.)

the proposal as submitted by Mayor Hynes, as they are convinced after careful study that no hardship or detrimental reduction in rank, or change in civil service status, will result to any permanent employee in the departments represented by this membership.

"For too long a time," said Ward, "the Boston city employees have been held up to ridicule by fly-by-night political organizations, out-of-town reform groups, and other leagues and associations of 'do gooders' who in most instances pay no tax at all to Boston. The chief victims of a \$70.70 tax rate are the employees of the city. The potential victims of a bankrupt city would be the employees."

"The Boston city employees are chained in bondage by an antiquated tax structure. The organized city employees wish to protect Boston! They wish to protect themselves and their jobs! They also want to perform a good day's work for a good day's pay, and, if improvement can be obtained in the municipal structure which will result in benefit to all, the city employees have acted to take the first concrete step that will bring about such improvement."

"We are convinced that the administration is sincere. We feel, too, that the City Council is equally sincere, and the expression as adopted by the delegates of the official employees organization can only be accepted as evidence of their sincerity and good faith to keep Boston solvent—to make it a better place in which to live and in which to work."

MAYOR HYNES FILES 34 MEASURES FOR LEGISLATIVE ACTION.

(Continued from page 1649.)

A BILL Providing for the Reimbursement of Political Subdivisions of the Commonwealth for Certain Excises Paid or Payable on Gasoline and Certain Other Motor Vehicle Fuel Bought by Them.

A BILL Relative to the Basis for Distributing Among Cities and Towns the Proceeds of the Tax on Business and Manufacturing Corporations Now Distributable to Them.

A BILL Relative to the Taxation of Domestic Manufacturing Corporations and Foreign Manufacturing Corporations.

A BILL Providing for the Reimbursement by the Commonwealth of the City of Boston for Loss of Taxes on Land at the General Edward Lawrence Logan Airport.

A BILL Providing for the Acquisition by the Metropolitan District Commission of the L Street Beach and Bathhouse in the City of Boston.

A BILL Providing for the Commonwealth to Reimburse the Cities and Towns of the Metropolitan Parks District for Sums Charged to Them in Connection with the Nantasket Beach Reservation, the Revere Beach Reservation and the Lynn-Nahant Beach Reservation.

A BILL Extending the Metropolitan Parks District.

SECTION 1. Section 33 of chapter 92 of the General Laws, as appearing in the Tercenary Edition, is hereby amended by striking out the first sentence and inserting in place thereof the following sentence:—The commission may acquire, maintain and make available to the inhabitants of Arlington, Avon, Bedford, Belmont, Billerica, Boston, Braintree, Brookline, Burlington, Cambridge, Canton, Chelsea, Cohasset, Concord, Danvers, Dedham, Dover, Everett, Hingham, Holbrook, Hull, Lexington, Lincoln, Lynn, Lynnfield, Malden, Marblehead, Medfield, Medford, Melrose, Middleton, Milton, Nahant, Natick, Needham, Newton, North Reading, Norwood, Peabody, Quincy, Randolph, Reading, Revere, Salem, Saugus, Sharon, Somerville, Stoneham, Stoughton, Swampscott, Wakefield, Walpole, Waltham, Watertown, Wayland, Wellesley, Weston, Westwood, Weymouth, Wilmington, Winchester, Winthrop and Woburn, which shall constitute the metropolitan parks district, open spaces for exercise and recreation, in this chapter called reservations; and, for the purposes set forth in this section, the jurisdiction and powers of the commission shall extend to, and be exercised in, said district.

SECTION 2. This act shall take effect on January first, nineteen hundred and fifty-five.

COMMENT.

Despite the fact that modern transportation facilities have made M.D.C. reservations readily accessible to inhabitants of the so-called fringe communities, the membership of the Metropolitan Parks District has remained unchanged for fifty-six years. The purpose of the instant bill is to bring these fringe communities within the district so that they cannot enjoy the benefit of the parks without sharing the burden of their maintenance. The municipalities added are indicated by italics.

REPORT OF THE BOSTON RETIREMENT BOARD ON THE CONDITION OF THE STATE-BOSTON RETIREMENT SYSTEM.

By the acceptance by the Mayor and City Council on June 5, 1946, of chapter 658 of the Acts of 1945, as amended by chapter 166 of the Acts of 1946, the State-Boston Retirement System for employees of the City of Boston and County of Suffolk was established on October 1, 1946.

By the operation of that law, persons entering the employment of the City of Boston and County of Suffolk after September 30, 1946, whose compensation is paid by the City of Boston automatically become members of the State-Boston Retirement System, unless ineligible under its provisions, and the Boston Retirement System, which was established on February 1, 1923, by chapter 521 of the Acts of 1922, was closed to new members.

Every person whose employment began prior to October 1, 1946, whether he was a member of the Boston Retirement System or had other pension rights or no pension rights at all, was given an opportunity, under certain conditions of make-up payments, to join the State-Boston Retirement System during the three-month period between October 1, 1946, and December 31, 1946.

By chapter 520 of the Acts of 1947 the employees were given an additional year and a half to join the State-Boston System.

By chapter 355 of the Acts of 1950, the State-Boston Retirement System was reopened for a 60-day period, and finally for another 60-day period by chapter 379 of the Acts of 1952.

The following table shows the active membership for each year in the State-Boston Retirement System:

December 31.	Number.	December 31.	Number.

INSTRUCTIONS ISSUED BY CITY
AUDITOR CHARLES J. FOX
GIVE DIRECTIONS FOR METH-
ODS OF CLOSING OUT CITY'S
BUSINESS FOR 1953.

City Auditor Charles J. Fox has issued the following instructions as to 1953 closing calendar:

BILLS—1953.

December 11—Last day for submission of 1953 requisitions to Supply and Printing Departments.

December 17—Final day for submission of service orders and postage requisitions to Auditing Department.

BILLS—1954.

January 8—Last date for submission to Auditing Department of departmental and non-order invoices relating to 1953 purchases or services.

January 11—Send in writing to City Auditor requests that open encumbrances on contracts executed prior to December 31, 1953, be carried forward to 1954, and that unliquidated balances on purchase and service orders issued prior to December 18, 1953, on which deliveries have been made or services rendered but no invoices have been submitted by the vendor, be included in the 1953 Unliquidated Reserve. Be sure to indicate order numbers in every instance. Utility bills for 1953 not received should be estimated and included in this latter request.

January 15—On or before this date return all receiving notices in your files to the Auditing Department. If no delivery or service has been made, indicate on receiving notice that order is to be canceled or superseded. If partial delivery has been received indicate approval of amount involved in such delivery and cancel balance.

PAYROLLS—1953.

December 10—Requisition to Printing Department for W-2 Forms and Withholding Tax Payroll Summary Forms.

December 28—Obtain skeleton rolls for January 5, 1954, payroll. In preparing this roll use new withholding tables, copies of which may be secured in the Auditing Department Payroll Division.

December 29—End of last payroll week to be included in compensation to be reported on W-2 Forms for weekly paid employees. Include all payments through December 31 for semimonthly and monthly paid employees.

December 31—Return to Auditing Department Payroll Division all preliminary payrolls for week of January 5 which are scheduled to be paid on Wednesday, January 6, 1954.

PAYROLLS—1954.

January 4—Return all preliminary rolls for the week of January 5 which are scheduled to be paid on Thursday, January 7, 1954.

January 5—Submit two requisitions with payroll for week ending on this date. Charge 1953 with 40 per cent of gross total of roll and 60 per cent against 1954. Indicate at bottom of roll the split between the two years.

January 8—Return to City Treasurer fourth quarter report showing withholding deductions by payrolls.

January 15—Last day for sending to City Treasurer the second and third packages of W-2 Forms, consisting of Forms 3 and 4, respectively.

Special Note—Bulletin issued by Auditing Department under date of November 18, 1952, gives detailed instructions for handling W-2 Forms.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with firms, contractors, and commercial houses for supplies, labor, etc. Communications from heads of the departments interested were as follows:

INSTITUTIONS DEPARTMENT.

Boston, December 1, 1953.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

On September 8, 1953, your Honor approved a \$3,630 contract between the sole bidder, the C & W Boiler Manufacturing Company, Inc., Washington street, Holliston, Mass., and the City of Boston, providing for certain boiler repairs at Long Island Hospital, Boston, Mass. Thereafter, certain extra work was ordered to be done at a cost of \$490, thereby increasing the contract sum to \$4,140.

It now develops that in addition to the repairs completed to date, a considerable amount of added work consisting of removing two (2) sections of the shell (one on each side of the girth seam) and inserting metal patch plates and riveting them on will have to be performed in order that the boiler may be duly certified by the boiler inspector and put into operation. This added work is incidental to the whole undertaking, although it was not originally contemplated as a part of the project because the defective condition of the boiler requiring this particular work to be done was not revealed until the repairs specified in the original contract were substantially completed.

The subject boiler has been in use for a number of years, and, therefore, it is entirely conceivable that the results of the hydrostatic pressure test which must follow the performance of all the work thus far proposed may possibly

disclose that it is imperative to effect still more extensive repairs.

The aforementioned firm is willing to perform the specific work described above at a cost of \$975. This is believed to be a fair figure for the work in the light of prevailing costs. Furthermore, as stated previously, this firm was the only bidder at the outset; it does its work well and will finish the repairs as promptly as possible. In view of the foregoing and as it is essential that this boiler be placed in safe and efficient operating condition, I respectfully request your authorization to dispense with public advertising and to amend the subject contract in the sum of \$975 to include the cost of the above-outlined metal patch work, as well as to amend its work scope to include said additional boiler work.

Respectfully yours,

JOHN R. MCGILLIVRAY,
Commissioner.

PARK DEPARTMENT.

Boston, December 1, 1953.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

As part of the conversion of the power plant of the Paris Street Gymnasium from coal to oil burning equipment, a five thousand-gallon steel fuel oil storage tank was installed in the then existing coal bunker area and enclosed within two new concrete block walls and two existing brick walls.

After filling the tank full with fuel oil, a settlement of the floor in one corner of the area was observed. Upon investigation it was discovered that the subgrade material under the floor had, over a period of years, subsided considerably, leaving voids or air spaces between the subgrade and the bottom of the slab of various depths, estimated to average about 8 inches. This was determined to be the cause of the settlement.

In order to correct this condition and prevent further settlement, which could cause considerable damage, it becomes immediately necessary to fill these voids with a fluid cement grout forced in under pressure to stabilize the floor slab and prevent further movement.

The most expert and about the only company in this area that is properly equipped to do this type of work is the National Gunite Corporation, which we invited to investigate and submit a price to correct the condition.

After examination of the area they have submitted a price of \$1,800 which we feel, after proper investigation, to be a fair price for the work to be done.

We believe that the work should be done at once, and, in view of the above, feel that nothing would be gained by publicly advertising.

We, therefore, respectfully request that we be given permission to dispense with publicly advertising, and award a contract to the National Gunite Corporation, 101 West Dedham street, Boston, Mass., for cement grout stabilizing of floor slab of oil storage area, Paris Street Gymnasium, East Boston, Mass., at the price of eighteen hundred (1800) dollars, same to be charged to regular Park Department Budget, Item 269.

Respectfully yours,

FRANK R. KELLEY,
Chairman.

BOSTON, December 1, 1953.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

In connection with our Christmas Festival Celebration throughout the city, we are making arrangements for the erection of 12 Christmas trees at various community locations throughout the city.

It is rather difficult to obtain the proper type tree, and after many visits to various nurseries we were able to find two who could deliver and set up the trees in time for the Christmas season.

Last year these trees were set up for \$150 per location; all decorations being provided by civic groups within the community where the tree was located.

The Blueview Nurseries, 32 Gaston street, Roxbury, Mass., have agreed to erect six trees in the following locations, at a cost of \$150 each, total cost \$900:

Mattapan Square; Kenmore Square; Central Square, East Boston; Fields Corner, Dorchester; Peabody Square, Dorchester; Copley Square.

I respectfully request your permission to issue a service order to the Blueview Nurseries for this work; same to be charged to Item 299 in the regular budget.

Respectfully yours,

FRANK R. KELLEY,
Chairman.

BOSTON, December 1, 1953.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

In connection with our Christmas Festival Celebration throughout the city, we are making arrangements for the erection of 12 Christmas trees at various community locations throughout the city.

It is rather difficult to obtain the proper type tree, and after many visits to various nurseries we were able to find two who could deliver and set up the trees in time for the Christmas season.

Last year these trees were set up for \$150 per location; all decorations being provided by civic groups within the community where the tree was located.

The Eastern Tree and Landscape Corporation, 250 Bridge street, Dedham, Mass., has agreed to erect six trees in the following locations, at a cost of \$150 each, total cost \$900:

Cleary Square, Hyde Park; Cleveland Circle, Chestnut Hill; Forest Hills; Union Park, Boston; Roxbury Crossing; Codman Square, Dorchester.

I respectfully request your permission to issue a service order to the Eastern Tree and Landscape Corporation for this work; same to be charged to Item 299 in the regular budget.

Respectfully yours,

FRANK R. KELLEY,
Chairman.

SUPPLY DEPARTMENT.

BOSTON, November 30, 1953.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

On November 20, 1953, your Honor approved a letter of award on clothing and cotton goods on which bids were publicly opened and read in this office

on October 20, 1953. The only bid received on Items 2 and 3 calling for Sani-Duck slippers was rejected, inasmuch as the price was 10 per cent higher than that of the manufacturer.

Authority is therefore requested at this time to dispense with further public advertisement and award a contract, without public advertisement, to Daniel

Koch, doing business as Koch Products, the manufacturer of the Sani-Duck slippers, as requested.

Approximate total amount of contract will be \$1,080, net.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

BOSTON, November 10, 1953.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

Recently, your Honor gave approval to the Public Works Commissioner to enter into negotiations with the Metropolitan Transit Authority for the purchase of snow-plowing units and bucket loaders together with snow plows.

Subsequently, the Public Works Department Commissioner completed inspection of the available equipment and has submitted requisitions to this department for nineteen (19) Waltersand four-wheel drive trucks, two (2) bucket loaders and twenty (20) snow plows. The price established for each unit is exceedingly low and a fraction of the cost of new units.

It is most essential that these units be obtained as soon as possible in order that they may be put in proper condition for winter operations. As time is of the essence, it is hereby requested that authority be granted me to dispense with publicly advertising for prices and award a contract, without public advertisement, to the Metropolitan Transit Authority for the following units of equipment "as is" at the prices as indicated:

Police Commissioner.

PROCEEDINGS OF CITY COUNCIL.

Monday, November 30, 1953.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 p.m., President AHEARN in the chair, and all the members present.

The Reverend Gilbert S. Phinn of Our Lady of the Assumption Church, Green Harbor, was escorted to the rostrum.

INVOCATION BY REV. GILBERT S. PHINN.

In the Name of the Father, and of the Son, and of the Holy Ghost, Amen. Let us pray.
Almighty God, Heavenly Father, from Whom all power and authority are derived, grant to these Council members the gifts of prudence, wisdom and fortitude that they may see the needs of our city and legislate with justice. Let them not be motivated by selfishness or personal considerations, and may they never betray the trust of their fellow citizens. But send forth Your Holy Spirit to prompt their every word and action, so that they may fulfill their office with dignity and honor in accordance with Your Holy Will.
May the blessing of God the Father, Son and Holy Ghost descend upon you and your work and remain with you always. Amen.

The meeting was opened with the salute to the Flag.

Upon receiving unanimous consent to make a statement Councilor White expressed the pleasure of the Council in having Father Phinn at the invocation today. He stated that Father Phinn is a native of West Roxbury, and is the son of Henry J. Phinn, Second Deputy City Treasurer.

APPOINTMENT BY THE MAYOR.

Subject to confirmation by the Council the Mayor submitted the following appointment:
Constable with civil process to serve civil process upon filing of bond for term ending April 30, 1954: Kenneth W. Kempton, 487 East Broadway, South Boston.
Referred to the Committee on Confirmations.

NEW PLAYGROUND IN WEST ROXBURY.

The following was received:
City of Boston,
Office of the Mayor, November 30, 1953.
To the City Council.
Gentlemen:
I transmit herewith communication from the Park Commissioner relative to your order of November 23, 1953, requesting that the Park Commissioner include in his budget for 1954 sufficient funds for the construction and development of a playground in West Roxbury. The plot of land bounded westerly by lots on the easterly side of Bruce street, southerly by lots on the northerly side of Weld street, easterly by lots on the westerly side of Russell road, northerly by the Veterans of Foreign Wars Parkway.
Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Park Department, November 25, 1953.
Harold B. Flemming,
Chief Clerk, Mayor's Office.

I have your memorandum of November 25, with enclosure, City Council order of Councilor Ahearn requesting that sufficient funds be placed in the 1954 budget for the construction and development of a playground located on Veterans of Foreign Wars Parkway and Bruce street, West Roxbury. This property, under the control of this department is a large area and it will cost a large sum of money to properly construct a playground on this site.

At the present time we cannot promise if any work will be done on this location during 1954, but you may be assured that because of Councilor Ahearn's interest, this matter will be given every consideration.

Very truly yours,
FRANK R. KELLEY, Chairman.
Placed on file.

SURVEY OF PARKING FEES IN DOWNTOWN AREA.

The following was received:
City of Boston,
Office of the Mayor, November 30, 1953.
To the City Council.
Gentlemen:

I transmit herewith communication from the Secretary to the Board of Street Commissioners relative to your order of November 23, 1953, that a survey be made of parking fees in the downtown area with a view to determining whether or not

prices have been or are being increased since August, 1953, with a view to determining the advisability of enacting ordinances or regulations placing ceilings on said fees to be charged.
Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Board of Street Commissioners,
November 25, 1953.
Mr. Harold B. Flemming,
Chief Clerk, Mayor's Office.

Dear Sir:
I acknowledge for the Chairman of the Board receipt of your communication of November 25, 1953, enclosing copy of Council order introduced by Councilor Piemonte directing that a survey be made of parking fees in the downtown area with a view to determining whether or not prices have been or are being increased since August, 1953, with a view to determining the advisability of enacting ordinances or regulations placing ceilings on said fees to be charged.
I am of the view that all parking space licenses are renewable before the end of the year, we will ascertain the information requested when applicants file for said renewals, and will forward the same to Councilor Piemonte during the first part of January, 1954.

Very truly yours,
LAWRENCE W. COSTELLO, Secretary.
Placed on file.

INFORMATION RE CERTAIN REDUCTIONS IN ASSESSMENTS.

The following was received:
City of Boston,
Office of the Mayor, November 30, 1953.
To the City Council.
Gentlemen:

I transmit herewith communication from the Chairman of the Board of Assessors relative to your order of November 23, 1953.

Respectfully,
J. B. HYNES, Mayor.
City of Boston,
Board of Assessors, November 30, 1953.
Mr. Harold B. Flemming,
Chief Clerk, Mayor's Office.

Dear Sir:
Pursuant to the order of the City Council that the Mayor be requested to furnish the City Council information set forth in two questions please be advised as follows:

1. All reductions in assessments were made by the Board of Assessors prior to the setting of the tax rate on June 14, 1953, and the amount of taxable property on that date was listed as \$1,563,666,000, a decline of \$5,000,000 in assessed valuations.

2. The Board of Assessors will be glad to furnish to the City Council a list of all reductions in assessments made by this department for the year 1953. The reductions in assessments made by the Board are recorded in the public record and the amount of such reductions may be obtained in the Assessing Department. In arriving at such reductions and assessments the Board of Assessors used accepted assessing practices.

Yours very truly,
EDMUND J. BURKE, Chairman.
On motion of Councilor Piemonte the Council voted at 2:35 p.m. to take a twenty-minute recess. The members reassembled in the Council Chamber and were called to order by President AHEARN at 2:55 p.m.

COUN. PIEMONTE offered the following order:
Ordered, That the Chairman of the Board of Assessors appear before this Honorable Body forthwith with all of the change sheets used in the assessing of property for Ward 3 for the year 1953.
Passed under suspension of the rules.

The Chair directed the City Messenger to transmit the foregoing order to the Chairman of the Board of Assessors and to return the same at the session, the City Messenger submitted the following communication which was read by the President.

To the President of the City Council.
The Chairman of the Board of Assessors refuses to recognize this order until the Council complies with Section 17F of the City Charter.

The message of the Mayor was placed on file.

ABANDONMENT OF EASEMENTS FOR SEWERAGE PURPOSES IN HYDE PARK.

The following was received:
City of Boston,
Office of the Mayor, November 30, 1953.
To the City Council.
Gentlemen:

I transmit herewith a communication from George G. Hyland, Commissioner of Public Works, relative to the abandonment of certain sewer easements acquired under an order of the Board dated February 26, 1953, and recommend the adoption of the accompanying order authorizing the abandonment of the easements as requested by the commissioner.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Public Works Department,
November 30, 1953.
Mayor John B. Hynes and City Council.
Gentlemen:

By an order of the Board of Street Commissioners of the City of Boston dated February 26, 1953, and approved by the Mayor of Boston March 3, 1953, the City of Boston acquired easements for sewerage purposes in certain private lands in the Hyde Park District of Boston as shown on a plan marked "City of Boston, Plan No. 1408, Sewerage Works, Alwin court, Alwin street, Alwin terrace, Hyde Park, November 2, 1953, James W. Halsey, Chief Engineer, Street Laying-Out Department."

No damages have been paid as a result of these takings in this district, and no compensation pursuant to the order of taking. Due to changes in the proposed development of the area in question, it is my opinion that a portion of the easements acquired under the above-mentioned order are no longer required for public purposes, and I, therefore, recommend that those portions of the original easements as shown on a plan marked "City of Boston, Alwin court, Alwin street, Alwin terrace, Hyde Park, November 2, 1953, James W. Halsey, Chief Engineer, Street Laying-Out Department," be abandoned.

Respectfully,
GEORGE G. HYLAND,
Commissioner of Public Works.
City of Boston,
In City Council.

Whereas, By an order of the Board of Street Commissioners of the City of Boston dated February 26, 1953, and approved by the Mayor of Boston March 3, 1953, and recorded by the Suffolk Registry of Deeds March 5, 1953, the City of Boston acquired by eminent domain an easement for sewerage purposes in certain private lands in the Hyde Park District of the City of Boston as shown on a plan marked "City of Boston, Alwin court, Alwin street, Alwin terrace, Hyde Park, November 2, 1953, James W. Halsey, Chief Engineer, Street Laying-Out Department"; and

Whereas, The Commissioner of Public Works of the City of Boston has determined that said easement is no longer required for public purposes; and

Whereas, No awards for damages were awarded as a result of the aforesaid taking for sewerage purposes; now, therefore, it is hereby
Ordered, That his Honor the Mayor of the City of Boston be, and he hereby is, authorized in the name and behalf of the City of Boston, to execute and cause to be recorded in the Suffolk Registry of Deeds a declaration that the easement for sewerage purposes in the following-described parcels of land, being a portion of the aforesaid taking acquired by the order of the Board of Street Commissioners of the City of Boston dated March 3, 1953, be abandoned. Said parcels are bounded and described as follows:

Parcel 1.
A certain parcel of land situated on the easterly side of Alwin court, containing two thousand nine hundred and seventy-four (2,974) square feet, and shown as Parcel 1 on the plan hereinafter referred to.

Parcel 2.
A certain parcel of land situated on the westerly side of Alwin court, containing one thousand one hundred and twelve (1,112) square feet, and shown as Parcel 2 on the plan hereinafter referred to.

Parcel 3.
A certain parcel of land situated at the northerly line of Alwin terrace, containing five thousand nine hundred fourteen (5,914) square feet, and shown as Parcel 3 on the plan hereinafter referred to.

Parcel 4.
A certain parcel of land bounded southerly by Parcel 3, above-referred to, containing one thousand two hundred sixty-two (1,262) square feet, and shown as Parcel 4 on the plan hereinafter referred to.

Parcel 5.
A certain parcel of land situated on the easterly side of Alwin street, containing one thousand two hundred and twelve (1,112) square feet, and shown as Parcel 5 on the plan hereinafter referred to.

The above-described parcels of land are shown on a plan marked "City of Boston, Alwin court, Alwin street, Alwin terrace, Hyde Park, November 2, 1953, James W. Halsey, Chief Engineer, Street Laying-Out Department."

Referred to the Committee on Public Lands.

REORGANIZATION OF CITY BUREAUS AND DEPARTMENTS.

The following was received:
City of Boston,
Office of the Mayor, November 30, 1953.
To the City Council.
Gentlemen:

For some time now, it has been generally recognized that the government of our City needs

basic structural and managerial improvements. Our present form of organization has developed piecemeal over the years when one City was smaller and the services and responsibilities of government far less extensive. Boston does not stand alone in this respect. Several other large cities in the United States—notably Philadelphia, New Orleans, Los Angeles, San Francisco, and Newark—have recently re-examined the structure and operations of their governments.

Cognizant of this need for the reorganization of our City government, the General Court passed chapter 473 of the Acts of 1953, which is presently before your Honorable Body for acceptance and which, when accepted, will clarify and reaffirm our home-rule power to reorganize. In order that you may have all aspects of the matter before you, I submit herewith an Ordinance Reorganizing Certain Boards and Departments of the City.

This ordinance is the result of long months of study and I believe you will find it satisfactory in every respect. Its main objective is to reduce the number of departments by grouping together those functions and activities which are similar in character and requirements. Under it the thirty-four departments and boards now under the direct control of the Mayor will be reduced to seventeen departments. These seventeen will comprise seven (Auditing, City Planning, Election, Law, Library, Retirement, and Traffic) which will remain as presently constituted, three (Parks and Recreation, Public Works, and Veterans' Services) which will have some changes, four (Assessing, Hospital, Treasury, and Welfare) which will be substantially reorganized, and three (Administrative Services, Health and Safety, and Real Property) which will be the product of consolidations.

The summary appended hereto shows in considerable detail the divers changes the ordinance will effect. These changes will eliminate much of the duplication of effort which has been the present setup, and will afford the Chief Executive an efficient organization with which to administer the affairs of the City. As matters now stand, a Mayor can hardly deal effectively with thirty-four dissociated units.

A reorganization of the structure of government such as that entailed in the ordinance submitted herewith can best be put into operation at the commencement of a fiscal year, for then no disruption in the budget and other annual proceedings can ensue. I therefore earnestly recommend that your Honorable Body forthwith adopt the order now pending before you for the acceptance of chapter 473 of the Acts of 1953 and then proceed to consider and enact the ordinance submitted herewith so that it may take effect on January 1, 1954, as a lasting monument to the first City Council under the Plan A Charter.

Respectfully,

J. B. HYNES, Mayor.

SUMMARY OF REORGANIZATION ORDINANCE. Administrative Services.

New. In charge of an Administrative Services Board, consisting of a Director of Administrative Services, a Supervisor of Personnel, a Purchasing Agent and the City Auditor and City Treasurer, ex officio. The members of the board will, in addition to exercising their respective powers and duties, oversee the work of all departments, boards and officers so that the administration thereof shall be economical and efficient, and to that end, shall make investigations, studies and recommendations with respect to the organization, activities, policies and procedures of all departments, boards and officers.

Health and Safety.

New. In charge of a Board of Health and Safety consisting of a Director of Health and Safety, a Building Commissioner, a Health Commissioner and the Chairman of the Board of Health Commission and the Director of Hospitals, ex officio. The members of the board will, in addition to exercising their respective powers and duties, coordinate the work of the several divisions of the department to the end that there may be efficient and concerted action by the department as a whole. The board shall also have the powers and duties of the Board of Street Commissioners in relation to gas stations, etc., open-air parking spaces, garages, the zoning law and street traffic, not vehicular street traffic and parades, processions, and other organized formations of persons or vehicles).

Real Property.

AN ORDINANCE REORGANIZING CERTAIN BOARDS AND DEPARTMENTS OF THE CITY.

In the Year Nineteen Hundred and Fifty-three.

Be it ordained by the City Council of Boston, as follows:

SECTION 1. Section 4 of chapter 1 of the Revised Ordinances of 1947 is hereby amended by striking out clause Ninth and inserting in place thereof the following clause:

Ninth. The word "officer" shall include officers and boards in charge of departments and the members of such boards; and the word "subordinates" shall include all assistants, deputies, and employees appointed by an officer.

SECTION 2. Section 6 of said chapter 1 is hereby amended by striking out, in the last sentence, the words "superintendent of public buildings" and inserting in place thereof the words "assistant commissioner of real property".

SECTION 3. Chapter 2 of the Revised Ordinances of 1947 is hereby amended by striking out section 1, as amended by section 1 of chapter 3 of the Ordinances of 1953, and inserting in place thereof the following section:

Section 1. The mayor shall appoint heads of departments and members of municipal boards and fill vacancies therein in the manner provided by law. He shall, in the municipal year in which the term of the incumbent expires, appoint the following officers, to serve for the terms herein after specified:

For the term of four years, beginning with the first day of May in the year of appointment: one trustee of the public library.

SECTION 4. Chapter 3 of the Revised Ordinances of 1947 is hereby amended by striking out sections 2, 3 and 4 and inserting in place thereof the following three sections:

Section 2. The city treasurer and the city auditor, before and the city clerk, within five days after, entering upon the duties of their respective offices and annually thereafter and at such other times as the mayor shall determine, shall give bond to the city, in the case of the city treasurer, in the penal sum of five hundred thousand dollars, in the case of the city auditor, in the penal sum of one hundred thousand dollars, and in the case of the city clerk, in the penal sum of five thousand dollars.

one hundred copies shall be bound in sets of volumes containing all such city documents with an alphabetical index. All city documents and sets of volumes shall be delivered to the city messenger and distributed in such manner as the city council may direct. Special publications shall, from time to time, be placed in the order of the city council approved by the mayor, to which the provisions of this section, except as to distribution, shall not apply.

Section 8. There shall be in the administrative services department a board, known as the Art Commission, consisting of five commissioners appointed by the mayor as follows: one from the five candidates nominated by The Boston Society of Architects, one from three candidates nominated by the Copley Society of Boston, one from three candidates nominated by the Massachusetts Institute of Technology, one from three candidates nominated by the Museum of Fine Arts, and one from three candidates nominated by the Trustees of the Public Library of the City of Boston. The members of the board of art commissioners in office immediately prior to the effect of this ordinance and hereinafter called the expiring board shall, without further nomination or appointment, become the initial commissioners of the art commission created by this ordinance and shall serve in the case of the member appointed upon nomination of the The Boston Society of Architects until the expiration of May 1, 1935, in the case of the member appointed upon nomination of the Massachusetts Institute of Technology, for a term expiring May 1, 1935, in the case of the member appointed upon nomination of the Museum of Fine Arts, for a term expiring May 1, 1938, in the case of the member appointed upon nomination of the Trustees of the Public Library of the City of Boston, for a term expiring May 1, 1936, and in the case of the member appointed upon nomination of the Copley Society of Boston (Club), for a term expiring upon the qualification of the commissioner first appointed upon nomination of the Copley Society of Boston, who shall serve for a term expiring June 1, 1937. At the term of any initial commissioner other than the member of the expiring board appointed upon nomination of the Trustees of the Public Library of the City of Boston, the commission shall be filled in the same manner for the unexpired term. The members of the art commission shall serve without compensation. Any secretary elected by the commission outside of its own membership shall also serve without compensation.

The art commission shall not be subject to the supervision or control of the administrative services board or any member thereof, but unless otherwise ordered by the mayor, the art commission shall not communicate with the mayor except through the director of administrative services and shall not receive any annual or other report except through the administrative services board.

The art commission shall have the powers and perform the duties conferred or imposed on it by the board of art commissioners in existence immediately prior to the taking effect of this ordinance.

SECTION 14. Chapter 4 of the Revised Ordinances of 1947 is hereby repealed; and the department, including the board of art commissioners, is hereby abolished, and the powers, duties and appropriations of said department are hereby transferred to the art commission created in the administrative services department by section 13 of this ordinance.

SECTION 15. The Revised Ordinances of 1947 are hereby further amended by striking out chapter 5 and inserting in place thereof the following chapter:

CHAPTER 5.

Assessing Department.

Section 1. There shall be in the city a department, known as the Assessing Department, which shall be under the charge of an officer, known as the Assessor of Taxes, appointed by the mayor for a term expiring on the first Monday of the January following the next biennial municipal election at which a mayor is elected. The assessor of taxes shall have the powers and perform the duties from time to time conferred or imposed on him by law. Except as provided in this chapter, he shall also have the powers and perform the duties conferred or imposed by law on the board of assessors in existence immediately prior to the taking effect of this ordinance; and except as so provided, he shall further have the powers and perform the duties from time to time conferred or imposed on assessors of cities in Massachusetts by general laws applicable to Boston.

Section 2. There shall be in the assessing department a board, known as the Board of Review, consisting of three members appointed by the mayor for a term expiring on the first Monday of the January following the next biennial municipal election at which a mayor is elected, of whom one shall be a registered architect or a professional civil engineer, one shall be a builder, one a certified public accountant or an attorney at law, and one a person with at least ten years' experience in real property management or as a real estate broker or appraiser, or as a property insurance broker or appraiser. The mayor shall

from time to time designate one of the members of said board as chairman thereof. Said board shall not be subject to the supervision or control of the assessor of taxes, but, unless otherwise ordered by the mayor, said board shall not communicate with the mayor, or make any annual or other report, except through the assessor of taxes. Said board shall have the powers and perform the duties from time to time conferred or imposed on the assessor of taxes by the general laws applicable to Boston with respect to applications for abatement (other than applications founded wholly upon a claim of exemption), and the powers and duties conferred on the assessor of taxes by section 3.

Section 3. Every application for abatement filed with the assessor of taxes shall, unless founded wholly upon a claim of exemption, be transmitted by the assessor to the board of review, which shall hear and determine the same and grant such reasonable abatement thereon as justice may require.

SECTION 16. The board of assessors in existence immediately prior to the taking effect of this ordinance is hereby abolished; and the powers, duties and appropriations of said board except those relating to applications for abatement (other than applications founded wholly upon a claim of exemption) after the filing thereof are hereby transferred to the assessor of taxes, the amount of the 15 of this ordinance; and the powers, duties and appropriations of said board relating to applications for abatement (other than applications founded wholly upon a claim of exemption) after they are filed, are hereby transferred to the board of review created in the assessing department by said section 15.

SECTION 17. Chapter 6 of the Revised Ordinances of 1947 is hereby amended by striking out section 6 and inserting in place thereof the following section:

Section 6. The auditor, at the close of each month, shall charge as an expenditure of a department the transaction, act, or neglect of which may create a claim against the city in settlement, on or execution, thereof, unless provision is made for such payment out of some other appropriation, shall charge the amount of any liability allowed by him for printing or binding furnished any department by the purchasing agent during such month, and shall charge the amount of any appropriation for the department to which the same was furnished, and shall credit such amount to the general revenue of the city; and shall charge to the department or to each of the departments, the works department, or to the appropriation for any special work, the amount of all bills for material, tools, machinery, or other supplies, or for such work, or for such work, by other divisions of said department, and shall credit such amount to the general revenue of the city. The cost of such materials, tools or machinery, when furnished by the water service, in which case the amount charged shall be credited to the water service.

SECTION 18. Section 8 of said chapter 6 is hereby amended by striking out all after the words "in the sinking funds"; and inserting in place thereof the words "which are not otherwise arranged so far as practicable to conform to the accounts of the city treasurer."

SECTION 19. Chapter 8 of the Revised Ordinances of 1947 is hereby repealed; and the department, including the office of budget commissioner, is hereby abolished; and the powers and duties and appropriations of said department are hereby transferred to the director of administrative services created by said section 13.

SECTION 20. Chapter 9 of the Revised Ordinances of 1947 is hereby repealed; and the building department (including the office of the building commissioner), the board of appeal, the board of examiners, and the board of examiners of gasfitters are hereby abolished; and the powers, duties and appropriations of the building department with respect to the acquisition and disposal of property, the making of contracts, and the appointment, suspension and discharge of subordinate officers and of subordinates are hereby transferred to the director of health and safety created by section 25 of this ordinance; and the powers, duties and appropriations of the building department are hereby transferred to the building division of the health and safety department created by said section 25; and the powers, duties and appropriations of the board of appeal are hereby transferred to the board of appeal created in said building division by said section 25; and the powers, duties and appropriations of the board of examiners are hereby transferred to the board of examiners of gasfitters created in said building division by said section 25; and the powers, duties and appropriations of the board of examiners of gasfitters are hereby transferred to the board of examiners of gasfitters created in said building division by said section 25.

SECTION 21. The powers and duties conferred or imposed on the city planning board by chapter 41 of the Revised Ordinances of 1933, and the powers and duties, are hereby transferred to the public improvement board created in the works department by section 55 of this ordinance.

SECTION 22. Chapter 4 of the Ordinances of 1932 is hereby amended by striking out in the second line the words "sections 1, 2 and 3," and inserting in place thereof the words "sections 2, 3 and 4," and by adding at the end of said chapter 4 the following paragraph:

Section 6. There shall be in the city planning department a board, known as the Board of Zoning Adjustment, consisting of the chairman of the city planning board, ex officio, and eleven other members appointed by the mayor as follows: one member from two candidates, and one alternate from two other candidates, nominated by the Boston Central Labor Union, one member from two candidates, nominated by the Greater Boston Chamber of Commerce, one member from two candidates, nominated by the Boston Real Estate Board, one member from two candidates, and one alternate from two other candidates, nominated, both in the case of the member and in the case of the alternate, one by The Boston Society of Architects and one by the Boston Society of Engineers, one member from two candidates, and one alternate from two other candidates, nominated by the Boston Motor Truck Association, Inc., one member from two candidates, and one alternate from two other candidates, nominated by the Massachusetts Real Estate Association, one member from two candidates, and one alternate from two other candidates, nominated by the Master Builders' Association of Boston, one member from two candidates, and one alternate from two other candidates, nominated by the United Improvement Association, and one member, and one alternate, selected at large by the mayor. All appointive members, and all alternates, shall be residents of, or engaged in business in, Boston.

The appointive members, and alternates, of the board of zoning adjustment in office immediately prior to the taking effect of this ordinance, shall, without further nomination or appointment, become the initial appointive members, and the initial alternates, of the board of zoning adjustment created by this ordinance and shall serve, in the case of the member and alternate appointed upon nomination of the Boston Central Labor Union, for a term expiring four years, in the case of the member and alternate appointed upon nomination of the Greater Boston Chamber of Commerce, for a term expiring four years, in the case of the member and alternate appointed upon nomination of the Boston Real Estate Board, for a term expiring four years, in the case of the member and alternate appointed upon nomination of The Boston Society of Architects, for a term expiring two years, in the case of the member and alternate appointed upon nomination of the Massachusetts Motor Truck Association, Inc., for a term expiring five years, in the case of the member and alternate appointed upon nomination of the Massachusetts Real Estate Association, for a term expiring two years, in the case of the member and alternate appointed upon nomination of the Master Builders' Association of Boston, for a term expiring three years, in the case of the member and alternate appointed upon nomination of the United Improvement Association, for a term expiring five years, and in the case of the member and alternate selected at large by the mayor, for a term expiring three years, respectively, from May 1, 1933.

As the term of any appointive member expires, his successor shall be appointed by the mayor in such number for a term of five years. Any vacancy in the office of an appointive member shall be filled in like manner. Whenever there is a vacancy in the office of any alternate expires, his successor shall be appointed in like manner as such alternate. Any vacancy in the office of an alternate member, filled in the same manner. Every person appointed an alternate shall be so appointed that his term will expire at the same time as the term of the member appointed in the same manner as such alternate. Whenever there is a vacancy in the office of an appointive member, or whenever an appointive member is unable to perform his duties, the alternate appointed in the same manner as such member shall exercise the powers and perform the duties of such member, but as an alternate shall not otherwise be deemed to be, or act as, a member of the board. The members of the board of zoning adjustment, and the alternates, shall not be subject to the supervision or control of the city planning board; and, unless otherwise ordered by the mayor, the board of zoning adjustment shall not communicate with the mayor, or make any annual or other report, except through the assessor of taxes. The board of zoning adjustment shall have the powers and perform the duties from time to time conferred or imposed on it by law, and shall have the powers and perform the duties

conferred or imposed by law on the board of zoning adjustment in existence immediately prior to the taking effect of this ordinance.

Section 23. The board of zoning adjustment in existence immediately prior to the taking effect of this ordinance is hereby abolished; and the powers, duties and appropriations of said board are hereby transferred to the board of zoning adjustment created in the city planning department by section 22 of this ordinance.

Section 24. Chapter 14 of the Revised Ordinances of 1947 is hereby repealed; and the collecting department, including the office of city collector, is hereby transferred to the board of zoning adjustment created in the city planning department by section 22 of this ordinance.

Section 25. The Revised Ordinances of 1947 are hereby further amended by inserting after chapter 15 the following new chapter:—

CHAPTER 15A.

Health and Safety Department.

Section 1. There shall be in the city a department, known as the Health and Safety Department, which shall be under the charge of a board, known as the Board of Health and Safety, consisting of five officers, known as the Directors of Health and Safety, who shall be chairman of the board, an officer, known as the Building Commissioner, who shall have at least ten years' experience as an architect, builder or civil engineer, an officer, known as the Health Commissioner, who shall have been registered under section 2 of chapter 112 of the General Laws as a duly qualified physician for at least ten years, and the chairman of the Boston traffic commission and the director of hospitals, ex officio. The director of health and safety, the building commissioner and the health commissioner shall severally be appointed by the mayor for a term of three years, and shall be eligible for reappointment in the next biennial municipal election at which a mayor is elected.

Section 2. There shall be in the health and safety department such divisions as the board of health and safety shall from time to time deem necessary for the proper conduct of the department, but including a building division, a fire division, a health division, a registry division, and a weights and measures division. Except as otherwise expressly provided, the board of health and safety shall exclusively have the powers, and perform the duties, of a department head with respect to the acquisition and disposal of property, the making of contracts, and the appointment, suspension, discharge, compensation and indemnification of subordinates for the department, including not exceeding thirty building inspectors for the building division, a fire chief and deputy fire chiefs for the fire division, a health commissioner, one or more medical inspectors for the health division, a city registrar and a city registrar for the registry division, and a sealer, a city deputy sealer and not exceeding three deputy sealers for the weights and measures division. The director of health and safety, before calling before him a member of the fire division for a hearing on charges, shall give such member at least twenty-four hours' notice of the charges, and shall allow him to be represented at said hearing by counsel.

Section 3. It shall be the duty of the board of health and safety, and more especially of the director of health and safety, to cause to be made by the several divisions of the department to the end that there may be efficient and concerted action by the department as a whole. The board of health and safety shall also have the powers and perform the duties conferred or imposed on the board of street commissioners by chapter 148 of the General Laws, as amended, by chapter 377 of the acts of 1912, as amended, and by chapter 488 of the acts of 1924, as amended. The board of health and safety shall also have the powers and perform the duties conferred or imposed on the board of street commissioners by chapter 477 of the acts of 1938 in relation to street traffic other than vehicular street traffic and to street carriages, processions, and other organized formations of persons or vehicles.

Section 4. The building division shall be under the charge of the building commissioner, who, with the written approval of the mayor, may designate one of the building inspectors to be appointed for said division as his deputy to exercise all the powers of building commissioner in case of absence or disability. Except as otherwise expressly provided, the director of health and safety, building commissioner shall have the powers and perform the duties conferred or imposed by law on the office of building commissioner in existence immediately prior to the taking effect of this ordinance, and shall also have the powers and perform the duties from time to time conferred or imposed on the inspectors of buildings of cities in Massachusetts by general laws applicable to Boston. The building commissioner shall further have the powers and perform the duties from time to time conferred or imposed on him by law. Unless otherwise ordered by the mayor, the building commissioner shall communicate with the mayor, or minister, annually, or other report except a recommendation as to an amendment of the Boston Building Code, otherwise through the board of health and safety.

Neither the building commissioner, nor his deputy, nor any inspector or employee in the building division engage in any other work which is inconsistent with his duties or with the interests of said division; and neither said commissioner nor

his deputy nor any such inspector or employee shall be financially interested in the furnishing of labor, material or appliances for the construction, alteration or maintenance of a building or in the making of plans or specifications therefor, unless he is the owner of such building. No person shall be appointed as a building inspector who has not had at least five years' experience as a builder, civil engineer or architect, or as a superintendent, foreman or competent mechanic in charge of construction of buildings, and no person shall be appointed to apply to the members of the board of appeal or of the board of examiners or to any member of the board of examiners of gasfitters other than the building commissioner.

Section 5. There shall be in the building division a board, known as the Board of Appeal, consisting of five members appointed by the mayor as follows: one member from two candidates nominated, one by The Boston Society of Architects and one by the Boston Society of Civil Engineers, one member from two candidates nominated by the Building Trades Council of Boston and Vicinity, one member from two candidates nominated, one by the Boston Real Estate Board, one by the Massachusetts Real Estate Association, one member from three candidates nominated, one by the Master Builders Association of Boston, one by the Building Trades Employers Association of the City of Boston and one by the Associated General Contractors of Massachusetts, Inc., and one member from three candidates nominated by the members of the board of appeal shall be residents of, or engaged in business in, Boston. The members of the board of appeal appointed by the mayor prior to the taking effect of this ordinance shall, without further nomination or appointment, be eligible for reappointment to the board of appeal created by this ordinance and shall serve in the case of the member appointed upon nomination of The Boston Society of Architects or the Boston Society of Civil Engineers, for a term of three years, in the case of the member appointed upon nomination of the Building Trades Council of Boston and Vicinity, for a term of two years, in the case of the member appointed upon nomination of the Boston Real Estate Board or the Massachusetts Real Estate Association, for a term of two years, in the case of the member appointed upon nomination of The Master Builders Association of Boston, the Building Trades Employers Association of the City of Boston or the Associated General Contractors of Massachusetts, Inc., for a term expiring three years, and, in the case of the member elected by the mayor, for a term expiring four years, respectively, from May 1, 1953. As the term of any initial, or of any subsequent, term of any member of the board of appeal, appointed in like manner as such member for a term, expires, vacancies in the board shall be filled by the same method as for the unexpired term. No member of the board shall serve in any case in which he has a personal interest; and when a member is so disqualified or absent or when there is a vacancy in the board, the remaining members shall designate a substitute.

The board of appeal shall not be subject to the supervision or control of the board of health and safety or of the building commissioner; but unless otherwise ordered by the mayor, the board of appeal shall have the entire care and maintenance of the board of health and safety.

The board of appeal shall have the powers and perform the duties from time to time conferred or imposed on it by law. It shall also have the powers and perform the duties conferred or imposed by law on the board of appeal in existence immediately prior to the taking effect of this ordinance.

Section 6. There shall also be in the building division a board, known as the Board of Examiners, consisting of three members appointed by the mayor, of whom one shall be an architect or engineer, one shall be a civil engineer, and one shall be a contractor or person well qualified in the supervision of construction work with at least five years' experience in the city, and one an attorney at law, all elected by the mayor. The members of the board of examiners in office immediately prior to the taking effect of this ordinance shall be eligible for reappointment to the board of examiners of the board of appeal created by this ordinance and shall serve according to the terms of their respective terms of office, and their successor shall be appointed by the mayor for a term of three years. Vacancies in the board shall be filled by the mayor for the unexpired term.

The board of examiners shall not be subject to the supervision or control of the board of health and safety or of the building commissioner, but shall have the entire care and maintenance of the board of examiners shall not communicate with the mayor, or make any annual or other report, except through the board of health and safety.

The board of examiners shall have the powers and perform the duties from time to time conferred or imposed on the board of examiners of cities in Massachusetts by general laws applicable to Boston, and shall also have the powers and perform the duties conferred or imposed by law on the board of examiners in existence immediately prior to the taking effect of this ordinance.

Section 7. There shall also be in the building division a board, known as the Board of Examiners of Gasfitters, consisting of the building commis-

sioner and the health commissioner, ex officio, and a member appointed by the mayor. The appointive member shall be a licensed master gasfitter who shall have been continuously engaged in business as a gasfitter for at least five years immediately preceding his appointment. The appointive member of the board of examiners of gasfitters in office immediately prior to the taking effect of this ordinance shall, without further appointment, become the initial appointive member of the board of examiners of gasfitters of the city of Boston, and shall serve for a term expiring on May 1, 1954. As the term of the initial, or of any subsequent, appointment expires, his successor shall be appointed by the mayor for a term of one year. Any vacancy in the office of the appointive member shall be filled by the mayor for the unexpired term. The board of examiners of gasfitters shall not be subject to the supervision or control of the board of health and safety or of the building commissioner, except as a member of said board of examiners of gasfitters; but unless otherwise ordered by the mayor, the board of examiners of gasfitters shall not communicate with the mayor, or make any annual or other report, except through the board of health and safety.

The board of examiners of gasfitters shall have the powers and perform the duties from time to time conferred or imposed on it by law. It shall also have the powers and perform the duties conferred or imposed by law on the board of examiners of gasfitters in existence immediately prior to the taking effect of this ordinance.

Section 8. Except as otherwise provided in section two of this chapter, the fire division shall be under the charge of the fire chief, who shall have full charge of fire fighting in the city and the protection of life and property from fire, and shall have full authority, in case of a conflagration, to summon and keep on duty all members of the fire fighting corps in the city, to station them, and may extend, on such occasions and to such extent as, with the approval of the director of health and safety, may be deemed necessary, the aid of the fire division to another city, town or fire district in Massachusetts or in an adjoining state, or to suppress fires, and to perform the duties from time to time conferred or imposed on him by law, shall also have the authority given the chief of the fire department of the city of Boston by the acts of 1895 to prevent persons from coming within certain lines in case of fire, and, except as otherwise provided in section two of this chapter, shall further have the powers and perform the duties from time to time conferred or imposed on the head of the fire department of the city of Massachusetts by general laws applicable to Boston, and, except as so otherwise provided in said section two, shall, in addition, have the powers and perform the duties from time to time conferred on the office of fire commissioner in existence immediately prior to the taking effect of this ordinance. The board of health and safety, through the board of health and safety the location and number of fires that occurred in the preceding month, the cause of the fires, the amount of property destroyed thereby; and said board shall, in its annual report, include a brief summary of such matters. Unless otherwise ordered by the mayor, the fire chief shall not communicate with the mayor, or make any annual or other report, except through the board of health and safety.

Section 9. There shall be in the fire division a bureau, known as the Fire Alarm Bureau, in which there shall be an officer, known as the Superintendent of Fire Prevention, who shall be elected by the mayor, and shall, with the approval of the director of health and safety, shall from time to time designate. The superintendent of fire alarm, under the direction of the fire chief, have the entire care and maintenance of the wires, posts, machinery, and appliances of the fire alarm telegraph and telephone system, shall have that all such wires, posts, machinery, and appliances are maintained in proper condition, and shall keep in his office a map showing the locations of the same.

Section 10. There shall also be in the fire division a bureau, known as the Fire Prevention Bureau, in which there shall be an officer, known as the Superintendent of Fire Prevention, who shall be elected by the mayor, and shall, with the approval of the director of health and safety, shall from time to time designate. The superintendent of fire alarm, under the direction of the fire chief, investigate the cause and circumstance of every fire and explosion, cause inspections for the purpose of preventing fires and explosions, and enforce the ordinances, rules and regulations designed to prevent fires and explosions.

Section 11. There shall be further in the fire division a bureau, known as the Electrical Inspection Bureau, in which there shall be an officer, known as the Superintendent of Electrical Inspection, appointed by the mayor, and shall, with the approval of the director of health and safety, shall under the direction of the fire chief, have the powers and perform the duties conferred or imposed by statute on the wire commissioner and on the fire commissioner as successor to the wire commissioner, and carry out the provisions and requirements of the laws relating to inspection of wires and the installation and use of electrical conductors and appliances in buildings in the city of Boston.

Section 12. If any member of the fire fighting force or fire alarm bureau of the fire division is required to work on January first, February

SECTION 43. Section 1 of chapter 27 of the Revised Ordinances of 1947 is hereby amended by striking out the words "The department of public works shall be under the charge of the commissioner of public works, who shall be a civil engineer of recognized standing in his profession;" and inserting in place thereof the words "There shall be in the city a department, known as the Public Works Department, which shall be under the charge of an officer known as the Commissioner of Public Works, who shall be a civil engineer of recognized standing in his profession appointed by the mayor for a term expiring on the first Monday of January next following the next municipal election at which a mayor is elected."

SECTION 44. Said chapter 27 is hereby amended by striking out section 2 and inserting in place thereof the following section:

Section 2. The commissioner of public works shall have the jurisdiction vested by statute in the board of street commissioners in relation to the planting and removal of trees in the public ways and to the use of public ways for any temporary obstruction or projection in, under or over the same; but such jurisdiction shall only be exercised in cases where it is necessary for the convenience or safety of travel, or for the preservation of the city or harbor. The commissioner shall also have the powers and perform the duties conferred or imposed by statute on the board of street commissioners in relation to the use of parts of public ways for the storage and sale of merchandise.

SECTION 45. Section 6 of said chapter 27 is hereby amended by striking out, in the last sentence, the word "collector" and inserting in place thereof the word "treasurer".

SECTION 46. Section 9 of said chapter 27 is hereby amended by striking out, in clause 2, the words "park department" and inserting in place thereof the words "parks and recreation department".

SECTION 47. Section 12 of said chapter 27 is hereby amended by striking out the words "street commissioners" and inserting in place thereof the words "public improvement board".

SECTION 48. Said chapter 27 is hereby further amended by striking out section 13 and inserting in place thereof the following section:—

Section 13. The commissioner shall issue such a permit to a building mover actually engaged in the business, for the purpose of moving a building or other structure, on condition that the applicant shall be those stated in section nine of this chapter; provided, that an application for such permit, describing the locations from and to which the building or other structure is to be moved, the length, width and height of the building, and the principal material of its exterior and roof, and accompanied by the written consent of the building commissioner to the placing of the building on the new site, shall be submitted to the commissioner. Whenever it appears that the moving of a building will encumber the tracks of any railroad corporation, a public hearing shall be held by the commissioner upon the subject before such permit is issued.

SECTION 49. Section 14 of said chapter 27 is hereby amended by striking out, wherever appearing in said section, the words "street commissioners" and inserting in place thereof, in each instance, the words "public improvement board".

SECTION 50. Section 15 of said chapter 27 is hereby amended by striking out, wherever appearing in said section, the words "street commissioners" and inserting in place thereof, in each

SECTION 53. Section 28 of said chapter 27 is hereby amended by striking out, wherever appearing in clause 5, the word "collector" and inserting in place thereof, in each instance, the word "treasurer".

SECTION 54. Said chapter 27 is hereby amended by striking out section 29 and inserting in place thereof the following section:

thereof the following section:

Section 87. The commission shall otherwise provided by statute. The commissioners of public works shall have full charge of all engineering work of every nature and description connected with all public works and all public improvements, and shall make such surveys, plans, estimates, statements and descriptions, and take such levels, as any officer of the city may need in the discharge of his duties, and shall have the custody of all surveys and plans relating to the laying out, relocating, widening, repairing, constructing, improving or altering, and maintaining, bridges, streets, sewers, drains, canals, ditches, levees, locks, dams, wharves, piers, harbors, docks, basins, and other structures, and repairs, and discontinuing public ways and alleys.

SECTION 55. Said chapter 27 is hereby further amended by striking out sections 35 and 36 and inserting in place thereof the following sections:—
Section 35. The commissioner shall, in his

annual report, include a statement of the repairs and expenditures on each street and each bridge under his charge, of the number of times each draw of a bridge has been opened for the passage of vessels, of the number of vessels laden with cargo that have passed through each draw, of the number of water takers and the purposes for which the water is taken, of the number and kind of water meters installed during the previous year, of the number and kind of water meters in use, and of the number of cases where the water has been

shut off, and of the number and amount of abatements which have been made during the preceding year on water rates.

Section 36. There shall be in the public works department a board, known as the Public Improvement Board, consisting of the commissioner of public works, the commissioner of health, the director of health and safety, ex officio. The public improvement board shall not be subject to the provisions of chapter 15, section 1, of the acts of 1933, insofar as the provisions of said chapter relate to the appointment of public works except as he acts as a member of said board; but unless otherwise provided in the acts of 1933, the public improvement board shall not communicate with the mayor, or make any annual or other report, except through the commissioner of public works. The public improvement board shall have the power to perform all duties conferred or imposed by statute on the board of street commissioners except (a) those conferred or imposed by section 15 of chapter 15 of the acts of 1933, and safety by section three of chapter fifteen A of these ordinances, (b) those conferred or imposed on the commissioner of public works by section two of the chapter and section forty of chapter forty of these ordinances, and (c) those conferred or imposed on the real property board by section 15 of chapter 15 of the acts of 1933, and safety by section 15 of chapter 15 of the acts of 1933. The public improvement board shall also have the powers and perform the duties conferred or imposed on the planning board by chapter 414 of the acts of 1933.

SECTION 56. The Revised Ordinances of 1947 are hereby further amended by inserting after chapter 27 the following new chapter:—

CHAPTER 27.A.

Real Property Department.

Section 1. There shall be in the city department, known as the Real Property Department, which shall be under the charge of a board, known as the Board of Real Property Commissioners, known as the Commissioner of Real Property, appointed by the mayor, who shall be chairman of the board, three other commissioners and one man of the board of street commissioners as an associate commissioner of the Boston traffic department, an officer, known as the associate commissioner of Real Property, appointed by the mayor, and three other officers, known as Associate Commissioners of Real Property, who shall be ex officio, and two other persons appointed by the mayor. The commissioner of real property and the associate commissioner of real property shall each be appointed for a term expiring on the first Monday of the January following the next biennial election, and shall devote their whole time to the work. The associate commissioners first appointed shall be appointed to hold office until their terms expire, respectively. The appointments for terms commencing upon their respective dates of appointment and expiring, in the case of one associate commissioner, on the first Monday of the January following the next biennial election, and in the case of the other associate commissioner, two years, from May 1, 1954. As the term of any such associate commissioner, or of any associate commissioner, shall expire, his successor shall be appointed by the mayor for a term of two years. Any vacancy in the office of the commissioner of real property shall be filled by the mayor for the unexpired term. The associate commissioners of real property shall be appointed by the mayor for the unexpired terms as such associate commissioners.

Section 2. The mayor shall appoint from the real property board a committee consisting of the chairman and two other members to be known as the Committee on Foreclosed Real Estate. Said committee shall have the powers and perform the duties conferred or imposed by law on the committee on foreclosed real estate established under section 4 of chapter 134 of the acts of 1942.

section 4 of chapter 434 of the acts of 1943. The said section 4 of chapter 434 of the acts of 1943 shall be amended to read as follows: "The said superintendent shall exclusively have the powers and perform the duties of a department head with respect to the appointment, suspension, discharge, compensation and promotion of the assistant commissioners of the department, including an auctioneer, who shall have the powers and perform the duties prescribed by chapter 434 of the acts of 1943. The said superintendent shall also be a superintendent of markets, who, subject to the supervision and control of the assistant commissioner of the department, shall have the powers and control of a Faneuil-hall market and Faneuil-hall market limits; shall preserve order therein; shall remove all chickens, swine, place or allow to be placed in said market said pigs, and other animals and appliances, as he may deem proper; and shall take and forthwith destroy any article of food or other thing unfit for human consumption, or tainted, and is kept for sale within such market limits. Said superintendent may assign standing orders and such other orders, regulations, rules and other articles, and may, at the expense of the owner thereof, remove from one place or stand to another place or stand, or remove from one place, in a proper storage place until the expense is paid, any merchandise, vehicle or animal, not under the charge of the said superintendent, and may remove on the direction of said superintendent."

Section 4. The real property board shall have the powers and perform the duties conferred or imposed on the board of real estate commissioners by chapter 434 of the acts of 1943, as amended, and by chapter 474 of the acts of 1946, as amended.

The real property board shall also have the powers and perform the duties conferred or imposed by statute on the board of street commissioners in relation to the abatement of taxes.

Section 5. The commissioner of real property shall have the powers and perform the duties conferred or imposed on him by these ordinances, and shall also have the powers and perform the duties conferred or imposed on the chairman of the board of real estate commissioners by chapter 434 of the acts of 1943, as amended.

Section 6. The assistant commissioner of real property shall have the care, custody and management of, shall make all repairs in and upon, and shall keep in good order and repair, all the city and parish buildings belonging to, or hired by the city, not wholly in charge of one department, or for which no other provision is made by statute or ordinance, whether the same are used for city or parish purposes. He shall, at the request of the mayor, hire such buildings or rooms as may be required for such purposes; shall have the care and control of the city hall and the city hall annex; shall display the national flag on the city hall in front of the city hall and the old state house; shall display the national flag upon the city hall on every day, except Sundays, weather permitting; shall provide for the care and maintenance of the uniforms provided by the city for the militia; and shall cause to be included in the annual report of the real property board a statement of the kind and amount of repairs made in the city and parish buildings belonging to or used by the city, and of the land and appurtenances thereof, of the condition of such buildings and land, and the nature and amount of repairs made in and upon the same during the preceding year relative thereto.

Section 7. The assistant commissioner of real property shall have the authority to issue a manager's permit for the use of Faneuil hall, shade, weather permitting, on any day except Sundays, display the national flag upon the building in which said hall is located, shall, upon vote of the city council approved by the mayor, permit the use of said hall, and shall be paid therefor in advance, for opening, heating, lighting, cleaning, and other expenses, and shall, unless otherwise provide, in the daytime a fee of fifteen dollars and in the evening or on Sunday a fee of twenty-five dollars, and shall hold all persons signing the application for such permit jointly and severally liable for all damage done to said hall at any time, and shall be liable with the meeting for which such sum is so granted.

Section 8. The assistant commissioner of real property shall lease, from time to time, by instruments approved as to form by the corporation counsel and approved in writing by the mayor, the stalls, cellars, and second floor in Faneuil-hall market for terms of three years from October 1, 1933, and at the expiration of such leases for further terms of three years, at the rents established by the city council and upon such other terms and conditions as may be approved by the corporation counsel and the mayor.

Section 2. The assistant commissioners of real property shall have the care, custody and management of the Dillaway house, so called, in the Roxbury district of the city, may establish rules and regulations for the use and preservation of said house as a historical relic of the revolutionary war, and may, upon vote of the city council approved by the mayor, let or lease the whole or any part of said house to a historical society or other association organized for historical purposes.

Section 37, Chapter 28 of the Revised Ordinances of 1947 is hereby repealed; and the real estate department, including the board of real estate commissioners, is hereby abolished; and the powers, duties and appropriations of the real estate department, the board of real estate commissioners, the committee on foreclosed real estate, and the chairman of said board are hereby respectively transferred to the real property department, the real property board, the committee on foreclosed real estate, and the commissioner of real property to test the action of this ordinance.

HIGHWAY CONSTRUCTION FINANCED BY STATE FUNDS.

The following was received:

Office of the Mayor, November 30, 1953.
To the City Council.
Gentlemen:

I transmit herewith communication received by me this day from the Corporation Council relative to your order of November 9, 1953, requesting him to draft legislation whereby the planning, designing, direction, and supervision of all roads and highway construction in any city or town, even though financed by state funds, be the sole responsibility of the city or town, with the commonwealth retaining only supplementary supervision of construction.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Law Department, November 30, 1953.
Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:
Under date of November 10, 1953, your Honor transmitted to me a copy of the following order requested by the City Council on the preceding day:

"Ordered, That the Corporation Council be requested, through his Honor the Mayor, to draw up legislation to be submitted to the incoming Legislature whereby the planning, designing, direction, and supervision of all roads and highway construction in any city or town, even though financed by state funds, be the sole responsibility of the city or town, with the commonwealth retaining only supplementary supervision of construction."

Pursuant to the above-quoted order, I have caused to be prepared and submit herewith to the City Council through your Honor a petition for the enactment by the Massachusetts Legislature of a statute which, in my opinion, would achieve the objective of the order without imperiling the state aid involved and which, apart from its title and emergency preamble, would read as follows:

"Any provision of general or special law to the contrary notwithstanding, no land shall be taken for highway, parkway or other public purposes by the state or department of public works, the metropolitan district commission or any other board or officer of the commonwealth until the board or officer having charge of the

laying out of public ways in the city or town where such land lies shall have approved in writing the location, direction and width of such highway, parkway or boulevard; and any provision of general or special law to the contrary notwithstanding, no highway, parkway or boulevard shall be constructed in any city or town by said department or commission or by any other board or officer of the commonwealth, until the board or officer having charge of the ordinary repair of public ways in such city or town shall have approved in writing the grade, pavement and method of construction of such highway, parkway or boulevard."

If the enclosure meets with the approval of the City Council, it should take appropriate steps to have the same signed and sealed by its own officers.

Respectfully,

WILLIAM L. BAXTER, Corporation Counsel.

Annexed hereto is the petition referred to in the above communication.
Referred to the Executive Committee.

During the fire, Hoseman Arthur C. Morton of Engine Company 16, who was operating a line inside the building, was thrown into the cellar due to the sudden collapse of the roof and floor, and was trapped in the wreckage.

Deputy Chief Walter E. Crouch of Division 3 warned other members away and slid down the line of hose into the cellar followed by Lieut. James G. Boles of Ladder Company 6 and Hoseman John E. Kelly of Engine Company 16. They reached Hoseman Morton who was unconscious and, at great personal risk and without thought of their own safety, they succeeded in removing the wreckage, freeing Hoseman Morton and carrying him to a place of safety.

Because of their prompt action, they undoubtedly saved Hoseman Morton from possible suffocation and further injury.

The Fire Commissioner is pleased to highly commend Deputy Chief Walter E. Crouch, Lieut. James G. Boles, and Hoseman John E. Kelly and their cases are referred to the Board of Merit for further consideration.

IX. COMMENDATIONS.

The Fire Commissioner is pleased to commend Capt. John J. Collins of Ladder Company 26 for aid rendered to Patrolman Harold MacDonald of Police Division 10 whom he took to the Boston City Hospital after the patrolman had

been shot in the chest by a fleeing hold-up man on November 25, 1933. The prompt assistance rendered by Captain Collins made it possible for the partner of Patrolman MacDonald to capture the driver of the car involved in the holdup. The Fire Commissioner is in receipt of a letter from Police Commissioner Thomas F. Sullivan commending Captain Collins for his fine work.

Lieut. George E. Graney of Engine Company 1 is hereby commended for responding to and working at fire, Box 7136, on December 2, 1933, while off duty.

By order of Fire Commissioner JOHN F. COTTER.

JOHN V. STAPLETON,
Chief of Department.

The following is a statement showing the number of new buildings for purposes of habitation, together with the number of family accommodations provided thereby, for the erection of which applications were filed with the Building Department of the City of Boston during the

Proposals for Furnishing and Erecting Chain Link Fence in City Yard, Ward 18, at Dana Avenue.

The Commissioner of Public Works of the City of Boston, Room 508 (Contract Office), City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for furnishing and erecting chain link fence in City Yard, Ward 18, at Dana Avenue. A bond will be required for doing the work and company surety accepted by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508 (Contract Office), City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Furnishing and Erecting Chain Link Fence in City Yard, Ward 18, at Dana Avenue," and left at Room 508 (Contract Office), fifth floor, City Hall Annex, before 2 P.M. of TUESDAY, DECEMBER 29, 1953, with a certified check for ONE HUNDRED FIFTY (150) DOLLARS payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the Hearing Room of the Street Commissioners, Room 401, City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 508, City Hall Annex. There shall be no charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

the ability to read and understand the elementary formulas used in simple actuarial calculations.

Subjects and Weights: Training and experience, 2; practical questions, 3; total, 5.

Passing Requirements: Applicants must obtain at least 70 per cent in each subject in order to become eligible.

RECENT FEDERAL ACTIONS AFFECTING CITIES.

The Housing Act of 1949, approved on July 15, authorized a uniform 10 per cent payment to cities in lieu of taxes on housing projects, but the independent offices appropriation bill passed on August 15 contains a provision that for the fiscal year ending June 30, 1950, only payments provided for in the original contract between the housing authority and the city are authorized for federal reimbursement.

Federal aid for hospital construction has been approved for nearly 800 projects; more than 600 are general hospitals and the great majority are in towns of under 10,000 population.

INSTITUTIONS DEPARTMENT.

INVITATION FOR PROPOSALS FOR HEATING SYSTEM FOR OCCUPATIONAL THERAPY BUILDING, LONG ISLAND HOSPITAL, BOSTON HARBOR, MASS.

The Commissioner of Institutions of the City of Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for heating system for Occupational Therapy Building, Long Island Hospital, Boston Harbor, Mass.

Proposals will be received until 12 o'clock noon, Monday, December 21, 1953, at the office of the Awarding Authority, eleventh floor, 1109 City Hall Annex, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and enclosed in a sealed envelope plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of 10 per cent of the bid, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide for insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

Plans and specifications may be obtained at the office of the Awarding Authority. A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, is required of the successful general contractor.

The Awarding Authority reserves the right to waive any inimitations and to reject any and all bids if it be in the public interest so to do.

Proposals for Repairs to the Malden Bridge, over Mystic River.

The Commissioner of Public Works of the City of Boston, Room 508 (Contract Office), City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least one half thereof is owned by a citizen or citizens of the United States, for the repairs to the Malden Bridge, over Mystic River. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508 (Contract Office), City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Repairs to the Malden Bridge, over Mystic River," and left at Room 508 (Contract Office), fifth floor, City Hall Annex, before 2 P.M. of WEDNESDAY, DECEMBER 23, 1953, with certified check for TWO THOUSAND (2,000) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the Hearing Room of the Street Commissioners, Room 401, City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 508, City Hall Annex. There will be a charge of two dollars (\$2) for each 100 plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application thereof at the office of the Commissioner of Public Works. VETERANS' SERVICES EXPENDITURES FOR THE MONTH OF SEPTEMBER SHOW DECREASE OF \$33,750.85—1,364 CASES AIDED, TAKING CARE OF 2,395 INDIVIDUALS—107 CASES CLOSED OUT DUE TO EMPLOYMENT AND COMPENSATION CONTRIBUTIONS TO APPLICANTS.

For the month of September expenditures for veterans' benefits show a decided decrease from the same period of the year previous, according to the figures of Francis X. Cotter, Commissioner, in his report to Mayor John B. Hynes. The decrease amounted to \$33,750.85. This was despite the fact that 1,364 cases were aided during the month, representing 2,395 individuals. The complete report is presented in the following letter to the Mayor:

Boston, December 14, 1953.

HON. JOHN B. HYNES,

Mayor of Boston.

SIR:

I have the honor to submit the report of the Department of Veterans' Services for the month of September, 1953.

Very truly yours,

FRANCIS X. COTTER, Commissioner.

SERVICES OF THREE PLANNING BOARD CONSULTANTS CONTINUED.

(Continued from page 1684.)

Honor approved three separate contracts, each to cover the period May 15, 1953, to December 31, 1953, between the City of Boston, acting by its Planning Board, and certain specialists to act as consultants to the Board, the names and contract amounts being as follows:

Adams, Howard and Greeley, 15 Ash street, Cambridge, Mass., as consultant, \$7,000.

Allen Benjamin, Wayland, Mass., technical consultant, \$2,200.

Leo Schwartz, 294 Washington street, Boston, Mass., legal consultant, \$2,200.

On December 3, 1953, at a meeting of the City Planning Board, the following vote was taken:

"That the contract sum, as stated in the current separate contracts between the City of Boston, acting through this Board, and Allen Benjamin and Leo Schwartz, respectively, be each increased in the amount of \$840; that the contract sum as stated in the current contract, between the City of Boston, acting through this Board, and Adams, Howard and Greeley, be increased in the amount of \$1,000; that the contract period of each contract covered by this vote be extended to March 31, 1954; and, subject to the authorization of his Honor the Mayor therefor, that appropriate amendments be executed to carry out this vote, the Chairman being hereby authorized to sign the amendments on behalf of this Board."

Therefore, if the proposed action meets with your approval, your authorization is respectfully requested to dispense with public advertising and to amend the subject contracts with Allen Benjamin and Leo Schwartz by increasing the contract sum of each in the amount of \$840 and to amend the existing contract with Adams, Howard and Greeley by increasing the contract sum in the amount of \$1,000 and to extend the term of each of the said contracts to March 31, 1954.

The above-named specialists are to carry on their needed and invaluable services for the additional three-month period at the same rates per day as set forth in the existing contracts, and, in view thereof and because of the technical nature of the services involved, it is not felt that public advertising would be of any avail.

Respectfully yours,
THOMAS F. McDONOUGH,
Chairman.

TRAFFIC COMMISSION RULING.

Voted, That as urgently required by considerations of public safety and convenience, during the period of underground construction by the New England Telephone & Telegraph Company, estimated to be thirty (30) days, parking of vehicles is prohibited in the following street, when and where official signs are in place, effective December 8, 1953:

Belgrade Avenue, West Roxbury.
Southeast side, from Centre street to Colberg avenue.

NEW CONTRACT FOR PURCHASE OF GARBAGE.

(Continued from page 1683.)

the awarding of a contract to Kristoff Brothers, of Sterling Junction, Mass., for the purchase of garbage on the basis of the bid submitted under Alternate Item (A), in the amount of \$1,000, for a 15-month period, from January 1, 1954, to March 31, 1955. Bidders were invited to submit proposals on the basis of Alternate Items (A), (B), or (C), or on all three items. The above-referenced bidder, as stated in my communication of November 25, was the only bidder, and submitted bids on all three items.

However, representatives of Kristoff Brothers called at this office this morning, and stated they could not accept the contract for 15 months because of the comparatively short contract period involved, taking into consideration the large expenditure that they will be required to make to provide the cooking facilities required under the provisions of chapter 655 of the Acts of 1953. In fact, the contractor stated that if I insisted on having him accept the contract on a 15-month basis, he would prefer to withdraw and allow the city to retain the \$1,000 certified check that was deposited with the original bid, which was opened under date of Thursday, November 19.

The contractor's representatives informed me that they are not familiar with bidding procedures, and they felt that they were required to submit a bid under all three alternate items, but assumed that they would not be required to accept a contract awarded under the short term unless agreeable to them. In any event, they will not accept the contract for the 15-month period.

Under the circumstances, I can confiscate their \$1,000 check and readvertise for bids, or I can recommend that the contract be awarded under the basis of Item C for a 39-month period, which is the contract period agreeable to the bidder.

Having in mind that we received only one bid in response to our previous advertisement, it does not appear that it would be good judgment at this time to readvertise for bids. If we received no bids, we would be confronted with a serious situation on January 1 in disposing of the garbage collected in the Dorchester area, which comprises approximately 200,000 persons and is the largest district in the city. Under the circumstances, therefore, I recommend the rescinding of my previous letter of November 25, which recommended the approval of the award of a contract to Kristoff Brothers for a 15-month period, and which was approved by you under date of December 1.

I now respectfully request your approval of the awarding of a contract, on the basis of the publicly advertised bids that were opened on November 19, to the sole bidder, Kristoff Brothers, of Sterling Junction, Mass., for the purchase of garbage for a 39-month period, from January 1, 1954, to March 31, 1957, at the total bid price of \$15,000 for such period.

Respectfully yours,

GEORGE G. HYLAND,
Commissioner of Public Works.

The above plan supersedes the proposal of November 25, which read as follows:

PUBLIC WORKS DEPARTMENT.

BOSTON, November 25, 1953.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

Your approval is respectfully requested to the award of a contract for the purchase of garbage to Kristoff Brothers, Sterling Junction, Mass., the lowest formal and only bidder, for the period from January, 1954, to March 31, 1955 (15-month period), inclusive, in the amount of \$1,000, to be paid by the contractor to the City of Boston.

The following bid was received November 19, 1953, after advertising in the City Record November 7, 1953:

Bidder, Kristoff Brothers.

Amount to be paid to City of Boston:

Period from January 1, 1954, to

March 31, 1955 (15 months) \$1,000.

Period from January 1, 1954, to

March 31, 1956 (27 months) \$8,000.

Period from January 1, 1954, to

March 31, 1957 (39 months) \$15,000.

Under the provisions of chapter 655 of the Acts of 1953, the feeding of raw garbage to hogs will be prohibited after January 1, 1954. Hog raisers will be required to cook garbage in accordance with accepted standards determined by the State Department of Public Health. The cost, therefore, of processing the garbage for hog feed will be substantially increased. It is my understanding that the initial cost of providing the boilers and other apparatus needed to cook the garbage will vary from \$15,000 to \$25,000.

This substantial increased cost to the hog farmer in processing the garbage is reflected in the bid—and also in the lack of bids—that we received on November 19 for the purchase of garbage delivered to the Victory Road Receiving Station. At the present time we are receiving \$3,000 a month for this garbage under the provisions of the three-year contract which will expire next December 31. Under the circumstances, we will receive a total of \$108,000 for the garbage over the three-year period involved in the present contract, which, incidentally, was the first contract of its kind ever entered into by the department.

As the result of publicly advertising for bids that were opened on November 19, we received only one formal bid for the purchase of the garbage, for the contract period starting January 1, 1954. An informal bid was received from a hog raiser who agreed to remove the garbage for a 39-month period if the city would pay a total of \$193,537 to the bidder. The bid is so excessive that no consideration should be given to accepting it, even if we could legally do so.

The only formal bid was received from Kristoff Brothers, of Sterling, Mass. The latter-referenced now purchase garbage from the current contractor, Kennedy Brothers. The bid submitted by Kristoff Brothers provides that the contractor will pay the city approximately \$66.67 per month for the garbage under a 15-month contract; \$296.29 a month under a 27-month contract; and \$384.61 a month on a 39-month contract.

These bids should receive more than normal scrutiny, in view of the fact that they are so much lower than the current contract price. Apparently, the bidder is of the opinion that the cost of cooking the garbage will be excessively high and has, therefore, bid accordingly.

However, I feel that after the hog raisers have operated the cooking process for a six- or an eight-month period, they will find that it is not so excessive as they thought it would be, with the result that we might be able to obtain higher bids 15 months from now than at the present time.

Under these circumstances, I am inclined to the belief that it would eventually be more advantageous to the city if the bid were accepted for the 15-month period, rather than on the 27-month or 39-month basis. Accepting the bid for the short period is a gamble on our part, but I feel that we should take the gamble, as we do not have too much to lose, but considerable to gain, if the cooking process proves less expensive and more beneficial than the hog farmers anticipate. The unsettled condition of the current hog market, in my opinion, should tend to discourage the entering into of long-term contracts, particularly in view of the low bid submitted.

Under the circumstances, therefore, I feel that we should award the contract for a 15-month period only, at the total bid price of \$1,000 for said period, and I am so recommending.

Respectfully yours,

GEORGE G. HYLAND,
Commissioner of Public Works.

TRANSFER OF APPROPRIATIONS.

The Mayor has approved the following requests for transfers of appropriation:

BOSTON TRAFFIC COMMISSION.

The Mayor has, upon recommendation of the Corporation Council, approved the following claim:

Margaret F. Mulvey, 49 Penfield street, Rosindale, in the sum of \$350, as compensation for personal injuries caused by a depression in the street on Bedford street, near Washington street, where a water manhole cover had sunk below the level of the street, June 29, 1951.

COLLECTIONS FOR CHILDREN FOR CHRISTMAS.

CITY OF BOSTON,

MAYOR'S OFFICE, DECEMBER 10, 1953.

Memorandum To All Department Heads.

In an effort to bring a little more sunshine into the lives of the thousands of Boston children who enjoy few, if any, luxuries from one end of the year to the other, Mayor Hynes and the Christmas Festival Committee are raising some funds to buy packages of toys and Christmas gifts for them.

As a means of reaching this goal a private subscription campaign is being organized among the city employees.

As an incentive to the plan \$250 worth of United States Defense Bonds will be awarded. The awards will consist specifically of a \$100 bond, two \$50 bonds, and four \$25 bonds. The drawing will be held at City Hall, December 24, the day before Christmas.

The cost per ticket is 10 cents; 3 for 25 cents; 12 for \$1.

It would help the cause materially if you would designate someone to take charge of the distribution of books within your department.

It is the hope of the committee that all money and stubs will be turned in on or before Tuesday, December 22. All returns should be made to John V. Sullivan, Room 37, City Hall.

Any cooperation you may give in making this subscription a success will be most helpful and appreciated.

For the Committee,

PAUL HINES,
Festival Director.

TRAFFIC COMMISSION RULINGS.

Voted, That as urgently required by considerations of public safety and convenience, during the period of Christmas shopping, the following temporary traffic rule is effective from December 15 to December 31, 1953, inclusive:

The driver of any vehicle shall not make the following left turn:

Washington Street, Boston Proper.
Into Winter street, westerly.

Voted, That as urgently required by considerations of public safety and convenience, the following temporary amendment to the Traffic Rules and Regulations of the City of Boston, which was adopted September 17, 1953, and was effective October 13, 1953, for a trial period of sixty (60) days, is hereby rescinded:

Article V, Section 1 (One-Way Streets), is amended by adding the following:

Revere Street, Boston Proper.

From Charles street to Irving street.

PROCEEDINGS OF THE COUNCIL.

Monday, December 7, 1953.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 P.M. President AHEARN in the chair. Absent, Councillor Ward. The Reverend John J. Grogan of St. Ann's Catholic Church, Dorchester, was escorted to the podium.

INVOCATION BY REV. JOHN J. GREGAN.

We are come, O God the Holy Ghost, before Thee, hindered indeed by our many and grievous sins, but especially gathered together in Thy name. Come unto us and be with us, that we may be able to do and what we ought to tend; vouchsafe to enter our hearts; show us what we must accomplish, in order that, with Thy help, we may be able to please Thee in all things. Be Thou alone the Author and the Finisher of our judgments, who alone with God the Father and His Son dost possess glorious name.

Suffer us not to disturb the order of justice, Thou who lovest equity above all things; let not ignorance draw us into devious paths, nor partially use our minds, neither let respect of riches or persons pervert our judgment; but unite us to Thee effectually by the gift of Thy only true grace, that we may be able to do and what we ought to make the truth; inasmuch as we are gathered together in Thy name, so may we in all things hold fast to justice tempered with pity, so that we may be able to judge in no wise to be at variance with Thee, and in the life to come we may attain to everlasting rewards for deeds well done. Amen.

The meeting was opened with the salute to the Flag.

MAILING OF PENSION CHECKS BEFORE HOLIDAYS.

The following was received:

City of Boston,
Mayor Department, December 7, 1953.
To the Mayor and City Council.
Gentlemen:

I transmit herewith communication from the City Treasurer relative to your order of December 3, 1953, requesting that the City Treasurer be instructed by his Honor the Mayor to do everything possible to have pension checks due city employees mailed to them in time for Christmas.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,
Treasury Department, November 30, 1953.
Mr. Harold B. Flemming,
Chief Clerk, Mayor's Office.

Dear Sir:

Enclosed memorandum of November 25, 1953, in reference to an order of the City Council of November 23, 1953, sponsored by Councillor Hurley requesting that his Honor the Mayor be instructed by the City Treasurer to do everything possible to have pension checks due city employees mailed to them in time for Christmas has been acknowledged. I am pleased to report that all pension checks, with the exception of approximately 435 school pension checks, were mailed on or before Novem-

ber 24, 1953, and every effort will be made to mail all pension checks on or before December 23, 1953.

Very truly yours,
DANIEL M. DRISCOLL,
City Treasurer.

Placed on file.

AMENDMENTS TO COUNTY CLASSIFICATION AND COMPENSATION PLAN.

The following were received:
City of Boston,
Office of the Mayor, December 7, 1953.
To the City Council.
Gentlemen:

The attached proposal by the Budget Commissioner to amend the Compensation and Classification Plan for the Officers and Employees of Suffolk County, by revising the compensation grade for the classification of chief stenographer and indictment clerk, is hereby approved and transmitted for consideration and adoption by your Honorable Body.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Budget Department, September 23, 1953.
To the Mayor and City Council.
Gentlemen:

An investigation of the appeal of John P. O'Flanagan, chief stenographer and indictment clerk in the office of the District Attorney, would indicate that a revision of his compensation is justified.

As an indictment clerk it is necessary that Mr. O'Flanagan be a member of the bar and that he have a thorough knowledge of the law and the mastery of the technicalities involved in legal pleadings. This position is recognized as being the most important and responsible branch of the criminal prosecution work of the District Attorney's office. In addition to his duties as indictment clerk he takes down stenographically all hearings of the jury. In view of the importance of the stenographer for the Grand Jury. The regular court stenographers in the Superior Court receive weekly salaries of \$115.70, the present compensation of Mr. O'Flanagan provides for a minimum weekly salary of \$87 and a maximum weekly salary of \$108.25 after 20 years of service.

In my opinion an increase in compensation for Mr. O'Flanagan is justified, and I recommend for your favorable consideration the accompanying order increasing the compensation grade for the classification of chief stenographer and indictment clerk from 24 to 26.

Very truly yours,
JOHN A. SULLIVAN, Budget Commissioner.

Ordered, That Schedule B of the Classification and Compensation Plan for the Officers and Employees of Suffolk County, adopted by order passed by the City Council on November 24, 1952, and amended by order passed November 25, 1952, be, and the same hereby is, amended as follows: That the grade allocation for chief stenographer and indictment clerk be changed from grade 24 to 26.

City of Boston,
Office of the Mayor, September 27, 1953.
To the City Council.
Gentlemen:

The attached proposal by the Budget Commissioner to amend the Compensation and Classification Plan for the Officers and Employees of Suffolk County, by revising the compensation grade for the classification of investigator, is hereby approved and transmitted for consideration and adoption by your Honorable Body.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Mayor Department, December 3, 1953.
To the Mayor and City Council.
Gentlemen:

An investigation of the request approved by Chief Justice Davis B. Keniston for an increase in the compensation grade of the classification of investigator from 16 to 17 is justified.

This position is being filled by Julius V. Chaplik, and his duties entail the interviewing of persons arrested on drunkenness, performing criminal offenses, making out cards, taking family histories, and checking records in the Probation Office of the City Council on the office of the Board of Probation. He also makes pre-trial investigations, makes visits to the home, and accepts reports from probationers reporting at the office. Mr. Chaplik has been on duty November 20, working one Sunday in four for the past year. In view of the fact that Mr. Chaplik's duties are similar to those performed by criminal officers and social workers whose compensation grade is 17, I recommend for your favorable consideration the accompanying order increasing the compensation grade for the classification of investigator from 16 to 17.

Very truly yours,
JOHN A. SULLIVAN, Budget Commissioner.

Ordered, That Schedule B of the Classification and Compensation Plan for the Officers and Employees of Suffolk County, adopted by order passed by the City Council on November 24,

1932, and approved by the Mayor on November 25, 1932, be, and the same hereby is amended as follows:

That the grade allocation for investigator be changed from 16 to 17.

Severally referred to the Executive Committee.

APPROPRIATION FOR CONSTRUCTION OF LAUNDRY AND UTILITY BUILDING.

The following was received:

City of Boston,
Office of the Mayor, December 7, 1933.
To the City Council.

Gentlemen:
For many years the Park Department secured the steam for heating and power requirements at the Dover Street Bath and Laundry Building from a plant at the Hotel street located in the former Fire Headquarters Building. With the abandonment and sale of this building by the latter department, it became necessary for the Park Department to enter into an agreement with the present owner of the property whereby the supply of steam for Dover street has been continued at a cost of \$33,600 a year. From present indications the cost of this service will be increased next year to approximately \$40,000.

In view of this substantial increase the Park Department has investigated the matter of constructing a new laundry building and power plant on land owned by the department adjacent to the present building. From estimates secured it appears that the expense of establishing the new plant would be in the neighborhood of \$180,000. Since the department has available unexpended appropriation balances of \$104,160.94 which may be utilized for construction purposes, it is possible to provide for the proposed new laundry building by providing an additional appropriation of \$75,000. I submit herewith an order providing for the securing of this amount from the special account, Sales of City Property. Since the cost of the proposed structure will be recovered in five years by the elimination from the Park Department budget of the service charge which must be met under present arrangements, I recommend adoption of the accompanying order.

Respectfully,

J. B. HYNES, Mayor.

Ordered, That under the provisions of section 63 of chapter 44 of the General Laws, the sum of \$75,000 be, and the same hereby is, appropriated from the special account, "Sales of City Property," to be expended under the direction of the Park Commission, for the construction of a laundry and utility building.

Referred to the Committee on Appropriations and Finance.

TRANSFERS OF APPROPRIATIONS.

The following was received:

City of Boston,
Office of the Mayor, December 7, 1933.
To the City Council.

Gentlemen:
The enclosed requests for transfer of appropriations, together with the accompanying orders, are recommended for adoption by your Honorable Body.

Respectfully,

J. B. HYNES, Mayor.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Penal Institutions Department, House of Correction, 1, Personal Services, \$1,900, to the appropriation for Municipal Court, Charlestown District, 1, Personal Services, \$1,900.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Reserve Fund, \$2,900, to the appropriation for Printing Department, City Council Proceedings, 2, Contractual Services, \$2,900.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Reserve Fund, \$5,000, to the appropriation for Printing Department, City Documents, 2, Contractual Services, \$5,000.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Public Works Department, Automotive Division, 2, Contractual Services, \$10,600, to the appropriation for Public Works Department, Automotive Division, 1, Personal Services, \$10,600.

Referred to the Executive Committee.

INFORMATION RE CUTS IN ASSESSMENTS.

The following was received:

To the City Council.

Gentlemen:

I transmit herewith communication from the Chairman of the Board of Assessors relative to your order of November 30, 1933.

City of Boston,
Office of the Mayor, December 7, 1933.

Respectfully,

J. B. HYNES, Mayor.

Mr. Harold B. Flemming,
Chief Clerk, Mayor's Office.

Dear Sir:

Pursuant to the order of the City Council that his Honor the Mayor be requested to furnish certain information to the City Council at the next meeting of that body, please be advised as follows:

1. There is no detailed list of special valuation cuts made subsequent to the setting of the tax rate for 1933.
2. See answer to question No. 1.
3. Not all of the properties on which abatements had been granted by the Board of Assessors or the Appellate Tax Board in 1932 were assessed in 1933 at the abated figure.
4. It would be almost impossible to provide the information requested in question No. 4 because it would necessitate checking approximately 110,000 parcels of property and comparing each assessment with the abatement and the Appellate Tax Board decision lists.
5. Not all of the cuts in assessments made for the year 1933 were made on the recommendations of the street assessors or the deputy assessors.
6. A detailed list of every reduction in assessment made on the street, with the approval of the Board of Assessors, which includes recommendations of deputy assessors and street assessors, for the year 1933 together with reasons therefor is hereby submitted.

Yours very truly,
EDMUND J. BURKE, Chairman.

PROCEEDINGS OF CITY COUNCIL.

(Continued from page 1693.)

REPAIR OF BENCHES, SAUNDERS STADIUM.

The following was received:

City of Boston,
Office of the Mayor, December 7, 1953.
To the City Council.
Gentlemen:

I transmit herewith communication from the Park Commissioner relative to your order of November 30, 1953, requesting that a survey be made of the Saunders Stadium with a view to repairing the benches in said stadium.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Park Department, December 4, 1953.
Mr. Harold B. Flemming,
Chief Clerk, Mayor's Office.
Dear Sir:

This will acknowledge memo from your office with attached enclosure City Council order from Councillors Kerrigan and Levy in which they request that a survey be made of the Saunders Stadium, South Boston, with a view to repairing the benches.

This department is aware of the fact that the benches at this location are in need of repairs. It will cost a considerable sum of money to do this work properly, and I hope that we will be able to do it from the funds received in our 1954 budget.

Very truly yours,
FRANK R. KELLEY, Chairman.

Placed on file.

UNDERGROUND PARKING FACILITY, COPELY SQUARE.

The following was received:

City of Boston,
Office of the Mayor, December 7, 1953.
To the City Council.
Gentlemen:

I transmit herewith communications from the Park Commissioner and the Chairman of the Art Commission relative to your order of November 23, 1953, requesting that prior to any beautifications of the central plot in the Copley Square area, a determination first be made as to whether a one level submerged off-street parking facility might be advantageously constructed in this location under the proposed fountain.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Park Department, November 25, 1953.
Mr. Harold B. Flemming,
Chief Clerk, Mayor's Office.
Dear Sir:

I have your memorandum, with enclosure, City Council order of Councillor Foley asking that consideration be given to placing of submerged off-street parking facility under Copley square, at the site of the new contemplated park.

Plans for this area have been drawn and are being given further consideration by the Art Commission. I would suggest that a copy of this order be forwarded to Robert Bellows, Chairman of the Art Commission, Union Club, Park street, Boston, Mass.

Very truly yours,
FRANK R. KELLEY, Chairman.

City of Boston,
Art Commission, December 2, 1953.
Office of the Mayor,
City Hall, Boston.
From Art Commission.

Subject: City Council Order of November 23, 1953 (Councillor Foley).

Report and Consideration:
The space in the Copley Square area is too constricted for underground parking. It is traversed by too many large sewers and water mains. Four of these water mains measure 42", 24" and 20" inches severally and cross the central part of the area diagonally.

Fortunately, the city has recently provided an ample parking space within one block of Copley square.

This is the lot (100 x 540 feet), bounded by Clarendon street, St. James avenue, Berkeley and Providence streets. A basement and three-story structure would serve ten times as many cars as Copley square if that were possible.

Respectfully,
ROBERT P. BELLOW, Chairman.

Placed on file.

ORDINANCE RE RESTRICTIONS ON PARK FRONTAGES, ETC.

The following was received:

City of Boston,
Office of the Mayor, December 7, 1953.
To the City Council.
Gentlemen:

I submit to your Honorable Body herewith an ordinance amending sections 18 and 20 of chapter

41 of the Revised Ordinances of 1947, so as to permit the erection of a small office building on the parcel of land located at 1161 Boylston street, 2 Charlesgate West, and Ipswich street, consisting of approximately 19,538 square feet. This parcel of land was recently rezoned by the Board of Zoning Adjustment for business uses.

Section 1 of the enclosed ordinance amends said section 18 so as to permit the erection of a building on this parcel for mercantile uses, in accordance with the purposes for which the property has been rezoned.

Section 2 of the accompanying ordinance amends said section 20 in order to permit construction of a building on this parcel without literal compliance with the existing set-back provisions of the ordinance, which, I am informed, are impossible to comply with for engineering reasons, due to the peculiar topography of the land involved.

Private restrictions applicable to the use of this land prohibit manufacturing on the premises and limit the height of any building there to 30 feet above the grade of Charlesgate West. In addition, the jurisdiction of the Park Commissioners, under section 17 of said chapter 41, with respect to the construction of a building on this property, will remain unaffected by passage of the accompanying ordinance.

Enactment of the accompanying ordinance will enable and expedite the erection on this parcel of an attractive, modern office building, in keeping with the needs of the locality and the city, and will be a source of much needed additional tax revenue.

In view of the opinion that the public interest will be served and benefited by the accompanying ordinance, and I therefore recommend its passage.

Respectfully,

J. B. HYNES, Mayor.

City of Boston.

In the Year Nineteen Hundred and Fifty-three.

An Ordinance Concerning Restrictions on Park Frontages and Set-back Restrictions on Certain Estates Fronting on the Fens.

Be it ordained by the City Council of Boston, as follows:

SECTION 1. Section 18 of chapter 41 of the Revised Ordinances of 1947 is hereby amended by striking out the period at the end of said section and inserting in place thereof a semicolon and adding thereto the following: "provided further, however, that the prohibition of the use of building for mercantile purposes shall not apply to the lot of land on Ipswich Street bounded by and making the northwest corner of Charlesgate West and Boston Street."

SECT. 2. Section 20 of chapter 41 of the Revised Ordinances of 1947 is hereby further amended by striking out the period at the end of said section, and inserting in place thereof a semicolon and adding thereto the following: "provided, however, that the provisions hereof shall not apply to the lot of land on Ipswich Street bounded by and making the northwest corner of Charlesgate West and Boylston Street."

Referred to the Committee on Ordinances.

PETITIONS REFERRED.

PROCEEDINGS OF CITY COUNCIL.

(Continued from page 1697.)

on petition of New England Telephone & Telegraph Company for location of underground conduit, etc., on Turtle Pond Parkway—recommending that same be placed on file.

21. Report on notice (referred November 23) of hearing before Department of Public Utilities on petition of Metropolitan Transit Authority for proposed changes of rate of fares—recommending that same be placed on file.

22. Report on notice (referred November 23) of hearing before Department of Public Utilities on petition of New England Telephone & Telegraph Company to lay telephone cable in Fort Point Channel at Broadway Bridge—recommending that same be placed on file.

23. Report on notice (referred November 23) of hearing before Department of Public Utilities on petition of Boston & Maine Railroad for discontinuance of passenger train service between Boston and Clinton—recommending that same be placed on file.

24. Report on notice (referred November 23) of postponed hearing before Department of Public Utilities on petition of Metropolitan Transit Authority for proposed changes of rates of fares—recommending that same be placed on file.

The reports were accepted, and the notices were severally placed on file.

25. On the message of Mayor and order (referred July 27) of acceptance of chapter 349 of the Acts of 1953, further regulating licensing of dealers in second-hand motor vehicles, the committee submitted the following report:

The Committee on Licenses, of whom was referred July 27, 1953, the message of his Honor the Mayor, dated July 14, 1953, and copy of Chapter 349 entitled "An Act Further Regulating the Licensing of Dealers in second-hand motor vehicles in the City of Boston," and City Council order "that Chapter 349 of the Acts of 1953 be accepted," having considered the same, recommends the passage of the order accepting the act—with the following statement:

This act is specifically limited to Used Car Dealers operating under Class 2, but does not cover the other two classes, i.e., Class 1, which covers New Car Dealers who, under their license, may be incident to their business, operate a used car lot, and even at a different location, and Class 3 license which covers the so-called Junk Car Dealers.

Thus, you can see that this act is very ineffective to remedy the abuse for which legislation was sought.

Unfortunately, the Council is limited in their approval, or disapproval, of the act as enacted by the Legislature. The City Council has no power at this time to include the other two classes.

For the Committee.

FRANCIS X. JOYCE, Chairman,

Committee on Licenses.

The report was accepted, and the order was passed.

REPORT OF COMMITTEE ON CLAIMS.

COUN. JOYCE, for the Committee on Claims, submitted the following:

1. Report on petition of Kathryn F. Brown (referred November 9) for a reduction of annuity granted her on account of the death of her husband, John J. Brown—recommending passage of the accompanying order:

Ordered, That the annuity payable to Kathryn F. Brown under section 89A of chapter 32 of the General Laws, by virtue of an order passed by the City Council on March 2, 1953, and approved by the Mayor on March 16, 1953, be, and the same hereby is, reduced from the amount then in said order, of \$1,500 a year, exclusive of any and all increases resulting from subsequent legislative acts or the acceptance thereof, to the amount of \$1,400 a year, exclusive of any and all such increases.

2. Report on petition of Margherita V. Cheshier (referred October 19) to extend an annuity on account of the death of her husband, Albert Cheshier, late member of the Police Department—recommending passage of the accompanying order:

Ordered, That under the provisions of section 89A of chapter 32 of the General Laws, an annuity of \$1,500 be allowed and paid to Margherita V. Cheshier, widow of Albert Cheshier, a member of the Police Department, who died on May 2, 1953, on account of injuries received in the performance of his duty, said annuity to continue so long as she remains unmarried; the annuity to become effective upon the date of the approval of this order by the Mayor and to be charged to the appropriation for Police Department, Pensions and Annuities.

3. Report on message of Mayor and petition of Elsie L. Sullivan (referred December 8, 1952) to be paid an annuity on account of death of husband, John J. Sullivan, late member of the Police Department—recommending passage of the accompanying order:

Ordered, That under the provisions of section 89A of chapter 32 of the General Laws, an annuity of \$1,500 be allowed and paid to Elsie L. Sullivan, widow of John J. Sullivan, a member of the Police Department who died on April 2, 1932, on account of injuries received in the performance of his duty, said annuity to continue so long as she remains unmarried; the annuity to become effective upon the date of the approval of this order by the Mayor, and to be charged to the appropriation for Police Department, Pensions and Annuities.

The reports were accepted, and the orders were severally passed.

4. Report on petition (referred November 23) of Walter W. Whitney to be reimbursed for amount of execution issued against him on account of his acts as employee of the Police Department, Signal Service,—recommending passage of the accompanying order:

3. Report on message of the Mayor (referred September 28) providing for annual payment to the City of Boston in partial reimbursement of expenses incurred by it in connection with the use of its public library by citizens of the Commonwealth not inhabitants of said City—that same be placed on file.

The report was accepted, and the message was placed on file.

REPORT OF COMMITTEE ON CONFIRMATIONS.

Coun. PIEMONTE, for the Committee on Confirmations, submitted the following:

Report on appointment by the Mayor (referred November 30) of Kenneth W. Knipson as constable with authority to serve civil process upon filing of bond for the term ending April 30, 1934—that the appointment be confirmed.

The report was accepted, and the question came on confirmation. Committee, Councilors Foley and Haller. Whole number of ballots 8, yeas 8, and the appointment was confirmed.

PROCEEDINGS OF CITY COUNCIL.

(Continued from page 1698.)

ENDORSEMENT OF EDITORIAL IN THE "PILOT."

Coun. HURLEY and KERRIGAN offered the following:

Ordered, That the Boston City Council, in meeting assembled, desires to express its unanimous and wholehearted agreement with the thought expressed in the editorial entitled "The Heart and the Artery" in the December 5 issue of the *Pilot*, official newspaper of the Catholic Archdiocese of Boston; and, in view of the interests of a large segment of the population of the city, that this complete editorial be inserted into the minutes of this Council meeting, and be so further:

Ordered, That a copy of this order and a copy of the editorial be forwarded to the Governor of the Commonwealth and his Commissioner of Public Works to re-emphasize the views which have been previously expressed by this Council and which still represent the feeling of the Boston City Council in this most important matter.

The editorial is as follows:

THE HEART AND THE ARTERY.

Up until now no final decision has been made on the question of the route which will be taken by the new "Boston Artery" which has been planned for our city. We commend upon it now, not because we feel ourselves experts in municipal highway planning, but in order to recall certain principles which can be forgotten in the flurry of charts and figures which naturally accompanies a venture of this sort.

Many serious judgments have been given on the importance of measuring the economic consequences of a step of this kind, the number of business areas which are affected, and the unhappy results their removal may have on the economic life of the city. These are very sound reasons, since nothing could be more reckless than to build highways into a city which by the very road building is being devastated. Businessmen are not, however, notably inert, and their views are apt to be presented, as indeed they have been, in a practical and positive and generally persuasive manner.

Our thoughts, however, are turned at this time to another group, far less vocal, whose influence, we can be sure, is not so great as theirs, but whose case nonetheless deserves the sympathetic attention of the community. We are referring of course to the plight of the residents of the famous Chinatown, who, it appears now, may find themselves displaced in large numbers by the requirements of the new highway. While we appreciate that sacrifices will be necessary in order to make the artery possible, we must be careful according to what measure we distribute the burdens lest they lie too heavily upon one group of the population or lest we sacrifice values too precious for results too practical.

Hundreds of families, we have been assured, stand to be removed from their homes and the whole Chinese community disrupted if the official plan for the artery is carried through. In this connection we must note that more than a quarter of these are G.I. brides and refugees from Communist tyranny. What their dispersion would mean in terms of adjustment is almost impossible to imagine. Their closely integrated community life would be destroyed, and they would be set adrift in a society which has no facilities for their rapid absorption. For the most part their employment is in the area in which they now live. Some of them indeed speak no other language than that of their homeland and would find themselves in perilous circumstances if separated from its protection. It is noteworthy to add that their present community is one in which juvenile delinquency and vandalism are uncommon, and that of the local names appears on the welfare lists of the city.

All this merely indicates to what a precious part of the community we do violence if we allow the Chinese settlement to be cruelly dispersed. Obviously no one, and least of all those into whose care the public welfare has been entrusted, wishes to harm the residents of Chinatown, but some may feel that it is a necessary consequence of the requirements of the growing city and its freighter traffic problems. We do not believe that it is necessary; we believe that it is never necessary to sacrifice human values merely for the sake of solution. The steel beams and concrete pillars, yes, even enlarged budgets, weigh lightly against the enormous gravity of the human person and the human family.

We find it easy to have confidence at this point in the abilities of those who make these plans, the experts who have already performed such near-miracles of design and construction, so that it will not be required that more lasting values be uprooted even for quicker access to the City of Boston. Men of the quality of those who do our planning do not shy away from hazards or vexing problems—out of these they bring new and more daring ideas which safeguard all that is good while making progress toward what is even better. Let them look now upon the preservation of the values which lie in Boston's Chinatown as a challenge which calls for boldness, vision, and hard

work before it brings success. All of these, success included, are part of Boston's heritage.

The order was passed under suspension of the rules.

LAND TAKINGS FOR CENTRAL ARTERY.

Coun. HURLEY and KERRIGAN offered the following:

Ordered, that the Corporation Counsel of the City of Boston be requested to appear at the executive session of the Boston City Council on Monday next, December 14, regarding a discussion of possible preventive and deterrent court actions that can be taken by the city to prevent the carrying out of the arbitrary and uncompromising plans of the Commissioner of Public Works of the Commonwealth of Massachusetts regarding the location of the Central Artery over a route which involves a large amount of taxable property. At this time, when the city is so hard-pressed financially, in part because of previous takings by the Commonwealth of Massachusetts, and in an attempt to protect the business and family interests of those whose property is involved, immediate plans should be formulated. Passed under suspension of the rules.

CONGRATULATIONS TO CHRISTMAS FESTIVAL COMMITTEE.

Coun. HURLEY and KERRIGAN offered the following:

Ordered, That the Boston City Council, in meeting assembled, desires to express its congratulations to the Christmas Festival Committee which has done such an outstanding job in arranging for the displays evidenced throughout the city and especially the extremely appropriate and well-arranged Christmas scene on the Boston Common which have drawn the attention and admiration of hundreds of thousands of persons, both residents and visitors to the city.

Passed under suspension of the rules.

PAYMENT OF HOSPITAL EMPLOYEES.

Coun. HURLEY offered the following:

Ordered, That the City Treasurer be directed to arrange with the paymaster to have the salaries of hospital employees ready for them at the end of their shift, particularly those employees who are assigned to the 11 P.M. to 7 A.M. shift and who, under present arrangements, are forced to wait many hours for the paymaster.

Passed under suspension of the rules.

President AHEARN in the chair.

WELCOME TO COUNCILLOR-ELIAT McCORMACK, Jr.

President AHEARN acknowledged the presence of Councillor-elect Edward J. McCormack, Jr., of the Council Chamber and welcomed him to observe the Council proceedings.

HEARINGS ON PROPOSED REORGANIZATION PLAN OF CITY DEPARTMENTS.

Coun. HAILER offered the following:

Ordered, That the Committee on Ordinances be discharged of the proposed reorganization legislation to an "ad hoc" committee which would be appointed by the President of the City Council and consist of six members of the Boston City Council.

2. The duties of this committee would be to set up daily hearings on the reorganization recommendation of his Honor the Mayor and his Committee on Reorganization. These hearings would be December 15 through 1933.

3. This committee would be enabled to hire a hearing stenographer and an expert on municipal government to aid this committee in its duties.

4. This "ad hoc" committee would then make reports and recommendations to the full Council within 60 days.

Referred to the Committee on Ordinances.

UNDERPASS AT ARCHDALE ROAD, ROSLINDALE.

Coun. HAILER offered the following:

Ordered, That the Public Works Commissioner be requested to inform the City Council on the progress of the construction of the underpass at the foot of Archdale road in the Roslindale section.

Passed under suspension of the rules.

NAMING OF SQUARES IN HONOR OF DECEASED VETERANS.

Coun. PIEMONTE offered the following:

Ordered, That the Committee to Memorialize Veterans be continued, through his Honor the

SEWERAGE WORKS IN HYDE PARK.

The Mayor has approved the vote of the Board of Street Commissioners for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other

structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within thirty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston, formerly Hyde Park, and are bounded as follows:

A parcel of land, supposed to belong to Stony Brook Village Corporation, bounded:

Southerly by easement taken by the City of Boston for sewerage purposes March 3, 1953, 25 feet; westerly by other land supposed to belong to said corporation, by two measurements, 70.67 feet and 105.67 feet; northerly by the same, 25 feet; and easterly by other land supposed to belong to said corporation, by two measurements, 100 feet and 65 feet, containing 4,517 square feet, more or less.

The sewerage works to be constructed are as follows: 175 linear feet of 10-inch pipe sanitary sewer and surface drain.

Voted, That this Board determines that the undermentioned estate sustains damages in their estate by the taking of an easement for sewerage purposes and the construction of sewerage works in private land west of Alwin terrace, Hyle Park district, under the order of the Board of December 7, 1953, in the amount hereinafter mentioned and awards said amount thereof.

Stony Brook Village Corporation, 1,517 square feet, \$1.

POLICE DEPARTMENT ORDERS.

General Order No. 1,840.

A Board of Merit, consisting of Superintendent Edward W. Fallon, Deputy Superintendents James F. Daley and James J. Hinchey, has brought to the attention of the Police Commissioner the following outstanding cases in which police officers of this department have especially distinguished themselves in the performance of their duty during the year 1953.

The Commissioner therefore makes the following awards:

The Walter Scott Medal For Valor and a Department Medal of Honor to Detective Edward L. Twohig, Jr., Division 4.

Detective Edward L. Twohig, Jr., of Division 4, is hereby awarded the Walter Scott Medal for Valor and a Department Medal of Honor for meritorious duty performed on May 17, 1953.

Detective Twohig, then a patrolman, while on his way to work, was informed that several variety stores had been held up by armed bandits and one woman was shot in the head. Shortly after, the officer observed a man running from a variety store toward a parked car. He immediately grappled with the man until he was wounded by a burst of gunfire from the parked car. Despite his wound he held on to the prisoner and fired after the fleeing car. Officer Twohig called upon a citizen for assistance, gave him his gun to cover the prisoner, and then collapsed. This arrest brought about the apprehension of a gang which had been involved in a number of armed holdups.

Department Medals of Honor.

Patrolman John J. Coffey of Division 17 is awarded a Department Medal of Honor for meritorious duty performed on December 31, 1952. Patrolman Coffey, within a short time after receiving information of an assault and robbery in a market, traced the culprit to a drug store. As Patrolman Coffey entered the store the criminal attempted to pull a loaded revolver from his pocket but he was overpowered by the officer after a struggle. He was later identified with several other robberies.

Patrolmen Daniel E. Donahue and Peter J. Donovan of Division 15 each is awarded a Department Medal of Honor for meritorious duty performed on January 20, 1953. These officers, while patrolling in a cruising car, observed a man whose description tallied with that of a man wanted for armed robbery. They took him into custody and he was found to have a fully loaded automatic pistol in a shoulder holster. He was later identified by the victims of several armed robberies.

Patrolmen Thomas F. Mills and John A. Schofield of Division 16 each is awarded a Department Medal of Honor for meritorious duty performed on January 22, 1953. These officers, while patrolling in a cruising car, received a radio message giving the registration number and description of three men wanted for holding up a gas station attendant in Quincy, Mass. Some time later they observed three men in a luncheonroom answering the descriptions. They were placed under arrest and one of them was found to have a fully loaded pistol. Part of the stolen money was later found in the get-away car.

Patrolman William R. Grew of Division 4 is awarded a Department Medal of Honor for meritorious duty performed on December 24, 1952. Patrolman Grew, while patrolling his route, heard a woman screaming and then observed that she was being pursued by a man who was pointing a revolver at her. The officer overtook the man and after a struggle succeeded in wresting a fully loaded revolver from him.

Patrolman Edward A. Curley of the Traffic Division is awarded a Department Medal of Honor for meritorious duty performed on July 24, 1953. Patrolman Curley, while performing traffic duty in Dewey square, was attracted by shouts of a holdup. He then observed a man with a revolver running along Atlantic avenue and gave chase. After firing several shots he finally caught up with the man and disarmed him after a struggle. The prisoner was identified by the victim of the holdup.

Patrolman Joseph P. Toomey of Division 18 is awarded a Department Medal of Honor for meritorious duty performed on September 12, 1953. Patrolman Toomey, after spending many hours while off duty investigating an armed holdup of a cleansing store, finally apprehended a man in a downtown hotel who answered the description of the wanted man. Upon questioning, he admitted 18 robberies of cleansing shops in and around Boston.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 1,841.

The following-named officer having requested retirement under the provisions of the Statutes of 1892, chapter 353, as amended, for the reason that he is incapacitated, it is hereby

Ordered, His Honor the Mayor having approved the same, that he be retired from active service in the Police Department, effective Monday, December 14, 1953, at 7:45 o'clock A.M.

Patrolman John R. Murphy, Division 18, 34 years of service.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 1,842.

In accordance with law, the following-named police officers are hereby retired from active duty in the Boston Police Department on account of accidental disability, effective at the close of business on dates stated:

State-Boston Retirement System, Chapter 658, Acts of 1945, Section 7, as Amended.

Patrolman Harold V. Katie, Division 13, July 7, 1953.

Boston Retirement System, Chapter 521, Acts of 1922, Section 13, as Amended by General Laws, Chapter 32, Section 94.

Patrolman Joseph F. Casey, Division 17, October 31, 1953.

Patrolman William S. Booth, Division 2, December 31, 1953.

Patrolman William McSharry, Division 18, December 31, 1953.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

PAYS GLOWING TRIBUTE TO MEMORY OF ROXBURY'S MOST DISTINGUISHED CITIZEN—JUDGE EUGENE HUDSON, ORATOR AT DEDICATION OF BUILDING NAMED IN MEMORY AND HONOR OF LATE MAURICE J. TOBIN, DESCRIBES ATTRIBUTES OF MANHOOD AND CITIZENSHIP THAT HAVE ENDEARED FORMER MAYOR, GOVERNOR, AND LABOR SECRETARY TO ALL WHO KNEW HIM.

The following is the address of Hon. Eugene A. Hudson, Justice of the Superior Court, at the dedication of the Municipal Building, Mission Hill, Roxbury, Mass., on December 20, 1953:

We are gathered here today to participate in the formal dedication of this modern public building, named in memory of Maurice J. Tobin, whose dedicated service to his city, his state, and his nation warrants this recognition.

MEMORIAL BUILDING TO LATE MAURICE J. TOBIN, MAYOR, GOVERNOR, AND SECRETARY OF LABOR, DEDICATED IN ROXBURY, SUNDAY, DECEMBER 20—MAYOR HYNES, PRESIDING AT EXERCISES, DELIVERED THE EULOGY BEFORE THROG OF FRIENDS.

On Sunday afternoon, December 20, Mayor Hynes led a host of friends and relatives of the late Secretary of Labor, former mayor and governor, in the exercises dedicating the Maurice J. Tobin Memorial Building at 1431-1491 Tremont street, Roxbury.

Taking the leading part in the ceremonies, Mayor Hynes delivered the following address:

Early last summer the shocking news of the death of Maurice J. Tobin went round the world.

It sobered and it stunned his family—his friends—his neighbors—the officials of government both here and abroad.

From every throat came the same cry—"How awful to be taken in death while still in the full flower of manhood!"

(Continued on page 1719.)

MAYOR JOHN B. HYNES LEADS CITIZENS OF ALL BOSTON IN PRAYER FOR SUCCESSFUL OPERATION AND RECOVERY OF ARCHBISHOP RICHARD J. CUSHING—THE MAYOR'S PRAYER WAS MADE ON BOSTON COMMON, WITH THROG PARTICIPATING—PRAYER SHARED IN HOMES ALL OVER CITY—OPERATION SUCCESSFUL AND HIS EMINENCE REPORTED WELL ON ROAD TO RECOVERY.

Led by Mayor John B. Hynes, Christmas throngs on Boston Common, and in churches and homes all over the city, joined on Monday, December 21, in a prayer for Archbishop Richard J. Cushing as he prepared to undergo a major kidney operation on Tuesday at St. Elizabeth's Hospital, Brighton. Following the operation, the physicians who performed it pronounced it highly successful, and His Eminence is on the way to speedy recovery.

Mayor Hynes made his offering on the Common at the Music Hall near the Nativity Scene. Mayor Hynes' prayer, with many participating, read as follows:

This Christmas season the smiling countenance, the vibrant voice, the cheery greeting of one close to our hearts is missing from our midst. Last year at this time, and for many previous years at Christmastide, the Catholic Archbishop of Boston, Richard J. Cushing, in the full vigor of his priestly manhood, moved about in our city bringing happiness to the afflicted and unfortunate, and hope to the worried and the weary.

The great heart, the great spirit, and the great love of humanity, which prompted his every thought and deed during his fruitful years as shepherd of the flock, are as strong and purposeful as ever they were, but the flesh and the bone, which he called upon to the very limit of human endurance, have rebelled, and today our beloved Archbishop is awaiting a serious surgical operation which will be performed tomorrow morning.

During his ministry the Archbishop of Boston has not been content to help and to pray for the faithful of his own flock. To him, through him, and because of him, the charity of God has flowed in great abundance and has brought peace and joy and comfort to the troubled hearts of countless men, women, and children of every racial strain and every religious persuasion.

Even in this present hour of trial his thoughts and his prayers are not for himself, nor merely for those whose faith is his faith. He prays for all of us, whoever and whatever we may be, that the Babe of Bethlehem will give peace of heart, and soul, and mind to all men of good will.

It is fitting, therefore, that we here on this hallowed ground, on this day so close to the anniversary of the Nativity of the Saviour of Mankind, raise our voices in prayer—prayer to the Christ Child, to the God on High, to the Great Healer—that our beloved Archbishop come through his ordeal of the flesh, and that he be restored to us once again in full and blooming health; that he be spared to show us the way which leads to the Gates of Paradise; that he be given renewed strength to preach to us the will of God, and to teach us to accept the will of God.

In this spirit may I suggest that we all join in prayer that God in His Infinite Wisdom will guide and inspire the hand of the surgeon so that on Christmas morn, just a few days away, and on many more Christmas mornings to come, the Archbishop of Boston, Richard J. Cushing, may join with us and the angel chorus singing "Alleluia! Alleluia! Alleluia! Glory to God on high, peace to men of good will!"

In fervent tones let us raise our voices to heaven, in the common, universal prayer of mankind, for the quick recovery of that holy man of God, Richard J. Cushing. Let us, then, and in unison, say the Our Father.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean;
May thy future be bright, thy skies beam
with light all serene,
Ensed by thy sons', and thy daughters'
unselfish devotion!"

NATHAN HASKELL DOLE.

MAURICE J. TOBIN MEMORIAL BUILDING DEDICATED.

(Continued from page 1717.)

Yes, it was a sad day when Maurice J. Tobin died, sad and mournful for his family, sad for all of us who knew him and loved him.

His career is known to all, the story of a poor boy who, by dint of his own determination and perseverance, grasped the land of opportunity and rose to be one of the great public leaders of our time.

Success never changed or spoiled him. Never did he lose his common touch—never did he lose his grip on the eternal verities of life.

He was generous, good, and great by any standard of measurement.

I am proud to have been one of his countless friends. I am proud to have known him. I think of him today—as I thought of him when I first met him—as a young man in the shining armor of truth and justice and right.

Today we dedicate this beautiful new building in his name. How fitting it is—for here, in this very neighborhood, Maurice J. Tobin spent the early years of his fruitful and eventful life. May his memory always remain green and fresh.

Let us remember him not in death, but as he was—a friend to all, a true Child of Christ, a faithful public official, a loving and devoted husband and father.

(Continued from page 1717.)

The several uses to which this building will be adapted in the years ahead represent some of the many civic interests to which Maurice Tobin devoted his energies. Had he been privileged to choose the location of an edifice to bear his name, the Mission Hill section would have been his first, and happiest, choice.

For it was here that he was born of Irish immigrant parents. It was here, at the Mission Church, that he learned the faith of his forebears, and was a regular communicant. In the parochial school adjacent to this building he received his early scholastic training.

BEGINS WORK.

In this neighborhood he sold newspapers, and found other after-school work to augment the family income—and this was an experience in his life of which he was always proud, and to which he frequently referred in his public utterances.

It was the people of Mission Hill who discovered his talent for public service while he was still very young. He had a charming earnestness and, more important, a deep-rooted sincerity in his desire to help the people of this neighborhood. No man represented his district with more fervor and affection than he—again and again his voice, and his deeds, gave clear and unmistakable expression to that affection.

It was from this area that he was elected to the Legislature, when scarcely twenty-one years of age. With that as his start, his activity in politics and civic affairs extended to the School Committee, to the Mayor's office, in City Hall, to the Governor's chair in the State House, and to a seat in the President's Cabinet in Washington.

RANGE OF SERVICES.

Though the range of his service widened with the years, there ever remained in his warm affection this neighborhood and the people in it. Everyone knows that no one in want of his aid or advice ever knocked in vain at his door.

Frequently they did not have to seek it. He saw need and met it. It seemed possessed of an anxiety over the welfare of all human beings. Even when absorbed in momentous questions of national significance, as a member of the cabinet, he found time to consider—and to consider as of equal importance to him—those personal problems that constantly harassed friends, and even friends of friends.

The public saw, in his civic leadership, that anxiety expressed in specific, far-reaching humanitarian programs. All this is a matter of public record. But those who were close to him saw it dozens of times during the course of a day, when he interrupted even his meals to give encouraging advice, or kindly, thoughtful assistance.

If he walked into a railroad terminal carrying two pieces of luggage and saw the porter was an elderly man, he always carried the heavier one himself and surrendered the lighter one.

He always tried to be helpful. I remember dining with him one night in Washington. The waiter told him a young couple recognized him and wished to say "Hello." They were honeymooners, and they were from Mission

Hill. He had grown up with the bride's father. He insisted they join us.

He noticed that the girl's cheek was slightly swollen and inquired about it. His solicitude for her welfare—and for a happy honeymoon—was so great he immediately arranged to have her see a good dentist, he knew, because it was evident a tooth was infected. In addition, he arranged a sight-seeing trip for them—in the chauffeur-driven automobile assigned to his office. That was typical of Maurice Tobin.

KINDNESS NOT POLITICAL.

His kindness had no political overtones. Let me give you another example of his concern for the welfare of others. While he was Governor of the Commonwealth, we were riding in a lonely rural district, far from habitation, when we saw an automobile, with an out-of-state registration, stranded by the side of the road.

Of course, he stopped to help. When he found the driver was out of gas, he himself took a rubber tube from the stranger, who was unfamiliar with the principle, put it into his own gas tank, and, with his mouth, started to siphon off gas, which he gave to the visitor, who was able to continue on his way.

That wasn't unusual. It was typical of him—typical of his daily helpfulness to everyone in need.

He was always available, no matter how busy he was, day or night; at public and private functions; even on train platforms, and at airport terminals. Frequently his interest in a cause, or in a personal problem being discussed with him, detained him so long he had to sprint along a platform after a moving train or along a runway to be the last to board a plane.

When he presented a problem for discussion, he was clear, logical, and convincing. Everyone acknowledged his personal magnetism, but above all appreciated his courtesy and his fairness. He was a man of many outstanding qualities. What one characteristic was superior to the others? Integrity is the characteristic I would choose to typify the dominant influence of this man we honor today.

He always believed in the cause he espoused. And he supported it with an enthusiasm that was peculiar to him. He was a loyal public servant; but his integrity added lustre to the efficient administration of his offices.

GENTLE AND KIND.

He was so gentle, so naturally kind and considerate, that all who knew him regarded him with warm affection. He was modest and sincere in the demonstration of his faith, yet he was deeply religious and found unbounded consolation in the teachings of his church. His trust and reverence for his church and its clergy were as simple and unquestioned as those of the Publican in the Gospel. At the hour of his death he was prepared to answer that final summons.

He possessed a keen discernment of the problems of the poor and the unfortunate and did much, in his public life, to alleviate them. His private charities—and they were many—went unnoticed and unmentioned.

He was quick to see the human side of every problem and he was swift to take the charitable view. Yet he permitted no compromise with truth, whether in the heat of a political campaign, in the public forum, or in private life. The hysteria of a partisan crowd did not influence his judgment in any cause he

championed. If he believed he was right, he did not stop to consider possible consequences to himself, but resolutely adhered to duty, with his conscience to sustain him.

He was intensely interested in sports. He was an enthusiastic fan and always could be found in the forefront of every worth-while local effort to develop interest in athletic competition.

This building, which will honor the name of Maurice J. Tobin in generations to come, will be dedicated to the welfare of the people of Boston, as his life was so dedicated. Here youth will find recreational facilities that will contribute toward the strengthening of their bodies and their character. Here an expert staff will study problems involved in the welfare of families.

Both these needs, which will be met here, were especially dear to Maurice Tobin, for essentially he was a family man. The community as a whole regarded the Tobin family as an ideal American family—a family that worshipped and worked and played together—a family that was happily integrated.

If he could have chosen a memorial, I am certain he would have rejoiced in having his name associated with one contributing to the welfare of family life. And we trust that the service rendered in this building will approximate the high quality of service rendered in public life and in private kindness, by Maurice Tobin.

His life and his deeds were an answer to the prayer of the poet who wrote:

"God give us men. The time demands
Strong minds, great hearts, true faith, and
willing hands;
Men whom the lust of office does not kill;
Men whom the spoils of office cannot buy;
Men who possess opinions and a will;
Men who have honor; men who will not
lie;
Men who can stand before a demagogue
And damn his treacherous flatteries with-
out winking;
Big men, sun-crowned, who live above the
fog
In public duty and in private thinking."

BITUMINOUS PAVING WORK IN THEODORE A. GLYNN WAY AT SOUTHAMPTON STREET AND MASSACHU- SETTS AVENUE RUSHED TO PREVENT DESTRUC- TION OF BASE PAVING DURING WINTER MONTHS BY UNEXPECTED HEAVY TRAFFIC—MAYOR GIVES APPROVAL.

The Mayor has approved the request made in the following letter:

PUBLIC WORKS DEPARTMENT.

Boston, December 15, 1953.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

On Saturday, December 5, the Traffic Commission inaugurated a one-way street pattern in the triangle formed by Southampton street, Massachusetts avenue, and Theodore A. Glynn Way. The latter-referenced street was recently re-constructed, partly by C. J. Maney Company, Inc., and partly by Charles Callahan Company.

In connection with the street construction work done by the latter-referenced two contractors, a macadam pavement—which will eventually form the base of the street—was laid in place. It was our intention to use the macadam as a temporary roadway surface throughout the winter, as it was assumed that it would prove satisfactory until such time as the permanent pavement was laid. However, the one-way street pattern has subjected the roadway surface to unusually severe wear and tear, due to excessive traffic volumes and the heavy loads carried by many of the large trucks using this highway.

The macadam has started to ravel, and it is my opinion that we should take immediate steps to lay a bituminous concrete wearing surface over it, in order to preserve the roadway surface and keep it in a satisfactory condition during the winter months.

It is estimated that it will take about 410 tons of bituminous concrete to provide an adequate wearing surface to cover the existing macadam pavement. The Callahan Company has agreed to furnish and lay the bituminous pavement, complete in place, at an agreed price of \$7.40 per ton, which is the price now in effect in a current contract that the Callahan Company has with this department, and which was awarded last summer as the result of publicly advertising for bids.

No advantage would accrue to the city by publicly advertising for bids, as the above price is fair and, as stated, was previously obtained by public advertisement. In addition, the lateness of the season precludes delaying the start of this comparatively small project beyond this week.

The work can be completed in a single day, and, because of the threat of impending inclement weather, I have requested the Callahan Company to proceed with this work immediately.

I respectfully request you authorize, therefore, to dispense with advertising and to award a contract to the Charles Callahan Company for furnishing and laying approximately 350 tons of bituminous concrete over the roadway area of Theodore A. Glynn Way, at an agreed price of \$7.40 per ton, with the understanding that the total contract expenditure will not exceed \$3,100.

GEORGE G. HYLAND,
Commissioner of Public Works.

EXTENSION OF CONTRACTS.

DEPARTMENT OF SCHOOL BUILDINGS.

Approval has been given for the extension of the time of completion of the contract, approved July 1, 1953, with Fred Williams, Inc., for changes to structural work and heating and ventilating changes at the Dearborn School, from November 1, 1953, to January 31, 1954. This extension was requested because of delay in obtaining necessary material to complete work.

PUBLIC WORKS DEPARTMENT.

Approval has been given for the extension of the time of completion of the contract with Albany Contracting Company, dated June 23, 1953, for cleaning catch basins in any location in the City of Boston, from January 9, 1954, to March 15, 1954. This extension was requested because of inclement weather.

SEWERAGE WORKS IN HYDE PARK.

The Mayor has approved the vote of the Board of Street Commissioners for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings, or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings, or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within thirty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Hyde Park and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Westminster street, bounded:

Westerly by another part of Westminster street, 50.10 feet; northerly by the northerly line of Westminster street, 100.18 feet; easterly by another part of Westminster street, 50.10 feet; and southerly by the southerly line of Westminster street, 100.20 feet; containing 5,010 square feet, more or less.

The sewerage works to be constructed are as follows: 90 linear feet of 10-inch pipe sanitary sewer at an estimated cost of \$650 and 90 linear feet of 10-inch pipe surface drain at an estimated cost of \$430.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting parcel of land situated on the southerly side of Westminster street, beginning at a point 50 feet east of Ayles road and extending 50 feet easterly, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, in the amount hereinafter mentioned; said parcel being shown on the plan referred to and on file in the office of this department.

Parcel.	Amount.
14. Bradley Construction Company, Inc.,	\$203 00

Voted, That this Board determines that no person sustains damages in his estate by the taking of an easement for sewerage purposes and the construction of sewerage works in Ayles road, Hyde Park district, from Safford street to Westminster street, under the order of the Board of December 9, 1953, and awards no damages therefor.

Owners unknown, 19,626 square feet, nothing.

CLAIMS ALLOWED.

The Mayor has, upon recommendation of the Corporation Counsel, approved the following claims:

Anna T. Rock, 60 Quail street, West Roxbury, by the payment of \$15, as refund of fee paid for the filing of an application with the Board of Appeal, which was later withdrawn before any action was taken on it, August 31, 1953.

DEPARTMENT CHANGES.

The following changes in the number, rating and compensation of city employees have been made:

DEPARTMENT OF SCHOOL BUILDINGS.

Approval has been given to the continued temporary employment for a period of six months from December 12, 1953, of Paul W. Mooney, 68 Chittick road, Hyde Park, as plan coordinator at \$72.12 a week.

PRINTING DEPARTMENT.

Approval has been given to increase the salary of Edward Coughlin, apprentice linotype operator at \$84.37 a week to linotype operator at \$93.75 a week. This increase is requested in order to pay the prevailing Trade Union scale of wages for journeymen and apprentices now paid by the contract employers of the Graphic Arts Institute of New England.

PUBLIC WORKS DEPARTMENT.

Approval has been given to amend the budget of the Automotive Division as follows:

Decrease motor equipment maintenance man from six to five.

Increase welder from two to three. Due to the increase in the number of vehicles as a result of purchase of twenty-one pieces of equipment from the Metropolitan Transit Authority, there has been a larger volume of welding work necessary. This equipment, in addition to the large number of vehicles used, requires the services of one more welder in order that this function of the Automotive Division may be efficiently operated. The added equipment is old and is located at various locations throughout the city requiring the welder to travel to said locations.

Approval has been given to the amendment of the Water Division budget as follows:

Increase senior clerk and stenographer from three to four.

Decrease clerk from seventeen to fifteen.

Approval has been given to amend the budget of the Water Division as follows:

Decrease water service maintenance man from twenty-five to twenty-two.

Increase working foreman laborer from four to seven.

Approval has been given to the establishment of an increase in the regular rate per hour of the following-named employee of the Sanitary Division, who will operate during the winter season, the heavy duty equipment assigned to sanding, snow plowing, and snow removal work, effective from December 4, 1953, to March 31, 1954, inclusive:

Samuel Rotondo, heavy motor equipment operator and laborer, \$1.95 an hour, rate only when operating Walter Snow Fighters, four-wheel drive trucks, snow loaders, bulldozers, tractors, wreckers, bucket loaders, and front-end loaders. In the event that he is called upon to operate the so-called Baughman plowing and sanding units, he is to be paid at the rate of \$1.85 an hour.

Approval has been given to the promotion of the following employees of the Sanitary Division from motor equipment operators and laborers at \$60.50 a week to heavy motor equipment operators and laborers at \$63 a week, to fill existing vacancies:

Jeremiah J. Connolly, 191 Faywood avenue, East Boston; Robert P. Fitzgibbon, 30 Cliff street, Roxbury.

Upon December 16 the Mayor approved a contract with the Atwell Company in keeping with a request in the following letter:

Boston, December 14, 1953.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

On September 29, 1953, bids were publicly opened and read in this office for furnishing dictation equipment to the Public Welfare Department, and, as a result thereof, the Atwell Company, a partnership, was the lowest bidder for the material requested.

On September 30, 1953, the Atwell Company was reorganized into corporate form, maintaining its identical name and ownership, and has been duly registered under Massachusetts laws.

The change of organization to a corporation makes it impossible to award a contract to the Atwell Company, a partnership, as originally bid; therefore, your permission is requested to dispense with further public advertisement and to award a contract to the Atwell Company, a corporation, in the amount of \$1,941.10, less 2 per cent discount, time of payment, the amount originally bid on September 29, 1953.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with commercial houses, contractors, and merchants for furnishing labor, supplies, etc. Communications from heads of departments interested were as follows:

PARK DEPARTMENT.

Boston, December 10, 1953.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

Advertised bids were publicly opened and read as follows at this office on Tuesday, December 8, 1953, at 2 o'clock P.M. for furnishing and erecting chain link fences and backstops at parks and playgrounds in Dorchester and Roxbury, Mass.

Wickwire Spencer Steel, Division of Colorado Fuel and Iron Corporation, 80 Federal street, Boston, \$3,462.29; American Chain Link Fence Company, Division of American Spring Bed Manufacturing Company, 24 Ship avenue, Medford, \$3,774.40; P. J. Dinn & Company, 278 Dover street, Boston, \$3,846.25; Boston Chain Link Fence Company, 350 Adams street, Dorchester, \$3,990.35; Anchor Post Products, Inc., 40 Needham street, Newton, \$4,270.65; Cyclone Fence Department, American Steel and Wire

Division, United States Steel Corporation, 360 Eastern avenue, Malden, \$4,480.75.

In addition to the bids submitted and opened at this office, duplicate bids which had been filed by each bidder were opened at the Auditor's office.

The low bidder's contract book, submitted at the Auditor's office, failed to set forth the amount of money on certain major items.

The firm submitting the lowest price, Wickwire Spencer Steel, 80 Federal street, Boston, is one of the largest concerns in the country engaged in this type of work. They have done work for the Park Department in the past, and it has always been very satisfactory. We are anxious to start this work immediately and believe that the best interest of the city would be served by awarding them this contract. Therefore, your permission is respectfully requested to reject all bids and to award, without further publicly advertising, this contract to the lowest bidder, Wickwire Spencer Steel, Division of Colorado Fuel and Iron Corporation, 80 Federal street, Boston, at the estimated price of \$3,462.29, same to be charged to Special Appropriation, Park and Playground Improvements.

Respectfully yours,

FRANK R. KELLEY,
Chairman.

PUBLIC BUILDINGS DEPARTMENT.

Boston, December 15, 1953.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

The Carney Hospital notified this department the Boiler Room was to be discontinued at the very earliest moment.

As our Ambulance Station is heated from the Carney Hospital Boiler Room, it became imperative that we proceed to install a boiler, oil burner, etc., to provide heat for the Ambulance Station at 17 National street, South Boston.

I invited five reputable heating contractors to bid on the enclosed specification with the following results:

P. J. Riley Company, \$2,174; J. M. McCusker Company, \$2,585; Powers & Mehegan Company, \$2,700; J. P. O'Hearn Company, \$2,896; Fred Williams, Inc., \$2,995.

In view of the above facts and because time is of the essence, it is my opinion that nothing will be gained by publicly advertising for bids. I believe that the best interests of the city would be served by awarding this work to the lowest bidder, namely, P. J. Riley Company, 295 Highland street, Roxbury, Mass., in the sum of \$2,174.

Respectfully yours,

GEORGE P. DONOVAN,
Superintendent of Public Buildings.

BILLIONS IN SAVINGS.

From 1941 to date, 1,370,000,000 individual bonds have been issued and as of the close of last year, 62.61 per cent of all savings bonds issued were in the hands of the original purchasers. Thirty-four billion dollars worth of these are in the small denomination Series E Bonds. This has been fulfilled, despite heavy maturities of Series A, B, C, and D Bonds.

SEWERAGE WORKS IN HYDE PARK.

The Mayor has approved the vote of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings, or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings, or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within thirty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Hyde Park and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Ayles road, bounded:

Northerly by Safford street, 40.18 feet; easterly by the easterly line of Ayles road, 489.94 feet; southerly by Westminster street, 40.07 feet; and westerly by the westerly line of Ayles road, 491.33 feet; containing 19,626 square feet, more or less.

The sewerage works to be constructed are as follows: 440 linear feet of 10-inch pipe sanitary sewer at an estimated cost of \$3,700 and 338 linear feet of 12-inch pipe surface drain at an estimated cost of \$2,470.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting parcels of land situated on both sides of Ayles road, from Safford street to Westminster street, excluding the parcels at the corners of Safford street, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said parcels in the amount hereinafter respectively set against it; said parcels and the supposed owners thereof being shown on the plan hereinafter referred to and on file in the office of this department.

PARKING METERS PROFITABLE FOR CITIES.

A survey of parking meter usage in 62 cities over 100,000, recently made by the city purchasing agent of Chicago in cooperation with the National Institute of Governmental Purchasing, indicated an annual income per meter of \$74.31, or \$6.19 per month. Cities reporting an average annual income per meter in excess of \$100 included Minneapolis, St. Paul, Providence, Dayton, Long Beach, Chattanooga, Canton (Ohio), and South Bend (Indiana). Cities which reported an income of \$90 to \$100 per meter per year were Seattle, Columbus (Ohio), Richmond, Miami, Flint, Norfolk, Tulsa, Wichita, Sacramento, and Charlotte. Maintenance costs reported by 33 cities, including labor, repairs, and collections, averaged \$6.99 per meter per year, or nearly 10 per cent of the revenue.

PROCEEDINGS OF CITY COUNCIL.

Monday, December 14, 1953.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 P.M. President ABEARN in the chair, and all the members present.

The Reverend Gerard Rooney of St. Gabriel's Monastery, Brighton, was escorted to the rostrum.

INVOCATION BY REV. GERARD ROONEY.

O Incomprehensible Creator, true fountain of light and only author of all knowledge, you have, we beseech Thee, enlighten our understanding and to remove from us all darkness of sin and ignorance. Thou who makest eloquent the tongues of those who utter Thee, direct our tongues and pour out on our lips the grace of Thy blessing. Give us a diligent and obedient spirit, quickness of apprehension, a right judgment in our deliberations, so that, with malice towards none and justice towards all, we may decide the right course, choose the better, and glorify Thee in our deeds, and bring about the common welfare of our fellow men. Amen.

The meeting was opened with the salute to the Flag.

ADDITIONAL STREET LIGHTING ON CENTRE STREET, ROXBURY.

The following was received:

City of Boston,
Office of the Mayor, December 11, 1953.
To the City Council.
Gentlemen:

I transmit herewith communication from the Commissioner of Public Works relative to your order of October 5, 1953, requesting a survey of street lighting conditions on Centre street, between Jackson square, Eliot square, and Dudley street, Roxbury, with a view to installing additional lights wherever necessary.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Public Works Department,
December 9, 1953.

Thomas P. McCusker,
Executive Secretary, Mayor's Office.
Dear Mr. McCusker:

This is in reference to the following order that was passed in the City Council under date of October 5:

"Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to make a survey of street lighting conditions on Centre street, between Jackson square, Eliot square, and Dudley street, Roxbury, with a view to installing additional lights wherever necessary."

Some time ago, an order was issued to the Boston Edison Company to provide additional street lighting facilities in the section of Centre street referred to in the above order. Due to a large backlog of work, the Edison officials have informed me that it is impossible to keep up with current requests concerning additional or improved street lighting facilities. I discussed the Centre Street matter with them recently, however, and I feel reasonably certain that we will be able to provide the lights as requested within the next four or five weeks.

I trust, therefore, that this matter will be adjusted to the satisfaction of all concerned.

Respectfully yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

Placed on file.

TOLL CHARGES IN SUMNER TUNNEL.

The following was received:

City of Boston,
Office of the Mayor, December 11, 1953.
To the City Council.
Gentlemen:

I transmit herewith communication from the Commissioner of Public Works relative to your order of October 5, 1953, requesting that a study be made of the possibility of lowering the toll charged to Boston automobile owners in going through the Sumner Tunnel and increasing the toll charged to nonresident owners to 25 cents, the same as that of the Mystic River Bridge.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Public Works Department,
December 7, 1953.

Thomas P. McCusker,
Executive Secretary, Mayor's Office.

Dear Mr. McCusker:

This is in reference to the following order that was passed in the City Council under date of October 5:

"Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to study the possibility of lowering the toll charged to Boston automobile owners in going through the Sumner Tunnel and increasing the toll charged to nonresident owners to 25 cents, the same as that of the Mystic River Bridge."

I recommend that no changes be made in the present schedule of tolls for users of the tunnel. The establishment of different toll charges on the basis of residence only could be considered unconstitutional and discriminatory. In addition, it would be most difficult to collect such charges. The Mystic River Bridge Authority has established a 15-cent charge for passenger cars on a commutation ticket basis and 25 cents for single rides. Said rates are available to all users of the facility, regardless of where they reside.

On the basis of a survey that was conducted some time ago, we estimate that approximately 75 per cent of the users of the Sumner Tunnel reside outside of Boston. We depend upon them, to a large extent, in helping Boston to operate the tunnel successfully and to our financial advantage. I do not believe that we should subject them to a larger toll charge than would be assessed against Boston residents.

Under the provisions of section 9 of chapter 297 of the Acts of 1929, as amended, the Department of Public Utilities is required to approve all toll schedules in effect at the tunnel. In view of the fact that this is a state agency, we do not appear that it would give approval to a schedule that would charge nonresidents of Boston a higher fee than charged to Boston residents.

The tunnel, at the present time, is being operated at a substantial annual surplus, and I do not feel that any change should be made in the present schedule of tolls. I have, therefore, recommended to the Department of Public Utilities for approval, effective January 1 of 1954, the same schedule now in effect. The hearing on this matter is to be held by the Department of Public Utilities on Monday, December 21, at 10 A.M., at the State House, at which time all proponents and opponents of the schedule, as submitted, will be given the opportunity to be heard.

Respectfully yours,

GEORGE G. HYLAND,
Commissioner of Public Works.
Referred to the Executive Committee.

RECONSTRUCTION OF BRIDGE AT CENTRE AND MT. VERNON STREETS.

The following was received:

City of Boston,
Office of the Mayor, December 11, 1953.
To the City Council.
Gentlemen:

I transmit herewith communication from the Commissioner of Public Works relative to your order of November 30, 1953, requesting that the Commissioner confer with officials of the New Haven Railroad to arrange for the reconstruction of the wooden bridge at Centre and Mt. Vernon streets, West Roxbury, which is now a hazard to the public safety.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,
Public Works Department,
December 9, 1953.

Thomas P. McCusker,
Executive Secretary, Mayor's Office.

Dear Mr. McCusker:

This is in reference to the following order that was passed in the City Council under date of November 30:

"Ordered, That the Public Works Commissioner be requested, through his Honor the Mayor, to confer with officials of the New Haven Railroad to arrange for the reconstruction of the wooden bridge at Centre and Mt. Vernon streets, West Roxbury, which is now a hazard to the public safety."

I have discussed the matter of repairing and reconstructing the above-referenced bridge with officials of the New Haven on many occasions in the past, and as a result of my most recent talk, they agreed to take immediate steps to effect emergency repairs to the bridge, and would provide for complete resurfacing of the bridge area next year.

I trust, therefore, that this matter has been adjusted satisfactorily.

Respectfully yours,

GEORGE G. HYLAND,
Commissioner of Public Works.
Placed on file.

COMMENDATION OF JOHN GRIFFIN OF BOSTON "POST."

COUN. HURLEY, WARD, and KERRIGAN offered the following:

Resolved, That the Boston City Council, in meeting assembled, extends its most sincere commendation to John Griffin, editor-in-chief of the Boston "Post," for the outstanding, forceful, and well-written editorial, bearing his byline, in the Boston Sunday "Post" of December 14, 1953. The timeliness of the editorial and the courageous and fair manner of presenting a most difficult problem was handled by Mr. Griffin in a manner which reflects great credit upon him, the highly respected Boston "Post," and its publisher, Mr. John Fox.

The resolution was adopted under suspension of the rules.

BANNING SALE OF A CERTAIN CHRISTMAS TREE DECORATION.

COUN. HURLEY offered the following:

Ordered, That the Fire Commissioner be authorized for the protection and safety of the people of Boston to prohibit the sale of a Christmas tree decoration containing a chemical which "is a potential death-dealing weapon" as described by the State Fire Marshal. This ornament is filled with a tetrachloride which "when it comes in contact with open flame produces a deadly gas."

Passed under suspension of the rules.

IMPROVED SERVICE BY MTA TO CITY POINT.

Coun. FOLEY and KERRIGAN offered the following:

Ordered, That his Honor the Mayor be requested to make as strong as possible representations to the trustees of the MTA concerning the necessity of providing additional service on the City Point-Tremont Street bus line and that the trustees be requested to consider:

Restoration of the City Point-Broadway streetcar during rush hours; (2) doubling the number of City Point buses during the rush hours; and/or (3) alterations of buses to provide wider aisle space during the rush hours.

Passed under suspension of the rules.

REGISTRATION OF BICYCLES.

Coun. PIEMONTE offered the following:

Ordered, That the Police Department consider the advisability of a regulation or an ordinance requiring resident owners of bicycles to register the same and to attach thereto an identification plate, to be furnished by the police.

Passed under suspension of the rules.

ADDITIONAL REQUIREMENTS IN GARBAGE AND REFUSE DISPOSAL CONTRACTS.

Coun. HALLER offered the following:

Be it ordained by the City Council as follows: That the contract negotiated by the city government for the disposal of garbage and rubbish be supplemented by a provision placing a full-time inspector at the barge depot and dump locations at Calf Pasture. These inspectors shall be employed by the Sanitary Division of the Public Works Department to enforce the provisions of the contract and make weekly reports; and be it further ordained:

That further provisions be added to this disposal contract requiring the city to audit the books of said contractor entering into the disposal contract on a monthly basis and make public the fees charged to private contractors and private concerns. All monthly audits shall be made public through the "City Record."

Referred to the Committee on Ordinances.

Adjourned at 6:09 P.M., on motion of Councilor Hurley, to meet on Monday, December 21, 1953, at 2 P.M.

Note: All debate of City Council eliminated from proceedings in accordance with Chapter 447, Acts of 1947.

(Stenographic copy of such debate on file in office of City Clerk.)
